HE 213 .I8 S7 1981

STATE TRANSIT ASSISTANCE PROGRAMMING

FEBRUARY 17, 1981

31%

PROGRAMMING FACTORS

LDI

Locally determined income encourages local financial commitment - a necessary component of a successful transit system. LDI also considers system size.

Ridership Expense The ridership to expense performance ratio is a factor which reflects efficiency in serving demand for transit. (regardless of size)

Revenue Miles Expense The revenue miles to expense performance ratio is an indicator of efficiency in supplying transit service. (regardless of size)

REGIONAL OPERATING ASSISTANCE FUND

- A region may receive up to 20 percent of its last known total operating expense.
- An individual region's share of this fund is based on that region's percent of all 16 region's locally determined income.*
- A region is eligible for the lesser of the above two values.
- *All transit system income minus U.S. and Iowa DOT

REGIONAL OPERATION ASSISTANCE FUND EXAMPLE

- "Region 17" FY 81 operating expenses = \$150,000
- 20% of "Region 17" operating expenses = \$30,000
- Total LDI for all regions = 260,000
- LDI for "Region 17" = 13,000
- Region 17's LDI share = $\frac{13,000}{260,000}$ = 5%
- Region 17's LDI eligibility = 5% x \$699,300 = 34,965
- Consider the lesser (34,965 vs. 30,000) Region 17 is eligible for \$30,000

PROJECTS FUND

- Each transit system (region and urban) may apply for a share of its system-type's Projects Fund based on LDI, ridership to expense ratio and revenue mileage to expense ratio.
- Projects for funding must be derived from the urban or regional transit planning process.
- 50 percent of the system-type's fund is allocated according to each system's share of total LDI.
- 25 percent is allocated according to each system's share of total ridership to expense ratios.
- 25 percent is allocated according to each system's share of total revenue mileage to expense ratios.

PROJECTS FUND - EXAMPLE

"Region 17" share of regional LDI

= 5%

0	All regions' total ridership to expense ratios	= 10.2	
0	Region 17 ridership to expense ratio	= .51	
0	Region 17 share of ridership to expense ratios	= .51	
		10.2	= 5%

All regions' total revenue miles to expense ratios

= 73.1

Region 17 revenue miles to expense ratio

= 5.85

Region 17 share of revenue miles to expense ratios

= 5.85

73.1 = 8%

The LDI factor is applied to 50 percent of the regions' Projects Funds.

The ridership/expense factor is applied to 25 percent of the fund.

The mile/expense factor is applied to 25 percent of the fund.

FY 82 PROGRAMMING EXAMPLE "REGION 17"

State Transit Assistance Appropriation: \$5,560,000 (Recommended by Iowa DOT Commission)

Special Projects Fund: \$ 300,000

Regional Operating Assistance Fund: \$ 699,300

Projects Fund: \$4,560,700

Regional Operating Assistance (based on FY 80 data)

- 1. Region 17 FY 80 operating expense = \$150,000
- 2. 20% of operating expense eligibility = \$ 30,000
- 3. Region 17 share of FY 80 regional LDI = 5%
- 4. Eligibility based on LDI = 5% of \$699,300
 - = \$34,965
- 5. Amount Region 17 is eligible for = \$30,000 (Lesser of Steps 2 and 4)

Projects Funding (based on FY 80 data)

- 1. Regional share of Projects Fund = \$1,404,700
- 2. Region 17 eligibility based on LDI = 5% of \$1,404,700 x .5 = \$35,120
- 3. Region 17 share of all regions ridership to expense ratio (R/Exp)
- 4. Region 17 eligibility based on R/Exp = 5% of \$1,404,700 x .25 = \$17,560
- 5. Region 17 share of all regions revenue miles to expense ratio (M/Exp)
- miles to expense ratio (M/Exp) = 8%6. Region 17 eligibility based on M/Exp = 8% of \$1,404,700 x .25 = \$28,100
- 7. Region 17 total Projects Fund eligibility \$ 35,120 \$ 17,560 \$ 28,100 \$ 80,780--Project Fund \$ 30,000--ROA \$ 110,780

Special Projets Fund

Region 17 may apply for assistance from the Special Projects Fund in addition to above eligibility.

Proposed Program at \$5.56M Appropriation

SUMMARY OF COMMENTS

- GENERAL CONSENSUS FROM IPTA AND IARC.
- SOME RESERVATIONS:
 - 1. NEED FOR TRANSITION PROGRAM FOR THOSE SYSTEMS WHOSE LEVEL OF FUNDING MAY DROP IN THE INITIAL YEARS OF PROGRAMMING;
 - 2. OTHER FACTORS SHOULD BE CONSIDERED FOR PROGRAMMING PURPOSES, E.G., PASSENGER MILES, REVENUE HOURS, EXPENSES;
 - 3. SYSTEMS SHOULD BE REWARDED FOR MAXIMUM LOCAL TRANSIT LEVIES;
 - 4. LEVELS OF FEDERAL FUNDING WERE NOT SUFFICIENTLY CONSIDERED IN THE FORMULA;
 - 5. USE OF RATIO FACTORS MAY INHIBIT CONSOLIDATION OF TRANSIT SYSTEMS.

SUMMARY:

- 1. To QUALIFY FOR FUNDING, PROJECTS MUST BE IDENTIFIED THROUGH THE URBAN/REGIONAL TRANSIT PLANNING PROCESS.
- 2. PROJECTS FUNDED FROM THE SPECIAL PROJECTS FUND WILL BE APPROVED INDIVIDUALLY BY THE COMMISSION, BASED UPON APPLICATIONS FILED BY SPONSORS WITH THE PUBLIC TRANSIT DIVISION.
- 3. THE PROPOSED PROGRAMMING OF STATE TRANSIT ASSISTANCE FUNDS, EXCEPT FOR THE SPECIAL PROJECTS FUND, WILL BE APPROVED BY THE COMMISSION ON AN ANNUAL BASIS.
- 4. PROJECT FUNDS ALLOCATED AND CONTRACTED TO A TRANSIT SYSTEM, BUT NOT EXPENDED DURING THE TERM OF THE CONTRACT, WILL REVERT TO THE SPECIAL PROJECTS FUND UNLESS OTHERWISE PROVIDED FOR IN THE GRANT CONTRACT.
- 5. STATE TRANSIT ASSISTANCE WILL NOT BE TIED TO ANY SPECIFIC LOCAL MATCH, (I.E., STATE FUNDS WILL NOT BE CONFINED TO FUNDING ANY SPECIFIC PERCENTAGE OF PROJECT EXPENDITURES).
