Rob Sand  
Auditor of State

**NEWS RELEASE**

FOR RELEASE

February 20, 2023

Contact: Ernest Ruben  
515/281-5834

Auditor of State Rob Sand today released an audit of the Greenfield Plaza Hills of Coventry Sanitary District.

**FINANCIAL HIGHLIGHTS:**

The Sanitary District had total receipts of \$332,825 for the year ended June 30, 2022, a 7.0% increase over the prior year. Disbursements for the year ended June 30, 2022 totaled \$320,123, a 24.7% increase over the prior year. The significant increase in receipts is due to an increase in the number of homes billed for monthly sewer service. The significant increase in disbursements is due primarily to an increase in debt service payments and a monthly fee to the Wastewater Reclamation Authority for sewer repairs.

**AUDIT FINDINGS:**

Sand reported two findings related to the receipt and disbursement of taxpayer funds. They are found on pages 22 and 23 of this report. The findings address a lack of monthly sewer collection reconciliations and lack of a written investment policy and depository resolution required by the Code of Iowa. Sand provided the Sanitary District with recommendations to address each of the findings.

Both findings discussed above are repeated from the prior year. The Sanitary District has a fiduciary responsibility to provide oversight of the Sanitary District's operations and financial transactions. Oversight is typically defined as the "watchful and responsible care" a governing body exercises in its fiduciary capacity.

A copy of the audit report is available for review on the Auditor of State's web site at [Audit Reports – Auditor of State](#).

Officials of the Greenfield Plaza Hills of Coventry Sanitary District  
Des Moines, Iowa

Dear Board Members:

I am pleased to submit to you the financial and compliance audit report for the Greenfield Plaza Hills of Coventry Sanitary District for the year ended June 30, 2022. The audit was performed per the request of Sanitary District Trustees and in accordance with U.S. auditing standards and the standards applicable to financial audits contained in Government Auditing Standards.

I appreciate the cooperation and courtesy extended by the officials of Greenfield Plaza Hills of Coventry Sanitary District throughout the audit. If I or this office can be of any further assistance, please contact me or my staff at 515-281-5834.

Sincerely,

A handwritten signature in black ink, appearing to read "Rob Sand", written in a cursive style.

Rob Sand  
Auditor of State

Independent Auditor's Report

To the Members of the Greenfield Plaza Hills of Coventry Sanitary District:

Report on the Audit of the Financial Statement

Opinion

We have audited the accompanying financial statement of the Greenfield Plaza Hills of Coventry Sanitary District as of and for the year ended June 30, 2022, and the related Notes to Financial Statement, which collectively comprise the District's basic financial statements listed in the table of contents.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the respective cash basis financial position of the Greenfield Plaza Hills of Coventry Sanitary District as of June 30, 2022, and the respective changes in cash basis financial position for the year then ended in accordance with the basis of accounting described in Note 1.

Basis for Opinion

We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statement section of our report. We are required to be independent of Greenfield Plaza Hills of Coventry Sanitary District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

We draw attention to Note 1 of the financial statement, which describes the basis of accounting. The financial statement was prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statement

Management is responsible for the preparation and fair presentation of the financial statement in accordance with the cash basis of accounting described in Note 1, and for determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of a financial statement that is free from material misstatement, whether due to fraud or error.

In preparing the financial statement, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Greenfield Plaza Hills of Coventry Sanitary District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditor's Responsibilities for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statement.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Greenfield Plaza Hills of Coventry Sanitary District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statement.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Greenfield Plaza Hills of Coventry Sanitary District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit

## Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Budgetary Comparison Schedule of Receipts, Disbursements and Change in Balance on pages 18 and 19 but does not include the basic financial statement and our auditor's report thereon. Our opinion on the basic financial statement does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statement, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statement, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 31, 2023 on our consideration of the Greenfield Plaza Hills of Coventry Sanitary District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Sanitary District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Greenfield Plaza Hills of Coventry Sanitary District's internal control over financial reporting and compliance.

Ernest H. Ruben, Jr., CPA

Greenfield Plaza Hills of Coventry Sanitary District

Notes to Financial Statement

June 30, 2022

**(1) Summary of Significant Accounting Policies**

The Greenfield Plaza Hills of Coventry Sanitary District was formed in 1996 pursuant to the provisions of Chapter 358 of the Code of Iowa and is under the management and control of the Board of Trustees. The purpose of the Sanitary District is to provide sewer services to customers of the Greenfield Plaza Hills of Coventry area of Warren County, Iowa. All of the sewer service is disposed of through the Wastewater Reclamation Authority (WRA) of metropolitan Des Moines.

A. Reporting Entity

For financial reporting purposes, the Greenfield Plaza Hills of Coventry Sanitary District has included all funds, organizations, agencies, boards, agencies and authorities. The Sanitary District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the Sanitary District are such that exclusion would cause the Sanitary District's financial statement to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the Sanitary District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the Sanitary District. The Sanitary District has no component units which meet the Governmental Accounting Standards Board criteria.

B. Joint Ventures

The Sanitary District participates in the Des Moines Metropolitan Wastewater Reclamation Authority (WRA). The WRA, a joint venture, was developed as a result of an agreement between the City of Des Moines and surrounding municipalities. (See Note 3)

C. Basis of Presentation

The accounts of the Sanitary District are organized as an Enterprise Fund. Enterprise Funds are utilized to finance and account for the acquisition, operation and maintenance of governmental facilities and services supported by user charges.

Enterprise Funds distinguish operating receipts and disbursements from non-operating items. Operating receipts and disbursements generally result from providing services and producing and delivering goods in connection with an Enterprise Fund's principal ongoing operations. All receipts and disbursements not meeting this definition are reported as non-operating receipts and disbursements.

D. Basis of Accounting

The Sanitary District maintains its financial records on the basis of cash receipts and disbursements and the financial statement of the Sanitary District is prepared on that basis. The cash basis of accounting does not give effect to accounts receivable, accounts payable and accrued items. Accordingly, the financial statement does not present the financial position and results of operations of the Sanitary District in accordance with U. S. generally accepted accounting principles.

E. Budgets and Budgetary Accounting

The Trustees annually adopt a budget on the cash basis of all funds. The annual budget may be amended during the year utilizing prescribed procedures. During the year ended June 30, 2022, disbursements did not exceed the amount budgeted. The budgetary comparison and related disclosures are reported as other information.

**(2) Cash and Investments**

The Sanitary District's deposits in banks at June 30, 2022 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The Sanitary District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Sanitary District; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The Sanitary District has no investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 72.

**(3) Joint Venture**

The Sanitary District is a participating community in the Des Moines Metropolitan Wastewater Reclamation Authority (WRA) joint venture. This joint venture provides primary and secondary treatment of sewer flows for the participating communities. The amended and restated agreement for the WRA was effective on July 1, 2004. This agreement amended and restated the previous Integrated Community Area (I.C.A.) agreement to provide continued operation, improvements and expansion. The WRA agreement establishes the WRA as a separate legal entity with its own Board, creates an independent governance structure, established an independent bonding authority for the WRA and provides a framework for additional communities to participate.

Annually, the WRA establishes an allocation to all participating communities based on operations, maintenance, debt service and reserve requirements. Allocations are based on wastewater reclamation facility flows and are adjusted prospectively for differences in budgeted flows and actual flows.

The Sanitary District retains an ongoing financial responsibility to the WRA since it is obligated in some manner for the debts of the joint venture through the annual allocation. Although the debt of the WRA is to be paid solely and only from WRA revenues, the participating communities in the joint venture cannot withdraw from the joint venture while any of the bonds issued during the time the communities were a participating community are still outstanding. The WRA Sewer Revenue Bonds Series 2013B and 2015E include provisions that place the WRA debt service requirements on the same parity and rank as other debts of the participating communities.

The WRA Sewer Revenue Bonds Series 2015E and 2013B bonds were issued for capital expansion. The WRA agreement requires the debt service on these bonds to be allocated to the participating communities based on the WRA flows of the core communities and expansion communities of each calendar year. As of June 30, 2022, the Series 2015E and 2013B bonds had a balance of \$59,910,000 and the Sanitary District's estimated future allocation based on the WRA flows is currently \$215,764, or 0.36%. The state revolving loans are to be paid by the participating communities based on the existing allocations under the prior I.C.A. agreement. As of June 30, 2022, the state revolving loans had a balance of \$342,162,943 and the Sanitary District's estimated future allocation based on WRA flows is currently \$1,667,205, or 0.49%.

The WRA agreement does not provide for the determination of an equity interest for the participating communities. Withdrawing from the joint venture is a forfeit of all reversionary interest and no compensation will be paid. Pursuant to the new agreement, the Sanitary District's investment in the joint venture under the I.C.A. Agreement has been contributed to the new WRA organization. The Sanitary District retains a reversionary interest percentage in the net assets of the WRA redeemable only in the event the WRA is dissolved. During the year ended June 30, 2022, the Sanitary District paid the WRA \$249,800 for operations, maintenance, equipment replacements and debt service payments.

The WRA issues separate financial statements that may be obtained at 3000 Vandalia Road, Des Moines, Iowa 50317-1346.

#### **(4) Agreements**

On November 1, 2005, the Sanitary District entered into an intergovernmental agreement (Chapter 28E of the Code of Iowa) with the Des Moines Water Works for billing and collection services. The initial term of this agreement was until July 2, 2015, and continues thereafter from year to year unless either party shall give the other party six months written notice of its intent to terminate the agreement. During the year ended June 30, 2022, the Sanitary District paid the Des Moines Water Works \$7,786 for billing and collection services.

The Sanitary District has entered into an agreement with Thorpe Water Development Company for monthly maintenance and operation of the sewage system. The term of this agreement was signed for three (3) years effective November 20, 2014 to November 20, 2017. The maintenance agreement is on a month to month basis until a new agreement is signed. During the year ended June 30, 2022, the Sanitary District paid the Thorpe Water Development Company \$11,256 for monthly maintenance and operation of the sewage system.

The Sanitary District has entered into an agreement with Municipal Pipe and Tool Co., Inc. for cleaning the sewers. The agreement was signed for a term of five (5) years effective January 6, 2015 to January 6, 2020. However, the agreement was amended to end May 30, 2019. A new agreement was signed for a term of five (5) years effective June 2019 to June 2024. During the year ended June 30, 2022, the Sanitary District paid Municipal Pipe and Tool \$8,599 for cleaning the sewers.

#### **(5) Risk Management**

The Sanitary District is a member of the Iowa Communities Assurance Pool, as allowed by Chapter 670.7 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 794 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials liability, police professional liability, property, inland marine, and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual casualty operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses estimated for the fiscal year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained at a level determined by the Board not to exceed 300% of basis rate.

The Pool also provides property coverage. Members who elect such coverage make annual property operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses, reinsurance premiums, losses and loss expenses for property risks estimated for the fiscal year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The Sanitary District's property and casualty contributions to the Pool are recorded as disbursements from its operating funds at the time of payment to the Pool. The Sanitary District's contributions to the Pool for the year ended June 30, 2022 were \$3,963.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional, and public officials' liability risks up to \$500,000 per claim. Claims exceeding \$500,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the Sanitary District's risk-sharing certificate. Property and automobile physical damage risks are retained by the Pool up to \$250,000 each occurrence, each location. Property risks exceeding \$250,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the Sanitary District's risk-sharing certificate.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim, property loss or series of claims or losses exceeds the amount of risk-sharing protection provided by the Sanitary District's risk-sharing certificate, or in the event a casualty claim, property loss or series of claims or losses exhausts the Pool's funds and any excess risk-sharing recoveries, then payment of such claims or losses shall be the obligation of the respective individual member against whom the claim was made or the loss was incurred. As of June 30, 2022, settled claims have not exceeded the risk pool or reinsurance coverage since the Pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days' prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Upon withdrawal, a formula set forth in the Pool's intergovernmental contract with its members is applied to determine the amount (if any) to be refunded to the withdrawing member.

Notes to Other Information – Budgetary Reporting

June 30, 2022

In accordance with the Code of Iowa, the Sanitary District annually adopts a budget on the cash basis following required public notice and hearing. The annual budget may be amended during the year utilizing similar statutorily prescribed procedures.

Formal and legal budgetary control is based upon classes of disbursements known as functions, not by fund. The sewer disbursements are budgeted in the business type activities function. The sewer budget was not amended during the year.

During the year ended June 30, 2022, disbursements did not exceed the amount budgeted.

**OFFICE OF AUDITOR OF STATE  
STATE OF IOWA**

Rob Sand  
Auditor of State

State Capitol Building  
Des Moines, Iowa 50319-0006  
Telephone (515) 281-5834 Facsimile (515) 281-6518

**Independent Auditor's Report on Internal Control  
over Financial Reporting and on Compliance and Other Matters  
Based on an Audit of a Financial Statement Performed in Accordance with  
Government Auditing Standards**

To the Members of the Greenfield Plaza Hills of Coventry Sanitary District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statement of the Greenfield Plaza Hills of Coventry Sanitary District as of and for the year ended June 30, 2022, and the related Notes to Financial Statement, and have issued our report thereon dated January 31, 2023. Our report expressed an unmodified opinion on the financial statement which was prepared on the basis of cash receipts and disbursements, a basis of accounting other than U.S. generally accepted accounting principles.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statement, we considered the Greenfield Plaza Hills of Coventry Sanitary District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Greenfield Plaza Hills of Coventry Sanitary District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Greenfield Plaza Hills of Coventry Sanitary District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the Greenfield Plaza Hills of Coventry Sanitary District's financial statement will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We identified a deficiency in internal control, described in the accompanying Schedule of Findings as item (A), that we consider to be a material weakness.

## Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Greenfield Plaza Hills of Coventry Sanitary District's financial statement is free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under Government Auditing Standards. However, we noted an immaterial instance of non-compliance or other matters which is described in the accompanying Schedule of Findings.

Comments involving statutory and other legal matters about the Sanitary District's operations for the year ended June 30, 2022 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statement of the Sanitary District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

## Greenfield Plaza Hills of Coventry Sanitary District's Responses to Findings

Government Auditing Standards require the auditor to perform limited procedures on Greenfield Plaza Hills of Coventry Sanitary District's responses to the findings identified in our audit and described in the accompanying Schedule of Findings. Greenfield Plaza Hills of Coventry Sanitary District's responses were not subjected to the other auditing procedures applied in the audit of the financial statement and, accordingly, we express no opinion on the responses.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the Sanitary District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Sanitary District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of the Greenfield Plaza Hills of Coventry Sanitary District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Ernest H. Ruben, Jr., CPA  
Deputy Auditor of State

January 31, 2023

Greenfield Plaza Hills of Coventry Sanitary District

Schedule of Findings

Year ended June 30, 2022

**Findings Related to the Financial Statement:**

**INTERNAL CONTROL DEFICIENCY:**

(A) Utility Billings and Service Fees

Criteria – An effective internal control system provides for internal controls related to ensuring the accuracy of fees collected by reconciling those collections to amounts billed. An effective system also provides controls to ensure service fees are properly recorded as disbursements.

Condition – Des Moines Water Works (Water Works) bills and collects sewer fees on behalf of the Sanitary District. Each month, the Sanitary District receives a summary of collections and a list of customer account balances. However, there is no evidence these reports are reviewed by the Sanitary District to ensure collections are reasonable based on amounts billed. In addition, Des Moines Water Works charges \$1.00 per household as a monthly service fee which is withheld from payments to the Sanitary District rather than recording sewer fees intact and recording an appropriate disbursement for the service fee.

Cause – Management has not required procedures to identify what should be collected for sewer charges each billing period, to reconcile expected collections to actual collections and to record sewer fees as a disbursement rather than a reduction of receipts.

Effect – Lack of monthly sewer collection reconciliations to billings and customer account balances could adversely affect the Sanitary District's ability to prevent or detect and correct misstatements, errors or misappropriation on a timely basis. The Sanitary Districts' receipts and disbursements are understated when monthly service fees are withheld from collections rather than remitting a check to the Water Works for services performed.

Recommendation – The Sanitary District should establish procedures to ensure the proper amount of sewer fees are collected, including reconciling billings, collections and customer account balances for each billing cycle. The Sanitary District should remit a check to Des Moines Water Works for the monthly service fee rather than allowing it to be withheld from collections.

Response – Our Clerk receives and reviews our monthly Water Works statements as listed in the monthly reports to the Board. Our District has a contract with Water Works to collect our monthly fees.

Conclusion – Response acknowledged. Review of monthly statements should be documented by signing or initialing and dating the statements. The Sanitary District should implement procedures to reconcile billings, collections and customer account balances for each billing cycle and should record service fees as a disbursement rather than a reduction of receipts.

**INSTANCES OF NON-COMPLIANCE:**

No matters were noted.

Greenfield Plaza Hills of Coventry Sanitary District

Schedule of Findings

Year ended June 30, 2022

**Other Findings Related to Required Statutory Reporting:**

- (1) Questionable Disbursements – No disbursements we believe may not meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979 were noted.
- (2) Travel Expense – No disbursements of Sanitary District money for travel expenses of spouses of Sanitary District officials or employees were noted.
- (3) Sanitary District Minutes – No transactions were found that we believe should have been approved in the Sanitary District minutes but were not.
- (4) Deposits and Investments – The Sanitary District has adopted a written investment policy. However, it does not include all provisions required by Chapter 12B.10B of the Code of Iowa. In addition, a resolution naming official depositories has not been adopted by the Sanitary District as required by Chapter 12C.2 of the Code of Iowa

Recommendation – A formal written investment policy and depository resolution in amounts sufficient to cover anticipated balances at all approved depositories should be adopted in accordance with Chapters 12B and 12C of the Code of Iowa.

Response – We will adopt policies that comply with the Code of Iowa.

Conclusion – Response accepted.

- (5) Bond Coverage – Surety bond coverage of Sanitary District officials is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that the coverage is adequate for current operations.
- (6) Certified Budget – Disbursements during the year ended June 30, 2022 did not exceed the certified budget.
- (7) Business Transactions – There were no business transactions noted between the Sanitary District and Sanitary District officials or employees.
- (8) Restricted Donor Activity – No transactions were noted between the Sanitary District, Sanitary District officials and restricted donors in compliance with Chapter 68B of the Code of Iowa.
