2. The data, as noted above has been reviewed to assess and improve the effectiveness of the Department's sexual abuse prevention, detection and response policies, practices and training.
  - A. Identify problem areas: The District conducts an Incident Review for any incident that requires a review. Developing a culture of zero tolerance for sexual abuse and sexual harassment is an on-going process. We continue to encourage staff to be mindful of potential areas of concern.
  - B. Any corrective action taken for each facility and the Department as a whole is determined on a continuous basis and as deemed necessary from an Incident Review.
  - C. Comparison of current data collected to previous years: 2016 there were 9 incidents that lead to sexual abuse/sexual harassment investigations, 2017 there were 7, 2018 there were 12, 2019 there were 5, in 2020 and 2021 respectively there were 2. We have increased facility

population this year due to the decrease of Covid-19 pandemic restrictions. This could account for some of the increase of incident reports from the previous two years.

- D. An assessment of the Department's progress in addressing sexual abuse: We continue to educate all new staff, veteran staff, contractors and volunteers about how to prevent, detect, and respond to sexual abuse and sexual harassment and the importance of adhering to the PREA standards. The Department has 10 PREA investigators to enhance our ability to respond to PREA complaints in a timely and efficient manner. All residential facilities in the Sixth Judicial District have successfully passed their PREA audits.
