lowa Economic Indicators

Robert D. Ray, Governor

PREPARED BY THE GOVERNOR'S ECONOMIC ADVISORY COUNCIL

Data Through First Quarter 1979

Number 14

STATE LIBRARY COMMISSION OF IOWA Historical Building DES MOINES. IOWA 50319

SOURCESOF STATISTICAL SERIES

Agriculture: Statistical Reporting Service, United States Department of Agriculture

Construction: F.W. Dodge Division, McGraw Hill Information Systems

Energy: lowa Energy Policy Council

Labor Force: Research and Statistics Division, Iowa Employment Security Commission

Personal Income: Bureau of Economic Analysis, United States Department of Commerce

Public Finance: Office of the Comptroller, State of Iowa

Taxable Retail Sales: Research and Statistics Division, Iowa Department of Revenue

Wholesale and

Consumer Price Index: Bureau of Labor Statistics, United States Department of Labor, Iowa State

University Extension Service

Personal Income

Personal Income consists of private and government wage and salary payments in cash and in kind, other labor income, farm and non-farm proprietors' income, interest, net rents, dividends and transfer payments. From this total is deducted personal contributions for Social Security. It is measured before the deduction of personal income and other personal taxes and is reported in current dollars.

Taxable Retail Sales

Taxable retail sales are all sales subject to the retail sales tax as established under Chapter 422.42 Code of Iowa, 1975.

Consumer Price Index

The Consumer Price Index is a monthly (for U.S. quarterly for Cedar Rapids) statistical measure of the average change in prices of goods and services purchased by urban wage earners and clerical workers. It is based on the prices of approximately 400 items. Cedar Rapids is the only reporting point in the state.

Producer Price Index

The Producer Price Index measures average changes in prices

received in primary markets by producers in all stages of processing. This index was formerly known as the Wholesale Price Index.

Cash Receipts from Farm Marketings

Cash receipts from farm marketings represent agricultural products sold by farmers multiplied by prices received per unit of production at the local market.

Prices Paid by Farmers

Prices paid by farmers is an index of expenditures made by farmers for commodities, service, interest, taxes, and wages. This service is used to compile the parity index.

Residential Building

Residential building includes both housekeeping and non-housekeeping units such as hotels, motels, dormitories, and other shelter.

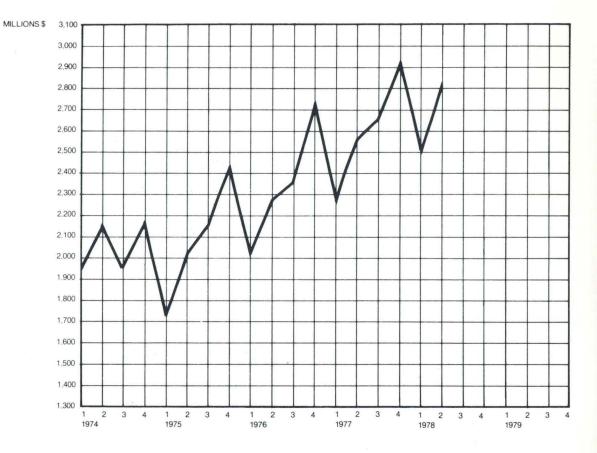

Non-Residential Building

Non-residential building includes commercial, manufacturing, educational and science buildings, hospitals, public buildings, religious, and amusement buildings.

SUMMARY

Labor Force

The state's total labor force and employment increased slightly from last year as the unemployment rate dropped from 4.9 to 4.8 percent. Employment in durable goods manufacturing increased by 8.3 percent to a record level. Strong quarterly gains were also registered in trade, services, and agricultural employment.

Construction

Construction of residential units fell by 5.0 percent from the first quarter of 1978 to the first quarter of 1979 but the value of construction increased by 9.9 percent. Non-residential construction projects were also down for the quarter and the value of construction up.

Consumer and Producer Prices

Consumer prices were up by 9.9 percent over last year and 2.6 percent from the quarter before, due to increases in food, energy, housing and medical costs. Producer prices advanced at a double digit rate of 10.8 percent from last year and 3.6 percent for the quarter.

Public Finance

Revenues from the state's main taxes grew at a rapid pace in the first quarter. Sales tax revenue was up by 13.7 percent and personal income tax revenue by 27.0 percent. Corporate receipts totaled \$30.0 million, but due to a revision in the filing of the tax no year-to-year comparison is possible.

Agriculture

Prices received by lowa farmers were up by 11.7 percent from the fourth quarter and 26.0 percent from the first quarter of 1978 due mainly to returns from livestock. Prices paid were up by only 12.8 percent from last year resulting in an improvement in the parity ratio.

Cash receipts were 33.8 percent above last year.

Personal Income

The preliminary estimate of personal income shows total personal income up by 12.0 percent over the first quarter of 1978. Non-farm income was up by 13.5 percent and farm income was down slightly, by 1.6 percent.
