OPENING REMARKS BY THE PRESIDENT OF THE SENATE

President Jochum addressed the Senate with the following remarks:

Welcome to the 85th General Assembly of the Iowa Legislature.

I am honored to serve as the President of the Senate.

As the Senate's presiding officer, I will be inspired by my predecessors, including the irreplaceable Jack Kibbie of Emmetsburg, the godfather of Iowa's community colleges.

We've all traveled our own paths to this day. I want to especially welcome the 11 new members of the Senate and their families.

Congratulations on the commitment to public service that brought you here today.

My own journey to this podium is grounded in my experiences as a lifelong resident of Dubuque.

Both my parents grew up in Dubuque. After serving in the Navy, my dad started out working on the line at a family owned business, the Dubuque Packing Company. He eventually worked his way up to becoming a company vice president.

My mother managed our household and guided six children to successful adulthood. In her "spare" time, she volunteered to prepare and serve the breakfast and lunch program at the neighborhood grade school.

My parents brought their children up to be involved in our community, and to give something back in return for all that had been given to us.

There was one other group of people who influenced me. As you may know, the Dubuque area is home to five women religious orders.

The good sisters instilled a passion for justice in me. They taught with their words and actions that all persons are created equal.

And they taught us that to fail to speak up and do what's right is to fail to do your duty as a citizen.

Democracy, equality, justice were not just words we learned in school. The sisters taught us they were ideals that we should seek to advance in our personal and public lives.

Years later, as a young mother, I encountered discrimination that brought that passion for justice to life.

At the time, "Area Residential Care," a local group that helped adults with intellectual disabilities, hoped to build a group home in an upscale Dubuque neighborhood.

One particular individual was quite vocal in his opposition to the home. He told me that he didn't like the way "they" looked. He worried the presence of people like them would lower property values.

Despite the opposition, the city council granted the building permit.

There are now some two dozen similar group homes in Dubuque. Adults with intellectual disabilities and their families are more integrated into our community than ever before. And Dubuque is more beautiful and a better place to live because of it.

That was my first experience with the discrimination that my daughter, Sarah, faces simply for being who she is. It helped convince me to run for public office.

In 1992 I became the first woman to represent the City of Dubuque in the Iowa Legislature.

I arrived in Des Moines ready to pass legislation to improve the lives of Iowa

families and make our state more prosperous. I'm sure many of you walked in the Statehouse today with the same goals.

However, my ambitious plans collided with a harsh political reality.

As a Democratic member of the Iowa House, I would spend the next 14 years in the minority.

Pat Ward, our former colleague, knew how to accomplish things for Iowans even while in the minority. With patience, persistent good will, and hard work, Pat helped improve the lives of Iowans.

In the last few years, I was honored to work with her to give young people involved in the juvenile justice system a second chance.

Pat knew how to put good government ahead of good politics, and we all miss her.

Today, Iowa is one of only three states with a divided legislature. To be successful, we must all work together.

The troubling questions confronting us do not have a Democratic answer, or a Republican answer, or an urban answer, or a rural answer.

They can only have human answers for they are the questions that ask what kind of life we want to live together.

One of those troubling questions is how to ease the serious health care worries many Iowa families have.

Fortunately, on this important issue, legislators from both parties have already listened to Iowans and already worked successfully together.

Several non-partisan health care commissions made up of health care providers, insurers, business advocates, and consumers have pointed us in the right direction.

Former Democratic Governor Tom Vilsack and then-former Governor Terry Branstad co-chaired one of those commissions.

One result is that Iowa Republicans and Democrats worked together to expand Hawk-i, the Healthy and Well-Kids of Iowa insurance program.

That bipartisan effort is why Iowa's children are now among the healthiest in the nation.

And that's why Governor Branstad was absolutely right to set his sights on making Iowa the healthiest state in the nation.

Today, Iowa is well positioned to lead the nation in solving tough health care problems for families and businesses alike.

We can do it by showing the nation how to put lasting progress ahead of short-term partisanship.

This session, let's continue our bipartisan effort to improve mental health services across the state.

This session, let's keep investing in the services that allow our older citizens to stay in their own homes.

And here's the biggest opportunity for this session to make a positive difference for Iowans.

Right now, too many Iowa families risk the loss of their home and bankruptcy if a parent or spouse or child becomes ill.

Right now, our local hospitals and health care providers are burdened with roughly one billion dollars each year in uncompensated care.

Right now, that uncompensated care drives up insurance costs for every Iowa business and every family with health insurance.

We can fix this problem, and we can do it right now.

Last month, I listened Iowa's health care leaders from across the state.

The people who know Iowa health care issue best are speaking with one voice. They are urging us to expand Medicaid.

They point out that expanding Medicaid will make affordable health insurance available to all Iowans; expanding Medicaid will make Iowa's health care system financially secure; and expanding Medicaid slow rising health care costs for Iowa families and Iowa businesses.

By expanding Medicaid, we will bring health insurance to 80,000 currently uninsured Iowans and preserve health care for 70,000 Iowans currently on IowaCare.

Iowans look at the mess divided government in Washington D.C. has produced and they shake their heads.

Iowans expect better from their state legislature, and we have delivered in previous sessions.

Early in this session, let's show Iowans that rather than engaging in senseless partisanship, we will again listen to them and do what's right.

I strongly encourage you to talk with the hospitals, nursing homes, doctors and other health care providers in your districts.

I did, and I'm convinced that expanding affordable health insurance is one of the best things we can do for Iowa families and to help grow the Iowa economy.

When our children and grandchildren look back, I hope they will remember this session as a time when Iowa's common sense and Iowa's sense of community rose up to meet the challenge of our times.

At the close of the convention that drafted the United States Constitution, Ben Franklin asked this question: "Is it a rising or a setting sun?" Each generation since 1787 has answered that question. Once again, the answer rests with us.

Thank you.

REMARKS BY THE MINORITY LEADER

Senator Dix addressed the Senate as follows:

Thank you, Madame President.

I am proud and honored to stand here today and address my fellow legislators and Iowans. Like every other hard-working citizen, those of us in the Senate wear many different hats. Those of a spouse, a parent, a farmer, a small business owner, a legislator, and a taxpayer.

Regardless of the hat, we know the recent years have presented great challenges, that require difficult decisions to be made by families across Iowa. Belts have been tightened and budgets have been cut. Much like our family budgets, the state has been living within its means with solid success. We can and will continue to do this with sound fiscal leadership and smart planning.

Our state coffers are full, full with dollars that have come from family budgets. As legislators, we must realize and appreciate this is not our money. It's not the state's money. It's yours, and yours, and yours!

Every decision we make this year must be firmly rooted in our accountability to the hard working people of Iowa who pay their own bills and the bills of government. We owe them a budget that continues to spend less than we take in and protects our state in the event of a "rainy day", while allowing them to keep more of their own money.

As we work to enact meaningful legislation this year, it is important to keep in mind that we are all Iowans, working toward a better life in the state we love. Part of that better life is a lower tax burden. Not simply a shuffling of burden, but a real reduction of their tax burden that empowers Iowans to grow small businesses, educate

their children, and save for their future. We all trust and believe in the quality of the character of Iowans and know that empowering them is how we best serve them all.

Providing a top-tier education system is vital to our future growth and success as a state. As legislators we hear from Iowa's largest employers, our small business owners, the heads of our Universities, parents, from every sector of our state, they all want to make certain we do everything we can to improve Iowa's education system. To prepare Iowa students to not simply go to good schools, or the best in the Midwest, or even in our country. We need to have the best schools anywhere so Iowa graduates and Iowa employers can compete in the global marketplace.

This year, like ever year in the Iowa Legislature, we will see important legislation cross our desks, attend many meetings discussing a variety of issues, debate bills that are near and dear to our hearts as well as bills to which we have no personal connection. At the end of the day, we were all sent to Des Moines to get a job done, serve the people of Iowa who are affected by the consequences and pay the bills we incur.

We are all working to do what we think is right. We will work together to accomplish the task at-hand and help leave Iowa a better place than we found it. We owe that to future generations.

Let's make it happen!

Thank you.

REMARKS BY THE MAJORITY LEADER

Senator Gronstal addressed the Senate as follows:

Thank you, Madame President.

And congratulations on the confidence that your colleagues have placed in you.

I want to welcome senators, staff, pages, our families and guests, and the public to the start of the 2013 session of the Iowa Senate.

I especially want to welcome the senators who just took the oath of office for the first time.

Some of you went through a challenging campaign to get here.

Some of us went through a challenging campaign to return here.

Now's the time to set that aside.

Elections are about giving voters a choice by highlighting our differences.

Governing is about helping citizens solve problems by finding common ground.

And, when we are at our best, that's what we do here in the Iowa Senate.

In recent years, we've kept the focus on bread-and-butter issues that matter most to Iowans: jobs, education, and health care.

As the Senate Majority Leader, I will work to continue that focus. It's the best way to expand Iowa's middle class, and it's the best way to bring long-term prosperity to our state.

I will highlight just one policy proposal today.

My top priority for the 2013 session is addressing Iowa's skill shortage.

We've all read reports showing that Iowa businesses can't find the workers they need to expand.

Let's remember that Iowa actually DOES NOT have a shortage of workers; we have a shortage of SKILLED workers.

That's why this session we should do more to help Iowa workers upgrade their skills.

I recently met with educators, business leaders, and community college students in Sioux City, Mason City, Newton, Fort Dodge, and Council Bluffs.

At one of those meetings, an Iowan told me a story that I'd like to share with you. He said that just a couple of months ago, he was working for the minimum wage, struggling to support his family.

Then, he got one of the Kibbie Grants we created last year. That made it possible for him to enroll at his local community college for a month long class in commercial driving.

He completed the class, got his CDL, and he was quickly hired for a much better job as truck driver.

That was good news for his family, for the business that hired him and for the Iowa economy as a whole.

And it was all possible because Democrats and Republicans in the Iowa Legislature found common ground.

Last year, we took one step forward. This year, we should take several more.

Adult basic education is for adults that—for whatever reason—didn't get a high school diplomat. And Iowa is one of just three states that provide almost no support to adult basic education.

Let's listen to Iowans and expand our definition of adult education.

Let's increase our investment in improving the skills of workers at all levels; everything from non-degree programs like those that help you earn a Commercial Driver's License, to one-or two-year associate degrees, to four-year and post-graduate degrees.

Why shouldn't Iowa become the best state in the nation when it comes to workforce training?

I want to be able to tell businesses: "We can help train workers so they have whatever skills you need to succeed."

This can be the common ground that unites all four caucuses and the executive branch. Investing in workers is the best way to grow our economy and help Governor Branstad reach his goal, which we share, of increasing Iowa family income by 25 percent.

Thank you.

Madam Lt. Governor, Madam President, Mr. Speaker, Leaders, justices, judges, legislators, elected officials, distinguished guests, family, friends and fellow Iowans.

It is an honor and a privilege to serve as your governor. I thank God, each and every day, for the opportunity that has been provided to me to serve you and all the people of Iowa.

I stand before you once again to report on the condition of our state and to outline a focused agenda and a biennial budget.

I am pleased to report we have made great progress. Our state's balanced budget is built on the principles of stability and predictability. It is a shining example of the good work we have done together.

And in the areas of job creation and economic development, I would put our efforts to successfully attract new jobs and market our state both at home and abroad up against the efforts of any state.

Yet, in other areas, an honest assessment would suggest we still have much work to do. In particular, I reference our on-going efforts to reduce property taxes and to adopt a truly transformational educational system.

Iowans are entering a period of unprecedented opportunity and we in this chamber have it within our grasp to help foster this state's greatest economic expansion and quality of life improvement in modern history.

Perhaps the heaviest lift over the past two years was restoring proper budgeting practices and insisting on strict fiscal discipline. I insisted on a two year budget and we measured all tax and spending decisions through the lens of a five year budget projection.

And today, I am once again submitting a biennial budget for fiscal years 2014 and 2015 and ask you to commit to join me in making this sound budgeting practice a reality so those most dependent on the vital services we deliver can trust that promises made are promises kept.

As a result of the tough choices we made, Iowa is currently in the best financial position in our state's long and proud history.

This is not about good luck. This didn't just happen. We blazed our own path by making hard choices and we must never return to the irresponsible budgeting practices of the past.

Our successes do not end with the state budget. We also completely redesigned our state's economic development efforts through the creation of the new Iowa Economic Development Authority, the Iowa Innovation Council, and the Iowa Partnership for Economic Progress.

These efforts have paid big dividends leading to the two largest private capital investments in Iowa history with the construction of new fertilizer facilities in Lee and Woodbury counties.

All totaled, in the two years since this administration took office, our efforts have landed more than \$5.3 billion in capital investments in Iowa. These investments translate into jobs for thousands of Iowans and higher incomes for so many Iowa families.

When I stood before you two years ago Iowa's unemployment rate was over six percent.

Today our unemployment rate is at four point nine percent, the lowest it has been in over four years.

In addition, through the efforts of Lt. Governor Reynolds and University of Northern Iowa President Ben Allen, we launched the Governor's science, technology, engineering and math, or STEM, initiative. This initiative is already enhancing learning opportunities for Iowa children by putting outstanding STEM programs in more than 800 sites statewide.

But our work on education reform has not gone far enough.

We were reminded of this yet again last month when a new study showed our students' ranking on vocabulary tests had slipped into mediocrity.

Let me ask you this very hard question: When did we decide that middle of the pack was good enough when it came to our children's education?

Did we really make that decision or did we simply allow it to happen through inaction?

Let's take the same serious approach we took to solving our budget problems and reshaping our economic development efforts to making our schools the best in the world.

The quality of our children's education impacts everything we do to improve our state. Let's focus on our future, *and theirs*.

For too many years our young people have looked to the coasts in search of career opportunities. Be it financial industry prospects in the East or the tech sector in the West, Iowa was relegated to a status some disparagingly called "flyover country."

Today, we are living a different story.

Within the past year Iowa has gotten a serious look from the more than 1.3 billion residents of China—many of whom are now very familiar with our state as a result of our special relationship with their incoming president.

It was just a year ago I invited China's next President, Xi Jinping, to visit our state. As you know, he accepted my invitation and many of you were in attendance at the dinner we hosted in his honor at the state Capitol.

Iowa's emerging role in the world economy really struck home to me at the dinner we hosted for Vice President Xi and his delegation.

He said Iowa was the first place in the United States he had ever visited and then said in reference to the wonderful Iowans he met on that trip: "to me, you are America."

The next day, fittingly, at the World Food Prize building, our state signed an agreement with China to provide more than \$4.3 billion in soybeans.

Iowa no longer merely feeds the world—it feeds the world economy.

Vice President Xi and his delegation's visit made clear: Iowa is "flyover country" no more.

Today, Iowa-produced avionics are installed in aircraft made in Brazil, Iowa tractor technology ploughs the ground in Russia, and Iowa lighting illuminates growth around the world.

Innovation is propelling Iowa forward, both at home and abroad. The coming decades can be ours if we are bold enough to make these incredible opportunities our new Iowa reality.

This year, I bring to you a bold plan of action focusing specifically on three goals:

First...job creation and expanding opportunity for Iowa's families;

Second...improving educational opportunities for Iowa's children; and

Third...improving the health of our citizens.

These are opportunities that not only benefit us, but will reshape the future for our children and grandchildren.

This is our opportunity. This is our Iowa.

In the past two years, Iowa has experienced some success. Family incomes in Iowa have grown at the second highest rate in the nation, at nearly seven percent, and our economy has created 100,000 jobs.

These are nice success stories, but they are only the first chapters in a book of accomplishments that we are still writing. There is more to do because this is our opportunity. This is our Iowa.

When we consider strategies for stimulating our economy to encourage job creation we need to look to find ways to lower the cost of doing business in this state.

This will improve our ability to compete, putting more dollars into the hands of consumers to purchase Iowa goods and services.

Both of these objectives can be accomplished by returning a significant portion of our state's budget surplus to the taxpayers who made that surplus possible in the first place.

In this budget, I am proposing a significant plan to reform our property tax system to make it competitive and provide nearly \$400 million in actual property tax relief to Iowa's hardworking taxpayers.

The principles guiding our property tax plan are simple.

- Permanent property tax relief.
- No shift of the tax burden between classes of property
- And property tax reduction for all classes of property.
- Our plan has three significant components.

First, the budget fully funds the Homestead Tax Credit and the Elderly and Disabled Tax Credit in fiscal year 2014 with an additional appropriation of \$33 million.

Last year we made a down payment on this funding gap and this year we will close that gap once and for all.

Second, I will propose legislation to permanently change the school finance formula so that "allowable growth" will be replaced by 100% state aid.

No longer will the school aid formula trigger automatic increases in local property taxes.

Third, I will bring forward legislation designed to stop any future tax shifts between classes of property by tying the classes together in one combined rollback, correcting a mistake made when the original rollback formula was implemented back in the 1970s.

This legislation will take the current four percent cap on valuation growth for residential property and agricultural land, cut it in half to two percent, and apply it to all classes of property.

If left unchecked, current law will allow property taxes to grow by over two billion dollars in the next eight years and half of the increase will fall directly on Iowa homeowners. I find that prospect terrifying and ask you to work with me to ensure property taxpayers are protected from this unprecedented property tax increase.

My plan permanently reduces commercial and industrial property tax values by 20% over a four year period and provides direct funding for local governments to replace 100% of the property tax revenue.

My biennial budget provides the resources to make this possible and my five year budget projection accounts for the nearly 400 million dollars in direct property tax relief.

Small businesses in Iowa have paid some of the highest property tax rates in the nation for far too long. These high taxes mean less money for businesses to hire new employees or provide salary increases to their current employees.

The businesses pay the taxes yes, but it is our middle class families who truly feel the pain.

And it is those same middle class families who will reap the benefits of a competitive property tax structure that makes it easier for us to recruit, retain, and grow those companies that create the new jobs our families need.

Our plan to reform and reduce property taxes is an investment in Iowa families and small businesses, but not at the expense of Iowa's local governments.

In addition to lowering and reforming property taxes, I am committed to enhancing the skills of our state's workforce as a critical investment in meeting the needs of Iowa's job creators over the next decade.

To that end our administration has embarked on an ambitious effort called Skilled Iowa to bring new workforce skills to our unemployed, under-employed, and those simply seeking better long-term careers.

The impetus for the Skilled Iowa initiative came from conversations I had with Iowans like Bill Knapp, Jim Cownie, and Teresa Wahlert on how to best bridge the skills gap so many employers have articulated as an impediment to bringing more high quality jobs to Iowa.

Our Skilled Iowa initiative builds on the STEM program to ensure workers in Iowa get the skills they need to fill the high-paying jobs of today and tomorrow.

It is simply unacceptable for me to hear time and again as I travel throughout Iowa's 99 counties that employers are ready to hire, but our workers aren't prepared with the necessary skillset to fill these jobs.

Skilled Iowa is helping to change this and bring new hope to Iowans. We already have 2,400 Iowa businesses signed up for Skilled Iowa and 18,000 Iowans have used Skilled Iowa resources to certify their skills with a National Career Readiness Certificate.

My hope is to grow this program and work with new employers seeking a skilled workforce while serving more Iowans.

Through lower property taxes and a more highly skilled workforce, in addition to our successful economic development efforts, we have an opportunity to stimulate this state's economy and provide our citizens with the high quality careers they truly deserve.

This is our opportunity. This is our Iowa.

And speaking of our Iowa, today in the balconies of this chamber are school children from around Iowa.

Today they get the opportunity to watch democracy in action. I hope they will leave this building with the knowledge that each of us here shares a commitment to making Iowa a better place for them and their families.

In today's knowledge-based, global economy, youngsters must finish high school ready for college or career training.

This is an economic and moral imperative.

We cannot continue to be complacent:

- Iowa eighth-graders led the nation in math in 1992. Now, we rank 25th—not because our scores have slipped, but because our scores have been stagnant while other states' improved.

- We are shortchanging some of our best students, too. Just eight percent of Iowa eighth-graders scored at the advanced level in math on the national test compared to 15 percent in Massachusetts, which is number one in the nation.
- Among Iowa's high school class of 2012 who went directly to a community college, more than 36 percent had to enroll in a remedial class.

Let me be perfectly clear to the teachers here today and teachers in classrooms across Iowa, you are NOT the problem.

Iowa is fortunate to have many dedicated educators who work incredibly hard. I know this from visiting Iowa's schools, and because my daughter Allison teaches in Waukee and the Lt. Governor's daughter Jessica teaches in Creston.

Unfortunately, our teachers are stuck in a *system* designed for the 20th century. We must work together to transform Iowa's schools for the 21st century.

Let's establish new roles for top teachers who will provide instructional leadership alongside principals to better meet the needs of every student.

That is why elevating the teaching profession is at the heart of our 2013 education plan. It has three key pieces.

The centerpiece of our plan is to revitalize Iowa schools with a new teacher leadership and compensation structure. Relying on teacher leadership is a hallmark of high-performing school systems around the country and around the world.

Iowa has embraced paying teachers in innovative ways before. In 2001, the Iowa legislature passed and Governor Vilsack signed a law establishing a career ladder.

They understood we were losing teachers who found few ways to advance professionally without leaving the classroom. But unfortunately, it was never funded.

Establishing new career pathways promises to do more than raise student achievement. It will offer outstanding teachers new professional opportunities.

Our plan honors teachers by recognizing how vitally important they are and provides five career pathways teachers may pursue.

Educators will be able to advance their careers in the classroom through these numerous pathways. Our plan gives teachers the opportunity to have a meaningful impact as leaders in their schools while also giving our children a better education.

The end result for Iowa children will be better performance in the classroom and better opportunities in their futures.

This kind of reform does come with significant cost, but it is a cost I believe to be a true investment in educational excellence. I am recommending a \$160 million state investment in this new teacher compensation model to keep our best performing teachers in classrooms throughout their entire careers.

And, I believe we should resolve the issue of what we are collectively willing to invest in achievement-driven reform before we spend one minute discussing additional resources to support our existing educational system.

The second piece of our education reform plan – The Teach Iowa Initiative – addresses another key problem: recruiting top students to become teachers. The simple truth is we must attract more of our best students into the teaching profession.

Today, I propose boosting beginning minimum teacher pay from \$28,000 to \$35,000 a year – a 25 percent increase to help reduce the amount of financial sacrifice high-achieving students have to make in order to choose to enter the teaching profession.

Additionally, I propose a significant expansion of a program administered by the Iowa College Student Aid Commission.

Our Teach Iowa initiative attempts to attract more top students into teaching by offering tuition reimbursement for highly talented new graduates who teach in Iowa schools for five years.

Priority will be placed on students majoring in hard-to-hire subjects, like math and science, but awards will also go to future teachers in other majors as well.

And the Teach Iowa Initiative includes a pilot to expand the traditional one-semester of student-teaching to a year-long apprenticeship in partner schools. Stronger clinical experiences stand to better prepare future teachers.

The third key piece of our plan to revitalize education in Iowa is a new college or career ready seal that high school students may earn in addition to their diploma. We want business and education leaders to set high standards for the seals.

Beginning next school year, students will have the option, at the state's expense, of taking a college-entrance or workforce readiness test.

Our program will make it clear what it means to be college or career ready based on the real world expectations of Iowa education and business leaders.

When Iowa can brag about having the best-educated workforce anywhere, more businesses will locate and expand in Iowa. As a result, more young people will stay in Iowa because they can land good jobs that pay well, and allow them to enjoy a great quality of life.

Our children deserve our best efforts because this is our opportunity. This is our Iowa.

Lastly, I wish to speak to you about an issue that stands at the heart of our Iowa quality of life and is so personally important to me.

That issue is the health and well-being of each and every Iowan and my desire to make Iowa the healthiest state in the nation.

As a former President of one of Iowa's medical teaching universities, I marveled at the progress modern medicine has made to save and lengthen lives.

Yet, while we are living longer lives I have to ask are we living better lives?

The obesity epidemic and onset of more and more chronic disease stretches the capacity of our medical system to meet our needs and stretches the ability of taxpayers to support programs such as Medicaid.

This is why we have embarked on the ambitious public-private partnership to make Iowa the healthiest state in the nation.

We have an opportunity to make Iowa communities vibrant by ensuring they have the health care professionals needed to keep their residents healthy. And why shouldn't doctors choose to live and work in Iowa?

Yet, in the past decade Iowa has fallen further and further behind in active physicians per 100,000 residents. Sure, we are behind states like Massachusetts and Michigan.

But we are also trailing neighboring rural states like South Dakota and Nebraska. Iowa is 46th in the nation in internal medicine, 47th in the nation in pediatric, 48th in psychiatry and last in both emergency medicine and obstetrics and gynecology.

We are home to two great medical schools—the University of Iowa and Des Moines University.

In fact, we have over 1,500 medical students currently enrolled in these institutions. But we are not doing enough to keep them here.

Today, I am proposing three initiatives intended to keep Iowa and Iowans healthy by keeping doctors in our communities.

First, my budget proposes two million dollars to support medical residency programs in Iowa.

Last year, we came together and created a public-private partnership to help doctors serving rural areas repay their costly loans. My second proposal provides two million dollars to launch the Rural Physician Loan Repayment Program and expand it to include OB-GYN and emergency medicine doctors as well as primary care physicians.

My third proposal is for us to come together and pass a Certificate of Merit law and a cap on non-economic damages.

Keeping doctors in Iowa requires we make our state a place that is friendly to those who practice medicine.

The first oath taken by a doctor is to do no harm. No group of people is more committed to protecting patients than our Iowa doctors.

Frivolous lawsuits are harming our ability to recruit and retain doctors.

A Certificate of Merit simply requires a medical expert review the facts of a case when a lawsuit is filed and verify that the injuries could have come from substandard care. This lets real claims move forward and takes the weight of bad claims off the health care and judicial systems.

These are sensible reforms. And we know they work because states with these laws have more doctors and lower insurance costs than we do.

It is our responsibility—mine and yours—to work together to offer these generational gifts:

- the best education,
- a thriving marketplace where start-ups are competing to create jobs for all Iowans,
- coupled with responsible and measured leadership from each of us to promote and enhance what is right with Iowa to reach our full potential.

This is our opportunity. This is our Iowa.

It is the promise of a good people, who demand a good government, and expect the men and women serving in that government to put aside their differences and come together to make good public policy.

It is the promise of providing hardworking parents the ability to give their children a world-class education.

It is the promise of a way of life that provides opportunities to thrive in the heartland of America.

The condition of our state is strong and is growing stronger by the day.

We stand at a place in history where many other states are burdened with debt and looming uncertainty while Iowa is well positioned for unprecedented growth.

While some states across this country are choking the opportunities right out of their states through over-taxation and over-regulation, Iowa is like a lighthouse, beaming a bright light of opportunity to those seeking a better life within our borders.

Let us turn the page and write a new chapter in Iowa's history.

A chapter which reflects how a people of good character and a common purpose, who were genuinely committed to working together, provided the dynamic solutions that led to the best times in our state's long and proud history.

- A chapter that will hail the unprecedented growth of job opportunities and rise in family incomes for all Iowans.
- A chapter that celebrates the fact every Iowa child has access to the best education in the world.
- A chapter that affirms how Iowans' quality of life reached new heights, as our citizens became the healthiest in the United States.

This is the chapter in our history that you and I, each and every one of us in this chamber, have the opportunity to write. So let's write it well and write it together.

This is our opportunity. This is our Iowa.

Thank you. God bless you and God bless the people of Iowa.

Governor Terry E. Branstad was escorted from the House chamber by the committee previously appointed.

Representative Upmeyer moved that the joint convention be dissolved, which motion prevailed by a voice vote.

Madame President, Mr. Speaker, Members of the General Assembly, Governor Branstad, Lt. Governor Reynolds, state officials, colleagues and family, distinguished guests and friends:

The responsibility of the chief justice to appear before this joint assembly each year to report on the condition of the judiciary was made into law by you in 1978. Chief Justice Ward Reynoldson was the first chief justice to perform this task in response to that law. At the beginning of his speech, he quipped that he would have been just as enthusiastic to appear before you had he merely been invited. While I was invited today, I can assure you that I am just as enthusiastic as Chief Justice Reynoldson. I am excited to talk to you because everyone of us in the Iowa Judicial Branch is poised to make the Iowa court system the best, most advanced, and the most responsive court system in the nation. I look forward with hope and promise to working with you to accomplish this goal. As we have proven in the past, a great vision can become a reality when we work together.

When my son was in grade school, I coached his school football team, along with a few other parents. We practiced on the school grounds after dinner in the same grassy area where the children played at recess during the day. One evening, two games into the season, both of which we had lost, I noticed a man and a girl standing off to the side. I spoke with the man, and he told me his daughter suffered from a profound hearing loss and could not hear without her hearing aids, one of which she lost on the field during recess that day. The hearing aid was very small and very expensive. We stopped practice, and the coaches had the boys line up shoulder to shoulder, heads down, and begin walking the field. Within a few minutes, the hearing aid lying in a sea of grass was found—and so too was the recipe for success as a team for the rest of the season and beyond. They all learned that, when all players do their jobs and trust others to do their jobs, success can be achieved. The boys went on to win the rest of their regular season games.

As is often the case, the lessons of our children are our lessons as well. We, the three branches of government, are a team poised for great success, and it is incumbent upon us—its leaders—to forge and implement a plan that achieves this success for all Iowans.

We are partners in this venture because our constitution—properly, I might add—has given you control over the purse strings of this state. My responsibility is twofold:

first, to share with you a vision for our courts that will meet the expectations of Iowans today and into the future; and, second, to provide you with the information you need to make the best and most informed decisions possible for the funding and operation of our courts. This is the process of responsible government. I promise you that I will do everything I can to provide you the information you need. On behalf of the judicial branch staff, we promise to work as hard as we can to make people's lives better and to enhance our state's economic vitality, so that all Iowans feel a sense of pride in the way their government operates and serves them.

In addition to my remarks today, I will continue to communicate with you by maintaining office hours here at the Capitol to answer your questions and expand upon our vision for the improvement of the judicial branch. Also, immediately following today's speech, we invite all of you to join us for a reception in our historic courtroom downstairs.

Since the last time I was before you, the supreme court has continued, and will continue, to hear supreme court proceedings across the state in the spring and fall of every year. We hear these oral arguments in the evening so as many people as possible may attend. The evening sessions also enable court members to meet with Iowans to answer questions and hear their expectations for our court system. The following morning, the members of the court fan out to nearby schools to talk with students, teachers, and administrators. Through our court-on-the road efforts during 2012, we visited five communities as a full court, and individual justices visited 40 schools, colleges, and universities. I would like to take this moment to say "thank you" to all the teachers, principals, school districts, college administrators, and community leaders who have welcomed us into their classrooms and communities. To gain an even broader perspective, I have met with many of Iowa's business leaders who rely so much on our system of fair and impartial courts. Likewise, all members of the court have met with civic groups, business organizations, legislators, local leaders, educators, students, and of course, those individuals who work so hard in the judicial branch on a daily basis. We have learned much from these experiences.

These Iowans have described for us what they expect and need from our courts. This list is fairly straightforward:

- Protect Iowa's children;
- Provide full-time access to justice;
- Operate an efficient, full-service court system;
- Provide faster and less costly resolution of legal disputes;
- Be open and transparent; and
- Provide fair and impartial justice for all.

Let me elaborate, starting with our state's most precious resource.

I. Protect Iowa's Children

Iowans expect the courts to be there for the children of this state. You have assigned this responsibility to us, which we embrace with the care and attention it demands. Young Iowans who turn to crime, or who must cope with shattered families, or who suffer from daily abuse, represent a tragic failing of our society. They also represent potential expenditures of millions, no billions, of future taxpayer dollars if

they end up incarcerated or must be treated for more serious conditions as adults. We save taxpayer dollars when troubled children receive the full and timely services of the juvenile court system. In this critical area, our courts do not just hold juveniles accountable for their actions, we also construct, implement, and monitor a remedy until our assistance is no longer needed. We are not only the emergency room for these struggling children and their families. We are the recovery room and, importantly, the rehabilitation center that follows. At each stage, we need the full complement of resources to do the job right. We all fail if our courts fail our children.

Today, juvenile court judges across the state have chosen to devote their professional lives to making a real difference in the lives of our troubled children. These men and women are dedicated to putting a stop to the otherwise likely cycle of delinquency and adult criminal behavior. They run innovative and inspiring courtrooms devoted to making positive changes in the lives of our children. A great example is our nationally recognized family drug courts that target families with parents who have substance-related disorders. These courts bring together members from the extended family, counselors, and community service providers to help keep children with their families. In the past five years, family drug courts have served 399 families, and 80% of those families are still together. Family drug courts are funded by a federal grant that was recently renewed. Family drug courts in Iowa have reunited families or prevented foster placement for 576 children. All these efforts have saved taxpayers more than \$2 million dollars in its five years of operation. Our family drug courts are examples of proven court innovations and collaborations that benefit our families and taxpayers.

For children who are themselves in trouble with the law, juvenile court officers work closely with our judges to assist children and their families to transform behaviors and attitudes before it's too late. Your court system helps mend the lives of thousands of young Iowans, helping them become good and productive citizens who will positively contribute to our society. Sadly, however, we are far from reaching all of our children and families in need. Sometimes even in the most fundamental ways.

I have visited with juvenile judges and juvenile court officers and learned firsthand that the most important and proven part of their job is to have an early face-to-face conversation with troubled youth. One conversation, between a child and a devoted and trained juvenile court officer asking the right questions, can often identify the underlying problems and help match the needs of the child with the services available in the community. With enough support, the juvenile court officer can then monitor the child's progress through treatment or therapy. We do not have enough juvenile court officers, however, to reach all of our children in need, and too often our first contact with a child is through a letter. That is just wrong. Every child deserves a face-to-face meeting with an assigned juvenile court officer. An impersonal letter from a stranger just does not cut it. We know that with early, personal intervention, more troubled children are saved from a life of crime and lifted out of a world of heartache. With your help this can be done. If we are going to accomplish any lasting good in our lives, we must begin by bringing lasting good to the lives of our children in need.

II. Provide Full-Time Access to Justice

Iowans expect and deserve to have full-time access to justice. Whether it's children in need, or you, your business, or your friends and neighbors who must at some time count on access to court services, it is clear that Iowans expect their government to operate a full-time, full-service, and efficient court system. Currently, all clerk of court offices in Iowa are closed every Tuesday and Thursday afternoon. Closures deny access to Iowans, including those seeking commitment of loved ones for mental illness and substance abuse and people seeking protection from domestic violence. We have all

heard stories about domestic violence victims having to wait for an order of protection because the clerk of court offices are closed. We also know more families in need of mental health services are turning to the courts every year. The number of adult mental health commitment petitions has grown 45 percent in the last decade, while the number of juvenile commitment petitions has grown 93 percent during the same time. When a mental health crisis strikes a family, our courts must be accessible. In addition, closures slow down the processing of child support checks, liens, garnishments, warrants, and other important matters. These closures should end. Iowans deserve and expect all clerk of court offices to be open every day during business hours.

III. Operate an Efficient, Full-Service Court System

The Iowa Judicial Branch does continuously work to improve access to the courts and make operations more efficient. We have made tremendous progress in these efforts in recent years, including, as you are aware, with EDMS—our electronic document management system. With EDMS, we are creating and implementing an efficient paperless court system. This project is on track to be nearly half done by the end of this year. We still have much work to do, and there are many expert and dedicated judicial branch employees making it happen, but it already has become a national model for other states to follow.

Since the first document was successfully filed electronically in the Plymouth County Clerk of Court Office in January 2010, court users have electronically filed nearly one million documents in 15 Iowa counties. We began with a county-by-county approach to implementing EDMS that included extensive training for all court users. In Woodbury County, our first move into a large county over a year ago, Sioux City Police Chief Doug Young says his officers now use and depend on EDMS every day without complaint. EDMS works and quickly passes critical information between the courts and police. I have heard similar reports from Humboldt County Sheriff Dean Kruger and Fort Dodge Police Chief Tim Carmody, who said that with EDMS, his officers receive search warrants and court orders faster than before and there is less administrative paperwork. Now his officers can spend more time out on patrol.

Many EDMS users are self-represented litigants, who can now file from their homes in the evenings when they are off work, or small business owners who do not have to interrupt their work day to race to the courthouse to file a lien or other court document. Judges using EDMS are also more efficient and are now able to prepare for court even when they are in a neighboring county. By the end of this year, we expect to bring EDMS to 30 more counties.

IV. Provide Faster and Less Costly Resolution of Legal Disputes

Iowans expect and deserve timely resolution of their legal disputes. The old axiom “justice delayed is justice denied” is more and more true in our increasingly fast-paced world. I hear repeatedly in my conversations with business community leaders across the state about the importance of resolving disputes quickly and inexpensively so the involved parties can move on. Often, the time waiting for a resolution can be time when capital is not invested, new employees are not hired, or economic development is put on hold. While EDMS will help, our court system is still plagued with costly, frustrating, and unnecessary delays. Technology can only do so much for a justice system. We have learned that potential efficiencies in our court system quickly fall out of reach without sufficient personnel. Too many times, a case must be rescheduled because a judge is without some essential staff to allow the case to proceed. I have personally called lawyers to apologize for this unfortunate circumstance and for the additional costs. In peoples’ lives, one courtroom delay is one too many. This is not how a justice system

should operate, and it is not what Iowa litigants should endure. We can only have a full-service court system if our judges have the support they need to run an efficient courtroom.

This leads me to a related point. We are trying to operate our branch of government as any efficient, successful business or organization would operate, and we must pay competitive salaries to our judges and magistrates that reward superior performance, sustain committed service, and compete in the marketplace. We all know that adequate employee compensation is essential in any successful operation, including the operation of our courts.

Iowans expect our courts to give users more options to resolve civil disputes in a way that meets the changing needs of the 21st Century and provide better, faster, and less costly court services. Twelve months ago I spoke with you about the importance of a fair and predictable justice system to economic development in Iowa. Since that time, business owners from around the state continue to share their vision for a modern and responsive court system. We are moving forward with two innovations to provide faster and less expensive dispute resolution. First, we are in the process of streamlining the civil justice system by developing another track litigants can select that will reduce the costly and time-consuming discovery disputes that often accompany litigation. This track of litigation will offer users a means to obtain a less costly and more prompt resolution of legal disputes.

Second, we recently approved a pilot project to establish business courts in Iowa. Our Civil Justice Reform Task Force studied this exciting concept, and we have thoroughly discussed the project with many groups of Iowans, including business leaders. Importantly, our business courts will be staffed by judges specially trained in the complex issues facing businesses in our modern economy. These judges will offer commercial litigants the expertise needed and desired when courts are asked to resolve their disputes in a fair, efficient manner. Our business courts will spotlight the integrity and ingenuity of all the courts throughout Iowa as another example of the commitment by our court system to treat all litigants and their claims with respect and understanding. By relocating these complex litigation cases to a separate docket, other civil cases may proceed more efficiently. Additionally, we expect business courts to help all Iowans by contributing an important piece to the new wave of economic confidence in Iowa as a place to grow and prosper. We all can agree that America's core strength is its innovation, its ideas. Courts are a part of this innovation too.

V. Be Open and Transparent

Iowans demand the courts, as well as all of state government, to be open and transparent. As you know, the strength of our democracy requires well-informed citizens. The strength and effectiveness of our court system depends on public confidence in the courts. To this end, the Iowa Judicial Branch has been a national leader in allowing audio, photographic, and video coverage of the courts. Our rules governing media coverage are carefully designed to prevent disruption of the court hearing and to safeguard the rights of litigants to a fair trial and appeal.

These rules have worked well for many years. However, they have become outdated by smart phones and new ways of communication such as blogging and twitter. In response, the supreme court created a committee of journalists and court users to update the rules to address the new media covering our government. Working together we will be able to allow all Iowans, especially the next generation, to see for themselves how our justice system works for them. As we have in the past, we welcome transparency. It is a critical part of our future success because it enhances public understanding of our courts.

VI. Provide Fair and Impartial Justice for All

Iowans demand our courts provide fair and impartial justice for all. Through the judicial merit selection process, our courts continue to be free from political influence and provide fair and impartial justice to all Iowans. Our judges make decisions based on the facts of a case and the rule of law, not their personal beliefs or popular opinion. Allegiance to the law is the very core of our judicial system, embodied in our oath as judges and our rules of ethics, and it is our pledge to all Iowans. While some may disagree with the court's work from time to time, it is our hope that this pledge will always be visible in all our work. We must be devoted to fair and impartial courts because it is an important component in our future success as a state.

Throughout the last year, I have listened carefully to Iowans across this great state. These thoughtful voices continue to resonate today, and the caring faces of Iowans guide us in our commitment to our system of justice. I pledge to you that we will continue to engage all Iowans in conversations about the needs and expectations for our courts.

I stand before you today as the voice for our judicial branch of government, as the voice of the judicial branch staff who are "all in" to make our court system the best in the country. I am also the voice for the hundreds of thousands of court users in Iowa, including those Iowans suffering from mental illness and drug addiction. I am the voice for a committed and caring profession that relies on our court system in representing Iowans. I am the voice for victims of crime and victims of injustice; the voice for the accused; the voice for families torn apart; the voice for our troubled children who depend on our courts for their safety and success; and the voice for all those who believe, as I believe, that our courts must have a strong foundation for each generation to build on and flourish.

Together, we are the voice for Iowans. We must work to deliver on the grand vision of our forefathers—that the government they created will be the government operated by each generation to always make the lives of Iowans the healthiest, happiest, and most prosperous possible. It is a vision only today's leaders can deliver. The cause is just. So, today, I stand before you with this vision of a court system reaching its greatest potential, and with the information you need to help make that a reality.

Let today be a beginning when we walk together as my son and his teammates did, shoulder to shoulder. Let us work together to advance a just cause, to reach our greatest potential.

Thank you.

Chief Justice Mark S. Cady was escorted from the House chamber by the committee previously appointed.

Governor Terry E. Branstad was escorted from the House chamber by the committee previously appointed.

Representative Upmeyer moved that the joint convention be dissolved, which motion prevailed by a voice vote.

ADJOURNMENT

On motion of Senator Gronstal, the Senate adjourned at 10:40 a.m. until 9:00 a.m., Thursday, January 17, 2013.

Good morning Ladies and gentlemen—thank you for that wonderful welcome. Speaker Paulsen, President Jochum—thank you for the opportunity to once again address this joint convention of the Eighty-fifth General Assembly of the Iowa Legislature.

Governor Branstad, Lieutenant Governor Reynolds, members of the General Assembly, distinguished guests and fellow Iowans. Today, I deliver my fourth Condition of the Guard address and it is indeed an honor and a privilege to be here.

Governor Branstad and Lieutenant Governor Reynolds, thank you for being here today. For the past two years you both have done a tremendous job leading our Iowa National Guard. You have demonstrated from the very beginning your strong support for and commitment to the men and women of the Iowa National Guard, our families, and employers.

I would also like to give a special thank you to our citizen-legislators, who have done so much to honor and support the Iowa National Guard over the 175-year history of our organization.

The state of Iowa has one of the strongest traditions of any state for its commitment to their National Guard and veterans. Our success is directly attributed to what you have done for your Iowa National Guard—we humbly thank you.

And I want to especially thank the people of Iowa. Your support of our Soldiers, Airmen, and families has been absolutely incredible.

Today, I am proud to report that the Iowa National Guard continues to be Mission-Focused and Warrior Ready.

Through all the efforts of our Soldiers, Airmen, families, employers, elected leaders, communities, and our citizens, we have demonstrated that Iowa is a state that truly serves together.

This is a story that began in 1838 and has transcended generations of Iowans, and is now carried so proudly by the 9,400 Iowa National Guard Soldiers and Airmen who serve today.

Here in Iowa, we're a vital link between our communities and the military, particularly as the size and the footprint for our active duty forces begin to shrink over the next several years. With a presence in 725 Iowa communities, men and women of the Iowa National Guard have demonstrated to their neighbors a sense of commitment and service that is the very best our state has to offer.

And the performance of these men and women over the past decade, both in combat overseas and emergency response here at home, has written a new chapter in this

organization's storied legacy and proven without a doubt that the National Guard is full and equal partner with our active duty counterparts.

Tough, reliable, capable, resilient, adaptable, and above all, ready when called, we have fulfilled our statutory and constitutional responsibilities to help defend the nation and provide the governor with a state emergency response force for approximately one-third the cost of an active duty Soldier or Airmen, making the National Guard truly the best value for America.

The most logical option for the nation to preserve its military capability, capacity, and depth in times of fiscal constraints is through continued reliance on the National Guard.

The demand for National Guard forces over the past two decades has required almost continuous use of Iowa's Soldiers and Airmen in order to execute our nation's defense and meet the operational requirements of our armed forces, and this year is no exception.

During this past year, the Iowa National Guard played a crucial role in overseas operations. Approximately 180 Iowa National Guard Soldiers and Airmen deployed in support of Operation Enduring Freedom, and I'm happy to report with the exception of that number, the rest of our Soldiers and Airmen were home for the holidays.

Today we have approximately 260 Soldiers and Airmen currently deployed, which is among the lowest number of deployed service members from the Iowa National Guard since the start of Operations Enduring and Iraqi Freedom. Over this last year we mobilized Soldiers and Airmen for overseas contingency operations in Kosovo, Afghanistan, Qatar, Honduras, and Kuwait.

As part of these deployments, approximately 50 Soldiers from Company C, 2-211th (MEDEVAC) General Support Aviation Battalion based in Waterloo were mobilized in July. These Soldiers are supporting Operation Enduring Freedom in Afghanistan with aerial medical capabilities, providing rapid evacuation and medical treatment for wounded and injured coalition personnel.

The 1034th Combat Sustainment Support Battalion from Camp Dodge deployed 60 Soldiers in August to Afghanistan, where they are providing area logistical support for all types of military units.

Recently, the 186th Military Police Company deployed 40 Soldiers to Honduras as part of Joint Task Force Bravo, where they provide security and law enforcement support for Southern Command operations.

The 132nd Fighter Wing, Des Moines experienced a very busy 2012 supporting overseas combat operations on its tenth overseas deployment since 1996. The unit deployed 300 Airmen to Afghanistan last winter in support of an Air Expeditionary Force rotation and returned to Iowa in April.

In Sioux City, 360 Airmen of the 185th Air Refueling Wing deployed around the globe in 2012 in support of Operation Enduring Freedom, executing aerial medical evacuations of our wounded and injured warriors and conducting refueling missions.

And just this past Monday, approximately 100 Soldiers from the 833rd Engineer Company in Ottumwa said goodbye to their families, friends, and communities for a year-long deployment to Afghanistan. This is the 833rd's third combat deployment since 9/11.

While we are grateful that so many of our Iowa National Guard Soldiers and Airmen have returned home after a busy year of deployments, we must not forget about those still recovering from wounds, injuries, or illnesses related to their mobilizations.

Over the past two years, more than 130 of our wounded, injured, or ill warriors have received medical care, either at military treatment facilities across the country or from health care providers in their local communities.

Today, I am proud to say we continue to make progress with only 14 Soldiers still receiving treatment at military facilities. However, for me, those deployments are not truly over until all of our men and women have returned back home to their families.

Last year, President Obama announced his intention that the United States military would be withdrawing out of Afghanistan by the close of 2014, while transitioning the combat mission back over to the Afghanistan government and military. Since this announcement, the demand for forces in the Iowa National Guard has begun to decline. We are now at a point where current and projected demands for Army and Air Force assets for Operation Enduring Freedom will decrease over the next several years. As evidence of this drawdown, we currently have just one Iowa National Guard unit that has received notification for potential deployment to Afghanistan next year.

But regardless of the drawdown in Afghanistan or the global security requirements, U.S. interests will ultimately dictate future force requirements, whether for operational missions, peacekeeping responsibilities, or support to regionally-aligned forces around the world. I would anticipate that the Iowa National Guard will continue some form of limited global engagement for the foreseeable future.

In addition to the drawdown of forces, we are working the looming federal budget challenges and military drawdown associated with a potential sequestration and budget shortfalls. It is anticipated that the budget reductions will significantly impact the military now and for the future. However, with all of these challenges, we are very fortunate to have a voice with the Department of Defense on these matters. Governor Terry Branstad currently serves as the co-chair for the President's Council of Governors in the Department of Defense.

The council provides a forum for governors to discuss matters of mutual interest with the Department of Defense, Department of Homeland Security and other federal agencies, including issues concerning the federal budget, National Guard, homeland defense, and civil support activities.

Through this council, Governor Branstad was able to strengthen the voice of all 50 states and their respective governors on Department of Defense issues that affected the National Guard, and particularly the Iowa Air National Guard's 132nd Fighter Wing in Des Moines.

The Governor, while serving in his Council of Governors capacity, worked tirelessly with the National Governors Association, all governors and their Adjutants General, and our Iowa congressional delegation to minimize the disproportionate 59% cuts placed on the Air National Guard for Fiscal Year 2013.

Through his leadership efforts, we were successful in minimizing the proposed personnel cuts. Significant to these efforts was the opportunity for the 132nd Fighter Wing to pick up three enduring, replacement missions for the loss of the F-16 fighter mission.

The 132nd Fighter Wing will transition from F-16 fighter aircraft into three new missions: a Reconnaissance Group, which includes a Remotely Piloted Aircraft squadron; an Intelligence Group; and a cyber-security mission. Out of the nearly four hundred personnel positions subject to elimination last February at the 132nd, these three new missions will allow us to keep approximately 970 personnel at the Des Moines Airbase, a loss of only 32 personnel, which will be managed through retirements and transfers.

Another way we're supporting and adapting to the changing global and operational environment is through the National Guard's State Partnership Program, or SPP. The Iowa National Guard's State Partnership Program with Kosovo continues to make great progress since its inception in March 2011.

The current focus of the program is on non-commissioned officer and officer development activities, as well as cooperative initiatives in the disaster response and emergency management arena. Partnering with Kosovo is a natural fit for the Iowa National Guard and the state of Iowa. Last year, Kosovo President Jahjaga made the first-ever visit to Iowa for Kosovo's head of state and met with Iowa leaders from across the public and private sectors.

We have taken on a vision of a "Whole of Iowa/Whole of Kosovo" relationship and have conducted more than 30 engagements between Iowa, the Kosovo Security Force, and Kosovo's Ministries of Defense, Business, Agriculture, Health, and Education over the past two years. One of our near-term goals with our partnership is to establish a sister city relationship with a Kosovo community. Our first sister city effort is between the City of Johnston and Peja, Kosovo. We are in the process of finalizing the agreement and will be signing the proclamation between the two cities in the near future.

Today, I am honored to introduce Kosovo's Ambassador to the United States, Ambassador Ismaili; Kosovo Minister of Defense, Minister Ceku; Kosovo Security Force Land Forces Commander, Maj. Gen. Rama; and the Kosovo Defense Attaché assigned to the United States, Brig. Gen. Gashi, who are with us this morning as my honored guests.

Please join me in giving our guests from Kosovo a warm Iowa welcome.

I asked these gentlemen to join us today to help highlight this critically important relationship between Kosovo and Iowa, observe our legislative process, and meet some of our key leaders. We are honored to partner with Kosovo and we look forward to a strong and productive relationship in the years ahead.

Another critical partnership for the Iowa National Guard is right here in Iowa with our civilian employers. As nearly 80% of our Soldiers and Airmen serve part-time in the Iowa National Guard and full-time with Iowa businesses and governmental entities, finding quality jobs with employers that understand and appreciate military service is key to the continued service and well-being of our men and women, and their families.

Most of our men and women come back from deployment and return to what they were doing before they left or pursue new opportunities. Some members may have been unemployed or underemployed before deploying or returned to find their positions eliminated due to the economic downturn. Others may simply want a new challenge after their deployment experience. However, some find this transition difficult.

Whatever the reason, nearly 28% of our returning Warriors were looking for work at the end of 2011. And we had a solemn obligation to help them.

Through a cooperative effort between the Employer Support of the Guard and Reserve, the Iowa National Guard's Job Connection Education Program, Iowa Work Force Development, Iowa Department of Veterans Affairs, U.S. Department of Labor, Principal Financial Group, and Greater Des Moines Partnership, we actively worked to assist our Soldiers, Airmen and their spouses find gainful employment and reduced the number of unemployed from 28% to less than 6% today.

One of the reasons for this great success in finding quality jobs is through the Job Connection Education Program, or JCEP. Iowa was the second state nationally selected to participate in this National Guard Bureau pilot program. Since November 2011, 150 National Guard members or their spouses have found employment with civilian employers through Iowa's JCEP.

And additional, tangible evidence of Iowa's employer support is the Secretary of Defense Employer Support Freedom award, which is awarded annually to the top 15 employers nationally for their support of National Guard and Reserve members.

This past year, the Nyemaster Goode law firm from Des Moines was selected for this prestigious award. Since 2007, Iowa employers have won this distinguished national award three times, including back-to-back in 2011 and 2012. This is a tremendous testament to the patriotism and support for Reserve Component military members and their families in Iowa.

Another reason we've been able to maintain our position as a national leader in readiness among our fellow states is because of the Iowa National Guard Educational Assistance Program or NGEAP, a program funded in its entirety by the state of Iowa.

This critical recruiting and retention tool helps ensure our readiness and provides an invaluable benefit to our Soldiers and Airmen. This year, more than fourteen hundred of our members received 100% paid tuition at the State Regents' rate to attend Iowa colleges, universities, and community colleges through this program, keeping our young people here in the state and providing them with a high-quality Iowa education.

And the Iowa National Guard is doing our part to stimulate the economy of Iowa. This year, the Iowa National Guard brought in more than \$370 million dollars of federal funding into the state, which is more than 97% of our department's budget. Our Soldiers and Airmen pay more in state property, payroll, and sales taxes than what the state provides in state funding to the Iowa National Guard.

Also this past year, the Iowa Air and Army National Guard executed nearly \$16 million in federal funds for our construction and capital projects program. We completed new construction, renovations, or additions in Miller Armory and the United States Property and Fiscal Office on Camp Dodge, the Davenport Army Aviation Support Facility, Fairfield Field Maintenance Shop, and the Iowa Falls and Shenandoah armories.

We currently have renovation and construction projects underway at the Council Bluffs and Dubuque armories. On Camp Dodge we are consolidating the Iowa Department of Veterans Affairs, Military Records Center, and the State Fiscal Office activities into one updated facility. By arraying these services under one roof, Iowa National Guard members, veterans, and military retirees will see improved veteran services, while Iowa taxpayers receive a greater value through more efficient use of existing infrastructure and resources.

2012 has thankfully been a relatively quiet year for our emergency response operations, particularly after the longest, continuous domestic response operation in Iowa National Guard history on the Missouri River from May to September 2011. We used this additional time to plan, prepare, and exercise for potential disaster response support on a variety of scenarios.

And that training paid off. During the recent December blizzard, we mobilized 80 Guardsmen to conduct Highway Assistance Team missions in partnership with the Iowa Departments of Transportation and Public Safety and provided assistance to motorists stranded by the blizzard. These assistance teams rescued nearly a dozen travelers from extremely hazardous situations and transported them to safety, including responding to and assisting with a two-fatality, 25-car pileup on Interstate 35 south of Dows, Iowa.

And last week, we just finished supporting the 2013 Presidential Inauguration event in Washington, DC, by sending approximately 120 members of the 1133rd Transportation Company, Mason City, the 185th Air Refueling Wing, Sioux City, and various other Iowa units in support of the inaugural operations.

The additional time we gained over the last year from quieter-than-normal combat, peacekeeping, and domestic operations has allowed our organization to re-focus on organizational readiness, which drives everything we do. We'd like to share the results of these efforts with you.

First of all, your Iowa National Guard is a national leader in personnel strength management—recruiting and retention. Both the Iowa Air and Army National Guard began fiscal year 2012 with more than 100 percent of authorized strength. We have been at or above 100 percent strength for more than ten years in a row—a significant accomplishment considering all we have been asked to do since 9/11 with an all-volunteer force.

We are in the top echelon of the National Guard for the quality of recruits coming into the National Guard for 2012. More than 20% of our basic training, advanced individual training, or technical school graduates are either honor or distinguished graduates, on the commandant's list, or in the top 10% at their respective military schools.

These efforts have not gone unnoticed by the U.S. Department of Defense and other military organizations; Iowa units received several significant awards in 2012:

The 132nd Fighter Wing and the 133rd Test Squadron both won the 2012 Air Force Outstanding Unit Award, the tenth time for the 132nd and the sixth time for the 133rd.

The 132nd Fighter Wing received the 2012 National Guard Association of the United States Major General John J. Pesch Flight Safety Trophy, which is awarded annually to the two Air National Guard wings nationally with the highest standards of flight safety. Additionally, the 132nd's Logistics Readiness Squadron won the 2012 Air National Guard Base Logistics Activity of the Year Award.

The 2nd Brigade Combat Team won the Citizen Patriot Unit Award, a national award given by the Reserve Forces Policy Board to only one unit nationally for its substantial contribution to the security posture of the United States.

And Headquarters and Headquarters Company, 1034th Combat Sustainment Support Battalion, which is currently deployed to Afghanistan, won the Eisenhower Trophy, given annually to an Army National Guard unit in each state rated the most outstanding during 2012.

While we're humbled by these prestigious awards presented for excellence across the organization, we're also extremely proud of the way in which we have been able to honor and remember those Iowans who have selflessly served our state and nation.

It is projected that Iowa will lose approximately 6,000 of its veterans in this calendar year. In order to meet the increasing demand for military funeral honors, the Iowa National Guard has partnered with Iowa veterans service organizations to provide each eligible veteran and their family these richly-deserved military funeral honors. Since 2000, the Iowa National Guard's Military Funeral Honors program has been rendering professional military funeral honors, in accordance with service tradition, to all eligible veterans when requested by an authorized family member. This past year, our Military Funeral Honors program supported nearly 1,600 Iowa funerals.

And we have been so fortunate to be able to also honor Iowa's living veterans. Last year, through a partnership with the Iowa Gold Star Military Museum and the U.S. Department of Defense, more than 3,200 of Iowa's Korean War era veterans and their families were recognized and presented certificates of appreciation for their honorable service at a ceremony commemorating the 60th anniversary of the Korean War. What a fitting and long-overdue tribute to these tremendous Iowans.

This year is the continuation of the 150th anniversary of the Civil War and the 50th anniversary of the start of the Vietnam War. The Iowa National Guard will participate in both anniversary events over the next two years.

In an effort to assist a grateful nation in thanking and honoring our Vietnam veterans and their families, the Iowa National Guard has signed on to the National Commemorative Partner Program. Through this program, the Iowa National Guard will plan and conduct events and activities that will recognize the service, valor, and sacrifice of Iowa's Vietnam veterans and their families.

There is another group of great Americans that serve our state and nation every day, but are often forgotten. They are the children of our military members who are affected by the multiple deployments and absence of their parents during a critical time in their lives. For most this includes repetitive separation from parents and other loved ones, and for many it includes learning to live the "new normal" necessitated by combat wounds, injury, illness, and loss. These children reside in nearly every community in Iowa.

A critical tool in reaching out to military children is the Military Child Education Coalition or MCEC, a program funded by the U.S. Department of Defense.

Over the last four years, MCEC has trained 530 Iowa education professionals and military family readiness personnel how to understand and support military-connected children. By virtue of the exceptional participation by Iowans in this program, the Iowa National Guard is a national leader in the MCEC program.

In an effort to elevate awareness of these challenges, Lieutenant Governor Kim Reynolds hosted the Military Child Education Coalition public engagement seminar in October with Iowa education and community leaders.

The goal of the seminar was to bring together different sectors within the education community to identify capabilities, synchronize existing resources and programs, and develop a plan for military children living in these times of uncertainty.

As I come to a close, I hope that I have left you confident that the Iowa National Guard is in good hands and is moving in the spirit of one. We have executed every mission assigned, served our state here at home, and deployed wherever needed in a moment's notice. And as the challenges of the last ten years fade, we will face new challenges together.

Budget constraints and shifting priorities will impact how we operate, how we are organized, and what we are asked to do in the years ahead, but despite these changes, the Iowa National Guard will remain Mission-Focused and Warrior Ready.

This team will continue to take care of our Soldiers, Airmen, families, and employers as we continue to serve so proudly as your hometown military. And we are so grateful for the continued support we receive from the Iowa General Assembly and the people of Iowa.

On behalf of our men and women and their families, thank you for this opportunity to provide an update and assessment of the Iowa National Guard. Your Iowa National Guard is truly making a difference every day.

Thank you, ladies and gentlemen.

Thank you, Rep. Lykam, Mr. Speaker, Madame President and congratulations to the Pioneer lawmakers class of 1993.

You know, I always wondered what it would be like to stand in this spot and speak to all of you people. It's a little scary. After this, I may never sit over there on the west press bench during Condition of the State and make fun of the governor. (Actually, that's probably only half-true. I usually sit on the east side now.)

I'm not much of a historian and my memories of last week are fairly hazy, let alone 20 years ago. So I did some research to refresh my memory and found that the blockbuster movie in 1993 was "Jurassic Park." I thought I'd mention that in case we don't already feel like dinosaurs.

Like many of you, I also came to the Iowa Statehouse for my first session in 1993. Unlike you folks, though, I arrived a month late. The Lee Enterprises newspapers had decided to reconstitute their Des Moines Bureau, which had been dark for a few years. By the time they hired me for the job and I made it to Des Moines, it was February. So much for newspapers being a deadline business.

I was kind of worried about missing so much of the legislative session, so when I arrived I asked Mike Glover, that grizzled veteran from the Associated Press, what I had missed. Nothing, he said. They spent the whole first month arguing about allowable growth. That's great, I said. Meanwhile, I'm writing down on my to-do list: "Find out what allowable growth is." Rep. Art Ollie explained it to me. He really boiled it down in layman's terms—it only took about four hours to explain. It made sense at the time. It's not his fault that I still don't understand it.) That year I also learned the meaning of "non-germane" and "GAAP accounting." I found out that a Pioneer lawmaker didn't necessarily come to Des Moines in a covered wagon.

There is some good news for current legislators: Back in 1993, they eventually finished the allowable growth debate. I guess there's still hope for this year. A lot of other things about 1993 may seem familiar. Terry Branstad was governor. The Legislature was divided, with Republicans in control of the House, Democrats in control of the Senate. There was talk of a death penalty debate, but nothing came of it that year. There was a proposal to put spending limits in the constitution. One of the governor's priorities was cutting property taxes paid by businesses. Medicaid was a concern. The governor referred to the cost of health insurance for poor Iowans as the "Pac-Man of the state budget." One of the hottest political questions at the start of that year: Will Gov. Branstad run for re-election? Some things never change.

Some things were different. Lawmakers that year came into session about \$400 million in the hole, and much of their work revolved around getting back in the black. Probably the most memorable accomplishment that year was welfare reform—again, done with a divided Legislature. The Capitol building was under renovation, and it still needed a lot of work. Back then, the golden dome was mostly green, and the rest of the place was dingy and shabby. These days, there's plenty of green in the state treasury and the dome is gold again.

A little story about the regilding of the dome, replacing the gold leaf. In 1998 or 1999, I can't remember which year; the scaffolding went all the way to the spire on top of the dome. They had a media tour so reporters could climb up there and take pictures. I'm a little afraid of heights, but I climbed up there with Mark Moran, who used to work for WOI public radio. I didn't tell him, I kind of thinking I'd just go up as far as Mark did, and then get the heck back inside. But Mark didn't stop, so we ended up all the way at the top. And the view was spectacular. It was totally worth the climb. But when it came time to climb back down, I was a little nervous. I told Mark to go ahead and I'd follow him.

"You go ahead," he said. "The only reason I climbed all the way up here was because you did."

Many other things have changed since 1993. Most of the people on press row have changed—although even after all of these years I still get mistaken for Kay Henderson from Radio Iowa. The House and Senate didn't get any bigger during the renovation, but there's room for a lot more people in here today. Iowans don't have to read the newspaper or listen to the radio or show up in person to find out what's going on the Legislature. Debate is carried live on the Internet. Iowans can read the bills online, follow the amendments and send legislators emails at their desks to comment on them. That's a change for the better. I hope legislators today will continue working to make it easier for Iowans to participate in their government.

Over the years, people often have asked me how I could stand to spend so much time with so many politicians. And I admit there were times over the years when I wished I could be somewhere else. Like during debates on allowable growth. There are only so many times one can listen to a legislator say, "I'll be brief," and then demonstrate that he or she didn't know the meaning of the word. I always liked those accidental speeches that started, "I didn't mean to speak on this bill."

But when people have asked me about it, I usually told them I loved being at the Statehouse, mostly because of the people. To be sure, there have been a lot of characters. I remember one representative who used to sit right over there by the press bench. He was a casual sort of fellow and liked to take his shoes off during debate. I remember another gentleman who was just too honest for his own good. I was sitting here one day next to a reporter for an eastern Iowa paper when one of her local legislators came up to deliver his press release that he was running for re-election. She got out her notebook and started to interview him on the spot: "What's your biggest accomplishment?" He said, "Well, I haven't done much yet." He wasn't re-elected.

For the most part, though, I've found the vast majority of legislators, staff and yes, dear, even the lobbyists are brighter than average, ambitious, hard-working and motivated by an interest in helping people. Who wouldn't want to spend time with people like that?

One of my predecessors at the Register, Jim Flansberg, put it this way back in 1993:

"If you put all 150 Iowa legislators into a blender, the amalgamation that came out would startle you. It would be a person a lot better educated, a lot smarter and more savvy than the average citizen, a person capable of succeeding in virtually any endeavor, but one who's decided to do something about or to or for government."

I think if I had a blender that big, I'd rather make a giant margarita. But to each his own.

In that same column, Flansberg had this to say:

"A Legislature's duty is impossible. It can't achieve the ideal. It convenes in optimism and adjourns in pessimism. That's because its principal job is to accommodate the competing and conflicting interests that it represents."

“If a Legislature does the best possible job, finds a compromise between those competing interests, most members will still find themselves denounced for compromising. We’ve made a bad word out of the very thing that lawmakers are hired to do.”

That was 20 years ago, folks, and I’d submit the problem is far worse today. People tend to get caught up in their differences and forget about the many things they have in common. But as I think back over two decades of legislators, the things that stand out in my memory have nothing to do with whether they were a D or an R. Maybe this isn’t true for you, but I’m far more likely to remember kindness, a passion for fairness, the ability to admit mistakes and a really wicked sense of humor.

Ultimately, the people who really make a difference in this beautiful building are the ones who understand how to bring people together. Accomplishing great things in the Legislature is kind of like climbing up the outside of the Capitol dome. We will go far higher together than we’d ever dare to go alone.

Thank you and congratulations to the class of 1993.

Representative Upmeyer moved that the joint convention be dissolved.

The motion prevailed by a voice vote.

The Senate returned to the Senate chamber.

SENATE BILL VETOED BY GOVERNOR

Senate File 204

April 26, 2013

The Honorable Pam Jochum
President of the Senate
State Capitol Building
Des Moines, Iowa 50319

Dear President Jochum:

Senate File 204, an Act concerning persons voluntarily excluded from gambling facilities is hereby disapproved and transmitted to you in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa.

Senate File 204 is hereby disapproved on this date.

I am unable to approve Senate File 204 for the following reasons:

Senate File 204 makes it possible for people with gambling addictions who voluntarily banned themselves from gambling to engage in gambling again after five years. The voluntary lifetime ban was instituted in 2004 so that an individual can choose to be banned from all casinos in Iowa for life. In addition, if someone who has voluntarily banned themselves from gaming has gaming winnings, these monies are forfeited to the Iowa Gambling Treatment Program. Treatment experts have found that addictions tend to be life-long, which is why the voluntary lifetime ban serves a valuable public purpose. This voluntary ban option is an important part of Iowa's laws relating to responsible gaming.

For the above reasons, I respectfully disapprove of Senate File 204, in its entirety, in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa.

Sincerely,

TERRY E. BRANSTAD
Governor

REMARKS BY THE PRESIDENT OF THE SENATE

President Jochum addressed the Senate with the following remarks:

Congratulations.

We did it.

We showed that Republicans and Democrats CAN work together to solve important problems.

The health care compromise reached by this Legislature is a perfect example.

We put aside partisan divisions.

Instead, we focused on solving problems, and on listening to Iowans.

Most importantly, we remembered our conversations with Iowans who are living without health insurance.

And conversations with Iowans WHO HAVE insurance, but are worried sick about someone they love who DOES NOT have insurance.

The biggest challenge of this session was how to help Iowans who, despite working every day, still cannot afford health insurance.

We met that challenge.

And by doing that, we showed the nation how to put lasting progress ahead of short-term partisanship.

Thanks to the Iowa Health and Wellness Plan, 150,000 working Iowans will finally be able to go to a doctor when needed.

The Iowa Health and Wellness Plan will make Iowa's entire health care system more financially secure.

The Iowa Health and Wellness Plan will slow rising health care costs for every Iowa family and Iowa business.

The Iowa Health and Wellness Plan will bring health insurance to 80,000 currently uninsured working Iowans, and preserve health care for 70,000 Iowans currently on IowaCare.

Iowans look at the mess divided government in Washington D.C. has created, and they shake their heads.

Iowans expect better from their state legislature, and we delivered.

We delivered on health care, our most difficult issue, and on a host of other issues.

Here's an example of how we did it.

The key to Iowa's health care compromise was the work of Democrat Amanda Ragan, the chair of the Senate Health and Human Services Committee, and Republican Linda Upmeyer, the House Majority Leader.

These two North Iowa residents are longtime friends, guests at the weddings of each other's children. They came to the Legislature at about the same time. One is a strong Democrat. The other is a passionate Republican.

In the final days of the session, these two put partisanship to the side and hammered out the health care compromise.

The work they did brought health care security to tens of thousands of Iowa families.

The bipartisanship of Senator Ragan and Majority Leader Upmeyer was repeated time and time again on the other issues by other legislators.

I want to thank every Senator and every Representative who likewise rose above short-term, narrow-minded concerns and reached across the aisle to solve problems.

It was an honor to be part of this process. We will have to work hard next year to top this year's accomplishments.

I want to thank the Senate staff for their work this year. I also want to thank the thousands of Iowans who contacted members of the Legislature this year. Your comments and suggestions made a difference.

REMARKS BY THE MAJORITY LEADER

Senator Gronstal provided the following remarks:

Last November, Iowans elected a Democratic Senate and a Republican House and Governor.

Iowans voted for divided state government, and when this session started, many people predicted gridlock.

But gridlock is not what Iowans want, and gridlock is NOT what they got.

Iowans voted for divided government, not dysfunctional government.

No Iowan wants our state government to imitate what's happening in Washington, DC.

That doesn't mean this session has been easy. Each caucus has its own priorities.

Senate Democrats, for example, are focused on strengthening and expanding Iowa's middle class.

We believe that the more Iowans with good jobs, stable homes, great neighborhood schools, and affordable health insurance, the better Iowa's future will be.

Because we all have our own priorities, governing is about finding common ground—especially finding common ground with people you do not agree with.

Find common ground, and you will be successful. Find common ground, and you move your state forward. It is that simple.

I want to thank President Jochum, Speaker Paulsen, House Majority Leader Upmeyer, Senate Republican Leader Dix, House Democratic Leader McCarthy and every member of the Iowa House and Senate.

I want to thank you, because this year, as the results of this session make absolutely clear, we did find common ground, we were successful, and we are moving Iowa forward.

The 2013 session of the Iowa Legislature will be remembered as one of the most productive in recent history. Here's why:

Education reform:

Last year, we passed education reforms to help children learn to read by the end of third grade, but it wasn't funded. This year, we not only funded those reforms, we also increased basic state support for local schools for the next TWO years while raising standards, improving teaching, and encouraging innovation. The funding we provided to the Regents will allow Iowa State, the University of Iowa and the University of Northern Iowa will freeze tuition for the first time in 30 years

Health Reform:

Thanks to the health care compromise which created the Iowa Health and Wellness Plan, 150,000 working Iowans will finally be able to go to a doctor in their community when they need to. We also approved 42 million dollars to continue the reform of Iowa's mental health delivery system.

Tax Reform:

For 35 years, Iowa legislators tried and failed to address property tax inequities. This year, we did. We approved the largest property tax cut in state history. It includes a Main Street commercial property tax cut which is especially helpful to small businesses and a tax cut for the working families that are home to almost 40% of the Iowa's children. We also fully funded all property tax credits.

Water quality:

No Iowa legislative session has ever done more to clean up Iowa's water. \$22 million will fund new initiatives, including an Iowa Nutrient Research Center to keep high levels of nutrients from impairing our waterways. In addition, REAP will receive \$16 million, the most ever.

Lastly, we finally got serious about the workforce skills shortage holding back Iowa's economy.

This is the largest investment ever in our community colleges. They will help Iowans improve their skills and match them with local businesses recruiting skilled workers. Pilot projects have shown this approach works, and we are investing more than 34 million dollars to take it statewide.

Despite divided government, despite our differences, the result of this session will be a stronger Iowa economy, better Iowa schools, and a better quality of life for all Iowans.

In closing, I want to thank the Senate backroom staff, the Republican and Democratic Senate staffs, the Senate doorkeepers, the Legislative Service Agency, and the pages.

Your work and professionalism help make this successful session possible.

Thank you all.

REMARKS BY THE MINORITY LEADER

Senator Dix provided the following remarks:

Thank you, Madame President.

As I said on the opening day of this session, I am proud and honored to stand here today and address my fellow legislators and Iowans.

I am particularly proud of the historic property tax reform we passed in this body today. We made good on a promise that has been repeatedly made to Iowa taxpayers.

Over the coming years, the property taxes on all Iowans will be reduced by more than a half a billion dollars. That money remaining in the pockets of Iowa small businesses and families will help create jobs and expand opportunities for people to decide how to invest and spend their hard earned dollars. I assure you, they will make good decisions and our great state will flourish.

We also did the right thing by spending less money than we take in. That is the only way to be responsible to the very taxpayers who pay the bills government incurs. We must continue on this prudent path. It is important for Iowa businesses and families to grow, not for government to grow beyond its means.

Is there more to do? Yes.

I hope we can more aggressively pursue a future agenda of expanding the Taxpayer Trust Fund and return even more of the overpayment of taxes to the taxpayers instead of growing government. Every dollar comes from and belongs to Iowa taxpayers, after all. We owe them accountability and control of their incomes.

I trust our actions this year have been guided by what we believe is best for all Iowans. I know we can do even better and have greater success in setting Iowa on a prosperous course.

To quote Margaret Thatcher:

“What is success? I think it is a mixture of having a flair for the thing that you are doing; knowing that it is not enough, that you have got to have hard work and a certain sense of purpose.”

I suggest we know we have done well, but have not done enough. Let's return with a certain sense of purpose next year to do even more to free all Iowans to decide for themselves what to do with their hard earned dollars. Given that freedom, they will create jobs, improve the lives of their families, and make Iowa a truly great place to grow.

Let's make it happen.

GOVERNOR'S ITEM VETO MESSAGES

Senate File 396

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 396, an Act relating to government operations and efficiency and other related matters, and including effective date and applicability provisions.

Senate File 396 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve Sections 40, 42, and 43 in their entirety. These items require the director of the department of administrative services to purchase a new payroll system for the executive branch. From the beginning of my administration, I asked state agencies to work diligently to reduce administrative costs and reduce overhead costs. At my direction, many efficiency and cost-control measures are already being implemented by the executive branch departments. My administration is committed to reducing the size and cost of government by 15% through efficiencies and new technologies that allow for savings. I believe a mandate to purchase a payroll system at this time is inappropriate. The department may review the payroll system and determine the best way to proceed while protecting and serving the taxpayers of Iowa.

I am unable to approve Section 41 in its entirety. This item prohibits non-contract employees from bumping contract employees in the case of a reduction in force. In order to achieve increased efficiencies within state government, my administration is committed to finding areas where we can consolidate duplicative efforts. However, in doing so we must strive to ensure that various classifications of employees are treated fairly. The executive branch will continue to implement policies that will reduce the size and cost of government by 15% and this provision would be an impediment in achieving this goal.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 396 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

Senate File 406

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 406, an Act relating to involuntary commitments for persons with substance-related disorders, mental illness, and intellectual disabilities, and providing for the creation of a mental health advocate division in the department of inspections and appeals and including effective date provisions.

Senate File 406 is approved on this date with the following exception, which I hereby disapprove.

I am unable to approve of the item designated as Divisions I and II in their entirety. This item establishes new positions of mental health advocates within the Iowa Department of Inspections and Appeals. Currently, these advocates work at the county level. In the newly redesigned mental health and disability services system, it is best for these positions to remain at the local level where services will be managed and delivered regionally. I look forward to continuing to work with the House and Senate on implementing Mental Health redesign in a manner that best serves Iowans and fits within my goals for efficient and effective state government.

For the above reasons, I respectfully disapprove the designated item in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 406 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

Senate File 430

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 430, an Act relating to appropriations to the department of cultural affairs, the economic development authority, the department of workforce development, the Iowa finance authority, and the public employment relations board, providing for other properly related matters, and including effective date and retroactive applicability provisions.

Senate File 430 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the item designated as Section 1, subsection 2. This item creates carry forward language which is unnecessary for the Department of Cultural Affairs for fiscal year 2014. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the item designated as Section 16, subsection 2. This item creates carry forward language which is unnecessary for the Department of Cultural Affairs for fiscal year 2015. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the item designated as Section 43 in its entirety and the designated portion of Section 54. These items create carry-forward language which is unnecessary for the Department of Cultural Affairs for fiscal year 2013. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 430 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

Senate File 446

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 446, an Act relating to appropriations for health and human services and including other related provisions and appropriations, providing penalties, and including effective, retroactive, and applicability date provisions.

Senate File 446 contains new language specifying the process for Iowa Medicaid reimbursement of an abortion procedure. This language applies to the remainder of this fiscal year, as well as fiscal year 2014 and 2015. This new legislative language represents a compromise between Democrats and Republicans in the legislature on the issue of whether taxpayer dollars should be used to reimburse hospitals or doctors for abortions. The new legislative language does not allow or require a governor to approve any procedure in advance. The decision about whether to undergo an abortion procedure continues to remain with the mother and her physician. With this new language, the legislature has asked a governor to approve or disapprove a bill submitted by a provider for taxpayer-funded Medicaid reimbursement after the procedure is performed.

Senate File 446 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of the item designated as Section 2, subsection 1. This item creates two additional long-term care resident's advocates positions. As of today, there are eight long-term care resident's advocates, serving the needs of Iowa's vulnerable seniors. Currently, the Department on Aging is in the process of an aging system redesign and is thoroughly reviewing state services. It is important to ensure that all new positions are consistent with the redesign so that Iowa can best serve the needs of aging Iowans. The effect of this disapproval shall cause the \$200,000 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 3, subsection 8, lettered paragraph e. This item provides \$28,644 for the costs of an emergency medical services task force that is disapproved. Due to the fact that the new task force is not created, the money is not needed. Iowa is fortunate to have many dedicated professional and volunteer emergency medical services personnel. These Iowans give their time to provide critical care in emergency situations as first responders. The Iowa Department of Public Health helps provide oversight, assistance and acts as a regulatory body for the profession to ensure Iowans statewide get a high level of care. The Department of Public Health will continue to work to improve our system. An additional task force, growing the size, scope and cost of government is not an effective use of taxpayer dollars at this time. The effect of this disapproval shall cause the \$28,644 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 4, subsection 2, lettered paragraph d. This item creates a redundant, overly burdensome mandate requiring the Iowa Veterans' Home to make expenditure reports monthly to the Legislative Services Agency for fiscal year 2014. I strongly support transparency efforts that publicly disclose how departments spend their resources and this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 12, subsection 19, lettered paragraph e. This item requires the Department of Human Services to report on cost containment strategies. The Department of Human Services, Department of Management and the Legislative Services Agency meet on a monthly basis to determine projections for the Medical Assistance appropriation. Information relating to cost containment strategies is shared during these meetings. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 12, subsection 20. This item allocates \$8,715,473 for the waiting list for medical assistance home and community based services waivers. The effect of this disapproval shall cause the \$8,715,473 contained in this item to revert to the General Fund. Past history demonstrates that funding specifically earmarked to buy down the waiting list is not a successful long-term solution. Additionally, the Iowa Health and Wellness Plan will be implemented January 1, 2014. The Iowa Health and Wellness Plan will provide access for Iowans currently on the waiting list to high quality health care, including home and community based services.

I am unable to approve the designated portion of the item designated as Section 26, subsection 1. This item prohibits external approvals that are designed to ensure budget integrity, stability and predictability. Management must have the ability and flexibility to allocate resources where they are most effective and needed. In addition, this item creates a redundant, overly burdensome mandate requiring the department to report to the chairpersons and ranking members of the appropriations committees on a monthly basis. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 27, subsection 2. This item requires the Department of Human Services to report operational and program expenditures at least monthly to the Legislative Services Agency. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 27, subsection 5. This item transfers \$250,000 to the Department of Inspections and Appeals and creates two new FTEs to implement a new mental health advocate division within the Department of Inspections and Appeals. Currently, these advocates work at the county level. In the newly redesigned mental health and disability services system, it is best for these positions to remain at the local level where the services will be managed and delivered regionally. I look forward to continuing work with the General Assembly to implement the mental health and disability services redesign in a

manner that best serves Iowans and serves our goals for an efficient and effective state government. The language creating a new mental health advocate division was an item that was disapproved in Senate File 406. The effect of this disapproval shall cause the \$250,000 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 29, subsection 8. This item requires that all provider reimbursement rate increases in this section be used to increase the compensation and costs of employment for non-administrative staff. The Department of Human Services does not have the ability to monitor providers to determine compliance. In addition, it is not appropriate to direct provider increases in this manner. Providers are best equipped to manage their own budgets.

I am unable to approve the item designated as Section 49 in its entirety. This item amends the Iowa Code to require that any penalties imposed by the Director of the Iowa Department on Aging against a long-term care facility are automatically appropriated to the Office of the Long-Term Care Resident's Advocate. Currently, these funds are deposited in the General Fund. The Office of the Long-Term Care Resident's Advocate is funded by the General Fund. I oppose this change which uses fines to automatically fund Office of the Long-Term Care Resident's Advocate because it sets a dangerous precedent and creates a conflict of interest.

I am unable to approve the designated portion of the item designated as Division X in its entirety. This item creates a new emergency medical services task force and report. Iowa is fortunate to have many dedicated professional and volunteer emergency medical services personnel. These Iowans give their time to provide critical care in emergency situations as first responders. The Iowa Department of Public Health helps provide oversight, assistance and acts as a regulatory body for the profession to ensure Iowans statewide receive a high level of care. The Department of Public Health will continue to work to improve our system. An additional task force, growing the size, scope and cost of government is not an effective use of taxpayer dollars at this time.

I am unable to approve the designated portion of the item designated as Section 83, paragraph 5, subparagraph b. This item causes funds deposited into the Autism Support Program Fund to not revert to the General Fund. It creates new, permanent carry-forward language which does not work to advance my goal of predictability and sustainability for government budgeting.

I am unable to approve the designated portion of the item designated as Section 84, paragraph 2. This item directs the Department of Human Services to enter into a sole-source contract without the benefit of a competitive bidding process. It is important to allow for a full review process and thoroughly plan new initiatives. In addition, competitively bid contracts ensure the best value for taxpayer dollars and that more people are served when this value is maximized.

I am unable to approve of the item designated as Division XIX in its entirety. This item creates a new committee to study how to provide care for people who are sexually aggressive, combative or have unmet psychiatric needs. My administration currently has a work group that is working together to propose constructive recommendations. The work group is open to public input. An additional committee is not needed at this time.

I am unable to approve of the item designated as the portion of Section 128 that amends 2011 Iowa Acts, chapter 63, section 36, subsection 4. This item would require a report to be given to the chairpersons and ranking members of the joint appropriations subcommittee on health and human services relating to changes in law or rules needed to implement telepharmacy on a statewide basis. This report is not necessary due to the fact that this information is available upon request by the General Assembly.

I am unable to approve the designated portion of the item designated as Section 132, subsection 1. This item creates two new long-term care resident's advocates positions for fiscal year 2015. As of today, there are eight long-term care resident's advocates, serving the needs of Iowa's vulnerable seniors. Currently, the Department on Aging is in the process of an aging system redesign and is thoroughly reviewing state services. It is important to ensure that all new positions are consistent with the redesign so that Iowa can best serve the needs of aging Iowans. The effect of this disapproval shall cause the \$100,000 contained in this item to revert to the General Fund.

I am unable to approve the designated portion of the item designated as Section 134, subsection 2, lettered paragraph d. This item creates a redundant, overly burdensome mandate requiring the Iowa Veterans' Home to make expenditure reports monthly to the Legislative Services Agency for fiscal year 2015. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 142, subsection 18, lettered paragraph d. This item requires the Department of Human Services to report on cost containment strategies for fiscal year 2015. The Department of Human Services, Department of Management and the Legislative Services Agency meet on a monthly basis to determine projections for the Medical Assistance appropriation. Information relating to cost containment strategies is shared during these meetings. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 156, subsection 1. This item prohibits external approvals that are designed to ensure budget integrity, stability and predictability. Management must have the ability and flexibility to allocate resources where they are most effective and needed. In addition, this item creates a redundant, overly burdensome mandate requiring the department to report to the chairpersons and ranking members of the appropriations committees on a monthly basis. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 157, subsection 2. This item requires the Department of Human Services to report operational and program expenditures at least monthly to the Legislative Services Agency for fiscal year 2015. While I strongly support transparency efforts that publicly disclose how departments spend their resources, this information is already available within the State's accounting and budgeting systems.

I am unable to approve the designated portion of the item designated as Section 157, subsection 5. This item transfers \$125,000 to the Department of Inspections and Appeals for two new FTEs to implement a new mental health advocate division within the Department of Inspections and Appeals. Currently, these advocates work at the county level. In the newly redesigned mental health and disability services system, it is best for these positions to remain at the local level where the services will be managed and delivered regionally. I look forward to continuing work with the General Assembly to implement the mental health and disability services redesign in a manner that best serves Iowans and serves our goals for an efficient and effective state government. The language creating a new mental health advocate division was an item that was disapproved in Senate File 406. The effect of this disapproval shall cause the \$125,000 contained in this item to revert to the General Fund.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 446 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

Senate File 447

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 447, an Act relating to appropriations to the justice system and including effective dates.

Senate File 447 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the designated portion of the item designated as Section 1, subsection 1, lettered paragraph b. This item unduly restricts the Department of Justice from closing facilities and transitioning to new, more effective community-based services for victims. The program must have the flexibility to provide services to victims in the most efficient and effective way possible.

I am unable to approve the designated portion of the item designated as Section 1, subsection 1, lettered paragraph b. This item creates carry-forward language which is unnecessary for the Department of Justice. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the designated portion of the item designated as Section 3, subsection 1, lettered paragraph a. This item requires the Department of Corrections to submit a report to the legislature regarding plans for the Fort Madison Correctional Facility. Although I support transparency efforts, this requirement is redundant as this report was submitted on January 15, 2013 and is already available to the legislature.

I am unable to approve the item designated as Section 4, subsection 1, lettered paragraph a. This item contains policy language pertaining to the Department of Corrections entering into a new contract in excess of \$100,000 for privatized services during fiscal year 2014 without prior notification of the legislature and employee organizations. However, this item allows the department to renew existing contracts without notification. This item would prevent the department from obtaining services for inmates in an effective and efficient manner. This notification unnecessarily impedes on the department's management authority.

I am unable to approve the designated portion of the item designated as Section 19, subsection 1, lettered paragraph b. This item creates carry-forward language which is unnecessary for the Department of Justice. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the designated portion of the item designated as Section 21, subsection 1, lettered paragraph a. This item requires the Department of Corrections to submit a report to the legislature regarding plans for the Fort Madison Correctional Facility. Although I support transparency efforts, this requirement is redundant as this report was submitted on January 15, 2013 and is already available to the legislature.

I am unable to approve the item designated as Division IV in its entirety. This item creates a task force to study the creation of a consolidated fire and police public safety training facility. Iowa is fortunate to have dedicated firefighters and police officers. These Iowans dedicate their lives to protecting the safety and welfare of Iowans. The Department of Public Safety and the Iowa Law Enforcement Academy will continue to work to improve our system. It is my administration's goal to reduce the size and cost of government by 15% and as such, I believe this issue can be reviewed without growing the size and cost of government.

I am unable to approve the item designated as Section 45 in its entirety. This item creates carry forward language from the balance of the Cigarette Fire Safety Standard fund to the Victim Assistance Grants program. The carry-forward language does not advance my goals of returning predictability and sustainability to government budgeting.

I am unable to approve the item designated as Section 55 in its entirety. This item permanently increases the standing limited appropriation of \$1.2 million for the Consumer Education and Litigation Fund to \$2 million. Currently, any increase over the current standing limited appropriation is reviewed by the legislature and additional funds are provided annually based on need. Before this automatic increase is made permanent, further review by the legislature needs to be conducted.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 44 7 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

Senate File 452

June 20, 2013

The Honorable Matt Schultz
Secretary of State of Iowa
State Capitol
Des Moines, Iowa 50319

Dear Mr. Secretary:

I hereby transmit Senate File 452, an Act relating to state and local finances by making appropriations, providing for fees, providing for legal responsibilities, providing for certain employee benefits, and providing for properly related matters, and including penalties and effective date and retroactive and other applicability provisions.

Senate File 452 is approved on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the item designated as Section 30 in its entirety. This item allocates \$200,000 for the chronic care consortium. The strategic planning work is duplicative of efforts already taking place within Medicaid. Additionally, the revenue from the Clinical Health Coach training program will eventually allow the Iowa Chronic Care Consortium Board to become a self-sustaining enterprise.

I am unable to approve the item designated as Section 31 in its entirety. This language restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$1.7 million appropriation approved in Senate File 447.

I am unable to approve the item designated as Section 32 in its entirety. This language unnecessarily restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$850,000 approved in Senate File 447.

I am unable to approve the item designated as Section 33 in its entirety. This language unnecessarily restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$2,571,309 approved in Senate File 447.

I am unable to approve the item designated as Section 34 in its entirety. This language unnecessarily restricts the Department from fulfilling its mission. It is not appropriate to direct departments to treat employees differently solely based on an employee's classification. Additionally, departments are best equipped to manage their own budgets. This does not affect the \$1,285,655 approved in Senate File 447.

I am unable to approve the item designated as Division XI in its entirety. This item increases the annual tax credit cap on the Historical Preservation and Cultural and Entertainment District Tax Credits. Currently, there is an Executive Order 80 Stakeholder group reviewing this tax credit program. It is my plan to approach Historical Preservation tax credits in a comprehensive and thoughtful manner. As such, I look forward to continuing to work with members of the House and Senate as this program is reviewed.

I am unable to approve the item designated as Division XXI in its entirety. This language is an attempt to provide financial relief to certain private providers of services to students related to compliance with special and general education billing requirements. The nature of the issue centers on what is and is not allowable as an educational expense in these facilities. This item would legalize what are currently non-permissive expenditures for educational funding to include a long list of expenditures that are non-educational, including expenditures related to administration, facilities, and mental health costs. This would cause an expansion of allowable expenditures and many of these facilities were complying with current law and therefore not billing for these expenses; therefore, the State would see an increase in spending as a result of these provisions. Due to the fact many school districts already operate at a deficit related to education expenditures, this increase would be directly passed on to local property taxes.

I am unable to approve the designated portion of the item designated as Section 182. Currently, the State passes federal funds through to the counties. This item requires the State to cover any reduction of funds for the counties should the federal government fail to live up to its funding promises. The federal government has not passed a budget in more than four years and has amassed more than \$16 trillion in debt. I believe the federal financial picture is unsustainable in the long-term, and, therefore, obligating State taxpayer funds in such an unpredictable manner is not in the best interest of hardworking Iowa taxpayers.

For the above reasons, I respectfully disapprove the designated items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 452 are hereby approved as of this date.

Sincerely,

TERRY E. BRANSTAD
Governor

State of Iowa

2 this Act, being deemed of immediate importance, takes
3 effect upon enactment.

4 Sec. 6. RETROACTIVE APPLICABILITY. This division

9 IOWA TAXPAYERS TRUST FUND TAX CREDIT

10 Sec. 7. TAXPAYERS TRUST FUND — IOWA TAXPAYERS
11 TRUST FUND TAX CREDIT TRANSFER. During the fiscal
12 year beginning July 1, 2013, there is transferred from
13 the taxpayers trust fund created in section 8.57E to
14 the Iowa taxpayers trust fund tax credit fund created
15 in section 422.11E, an amount equal to the sum of
16 the balance of the taxpayers trust fund as determined
17 after the close of the fiscal year beginning July 1,
18 2012, and ending June 30, 2013, including the amount
19 transferred for that fiscal year to the taxpayers trust
20 fund from the Iowa economic emergency fund created
21 in section 8.55 in the fiscal year beginning July 1,
22 2013, and ending June 30, 2014, to be used for the Iowa
23 taxpayers trust fund tax credit in accordance with
24 section 422.11E, subsection 5.

25 Sec. 8. Section 257.21, Code 2013, is amended to
26 read as follows:

27 257.21 Computation of instructional support amount.

28 1. The department of management shall establish
29 the amount of instructional support property tax to be
30 levied and the amount of instructional support income
31 surtax to be imposed by a district in accordance with
32 the decision of the board under section 257.19 for
33 each school year for which the instructional support

34 program is authorized. The department of management
35 shall determine these amounts based upon the most
36 recent figures available for the district's valuation
37 of taxable property, individual state income tax
38 paid, and budget enrollment in the district, and shall
39 certify to the district's county auditor the amount of
40 instructional support property tax, and to the director
41 of revenue the amount of instructional support income
42 surtax to be imposed if an instructional support income
43 surtax is to be imposed.

44 2. The instructional support income surtax shall
45 be imposed on the state individual income tax for the
46 calendar year during which the school's budget year
47 begins, or for a taxpayer's fiscal year ending during
48 the second half of that calendar year and after the
49 date the board adopts a resolution to participate
50 in the program or the first half of the succeeding

Page 3

1 calendar year, and shall be imposed on all individuals
2 residing in the school district on the last day of
3 the applicable tax year. As used in this section,
4 "state individual income tax" means the taxes computed
5 under section 422.5, less the amounts of nonrefundable
6 credits allowed under chapter 422, division II, except
7 for the Iowa taxpayers trust fund tax credit allowed
8 under section 422.11E.

9 Sec. 9. NEW SECTION. 422.11E Iowa taxpayers trust
10 fund tax credit.

11 1. For purposes of this section, unless the context
12 otherwise requires:

13 a. "Eligible individual" means, with respect to
14 a tax year, an individual who makes and files an
15 individual income tax return pursuant to section
16 422.13. "Eligible individual" does not include
17 an estate or trust, or an individual for whom an
18 individual income tax return was not timely filed,
19 including extensions.

20 b. "Unclaimed tax credit" means, with respect to
21 a tax year, the aggregate amount by which the Iowa
22 taxpayers trust fund tax credits that were eligible to
23 be claimed by eligible individuals, if any, exceeds the
24 Iowa taxpayers trust fund tax credits actually claimed
25 by eligible individuals, if any.

26 2. The taxes imposed under this division, less the
27 credits allowed under this division except the credits
28 for withheld tax and estimated tax paid in section
29 422.16, shall be reduced by an Iowa taxpayers trust
30 fund tax credit to an eligible individual for the tax
31 year beginning January 1 immediately preceding July 1
32 of any fiscal year during which a transfer, if any, is

33 made from the taxpayers trust fund in section 8.57E to
34 the Iowa taxpayers trust fund tax credit fund created
35 in this section.

36 3. The credit shall be equal to the quotient of
37 the amount transferred to the Iowa taxpayers trust
38 fund tax credit fund in the applicable fiscal year,
39 divided by the number of eligible individuals for the
40 tax year immediately preceding the tax year for which
41 the credit in this section is allowed, as determined
42 by the director of revenue in accordance with this
43 section, rounded down to the nearest whole dollar. The
44 department of revenue shall draft the income tax form
45 for any tax year in which a credit will be allowed
46 under this section to provide the information and space
47 necessary for eligible individuals to claim the credit.

48 4. Any credit in excess of the taxpayer's liability
49 for the tax year is not refundable and shall not be
50 credited to the tax liability for any following year

Page 4

1 or carried back to a tax year prior to the tax year in
2 which the taxpayer claims the credit.

3 5. a. There is established within the state
4 treasury under the control of the department an Iowa
5 taxpayers trust fund tax credit fund consisting of any
6 moneys transferred by the general assembly by law from
7 the taxpayers trust fund created in section 8.57E for
8 purposes of the credit provided in this section. For
9 the fiscal year beginning July 1, 2013, and for each
10 fiscal year thereafter, the department shall transfer
11 from the Iowa taxpayers trust fund tax credit fund
12 to the general fund of the state, the lesser of the
13 balance of the Iowa taxpayers trust fund tax credit
14 fund or an amount of money equal to the Iowa taxpayers
15 trust fund tax credits claimed in that fiscal year, if
16 any. Any moneys in the Iowa taxpayers trust fund tax
17 credit fund which represent unclaimed tax credits shall
18 immediately revert to the taxpayers trust fund created
19 in section 8.57E. Interest or earnings on moneys in
20 the Iowa taxpayers trust fund tax credit fund shall be
21 credited to the taxpayers trust fund created in section
22 8.57E.

23 b. The moneys transferred to the general fund of
24 the state in accordance with this subsection shall not
25 be considered new revenues for purposes of the state
26 general fund expenditure limitation under section 8.54
27 but instead as replacement of a like amount included in
28 the expenditure limitation for the fiscal year in which
29 the transfer is made.

30 Sec. 10. Section 422D.2, Code 2013, is amended to
31 read as follows:

32 422D.2 Local income surtax.
33 A county may impose by ordinance a local income
34 surtax as provided in section 422D.1 at the rate set
35 by the board of supervisors, of up to one percent,
36 on the state individual income tax of each individual
37 residing in the county at the end of the individual's
38 applicable tax year. However, the cumulative total of
39 the percents of income surtax imposed on any taxpayer
40 in the county shall not exceed twenty percent. The
41 reason for imposing the surtax and the amount needed
42 shall be set out in the ordinance. The surtax rate
43 shall be set to raise only the amount needed. For
44 purposes of this section, "state individual income tax"
45 means the tax computed under section 422.5, less the
46 amounts of nonrefundable credits allowed under chapter
47 422, division II, except for the Iowa taxpayers trust
48 fund tax credit allowed under section 422.11E.
49 Sec. 11. EFFECTIVE UPON ENACTMENT. This division
50 of this Act, being deemed of immediate importance,

Page 5

25 all models specified in sections 284.16, 284.17, and
26 284.18, and any comparable system described in section
27 284.19, shall be approved under subsection 12 and shall

45 a state model pursuant to section 284.16, 284.17, or
46 284.18, shall appoint a site-based review council if

7 teacher quality committee.

8 b. The council shall accept and review applications
9 submitted to the school's or the school district's
10 administration for assignment or reassignment in
11 a leadership role and shall make recommendations
12 regarding the applications to the superintendent of the
13 school district. In developing recommendations, the
14 council shall utilize measures of teacher effectiveness
15 and professional growth, consider the needs of the
16 school district, and review the performance and
17 professional development of the applicants. Any
18 teacher recommended by a review council for assignment
19 or reassignment in a leadership role shall have
20 demonstrated to the council's satisfaction competency
21 on the Iowa teaching standards as set forth in section

33 appropriate or for reassignment.

34 5. Status quo. A teacher employed in a school
35 district shall not receive less compensation in that
36 district than the teacher received in the school year
37 preceding participation, as set forth in section 284.4,
38 due to implementation of a state model or comparable
39 system approved pursuant to this section. A teacher
40 who achieves national board for professional teaching
41 standards certification and meets the requirements of

44 compensation set forth in this chapter.

45 6. Early implementation. Prior to July 1, 2016, a
46 school district may apply to the commission on educator
47 leadership and compensation for early implementation

11 (2), a career II teacher may spend at least five
12 hours per week as a peer coach. Compensation for peer
13 coaching duties shall be computed using the career
14 II teacher's hourly rate of compensation for the
15 additional duties, which shall be performed during
16 normal, noninstructional contract time. For purposes
17 of this subparagraph, "peer coaching" means additional
18 guidance in one or more aspects of the teaching

3 the appropriate district-to-district recognition for
4 advanced teachers and methods that facilitate the
5 transition of a teacher to the advanced level.

6 (3) The contract term for an advanced teacher shall
7 exceed the contract term issued to a career teacher
8 under section 279.13 by an additional ten days. The
9 goal of the contract shall be that at least fifty

44 education savings grant and the amount of the grant.

45 c. Education savings grants shall only be approved
46 for one school year and applications must be submitted
47 under paragraph “a” for education savings grants in
48 subsequent school years.

49 3. a. The department of management shall assign
50 each pupil an education savings grant in an amount

Page 32

1 equal to the statewide average state foundation aid per
2 pupil in the same school year. However, for a pupil
3 that is eligible to participate in a preschool program
4 under chapter 256C, the amount of the grant shall be an
5 amount equal to fifty percent of the regular program
6 state cost per pupil for the same school year.

7 b. The department of management shall on July
8 1 following the determination of the amount of the
9 education savings grant for each approved pupil
10 transfer such amounts to the pupil's account in
11 the education savings grant fund established under
12 subsection 4. Such amount shall be available to the
13 pupil's parent or guardian in the manner authorized
14 under subsection 4, paragraph "c", for the payment of
15 qualified educational expenses incurred by such persons
16 for the pupil during that school year.

17 4. An education savings grant fund is created in
18 the state treasury under the control of the department
19 of management consisting of moneys appropriated to
20 the department for the purpose of providing education
21 savings grants under this section. For the fiscal
22 year commencing July 1, 2014, and each succeeding
23 fiscal year, there is appropriated from the general
24 fund of the state to the department of management to
25 be credited to the fund the amount necessary to pay
26 all education savings grants approved for that fiscal
27 year. The director of the department of management has
28 all powers necessary to carry out and effectuate the
29 purposes, objectives, and provisions of this section
30 pertaining to the fund, including the power to do all
31 of the following:

32 a. Make and enter into contracts necessary for the
33 administration of the fund.

34 b. Procure insurance against any loss in connection
35 with the assets of the fund or require a surety bond.

36 c. Contract with a private financial management
37 firm to manage the fund, in collaboration with the
38 treasurer of state, including providing for the
39 disbursement of education savings grants in the form
40 of an electronic debit card or checks that are payable
41 directly from the pupil's account within the fund.

42 d. Conduct audits or other review necessary to
43 properly administer the program.

44 e. Adopt rules pursuant to chapter 17A for the
45 administration of the fund and accounts within the
46 fund.

47 5. a. For each pupil approved for an education
48 savings grant, the department of management shall
49 establish an account for that pupil in the education
50 savings grant fund. The amount of the pupil's

Page 33

1 education savings grant determined under subsection 3
2 shall be deposited into the pupil's account on July
3 1 and such amount shall be immediately available for
4 the payment of qualified education expenses incurred
5 by the parent or guardian for the pupil during that
6 fiscal year using the payment method authorized under
7 subsection 4, paragraph "c".

8 b. A nonpublic school or other entity that accepts
9 payment from a parent or guardian using funds from a
10 pupil's account in the education savings grant fund
11 shall not refund, rebate, or share any portion of such
12 payment with the parent, guardian, or pupil.

13 c. Moneys remaining in a pupil's account upon
14 conclusion of the fiscal year shall remain in the
15 pupil's account within the education savings grant
16 fund for the payment of qualified educational expenses
17 in future fiscal years or for the payment of higher
18 education costs under subsection 8.

19 6. For purposes of this section, "qualified
20 educational expense" includes tuition and fees at a
21 nonpublic school or nonpublic preschool, textbooks,
22 fees or payments for tutoring or cognitive skills
23 training, curriculum materials, tuition or fees
24 for nonpublic online education programs, education
25 materials and services for pupils with disabilities,
26 standardized test fees, fees required by the department
27 not to exceed for each grant recipient five percent of
28 the total grant amount in any fiscal year, and other
29 expenses incurred by the parent or guardian that are
30 directly related to the education of the pupil at a
31 nonpublic preschool or a nonpublic school, including
32 a nonpublic school accredited by an independent
33 accrediting agency approved by the department of
34 management, or directly related to providing competent
35 private instruction for the pupil under chapter 299A
36 or private preschool instruction. The cost of one
37 computer or other portable computing device shall be
38 allowed as a qualified educational expense for a pupil
39 if such a purchase has not been made using funds from
40 that pupil's account in either of the two immediately
41 preceding fiscal years. "Qualified educational
42 expenses" do not include transportation costs for the
43 pupil, the cost of food or refreshments consumed by the
44 pupil, the cost of clothing for the pupil, or the cost
45 of disposable materials including but not limited to
46 paper, notebooks, pencils, pens, and art supplies.

47 7. A person who makes a false claim for the purpose
48 of obtaining an education savings grant provided for
49 in this section or who knowingly receives the grant or
50 makes a payment from an account within the education

Page 34

1 savings grant fund without being legally entitled to it
2 is guilty of a fraudulent practice. The false claim
3 for an education savings grant or a payment from an
4 account shall be disallowed and if amounts from the
5 grant have been disbursed from the applicable account
6 in the education savings grant fund, the department of
7 management shall initiate legal proceedings to recover
8 such amounts. A parent or guardian, or a pupil for
9 purposes of subsection 8, who violates this subsection
10 is prohibited from participating in the education
11 savings grant program in the future.

12 8. For each pupil with a positive balance in the
13 pupil's account in the education savings grant fund
14 upon graduation from high school or completion of an
15 equivalent level of competent private instruction
16 under chapter 299A, the department of management shall
17 maintain such account in the fund until the pupil is
18 twenty-five years of age. Following graduation from
19 high school until the pupil is twenty-five years of
20 age, moneys in the pupil's account may be used for
21 higher education costs, as defined in section 12D.1,
22 subsection 2, incurred by the pupil while attending an
23 institution of higher education under the control of
24 the state board of regents, a community college located
25 in this state, or a private college or university
26 located in this state. Payments from a pupil's account
27 for higher education costs shall be made in the same
28 manner as payments for qualified educational expenses
29 under subsection 5. Moneys in a pupil's account when
30 the pupil turns twenty-five years of age shall be
31 transferred by the department of management for deposit
32 in the general fund of the state.

33 9. This section shall not be construed to authorize
34 this state or any political subdivision of this state
35 to exercise authority over any nonpublic school or
36 pupil receiving competent private instruction under
37 chapter 299A or construed to require a nonpublic
38 school to modify its admissions or educational
39 program in order to receive payment from a parent or
40 guardian using funds from a pupil's account in the
41 education savings grant fund. A nonpublic school or
42 entity providing competent private instruction under
43 chapter 299A, that accepts payment from a parent or
44 guardian using funds from a pupil's account in the
45 education savings grant fund is not an agent of this
46 state or other political subdivision of this state.

47 Rules adopted by the department of management to
48 implement this section that impose an undue burden on a
49 nonpublic school or entity providing competent private
50 instruction under chapter 299A are invalid.

PRACTITIONER STAFFING REDUCTION PROVISIONS

Sec. ____ Section 279.13, subsection 1, paragraph
a, Code 2013, is amended to read as follows:

a. Contracts with teachers, which for the purpose
of this section means all licensed employees of a
school district and nurses employed by the board,
excluding superintendents, assistant superintendents,
principals, and assistant principals, shall be in
writing and shall state the number of contract days,
the annual compensation to be paid, and any other
matters as may be mutually agreed upon. The contract
may include employment for a term not exceeding the
ensuing school year, except as otherwise authorized.
Notwithstanding any contrary provision of law, neither
the employees represented by the employee organization
who are teachers or principals licensed under chapter
272, nor the employing school district or area
education agency shall include procedures for staff
reduction in the scope of negotiations. The board
shall not consider seniority or academic degrees or
other credentials when determining compensation or an
increase in compensation for a teacher, or when making
retention, promotion, dismissal, reduction-in-force,
or other staffing decisions; provided, that nothing in
this paragraph prohibits cost-of-living adjustments
tied in whole or in part to prior compensation levels.
Differentiation in teacher compensation levels may be
based on whether the teacher's performance evaluation
determines the teacher is a highly effective teacher
and the teacher teaches in a high-demand subject area
or has a hard-to-staff assignment.

Sec. ____ Section 279.14, Code 2013, is amended to
read as follows:

279.14 Evaluation criteria and procedures.

1. Evaluation criteria and procedures. The board
shall establish evaluation criteria and shall implement
evaluation procedures. If an exclusive bargaining
representative has been certified, the board shall
negotiate in good faith with respect to evaluation
procedures pursuant to chapter 20.

44 2. Standards of performance. The determination
45 of standards of performance expected of school
46 district personnel shall be reserved as an exclusive
47 management right of the school board and shall not
48 be subject to mandatory negotiations under chapter
49 20. Notwithstanding chapter 20, objections to the
50 procedures, use, or content of an evaluation in a

Page 2

1 teacher termination proceeding brought before the
2 school board in a hearing held in accordance with
3 section 279.16 or 279.27 shall not be subject to the
4 grievance procedures negotiated in accordance with
5 chapter 20. A school district shall not be obligated
6 to process any evaluation grievance after service of a
7 notice and recommendation to terminate an individual's
8 continuing teaching contract in accordance with this
9 chapter.

10 3. Use of evaluations. Notwithstanding any
11 provision of law to the contrary, the board shall
12 base decisions regarding significant differentiation
13 in salary, retention, promotion, dismissal, and
14 other staffing decisions including but not limited to
15 transfers, placements, and preferences in the event
16 of reductions in force, primarily on the results
17 of annual performance evaluations for teachers and
18 principals. Each teacher and principal contract issued
19 pursuant to this chapter and each collective bargaining
20 agreement negotiated under chapter 20 shall authorize
21 use of evaluation results as a basis for the decisions
22 described in this subsection. Evaluation results shall
23 also be used to provide high-quality, individualized
24 supports and professional development for teachers and
25 principals.

26 Sec. ____ Section 279.27, Code 2013, is amended to
27 read as follows:

28 279.27 Discharge of teacher — reduction in force.
29 1. Discharge. A teacher may be discharged at any
30 time during the contract year for just cause. The
31 superintendent or the superintendent's designee, shall
32 notify the teacher immediately that the superintendent
33 will recommend in writing to the board at a regular
34 or special meeting of the board held not more than
35 fifteen days after notification has been given to the
36 teacher that the teacher's continuing contract be
37 terminated effective immediately following a decision
38 of the board. The procedure for dismissal shall
39 be as provided in section 279.15, subsection 2, and
40 sections 279.16 to 279.19. The superintendent may
41 suspend a teacher under this section pending hearing
42 and determination by the board.

43 2. Reduction-in-force criteria. Notwithstanding
44 any provision of law to the contrary, a board shall
45 not adopt or implement a policy that permits length of
46 service to serve as the primary factor when conducting
47 layoffs or a reduction in force. The board shall
48 instead utilize a system that considers demonstrated
49 teacher effectiveness in advancing student achievement
50 as the primary factor when conducting a reduction

Page 3

1 in force. In the event that an approved evaluation
2 system has not been implemented, the board may adopt an
3 interim policy for layoffs or reduction in force that
4 is based on the following considerations:
5 a. Individual performance shall be weighted as
6 the most significant consideration, at not less than
7 seventy percent, in a layoff or reduction-in-force
8 decision. Individual performance shall include
9 evidence of increased student achievement, demonstrated
10 pedagogical skill, and preparation to maximize
11 instructional time as assessed by a principal,
12 administrator, or peer evaluator.
13 b. Any record of misconduct, criminal conduct, or
14 excessive unexcused absences in a teacher's personnel
15 file.
16 c. Significant, relevant contributions to the
17 effectiveness of the school and its professional
18 staff, including but not limited to creation and
19 implementation of a tutoring program and creation of a
20 school enrichment program.
21 d. Relevant special training, certifications, and
22 licenses unless otherwise prohibited under section
23 279.13, subsection 1.
24 Sec. ____. EFFECTIVE UPON ENACTMENT. This division
25 of this Act, being deemed of immediate importance,
26 takes effect upon enactment.
27 Sec. ____. APPLICABILITY. This division of this Act

9 applications for an education savings grant pursuant
10 to section 257.11B, including application processing
11 timelines and information required to be submitted by a
12 parent or guardian.

13 Sec. ____ NEW SECTION. 257.11B Education savings
14 grant program.

15 1. Pupils eligible to enroll in grades kindergarten
16 through twelve and attending a nonpublic school or
17 receiving competent private instruction under chapter
18 299A shall be eligible to receive an education savings
19 grant in the manner provided in this section for school
20 years beginning on or after July 1, 2014. Education
21 savings grants shall be made available to parents and
22 guardians in the manner authorized under subsection 4,
23 paragraph "c", for the payment of qualified education
24 expenses as provided in this section.

25 2. a. (1) By January 31 preceding the school year
26 for which the education savings grant is requested, the
27 parent or guardian of the pupil requesting to receive
28 an education savings grant shall submit an application
29 to the department of education, on application forms
30 developed by the department, indicating that the parent
31 or guardian intends to enroll the pupil in a nonpublic
32 school or provide competent private instruction for the
33 pupil under chapter 299A.

34 (2) In addition to such information deemed

Page 2

1 an education savings grant.
2 c. Education savings grants shall only be approved
3 for one school year and applications must be submitted
4 under paragraph "a" for education savings grants in
5 subsequent school years.

6 3. a. The department of management shall assign
7 each pupil an education savings grant in an amount
8 equal to the statewide average state foundation aid per
9 pupil in the same school year.

10 b. The department of management shall on July
11 1 following the determination of the amount of the

The director of the department of management has all powers necessary to carry out and effectuate the purposes, objectives, and provisions of this section pertaining to the fund, including the power to do all of the following:

b. A nonpublic school or other entity that accepts payment from a parent or guardian using funds from a

13 pupil's account in the education savings grant fund
14 shall not refund, rebate, or share any portion of such
15 payment with the parent, guardian, or pupil.
16 c. Moneys remaining in a pupil's account upon

27 education programs, education materials and services
28 for pupils with disabilities, standardized test fees,
29 fees required by the department not to exceed for each
30 grant recipient five percent of the total grant amount
31 in any fiscal year, and other expenses incurred by the

42 the two immediately preceding fiscal years. "Qualified
43 educational expenses" do not include transportation
44 costs for the pupil, the cost of food or refreshments
45 consumed by the pupil, the cost of clothing for the

47 but not limited to paper, notebooks, pencils, pens, and
48 art supplies.
49 7. A person who makes a false claim for the purpose
50 of obtaining an education savings grant provided for

Page 4

1 in this section or who knowingly receives the grant or
2 makes a payment from an account within the education
3 savings grant fund without being legally entitled to it
4 is guilty of a fraudulent practice. The false claim
5 for an education savings grant or a payment from an
6 account shall be disallowed and if amounts from the

16 upon graduation from high school or completion of an
17 equivalent level of competent private instruction
18 under chapter 299A, the department of management shall
19 maintain such account in the fund until the pupil is
20 twenty-five years of age. Following graduation from
21 high school until the pupil is twenty-five years of

25 institution of higher education under the control of
26 the state board of regents, a community college located
27 in this state, or a private college or university
28 located in this state. Payments from a pupil's account
29 for higher education costs shall be made in the same
30 manner as payments for qualified educational expenses
31 under subsection 5. Moneys in a pupil's account
32 when the pupil turns twenty-five years of age shall
33 be transferred by the department for deposit in the
34 general fund of the state.
35 9. This section shall not be construed to authorize
36 this state or any political subdivision of this state
37 to exercise authority over any nonpublic school or
38 pupil receiving competent private instruction under
39 chapter 299A or construed to require a nonpublic school
40 to modify its admissions or educational program in

4 VALUE-ADDED ASSESSMENT SYSTEM
5 Sec. ____ NEW SECTION. 256.25 Value-added
6 assessment system.
7 1. A value-added assessment system shall be
8 established and implemented by the department not later
9 than January 31, 2014, to provide for multivariate
10 longitudinal analysis of annual student test scores
11 to determine the influence of a school district's
12 educational program on student academic growth and
13 to guide school district improvement efforts. The
14 department shall select a value-added assessment system
15 provider through a request for proposals process. The
16 system provider selected by the department shall offer
17 a value-added assessment system to calculate annually
18 the academic growth of each student enrolled in grade

19 levels three through eleven and tested in accordance
20 with this section, and shall, at a minimum, meet all
21 of the following criteria:

- 22 a. Use a mixed-model statistical analysis that has
23 the ability to use all achievement test data for each
24 student, including the data for students with missing
25 test scores, that does not adjust downward expectations
26 for student progress based on race, poverty, or
27 gender, and that will provide the best linear unbiased
28 predictions of school or other educational entity
29 effects to minimize the impact of random errors.
- 30 b. Have the ability to work with test data from
31 a variety of sources, including data that are not
32 vertically scaled, and to provide support for school
33 districts utilizing the system.
- 34 c. Have the capacity to receive and report results
35 electronically and provide support for districts
36 utilizing the system.
- 37 d. Have the ability to create for each school
38 district a chart that reports grade-equivalent scores
39 for grades three through eight and gains between
40 consecutive pairs of grades for each attendance
41 center, and that provides for a district-wide study of
42 grade-equivalent scores.

43 2. Annually, each school district that administers
44 the Iowa assessments shall, within thirty days of
45 receiving the test scores, submit the test scores for
46 each attendance center within the school district and
47 each grade level tested, from grades three through
48 eleven, to the system provider selected pursuant to
49 subsection 1. School districts may submit additional
50 assessment data for analysis and inclusion in reports

Page 2

1 provided to school districts pursuant to subsection 3,
2 to the extent that the assessment meets the criteria
3 for valid academic progress interpretation specified by
4 the system provider.

5 3. The system provider shall provide analysis
6 to school districts submitting test scores pursuant
7 to subsection 2, and to the department of education.
8 The analysis shall include but not be limited to
9 attendance-center-level test results for the Iowa
10 assessments in the areas of reading and mathematics
11 and other core academic areas when possible. The
12 analysis shall also include but not be limited to the
13 number of students tested, the number of test results
14 used to compute the averages, the average standard
15 score, the corresponding grade equivalent-score, the
16 average stanine score for the group, the normal curve
17 equivalent of average standard scores, and percentile

18 ranks based on student norms, as well as measures of
19 student progress. The system provider shall create a
20 chart for each school district in accordance with the
21 criteria set forth in subsection 1.

22 4. Each school district shall have complete
23 access to and full utilization of its own value-added
24 assessment reports and charts generated by the system
25 provider at the student level for the purpose of
26 measuring student achievement at different educational
27 entity levels.

28 5. Student academic growth determined pursuant to
29 this section shall not be used in teacher evaluation
30 and shall not be published if individual teacher
31 effects can be surmised.

32 6. Information about student academic growth may
33 be used by the school district, including school board
34 members, administration, and staff, for defining
35 student and district learning goals and professional
36 development related to student learning goals across
37 the school district. A school district may submit its
38 academic growth measures in the annual report submitted
39 pursuant to section 256.7, subsection 21, and may
40 reference in the report state level norms for purposes
41 of demonstrating school district performance. However,
42 unless a school district chooses to submit its academic
43 measures in the annual report submitted pursuant to
44 section 256.7, subsection 21, such measures are not
45 public records for the purposes of chapter 22.

46 7. The department may use student academic
47 progress data to determine school improvement and
48 technical assistance needs of school districts, and to
49 identify school districts achieving exceptional gains.
50 Beginning January 15, 2015, and by January 15 of each

Page 3

1 succeeding year, the department shall submit an annual
2 progress report regarding the use of student academic
3 growth information in the school improvement processes
4 to the general assembly and shall publish the progress
5 report on its internet website.

6 8. The department is encouraged to advocate that
7 the United States department of education allow
8 reporting of student academic progress as an additional
9 valid measure of school performance, as an alternative
10 for meeting federal safe harbor provisions, and for
11 establishing statewide progress under the federal No
12 Child Left Behind Act of 2001, Pub. L. No. 107-110, and
13 any federal regulations adopted pursuant to the federal
14 Act.

15 9. A school district shall use the value-added
16 assessment system established by the department

17 pursuant to subsection 1 not later than the school
18 year beginning July 1, 2014. However, the director
19 of educational services of an area education agency
20 may grant a request made by a board of directors of a
21 school district located within the boundaries of the
22 area education agency stating its desire to use an
23 alternative system to compute and report value-added
24 scores that is statistically valid and reliable.>

17 Sec. 2. NEW SECTION. 709D.1 Title.

18 This chapter shall be known and may be cited as the
19 “Contagious or Infectious Disease Transmission Act”.

20 Sec. 3. NEW SECTION. 709D.2 Definitions.

21 As used in this chapter, unless the context
22 otherwise requires:

23 1. “Contagious or infectious disease” means
24 hepatitis in any form, meningococcal disease, AIDS or
25 HIV as defined in section 141A.1, or tuberculosis.

26 2. “Exposes” means engaging in conduct that poses
27 a substantial risk of transmission, but does not
28 include conduct posing a low or negligible risk of
29 transmission, consistent with guidance issued by the
30 centers for disease control and prevention of the
31 United States department of health and human services.

32 3. “Practical means to prevent transmission” means
33 substantial compliance with a treatment regimen
34 prescribed by a health care provider that measurably
35 limits the risk of transmission of the contagious
36 or infectious disease, substantial compliance with
37 behavioral recommendations of the infected person’s
38 health care provider or public health officials to
39 measurably limit the risk of transmission of the
40 contagious or infectious disease, or other methods
41 generally accepted by the medical profession to
42 measurably limit the risk of transmission of the
43 contagious or infectious disease, such as use of
44 a medically indicated respiratory mask or use of a
45 prophylactic device.

46 Sec. 4. NEW SECTION. 709D.3 Criminal transmission
47 of a contagious or infectious disease.

48 1. A person commits a class “C” felony when the
49 person knows the person is infected with a contagious
50 or infectious disease and exposes an uninfected person

Page 2

1 to the contagious or infectious disease with the intent
2 that the uninfected person contract the contagious or
3 infectious disease, and the conduct results in the
4 uninfected person becoming infected with the contagious
5 or infectious disease.

6 2. A person commits a class “D” felony when the

7 person knows the person is infected with a contagious
8 or infectious disease and exposes an uninfected person
9 to the contagious or infectious disease with the intent
10 that the uninfected person contract the contagious or
11 infectious disease, but the conduct does not result
12 in the uninfected person becoming infected with the
13 contagious or infectious disease.

14 3. A person commits an aggravated misdemeanor
15 when the person knows the person is infected with
16 a contagious or infectious disease and exposes an
17 uninfected person to the contagious or infectious
18 disease acting with a reckless disregard as to whether
19 the uninfected person contracts the contagious or
20 infectious disease, and the conduct results in the
21 uninfected person becoming infected with the contagious
22 or infectious disease.

23 4. A person commits a serious misdemeanor when the
24 person knows the person is infected with a contagious
25 or infectious disease and exposes an uninfected person
26 to the contagious or infectious disease acting with a
27 reckless disregard as to whether the uninfected person
28 contracts the contagious or infectious disease, but
29 the conduct does not result in the uninfected person
30 becoming infected with the contagious or infectious
31 disease.

32 5. The act of becoming pregnant while infected
33 with a contagious or infectious disease, continuing
34 a pregnancy while infected with a contagious or
35 infectious disease, or declining treatment for a
36 contagious or infectious disease during pregnancy shall
37 not constitute a crime under this chapter.

38 6. Evidence that a person knows the person is
39 infected with a contagious or infectious disease and
40 has engaged in conduct that exposes others to the
41 contagious or infectious disease, regardless of the
42 frequency of the conduct, is insufficient on its own
43 to prove the intent to transmit the contagious or
44 infectious disease.

45 7. A person does not act with the intent required
46 pursuant to subsection 1 or 2, or with the reckless
47 disregard required pursuant to subsection 3 or
48 4, if the person takes practical means to prevent
49 transmission, or if the person informs the uninfected
50 person that the person has a contagious or infectious

Page 3

1 disease and offers to take practical means to
2 prevent transmission but that offer is rejected by
3 the uninfected person subsequently exposed to the
4 infectious or contagious disease.

5 8. It is an affirmative defense to a charge under

6 this section if the person exposed to the contagious or
7 infectious disease knew that the infected person was
8 infected with the contagious or infectious disease at
9 the time of the exposure and consented to exposure with
10 that knowledge.

11 Sec. 5. Section 141A.3, subsection 2, Code 2013, is
12 amended by adding the following new paragraph:

13 NEW PARAGRAPH. 0e. Subject to availability
14 of funding, develop and implement a comprehensive
15 prevention program for individuals with HIV that
16 includes engagement and retention in HIV care
17 activities, risk reduction and behavioral prevention
18 programming, partner notification services, case
19 management and other supportive services, and
20 assistance with health insurance coverage or medication
21 costs for low-income individuals.

45 a, subparagraph (9), Code 2013, is amended by striking
46 the subparagraph.

47 Sec. 8. Section 692A.102, subsection 1, paragraph
