STRATEGIC PLAN

Fiscal Years 2022–2025

THE MISSION:

To conserve and enhance our natural resources in cooperation with individuals and organizations to improve the quality of life in Iowa and ensure a legacy for future generations.

THE VISION:

Leading Iowans in caring for our natural resources.

The Iowa Department of Natural Resources (DNR) is committed to preserving and enhancing Iowa's natural resources for today's generation and protecting those resources for posterity. The DNR strives to make Iowa a preferred place to live, recreate, and do business by providing access to natural areas and promoting nature-based activities. This is partly accomplished by fostering collaborative partnerships with citizens, industry, and federal, state, and local governments. DNR's success is due, in large part, to the fact that its employees work hand-in-hand within the communities they serve.

DNR works diligently to educate and empower all citizens on the significance of, and benefits that derive from, Iowa's natural resources. At all times, the DNR strives for excellence and stays focused on its founding purpose and mission.
