## Work locations

Most students will work at Iowa DOT offices, located within the central complex in Ames, Iowa. Some positions are located in one of the Iowa DOT's six district offices or 13 resident construction offices on the map below.

## To qualify, students must:

- Be able to work 10 to 40 hours per week.
- Be enrolled as a college student.

Students may be required to periodically submit written reports and make oral presentations to summarize their internship efforts, outcomes, and relevance to degree programs and career aspirations.

## Internship goals

The Business, Industry, and Technology Student Internship Program will complement each student's course work and lab experiences in their respective undergraduate degree program.

At the end of the summer, students will have gained increased technical and nontechnical skills related to their curriculum, and have a greater understanding of the field and what technical areas they are interested in upon graduation.
