Major Occupational Groups and Divisions Definitions and Code Groups.....	8
Workers Classified by Occupational Title and Code.....	11

INTRODUCTION

The statistical data found in this supplement is the basic information used in preparing the charts and tables for the Dubuque Manpower Resources survey. The material is presented to give more detailed information concerning the industries and occupations found in Dubuque. The table of industrial firms indicate the number and type of business and industrial firms in operation in Dubuque, while the charts show the distribution of the work force by occupation and industry. The final section of this supplement is a tabulation of the number of employees by age groups for the occupations found in the Dubuque labor market area. The age groups are particularly significant in planning for replacements for the older workers in the skilled and technical fields. Dubuque is growing at an unprecedented rate as industrialization, requiring a large number of skilled, professional and technical workers, becomes increasingly important. To provide community leaders and school officials with occupational data as an aide to preparing for future employment needs is the object of presenting this statistical data.

INDUSTRIAL CLASSIFICATION OF BUSINESS FIRMS

The total number of firms included in the "Skills of the Work Force" survey for Dubuque, Iowa was 1692. Farm hands, private home workers and independent salesmen were excluded in the survey. The following table lists the number of firms by principal industrial activity according to the Social Security Board Industrial Classification Code.

Industrial Code Group	TYPE OF BUSINESS	Number of Firms
07	Agricultural and similar service establishments	15
15	Building construction—general contractors	30
16	General contractors, other than building	5
17	Construction—special-trade contractors	97
20	Food and kindred products	22
23	Apparel and other finished products made from fabrics and similar materials	5
24	Lumber and timber basic products	11
25	Furniture and finished lumber products	5
26	Paper and allied products	2
27	Printing, publishing, and allied industries	15
28	Chemicals and allied products	8
29	Products of petroleum and coal	1
32	Stone, clay, and glass products	4
34	Transportation equipment (except automobiles)	12
35	Nonferrous metals and their products	5
36	Electrical machinery	2
38	Automobiles and automobile equipment	4
39	Miscellaneous manufacturing industries	8
40	Interstate railroads	4
41	Local railways and bus lines	1
42	Trucking and warehousing for hire	31
43	Other transportation, except water transportation	8
45	Services allied to transportation, not elsewhere classified	3
46	Communication: Telephone, telegraph, and related services	3
48	Utilities: Electric and gas	3
49	Local utilities and local public services, not elsewhere classified	1
50	Full-service and limited-function wholesalers	70
51	Wholesale distributors, other than full-service and limited-function wholesalers	26

Industrial Code Group	TYPE OF BUSINESS	Number of Firms
52	Wholesale and retail trade combined, not elsewhere classified	17
53	Retail general merchandise.....	16
54	Retail food and liquor stores.....	120
55	Retail automotive	26
56	Retail apparel and accessories.....	38
57	Retail trade, not elsewhere classified.....	121
58	Eating and drinking places.....	182
59	Retail filling stations.....	64
60	Banks and trust companies.....	3
61	Security dealers and investment banking.....	5
62	Finance agencies, not elsewhere classified.....	20
63	Insurance carriers	18
64	Insurance agents, brokers, and services.....	36
65	Real estate	55
66	Real estate, insurance, loans, law offices; Any combination.....	10
70	Hotels, rooming houses, camps, and other lodging places.....	32
72	Personal services	107
73	Business services, not elsewhere classified.....	43
74	Employment agencies and commercial and trade schools.....	3
75	Automobile repair services and garages.....	28
76	Miscellaneous repair services and hand trades.....	41
78	Motion pictures	3
79	Amusement and recreation and related services, not elsewhere classified	18
80	Medical and other health services.....	104
81	Law offices and related services.....	21
82	Educational institutions and agencies.....	23
83	Other professional and social-service agencies and institutions	58
86	Nonprofit membership organizations.....	19
94	Regular Governmental establishments.....	60

WORKERS CLASSIFIED
by
Occupational Groups and Industrial Division

The following tabulations of male and female employees show the number of workers in each major occupational group for each major industrial division.

CONSTRUCTION

Occupational Classification Group	Total	Male	Female
TOTALS	911	860	51
Professional and Semi-Professional.....	7	7	0
Managerial and Official.....	131	128	3
Clerical	54	9	45
Sales	15	14	1
Service	3	1	2
Skilled	415	415	0
Semi-skilled	132	132	0
Unskilled and others	154	154	0

MANUFACTURING

Occupational Classification Group	Total	Male	Female
TOTALS	10,866	8,779	2,087
Professional and Semi-Professional.....	355	333	22
Managerial and Official.....	346	330	16
Clerical	1,107	518	589
Sales	306	282	24
Service	327	285	42
Skilled	1,814	1,789	25

Sales			
Service	180	163	17
Skilled	57	55	2
Semi-skilled	125	125	0
Unskilled and others	95	95	0

MAJOR OCCUPATIONAL GROUPS AND DIVISIONS Definitions and Code Groups

Professional Occupations (0-00.00 through 0-39.99)

This group includes occupations that predominantly require a high degree of mental activity by the worker and are concerned with theoretical or practical aspects of complex fields of human endeavor. Such occupations require for the proper performance of the work either extensive and comprehensive academic study, or experience of such scope and character as to provide an equivalent background, or a combination of such education and experience.

Typical professional occupations are those of doctor, lawyer, architect, mechanical engineer, chemist, physicist, editor, actor, and musician.

Semi-professional Occupations (0-40.00 through 0-69.99)

Occupations concerned with the theoretical or practical aspects of fields of endeavor that require rather extensive education or practical experience, or a combination of such education and experience for the proper performance of the work; such fields of endeavor, however, are less demanding with respect to background or the need for initiative or judgment in dealing with complicated work situations than those fields which are considered as "professional." These occupations are typically confined to relatively restricted fields of activity, many of them being concerned with the technical or mechanical details of the broader and possibly more theoretical fields of endeavor.

Chiropodists, production planners, draftsmen, aviators, laboratory technicians, and commercial artists are typical semi-professional occupations.

Managerial and Official Occupations (0-70.00 through 0-99.99)

Occupations that are involved primarily with responsible policy-making, planning, supervising, coordinating, or guiding the work-activity of others, usually through intermediate supervisors. Typical of these occupations are managers or presidents of business enterprises, superintendents of construction projects, and purchasing and advertising agents. Executive secretaries and treasurers, although not usually involved in extensive administrative or managerial duties, are nevertheless included because of their official capacities.

Clerical and Kindred Occupations (1-00.00 through 1-49.99)

Occupations concerned with the preparation, transcribing, transferring, systematizing, or preserving of written communications and records in offices, shops, and other places of work where such functions are performed; other occupations, such as collectors, telegraph messengers, and mail carriers, although not strictly of this character are included because of their close relationship to these activities.

Sales and Kindred Occupations (1-50.00 through 1-99.99)

Included in this group are occupations concerned with the sale of commodities, investments, real estate, and services, and occupations that are very closely identified with sales transactions even though they do not involve actual participation in such transactions.

Typical sales occupations included are salesmen and hucksters. Occupations that are closely identified with sales transactions are demonstrators and shoppers.

Personal Service Occupation (2-00.00 through 2-59.99)

Occupations concerned with performing services for persons that require predominantly either direct contact or close association with the individual. Typical examples are barbers, waiters, and practical nurses.

Protective and Building Service Workers (2-60.00 through 2-69.99)

Occupations in this group are those specifically concerned with the protection or guarding of the county or its political units, of buildings and other property, and of individuals.

Agricultural and Kindred (3-00.00 through 3-49.99)

Occupations included in this group are only those located in the City of Dubuque. No attempt was made to list any farmers or farm hands in this survey. Florists, landscape gardeners, agricultural aids and tree trimmers are typical agricultural occupations.

Skilled Occupations (4-00.000 through 5-99.999)

This group includes craft and manual occupations that require predominantly a thorough and comprehensive knowledge of processes involved in the work, the exercise of considerable independent judgment, usually a high degree of manual dexterity, and, in some instances, extensive responsibility for valuable product or equipment. Workers in these occupations usually become qualified by serving apprenticeships or completing extensive training periods.

Skilled Occupations in Manufacturing and Related—(4-01.000 through 5-18.999)

Skilled Occupations in Non-manufacturing—(5-20.000 through 5-61.999)

Miscellaneous (skilled) Occupations—(5-63.000 through 5-89.999)

Foreman—(5-91.000 through 5-99.999)

Semi-skilled Occupations (6-00.000 through 7-99.999)

Occupations that are characterized by one, or a combination of parts, of the following requirements: The exercise of manipulative ability of a high order, but limited to a fairly well-defined work routine; major reliance, not so much upon the worker's judgment or dexterity, but upon vigilance and alertness, in situations in which lapses in performance would cause extensive damage to product or equipment; and the exercise of independent judgment to meet variables in the work situation, which is not based on wide knowledge of a work field and with the nature and extent of the judgments limited either (a) by application over a relatively narrow task situation or (b) by having important decisions made by others. These occupations may require the performance of part of a craft or skilled occupation, but usually to a relatively limited extent.

Semi-skilled Occupations in Manufacturing and Related Activities — (6-01.000 through 7-18.999)

Semi-skilled Occupations in Non-Manufacturing Activities — (7-20.000 through 7-61.999)

Miscellaneous (Semi-skilled) Occupations — (7-63.000 through 7-89.999)

Apprentices—(7-93.000 through 7-99.999)

Unskilled Occupations (8-00.000 through 9-99.999)

Manual occupations that involve the performance of simple duties that may be learned within a short period of time and that require the exercise of little or no independent judgment. Characteristically, such occupations do not require previous experience in the specific occupation in question, although a familiarity with the occupational environment may be necessary or very desirable.

Occupations in Manufacturing and Related Activities—(8-01.00 through 9-18.99)

Occupations in Non-Manufacturing Activities—(9-20.00 through 9-61.99)

Miscellaneous Occupations—(9-63.00 through 9-89.99)

WORKERS CLASSIFIED BY OCCUPATIONAL TITLE AND CODE

The following is a tabulation of workers by occupational classification, sex, and age groups. The job titles and codes are from the Dictionary of Occupational Titles, United States Department of Labor. The first portion of the table shows the D.O.T. code and job title. The next section of the table gives the total number of workers by sex and indicates the number of firms that have one or more workers in this job classification. The final portion of the table distributes the occupational classification by age and sex.
