October 2015

**Message from the Director
National Agricultural Statistics Service
Upper Midwest Region, Iowa Field Office**

The USDA's National Agricultural Statistics Service, Upper Midwest Regional Office is pleased to collaborate with the Iowa Farm Bureau to provide you with the latest edition of the *Iowa Agricultural Statistics**. This statistical profile of Iowa's agriculture not only includes state level information but also includes information for every Iowa county.

Enclosed you will find many interesting statistics about Iowa's vibrant and dynamic agricultural industry. I would like to highlight the fact that in the 2014 ranking of states, Iowa ranked first in:

- Corn for Grain Production
- Corn Export Value
- Egg Production
- Hogs and Pigs Inventory & Value
- Pork Export Value
- Pig Crop
- Sows Farrowed
- Commercial Hog Slaughter
- Capacity of On-Farm Storage
- Capacity of Total Storage
- Harvested Acreage of Principal Crops
- Feeds and Fodder Export Value

Iowa is ranked second in:

- Soybean Production
- Soybean Export Value
- Red Meat Production
- Cash Receipts from Marketings
- Farm Production Expenditures
- Cash Rent for Cropland
- Net Farm Income
- Capacity of Commercial Grain Facilities
- Field and Misc Crop Value
- Total Value of Agricultural Exports

Publication and dissemination of these and other agricultural statistics is only possible with the support of the entire agricultural industry. I want to thank the Iowa farmers who completed their questionnaires on inventories and production, the buyers and processors who graciously provided data on their inventories and purchases, as well as all those who supplied analyses that made the *Iowa Agricultural Statistics* possible. It is only with your assistance that NASS is able to complete its mission of providing timely, accurate, and useful statistics in service to U.S. agriculture.

Thank you for your support and interest in Iowa agriculture. The Iowa Field Office staff is dedicated to meeting the agricultural data needs of all users. Please contact us anytime with your questions, comments, and requests for information.

Greg A. Thessen, Director

Much of the data used to calculate statistics published by the National Agricultural Statistics Service is collected by a part-time staff of telephone and field enumerators. This enumerator staff is employed by the National Association of State Departments of Agriculture (NASDA) and serves as contract workers for the USDA. The Iowa Field Office thanks the Iowa enumerators for their contribution and dedication in providing Iowa with the highest quality agricultural information possible.

2014 Iowa Agricultural Overview

Crops and Weather Summary

The 2014 crop season started off slowly due to colder than normal temperatures and considerable frost depth. Planting progress during April was ahead of 2013 but behind the normal pace. By the end of the month 15 percent of corn had been planted, and in some areas had begun to emerge. Statewide above normal precipitation throughout April helped replenish soil moisture levels and improved pasture and range conditions.

Planting progress advanced rapidly during May with 96 percent of the state's corn acreage and 80 percent of soybean acreage planted by the week ending May 25. At the end of the month, 89 percent of the corn crop had emerged, 19 percentage points ahead of 2013. Sixty-three percent of soybeans had emerged, 42 points ahead of the previous year. Twelve percent of the oat crop was headed. The first cutting of alfalfa hay was 7 percent complete by the week ending May 25.

By mid-June almost all of the soybean and corn crops had emerged. Recurring precipitation during the second half of June limited most fieldwork and harvest of alfalfa hay. With the exception of southeast Iowa, over one-quarter of the State's topsoil was in surplus condition. By the end of the month, 86 percent of the oat acreage was headed, 2 percentage points behind average. There were isolated reports of corn silking and 6 percent of the soybean acreage was blooming, 10 days ahead of the previous year but 2 days behind average. The first cutting of alfalfa hay was 90 percent complete.

The week ending July 6 saw the highest topsoil moisture at 37 percent surplus and the highest subsoil moisture at 25 percent surplus statewide; however, dry and cool weather persisted for the rest of July allowing farmers to catch up on fieldwork but slowing crop progress. Corn silking surpassed the normal pace in mid-July, with slightly more than half of the acreage in or past the silking stage. Soybeans setting pods was also slightly ahead of normal at mid-month. Statewide there were 6.5 days suitable for fieldwork for the week ending July 20, the most thus far in the season. The second cutting of alfalfa hay started in earnest in early July.

Frequent rains from late August into September increased soil moistures. By the end of August, 92 percent of the corn crop was in the dough stage, 23 percentage points above 2013 and 6 points above the five-year average. Ninety-six percent of the soybean crop was setting pods, 1 week ahead of the previous year but slightly behind normal. Oat harvest for grain was virtually complete. The third cutting of alfalfa hay was 53 percent complete, 22 percentage points below 2013 and 23 points below the five-year average.

Above average temperatures pushed crops towards maturity by the last week in September. Fifty-eight percent of corn had reached the mature stage, 8 days behind normal. Some scattered corn harvest for grain had begun. Leaves were turning color on 94 percent of the soybean crop, equal to the 5-year average for this stage for the first time this season. The third cutting of alfalfa hay was 91 percent complete, just over 2 weeks behind both 2013 and average.

High grain moisture levels and wet fields caused harvest activities to progress slowly at times during October. By the week ending October 26, 36 percent of corn harvest was complete, 6 days behind 2013 and 16 days behind the 5-year average. Soybean harvest reached 81 percent complete, 2 days behind the previous year and 4 days behind normal. The third cutting of alfalfa hay spanned almost 3 months from the end of July to the middle of October, never advancing ahead of the average.

November was relatively dry but unseasonably cold, with the first snow accumulation occurring in northern Iowa on the 10th. By the end of the season, only isolated corn fields remained to be harvested and soybean harvest was virtually complete. Condition of the corn crop did not change dramatically from early in the year and ended with 76 percent in good to excellent condition as of November 2. By November 23, 96 percent of the corn crop was harvested, 2 days ahead of average. Soybean harvest was 99 percent complete. Off-farm grain storage availability was rated at 86 percent adequate to surplus. On-farm grain storage availability was 79 percent adequate to surplus.

Livestock Summary

Iowa's cattle and hog producers received \$13.88 billion in cash receipts during 2014, a 17 percent increase from receipts in 2013. Cattle and calves accounted for \$4.67 billion of the cash receipts and hog sales totaled \$9.21 billion.

Iowa producers had 3.9 million **cattle and calves** on farms January 1, 2015, up 100,000 from January 1, 2014. Cows that had calved totaled 1.13 million head, up 3 percent from a year earlier. Of this total, 920,000 head were beef cows and 210,000 head were milk cows.

Heifers weighing 500 pounds and over were at 940,000, up 2 percent from a year earlier. Of this total, 170,000 head were beef cow replacements, 130,000 head were milk cow replacements, each up 10,000 head from 2014; while all other heifers numbered 640,000 head, unchanged from the previous year.

Steers weighing 500 pounds or more were up 3 percent at 1.31 million head. Bulls 500 pounds and over were unchanged from the previous 2 years at 60,000 head. Calves weighing under 500 pounds totaled 460,000 head, up 2 percent.

Iowa continued to rank number one in **hog** inventory in the United States, with 31 percent of the nation's hogs in 2014. Hogs and pigs on hand December 1, 2014, totaled 21.3 million head, 5 percent higher than a year ago.

Iowa's pork producers farrowed 1.99 million sows from December 2013 through November 2014. The average pigs saved per litter was 10.48. This resulted in a pig crop of 20.86 million, an increase of 4 percent from 2013.

Sheep and lambs totaled 175,000 head on January 1, 2015, up 13 percent from a year ago. An estimated 150,000 lambs were born during 2014, up 11 percent.

Iowa **milk production** totaled 4.65 billion pounds of milk during 2014, up 1 percent from 2013. Milk cows on hand decreased 1,000 from 2013, averaging 207,000 head. The annual average milk produced per cow was 22,444 pounds, up 1 percent from the previous year.

Slaughter plants in Iowa produced 6.60 billion pounds of red meat (beef, veal, pork, and mutton) during 2014, increasing slightly from 2013.

Prices Summary

All milk prices averaged \$24.60 per hundredweight in 2014, up 20 percent from \$20.50 in 2013. Prices averaged from a high of \$26.40 in September to a low of \$20.90 in December.

The 2013-2014 marketing year average price received for corn was \$3.70, down 18 percent from the previous year. The market year began with \$5.66 per bushel in September and ended with \$3.61 per bushel in August. The average monthly prices for the 2014 calendar year ranged from a high of \$4.76 in April to a low of \$3.51 in September.

The 2013-2014 marketing year average price for soybeans was \$9.96 per bushel, a 24 percent decrease from 2012-2013. The marketing year began with \$13.90 per bushel in September and ended with \$12.40 per bushel in August. The average monthly prices for the 2014 calendar year ranged from a high of \$14.70 per bushel in May to a low of \$10.00 per bushel in both October and December.

The 2013-2014 marketing year average price for oats was \$3.60 per bushel, down 8 percent from 2012-2013. The marketing year began with \$3.70 per bushel in July and ended with \$4.18 per bushel in June. The average monthly prices for the 2014 calendar year ranged from a high \$5.17 per bushel in February to a low of \$3.15 in September.

The 2013-2014 marketing year average price for all hay was \$133 per ton, decreasing 24 percent from the previous year. Average monthly prices for the 2014 calendar year ranged from a high of \$171 per ton in January to a low of \$132 in both October and December.

2014	1,200	3,100	3,000	5,000	18,200	30,500

The definition of a farm is "any place from which \$1,000 or more of agricultural products were produced and sold, or normally would have been sold, during the year". This definition has remained the same since 1974. Government payments are included in sales. Ranches, institutional farms, experimental and research farms, and Indian Reservations are included as farms. Places with the entire acreage enrolled in the Conservation Reserve Program (CRP), Wetlands Reserve Program (WRP), or other government programs are counted as farms.

The 2007 Census of Agriculture showed a significant increase in the number of farms, and reversed the downward trend that was shown in the annual estimates of Farm Numbers since the 2002 Census of Agriculture. NASS believes some of the increase is due to methodological changes allowing NASS to more accurately count small farms in the 2007 Census. The 2007-2012 farm number estimates reflect adjustments in the number of farms based on estimates produced by the 2007 Census of Agriculture.

Crop Summary, Acres Planted, Harvested, Yield and Production – Iowa and U.S.

¹ Less than 1/2 of 1 percent.

² Crops included are corn, sorghum, oats, barley, rye, winter wheat, Durum wheat, other spring wheat, rice, soybeans, peanuts, sunflower, cotton, dry edible beans, potatoes, canola, proso millet, and sugarbeets. Harvested acreage is used for all hay, tobacco, and sugarcane in computing total area planted. Includes double cropped acres and unharvested small grains planted as cover crops.

³ December 1, 2013.

Source: National Agricultural Statistics Service (NASS), Crop Progress Report

Crop Condition: The following definitions are used when evaluating crop condition.

Very Poor: Extreme degree of loss to yield potential, complete or near crop failure.

Poor: Heavy degree of loss of yield potential which can be caused by excess soil moisture, drought, disease, etc.

Fair: Less than normal crop condition. Yield loss is a possibility but the extent is unknown.

Good: Yield prospects are normal. Moisture levels are adequate and disease, insect damage, and weed pressures are minor.

Excellent: Yield prospects are above normal and crops are experiencing little or no stress. Disease, insect damage, and weed pressures are insignificant.

¹ September 1 – August 31.

² Includes beginning stocks, production, and imports.

³ Ending stocks available by days is calculated by dividing the current year's total use by days during a year to obtain a daily use. The ending stocks are then divided by the daily use to obtain stocks available by days.

⁴ Estimated

Objective Yield Data: Corn for Grain, Iowa

The National Agricultural Statistics Service conducts objective yield surveys in randomly selected plots in corn for grain fields. These fields are visited monthly from August through harvest to obtain specific counts and measurements. Data in these tables are rounded actual field counts from this survey.

Corn for Grain: Plant Population per Acre

Year	Sep	Oct	Nov	Final

¹ Corn marketing season is from September 1 through August 31 of the following year.

² Market year average price does not include any grain forfeited to CCC. For crops, market year prices are computed by weighting monthly prices by estimated monthly marketings.

Corn Prices Received, Iowa by District, Crop Marketing Year

Biotechnology Varieties, Iowa and U.S.

USDA, National Agricultural Statistics Service conducts the June Agricultural Survey each year. Randomly selected farmers across Iowa are asked if they planted corn seeds that, through biotechnology, are resistant to herbicides, insects, or both. Conventionally bred herbicide resistant varieties were excluded. Insect resistant varieties include only those containing bacillus thuringiensis (Bt). Stacked gene varieties include those containing biotech traits for both herbicide and insect resistance.

Crop Condition: The following definitions are used when evaluating crop condition.

Very Poor: Extreme degree of loss to yield potential, complete or near crop failure.

Poor: Heavy degree of loss of yield potential which can be caused by excess soil moisture, drought, disease, etc.

Fair: Less than normal crop condition. Yield loss is a possibility but the extent is unknown.

Good: Yield prospects are normal. Moisture levels are adequate and disease, insect damage, and weed pressures are minor.

Excellent: Yield prospects are above normal and crops are experiencing little or no stress. Disease, insect damage, and weed pressures are insignificant.

¹ September 1 – August 31.

² Includes beginning stocks, production, and imports.

³ Ending stocks available by days is calculated by dividing the current year's total use by days during a year to obtain a daily use. The ending stocks are then divided by the daily use to obtain stocks available by days.

⁴ Estimated

Objective Yield Data Soybeans, Iowa

The National Agricultural Statistics Service conducts objective yield surveys in randomly selected plots in soybean fields. These fields are visited monthly from August through harvest to obtain specific counts and measurements. Data in these tables are rounded actual field counts from this survey.

¹ Soybean marketing season is from September 1 through August 31 of the following year.

² Market year average price does not include any grain forfeited to CCC. For crops, market year prices are computed by weighting monthly prices by estimated monthly marketings.

Soybean Prices Received, Iowa by District, Crop Marketing Year

Biotechnology Varieties, Iowa and U.S.

USDA, National Agricultural Statistics Service conducts the June Agricultural Survey each year. Randomly selected farmers across Iowa are asked if they planted soybean seeds that, through biotechnology, are resistant to herbicides. Conventionally bred herbicide resistant varieties were excluded.

¹ Oat marketing season is from September 1 through August 31 of the following year.

² Market year average price does not include any grain forfeited to CCC. For crops, market year prices are computed by weighting monthly prices by estimated monthly marketings.

NA, Not Available.

¹ Number of feedlots with 1,000 head or more capacity is number of lots operating anytime during year. Number under 1,000 head capacity is number at end of year.

² Beginning in 2008, NASS state level estimates of feedlots will only be published in the Census of Agriculture. U.S. level estimates will continue to be published annually.

2014	2,740	65.1	178,270	41,192	216.1	385,241

¹ Honey producing colonies are the maximum number of colonies from which honey was taken during the year. It is possible to take honey from colonies which did not survive the entire year.

² Stocks held by producers.

³ Average price per pound based on expanded sales.

⁴ Value of production is equal to production multiplied by average price per pound.

⁵ Due to rounding, total colonies multiplied by total yield may not exactly equal production.

Farm Production Expenditures – Iowa: 2013-2014

¹ Number of farms reporting item divided by total number of farms. ² The average per farm is computed by dividing the line-item total expense by the total number of farms. Totals may not add due to rounding. ³ Includes landlord and contractor share of farm production expenses. Totals may not add due to rounding. ⁴ Includes purchases and leasing of livestock and poultry. Intra-state and inter-state transfers of livestock are captured. ⁵ Includes all crop custom work, veterinary custom services, transportation costs, marketing charges, insurance, leasing of machinery and equipment, utilities, general and miscellaneous business expenses. ⁶ Includes cash rent paid, share rent, plus public and private grazing fees. ⁷ Includes material and application costs. ⁸ Includes bedding and litter, marketing containers, power farm shop equipment, oils and lubricants, temporary fencing, miscellaneous non-capital equipment and supplies, repairs and maintenance of equipment not depreciated, and other small, non-capital equipment. ⁹ Includes all expenditures related to new construction or repairs of buildings, fences, operator dwelling (if dwelling is owned by operation), and any improvements to physical structures of land. ¹⁰ All purchases of seed, plants, or seed treatments for nursery and farming operation are included. Bedding plants, nursery stock, and seed purchased for resale are excluded.

Average Cash Rent, Non-irrigated Cropland, Iowa, Dollars per Acre, 2014

Average Cash Rent, Pasture, Iowa, Dollars per Acre, 2014

2015 Farm Custom Rates - Iowa

[Values are rates expected to be charged or paid and include tractor, implement, fuel and labor. This rate schedule is intended only as a guide. Actual custom rates may vary according to availability of machinery in a given area, timeliness, operator skill, field size and shape, crop conditions, and the performance characteristics of the machine being used.]

	(average)	(range)		(average)	(range)
<u>TILLAGE / ACRE</u>			<u>HARVESTING, DRYING, AND HAULING GRAIN</u>		
Chopping cornstalks, /acre	\$11.90	6.50 - 17.50	Corn combining / acre	\$35.35	25.00 - 55.00
Moldboard plowing	18.50	13.00 - 25.00	-with chopper head / acre	41.05	30.75 - 57.00
Chisel plowing	16.90	12.00 - 22.00	Soybean combining / acre	34.75	24.00 - 53.00
Disk/Chiseling	17.95	12.00 - 25.00	-with air reel / acre	37.05	32.00 - 42.00
Vertical tillage	16.90	10.00 - 21.00	-with draper head / acre	38.35	30.00 - 49.50
Subsoiling (8-15 in. deep)	20.10	13.50 - 25.00	Small grain combining / acre	30.00	20.00 - 35.00
V-ripping (over 15 in. deep)	21.70	13.50 - 30.00	Complete harvesting (combine, grain cart, haul to farm storage)		
V-ripping with tandem disk	23.50	14.75 - 33.00	-Corn / acre	50.35	30.00 - 90.00
Disking, tandem	14.65	7.50 - 20.00	-Soybeans / acre	47.75	30.00 - 85.00
Disking, offset	19.00	14.00 - 24.00	Added charge for GPS mapping	2.90	1.00 - 5.00
Harrowing	9.35	4.00 - 13.00	Picking ear corn (seed corn)	36.55	35.00 - 39.00
Soil finishing	14.75	10.00 - 20.00	Picking ear corn (farm use)	29.50	25.00 - 35.00
Field cultivating	14.05	8.00 - 21.00	Drying corn (includes fuel, electricity, labor)		
Rock picking	14.95	9.00 - 20.00	-continuous flow dryer, point/ bu	0.055	0.040 - 0.060
Cultivating, conventional	14.65	8.00 - 19.00	-bin dryer, point/bu	0.063	0.050 - 0.070
Cultivating, ridge-till	16.85	15.00 - 20.00	Handling grain by auger, / bu	0.061	0.010 - 0.100
Rotary hoeing	11.00	5.50 - 15.00	Hauling grain		
Land rolling	7.90	5.00 - 12.00	-grain cart, corn, / acre	6.95	2.00 - 15.00
<u>PLANTING, DRILLINGS AND SEEDING / ACRE</u>			-grain cart, soybeans / acre	6.05	3.00 - 15.00
Planting -			-farm storage, wagon / bu	0.077	0.030 - 0.130
-with fertilizer & insect. attachments	\$19.90	13.00 - 30.00	-farm storage-market wagon/bu	0.087	0.020 - 0.150
-without attachments	18.50	12.00 - 28.00	-market, truck (5 mi, 1-way) /bu	0.108	0.050 - 0.180
-with splitters & attachments	21.30	15.00 - 27.00	-market, truck (25 mi, 1-way)/bu	0.180	0.090 - 0.300
-no-till planter	20.50	15.00 - 30.00	-market, truck (100 mi, 1-way)/bu	0.371	0.250 - 0.500
-no-till planter with splitters	21.55	15.00 - 30.00	<u>HARVESTING FORAGES</u>		
-ridge till planter	23.25	17.00 - 29.00	Hay – mowing / acre	\$12.05	9.00 - 16.00
Extra Charge for seed shut-offs	2.70	0.50 - 5.00	-conditioning / acre	11.60	11.00 - 12.00
Extra charge for var. rate seeding	3.15	1.00 - 5.00	-mowing/conditioning / acre	14.25	11.00 - 19.00
Seed tender	3.75	2.00 - 6.00	-raking / acre	6.50	4.00 - 10.00
Drilling Soybeans	16.75	12.00 - 24.00	-windrowing / acre	13.40	5.00 - 16.50
Drilling soybeans, no-till	19.20	14.00 - 28.00	-tedding / acre	7.65	5.00 - 8.00
Drilling grass seed	16.35	10.00 - 25.00	Swathing hay or small grain / acre	13.10	12.00 - 15.00
Drilling small grain	15.90	10.00 - 20.00	Hay baling – small sq. bales / bale	0.72	0.50 - 1.10
Seeding grass, broadcast w/tractor	12.30	8.00 - 15.00	-large square bales /bale	10.75	8.00 - 12.00
Seeding grass, broadcast with ATV	14.55	6.50 - 20.00	-large round bales w/o wrap/bale	11.25	8.00 - 14.00
<u>SPRAYING / ACRE (materials not</u>			-large round bales with wrap /bale	12.85	10.00 - 16.00
Ground, broadcast, tractor	\$7.40	5.00 - 15.00	Straw or corn stalk baling		
Ground, incorporated, tractor	11.15	5.70 - 18.25	-lg round or sq w/ o wrap / bale	12.35	11.00 - 14.00
Ground, broadcast, self propelled	7.70	4.50 - 16.00	-lg round or sq w/ wrap / bale	14.80	11.50 - 20.00
Ground, banded, tractor	11.05	9.00 - 13.00	Pick up w/accumulator-lg sq. bales /bale	3.15	1.75 - 4.00
Ground, road ditches / hour	63.80	30.00 - 85.00	Move lg round bales to storage/bale	3.00	2.50 - 3.46
Aerial	10.60	7.50 - 15.00	Move lg sq bales to storage /bale	3.30	2.20 - 4.25
<u>FERTILIZER APPLICATIONS / ACRE (materials not included)</u>			Haul round bales, bale / loaded mile	0.14	0.01 - 0.22
Dry bulk – applied	\$5.40	2.00 - 9.00	Haul sq bales bale / loaded mile	0.09	0.01 - 0.16
– strip-till	17.20	10.00 - 20.00	Silage		
Liquid – spraying	7.35	5.00 - 10.50	-chopping, hour / header row	64.75	11.67 - 125.00
– strip-till, knifed	16.30	13.00 - 20.00	-chopping / ton	7.80	5.00 - 10.00
– side dressing	12.25	6.00 - 18.50	-chopping, haul, fill silo / ton	8.70	8.00 - 9.00
Anhydrous			Filling silage bags	12.25	10.00 - 13.33
– injecting, with tool bar	12.80	6.75 - 20.00	Haylage – chopping	9.85	7.50 - 12.50
– injecting, without tool bar	11.70	7.00 - 18.00	Earlage or snaplage - chopping	54.05	50.00 - 69.50
Spreading lime / ton	6.25	3.00 - 10.00			

	(average)	(range)
MISCELLANEOUS SERVICES (labor, fuel, and equipment included)		
Removing snow (loader) / hour	\$77.90	30.00 - 110.00
Removing snow (blade) /hour /ft bld	5.65	1.00 - 10.00
Removing snow (blower) hour/ft	11.00	2.00 - 19.44
Grinding, mixing feed / ton	10.80	10.00 - 11.75
Tub grinding hay / hour	221.70	200.00 - 250.00
Tub grinding hay /ton	11.40	10.00 - 12.50
Spread liq manure, inject /1,000 gal.	13.50	10.00 - 16.00
Liq manure w/drag line 1,000 gal.	12.25	10.00 - 15.00
Loading solid manure / hour	76.05	50.00 - 110.00
Load, spread solid manure / hour	122.25	100.00 - 150.00
Power washing / hour	42.10	35.00 - 50.00
Building fence, barb/hr (no mats)	16.45	15.00 - 18.00
Building fence, barb/ rod (no mats)	14.25	10.00 - 18.00
Building fence, woven/hr (no mats)	17.50	15.00 - 20.00
Build fence, woven/rod (no mats)	14.75	12.00 - 16.80
Scouting crops / acre	4.90	2.50 - 7.00
Soil testing / sample	6.45	2.00 - 10.00
GPS grid soil testing / acre	6.80	2.50 - 10.00
Managing stored grain / bu	0.06	0.01 - 0.10
Vacuuming grain / bu	0.09	0.01 - 0.18
Shearing sheep / head	3.80	3.50 - 3.95
Livestock hauling/trailer /loaded mile	2.80	1.50 - 4.50
-straight truck /loaded mile	3.35	3.00 - 4.00
-semi truck / loaded mile	3.90	3.50 - 4.00
Bulldozing hour / foot of blade	12.60	9.38 - 15.00
Digging post holes / hole	3.95	3.00 - 5.00
Driving steel fence posts / post	2.55	2.00 - 4.00
Driving wooden fence posts / post	3.95	3.00 - 4.50
Building terraces, grassed back /ft	3.10	2.50 - 3.50
Building terraces, narrow base /ft	2.55	2.00 - 3.00
Trenching / foot	1.45	0.75 - 2.00
Tiling, tiling machine (excl mats)/ft	1.15	0.55 - 2.00
Tiling, tile plow (excl mats) /ft	0.76	0.40 - 1.00
Back hoeing / hour	91.25	50.00 - 125.00
Clearing land / hour	135.45	85.00 - 165.00
Building ponds / hour	147.90	140.00 - 153.05
Chain sawing / hour	58.70	40.00 - 85.00
Welding machinery / hour	52.80	45.00 - 75.00
Mowing CRP or pasture / acre	18.35	10.00 - 30.00
Mowing fence rows, ditches / hour	69.70	18.00 - 100.00
Mowing lawns / hour	38.05	25.00 - 60.00
Chopping brush / acre	28.30	20.00 - 40.00
Using truck scale, load weighed	3.95	1.00 - 6.00

	(average)	(range)
CUSTOM FARMING (tillage, planting, pest control, harvesting, and hauling to farm, no drying)		
Corn / acre	\$136.50	82.00 - 175.00
Soybeans / acre	125.35	78.00 - 170.00
Small grain / acre	93.65	82.50 - 100.00

MACHINE RENTAL (operator, tractor, and fuel not included)

Tractor horsepower / hour	\$0.28	0.17 - 0.40
Grain drill / acre	10.35	6.00 - 15.00
No-till soybean drill / acre	12.70	8.00 - 18.00
Corn head for combine / acre	10.05	8.00 - 14.00
Soybean head for combine / acre	9.50	6.00 - 13.00
Grain cart with auger, corn / acre	6.45	2.00 - 10.00
Grain cart w/auger, soybeans / acre	5.80	3.00 - 7.50
Grain wagon / bu	0.08	0.05 - 0.11
Grain truck (semi) bushel/round trip	0.12	0.05 - 0.17
Grain auger / bu	0.06	0.02 - 0.08
Grain vacuum / bu	0.08	0.01 - 0.15
Grain cleaner / bu	0.08	0.05 - 0.10
Liquid manure spreader / hr	41.35	35.00 - 45.00
Solid manure spreader / hr	43.55	35.00 - 50.00
Skid loader / hr	53.40	30.00 - 80.00
Dry bulk fertilizer applicator / acre	3.75	3.00 - 4.50
Liquid fertilizer applicator / acre	5.75	3.00 - 7.50
Anhydrous fertilizer app / acre	5.70	3.00 - 10.00
Power washer / hr	40.55	35.00 - 50.00
Generator / hr	43.05	40.00 - 50.00
Tub grinder / hr	209.20	200.00 - 220.00

BIN RENTAL

Bin dryer, (no fuel/labor) /bu dried	\$0.076	0.050 - 0.100
Storing grain, bin rental bu/month	0.031	0.010 - 0.100
Storing grain, bin rental bu/year	0.176	0.100 - 0.300

FARM LABOR WAGES FOR OPERATING MACHINERY

Spraying or harvesting / hour	\$16.40	10.00 - 25.00
Other operations / hour	14.20	10.00 - 20.00

¹ Includes all workers and methods of pay except those workers paid by piece rate.

² Corn Belt II Region: Iowa, Missouri

³ Because of budget constraints, NASS did not conduct the Agricultural Labor Survey during this month.

COUNTY HIGHLIGHTS

The following pages provide a snapshot of agriculture in each Iowa County. Annual data are provided when available based on various surveys, otherwise data from the 2012 Census of Agriculture is provided. This section highlights the importance of agriculture to each and every county in Iowa.

Below is a list of comparable items at the state level.

STATE OF IOWA

Census of Agriculture - 2012

Total Land in Farms (acres)	30,622,731	Market Value of:	
Number of Farms	88,637	All Farm Products (\$1,000)	30,821,532
Average Farm Size (acres)	345	All Crops (\$1,000)	17,366,814
Average Age of Farmers	57.1	All Livestock (\$1,000)	13,454,718
Hogs & Pigs Inventory (head)	20,455,666	Production Expenses (\$1,000)	23,711,880

Cattle - January 1, 2015

	Number of Head
All Cattle & Calves	3,900,000
Beef Cows	920,000
Milk Cows	210,000

Crops - 2014 Acreage, Yield, & Production

	Planted Acres	Harvested Acres	Yield per Acre	Production
	(acres)	(acres)	(bu/acre)	(1,000 bu.)
Corn for Grain	13,700,000	13,300,000	178.0	2,367,400
Soybeans	9,900,000	9,820,000	51.5	505,730
Oats	145,000	55,000	64.0	3,520,000
	(acres)	(acres)	(tons/acre)	(1,000 tons)
Alfalfa Hay	(NA)	810,000	3.60	2,916,000
Other Hay	(NA)	345,000	2.20	759,000

Key for the county tables:

(NA) Not Available

(D) Not Published to Avoid Disclosure of Individual Operations

T Indicates there was a tie in the County Ranking

Crop Rank in State is based on Production.

ADAIR COUNTY

Census of Agriculture - 2012

Total Land in Farms (acres)	323,549	Market Value of:	
Number of Farms	726	All Farm Products (\$1,000)	188,168
Average Farm Size (acres)	446	All Crops (\$1,000)	123,490
Average Age of Farmers	58.9	All Livestock (\$1,000)	64,678
Hogs & Pigs Inventory (head)	36,392	Production Expenses (\$1,000)	162,930

-----------	---

Iowa is divided into agricultural statistics districts for convenience in compiling and presenting statistical information on crops and livestock. These nine districts are outlined on the above map. The districts are designated as follows: Northwest (NW), West Central (WC), Southwest (SW), North Central (NC), Central (C), South Central (SC), Northeast (NE), East Central (EC), and Southeast (SE). In this bulletin, tables with statistical information by county have the counties grouped alphabetically within each district. Totals and averages are shown for each district.

Following is an alphabetical list of counties showing the crop reporting district in which each county is located:

Adair -----SW	Davis----- SE	Jefferson----- SE	Pocahontas ----- NW
Adams-----SW	Decatur ----- SC	Johnson-----EC	Polk----- C
Allamakee ----- NE	Delaware-----NE	Jones -----EC	Pottawattamie-----SW
Appanoose----- SC	Des Moines----- SE	Keokuk -----SE	Poweshiek ----- C
Audubon ----- WC	Dickinson -----NW	Kossuth----- NC	Ringgold-----SC
Benton----- EC	Dubuque -----NE	Lee -----SE	Sac ----- WC
Black Hawk ----- NE	Emmet-----NW	Linn -----EC	Scott ----- EC
Boone ----- C	Fayette-----NE	Louisa-----SE	Shelby----- WC
Bremer ----- NE	Floyd-----NC	Lucas-----SC	Sioux ----- NW
Buchanan ----- NE	Franklin -----NC	Lyon----- NW	Story----- C
Buena Vista ----- NW	Fremont ----- SW	Madison -----SC	Tama ----- C
Butler----- NC	Greene-----WC	Mahaska-----SE	Taylor -----SW
Calhoun ----- WC	Grundy -----C	Marion -----SC	Union-----SC
Carroll----- WC	Guthrie -----WC	Marshall -----C	Van Buren -----SE
Cass-----SW	Hamilton -----C	Mills----- SW	Wapello-----SE
Cedar ----- EC	Hancock-----NC	Mitchell----- NC	Warren -----SC
Cerro Gordo----- NC	Hardin -----C	Monona-----WC	Washington -----SE
Cherokee----- NW	Harrison -----WC	Monroe -----SC	Wayne-----SC
Chickasaw ----- NE	Henry ----- SE	Montgomery----- SW	Webster ----- C
Clarke ----- SC	Howard-----NE	Muscatine -----EC	Winnebago ----- NC
Clay----- NW	Humboldt -----NC	O'Brien ----- NW	Winnesheik----- NE
Clayton----- NE	Ida ----- WC	Osceola ----- NW	Woodbury ----- WC
Clinton ----- EC	Iowa----- EC	Page ----- SW	Worth ----- NC
Crawford----- WC	Jackson -----EC	Palo Alto ----- NW	Wright----- NC
Dallas----- C	Jasper -----C	Plymouth----- NW
