Find Out  
What's Going On  
In Government.

Transportation isn't as simple as it used to be. The horse and wagon have been replaced by a complex system. This system has played a crucial role in many aspects, but many of us Iowans are not aware of the mechanics of today's transportation system.

Do you know how Iowa builds a new road, upgrades an old one? How can a railroad abandon one of its lines? What are we doing to improve rural transit for elderly and handicapped?

Representatives of the Iowa Department of Transportation have the answers to these kinds of questions. Located throughout the state, these speakers can explain to you the vital role of transportation in Iowa.

If you would like to learn more about transportation, and how it affects all of our lives, simply write or call the DOT district engineer in your area or Skip Nelson, News and Information, Ames, (515) 296-1420. They will put you in contact with a speaker. Some of the subjects which can be discussed are listed under each division.

## **Iowa Transportation Commission (Policy)**

**Robert Rigler  
Chairman  
New Hampton**

**Jules Busker  
Sioux City**

**Barbara Dunn  
Vice Chairman
