DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house residents of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows residents to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p>	2 (1 wing for Males) (1 wing for Females)

Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Overview

The on-site Prison Rape Elimination Act (PREA) compliance audit of the Residential Correctional Facility (RCF), located in Council Bluffs, Iowa, was conducted on August 3-4, 2020 by U.S. Department of Justice (DOJ) certified PREA Auditor, James L. Roland Jr. from The Nakamoto Group, Inc. The standards used for this audit became effective August 20, 2012. The Auditor conducted an opening meeting, toured the entire facility, interviewed a randomized sample of staff and residents and reviewed PREA related staff and resident documentation. Upon completion of the audit process, a closing meeting was held with the administrative staff to discuss the audit process, preliminary findings and the post-audit process. Employees at the facility were extremely courteous, cooperative and professional. All areas of the facility were found to be clean and well maintained. During the closing meeting, the Auditor thanked the staff for their hard work and dedication to the PREA process.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Pre-Audit Phase

On April 2, 2020, PREA Audit Notices (in English and Spanish) were sent to the facility to be posted. Due to the delay caused by the Corona Virus, notices remained in place and in effect until the date of the rescheduled audit. The Auditor observed these postings during the tour. Notices were posted in the living units, at the main entrance and in the common area. These notices were posted for six weeks pre-audit. The Auditor received no correspondence from residents prior to the on-site visit.

RCF staff members were asked to complete the Pre-Audit Questionnaire (PAQ) also provided to the facility on April 2, 2020. The completed PAQ and supporting documentation was received by the Auditor on April 7, 2020. All documentation was reviewed by the Auditor including educational materials, training logs, posters, brochures, agency policies, institution

supplements, procedures, forms, organizational charts and other PREA related documentation.

On July 30, 2020, the Auditor requested additional information including, but not limited to, staff rosters, inmate rosters, investigations, residents self-identified as being gay, bi-sexual, transgender, or intersex (LGBTI), resident reports of sexual abuse/sexual harassment, residents who are Limited English Proficient (LEP), and additional examples of the RCF screening instrument. These documents were provided and reviewed at the time of the audit.

On-Site Audit Phase

The Auditor held an opening meeting on the morning of August 3, 2020 at the Residential Correctional Facility with administrative staff. The audit schedule and process were discussed during the meeting. Including the Auditor, those present at the meeting were:

- District Director (DD)
- Division Manager (DM)
- Agency PREA Compliance Coordinator (APCM)
- Facility PREA Compliance Manager (PCM)
- Facility Supervisor
- Human Resource Representative (HR)

The Auditor was provided a private area in which to work and conduct confidential interviews. All requested files and rosters, both staff and residents, were made available to the Auditor for review.

Immediately following the opening meeting, a tour of the facility was completed. The Auditor was escorted by the DM, APCM and the PCM. During the tour, the Auditor reviewed PREA related documentation and materials located on bulletin boards and pertinent entries made in electronic logs. The Auditor assessed camera surveillance, physical supervision and electronic monitoring capabilities. Other areas of focus during the facility tour included, but were not limited to, levels of staff supervision and limits to cross-gender viewing. All signs and postings were in both English and Spanish. Residents can shower, dress and use the toilet facilities without exposing themselves to employees of the opposite gender. Informal and formal conversations with employees and residents regarding the PREA standards were conducted. Postings regarding PREA violation reporting and the agency's zero-tolerance policy for sexual abuse and sexual harassment were prominently displayed in all living units, meeting areas and throughout the facility. Audit notice postings with the PREA Auditor's contact information were posted in the same areas. The Auditor notice postings were posted 60 days prior to the original date of the on-site visit. Unimpeded access to all areas of the facility was provided to the Auditor.

Resident Interviews

At the time of the audit there were 33 male residents and five female residents housed at RCF. A total of 16 residents were interviewed: four females and 12 males. No Limited English

Proficient (LEP) or physically disabled residents were at the facility. No cognitively disabled resident was interviewed. Staff indicated there were no bi-sexual, gay, transgender or intersex residents at the facility. The Auditor interviewed no residents who reported sexual abuse or who reported sexual victimization during risk screening. No residents refused to be interviewed. Interviews were conducted using the Department of Justice (DOJ) protocols to assess a resident's knowledge of the PREA and the reporting mechanisms available to them.

Staff Interviews

RCF employs a staff of 24 individuals. Fourteen staff interviews were conducted; these interviews included eight random staff (from all three shifts) and ten administrative/specialized staff. The administrative staff included the DD, APCM, PCM, DM and HR. The specialized staff included the Probation and Parole Officer, Residential Officers and an Investigator. All staff members have been trained to act as first responders when a PREA related incident occurs.

File Review

Following the interviews, the Auditor reviewed the files requested during the pre-audit phase. The Auditor reviewed personnel files to establish compliance with PREA training mandates and background checks. Due to Covid-19 concerns, the facility has no contractors. In the event a contractor would be required within the facility, they would be escorted by staff. Screening and intake procedures were evaluated by reviewing random resident files which included a vulnerability assessment instrument.

Investigations

During the current auditing period, there were two reported allegations of sexual abuse/sexual harassment. One case was determined to be unfounded and one was found to be unsubstantiated. All criminal investigations are conducted by the Council Bluffs Police Department (CBPD), in conjunction with the Iowa Department of Corrections (IDOC). The District Director (DD), DM, and the PCM are responsible for receiving verbal and telephonic referrals 24 hours a day, seven days a week. Additionally, abuse investigation outcomes and general protective services assessment outcomes are submitted to, reviewed and finalized by the DD and the APCM. No resident correspondence was received by the Auditor prior to the visit.

Closeout

A closing meeting was held with the Auditor and the administrative staff on the morning of August 4, 2020. Discussions centered on the audit process, preliminary findings, and the post-audit process. The Auditor thanked the staff for their hard work and dedication to the PREA process.

Facility Characteristics

The mission of Iowa community based corrections is to enhance community safety and facilitate positive change in adult offenders. The facility promotes law abiding behavior through supervision, accountability, treatment, education and community programming, in an innovative and cost effective manner.

The Fourth Judicial District, Department of Correctional Services, is one of eight judicial district correctional programs currently existing within the state of Iowa. These are the end result of the statewide development of correctional programs, with the objectives of providing total services at the community-based level to correctional clients, the court system and ultimately the public. The Fourth Judicial District operates its programs as mandated by Chapter 905 of the Code of Iowa. Additionally, a Board of Directors with established Bylaws governs the District. The Board of Directors is comprised of a county supervisor from each county in the district, a judicial appointee and two citizen advisory representatives. The Department of Correctional Services, as it exists in this judicial district, provides the usual historic services and, in addition, some innovative and functional services.

The RCF is a single-level brick building. The building provides administrative offices on one end and housing for residents on the other. There are two residential wings, one for male residents and one for females. There are 61 beds for male residents and 16 beds for female residents. The Residential Officer station is located centrally between the administrative offices and the residential areas for good visibility. Other areas include the laundry area, dining/multipurpose room, kitchen, group rooms, television room, individual bathroom/showers and staff offices. There is also an outside recreation area and a garden.

The facility provides housing and around-the-clock supervision for residents demonstrating an inability or unwillingness to function under less restrictive supervision. Offenders can be placed in a residential center as a condition of probation or parole or in transition from the Iowa Department of Corrections. Residents participate in programming to address the re-entry needs of each individual. The facility also has classrooms, leisure activity areas and a visiting room.

RCF residents complete a Sexual Violence Propensity Tool (SVP) within 72 hours of intake. The results of the assessment are utilized in determining housing. Staff members are aware of the social history of the offenders and use this information in both program referrals and housing assignments. SVP's are administered, as necessary, throughout the resident's stay at RCF. That information is utilized to ensure the safety of the resident and that adequate programming has been provided.

RCF utilizes an electronic computer program entitled Iowa Correctional Offender Network (ICON), provided by the Iowa Department of Corrections. This tool determines the amount of time each resident is permitted to be out of the facility per day (unit time). Residents can be out of the facility for eight to fourteen hours per day, depending on their employment status. Residents are also granted furloughs and passes to leave the facility for recreation and family reunification.

Residents are monitored on-site by Iowa Probation and Parole Agents. This ensures participation in all mandated treatment, including drug and alcohol, mental health and any other prescribed specialized treatment.

4. PREA Training Curriculum PREA Moss Group

Policies and documentation address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The Auditor observed that each unit has individual shower stalls for privacy. The facility has implemented a policy that all staff working the shift will announce themselves prior to walking the units to allow residents the opportunity to prepare themselves from a privacy perspective. The residents interviewed acknowledged they can shower, dress and use the toilet privately, without being viewed by staff of the opposite gender. Both staff and residents interviewed indicated that employees of the opposite gender announce their presence before entering a unit. Staff members were aware of the policy prohibiting the search of a transgender or intersex resident for the sole purpose of determining the resident's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of a resident by a staff member at the Residential Correctional Facility.

PREA handouts, bulletin board postings and resident handbooks are available in both English and Spanish. These documents were submitted to and reviewed by the Auditor. Interviewed staff members were aware of the policy that, under no circumstances, is any resident interpreter or assistant to be used regarding PREA issues. Where interpreters are necessary, yet unavailable, the contracting authority will be notified for assistance and an interpreter will be assigned to review intake and handbook information, to include all PREA information, training and procedures. RCF has an extensive list of interpreters to assist clients, if it is required. At the time of the audit, there were no LEP residents, no residents with physical disabilities and no residents that were unable to understand the PREA. The review of documentation and staff and resident interviews support a finding that the facility is compliant with this standard.

Policies and documentation address the components of this standard. The facility puts forth its best efforts to educate the residents regarding the PREA. Residents receive information during the intake process including a PREA packet and Resident Handbook, printed in English and Spanish. A staff member conducts an education program regarding the PREA for all residents within 30 days of their arrival at the facility. Most PREA education is conducted within 24 hours of arrival to RCF. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities. Residents also view a comprehensive orientation video that explains the facility's zero-tolerance policy and covers the resident's right to be free from sexual abuse, sexual harassment and retaliation. There are PREA posters displayed throughout the facility and in each housing unit and a "Hotline" telephone number, which may be called to report sexual abuse or sexual harassment. Since the "Hotline" telephone number is an 800-toll-free number, residents can call from any of the available telephones. The mailing address is listed in the Resident Handbook and posted in each housing unit for resident correspondence concerning any sexual abuse or sexual harassment allegation. There is also a translation language line available to LEP residents.

The Auditor was provided a random sampling of PREA Acknowledgement Signature Sheets to verify that residents, admitted during the auditing period, received the PREA education and relevant written materials. All residents are required to acknowledge, in writing, completion of PREA education. During the interview process, randomly selected residents indicated they received information about the facility's rules against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment and their right not be punished for reporting sexual abuse/sexual harassment. Residents were aware of available services outside of the facility for dealing with sexual abuse.

Policy addresses the requirements of this standard. Facility policy requires the use of a screening instrument (SVP) to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping residents at a high risk of being sexually abused/sexually harassed separate from those residents who are at a high risk of being sexually abusive. Facility policy also requires all residents to be screened within 72 hours of arrival; however, they are routinely screened on the day of arrival. Risk management staff review all relevant pre-sentence documentation and information from other confinement facilities and reassess a resident's risk level, as necessary, within 30 days of arrival. Facility

policy prohibits residents from being disciplined for refusing to answer, or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. Interviews with risk management staff and a random review of risk screening assessments support the finding that the facility is compliant with this standard.

to a male or female facility on the basis of anatomy alone, that agency is not in compliance with this standard)? Yes No

- When making housing or other program assignments for transgender or intersex residents, does the agency consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether a placement would present management or security problems? Yes No

Policies, screening forms and interviews address the requirements of this standard. Facility policy requires the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping residents at a high risk of being sexually abused/sexually harassed separate from residents at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. Based on information provided by the facility, no LGBTI residents were housed at RCF at the time of the audit. Additionally, no resident indicated sexual victimization or abusiveness during risk screening. During the audit, risk management staff indicated transgender and intersex residents would be reassessed biannually and the residents' own views with respect to their safety would be given serious consideration. Additionally, all residents are given the opportunity to shower separately from other residents. Staff and resident interviews, the review of supporting documentation and the Auditor's observations support the facility being in compliance with the standard.

Policies, the PREA Notices and Resident Handbook address the requirements of the standard. A review of supporting documentation and staff/resident interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately and from a third party) for residents to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. There are posters and other documents on display throughout the facility which explain reporting methods. Staff members promptly accept and document all verbal, written, anonymous, private and third-party reports of alleged abuse. Residents may report sexual abuse/sexual harassment by using the IDOC website, phoning the PREA "Hotline" number, contacting the Iowa Statewide Sexual Abuse Hotline, HSF, National Sexual Assault Hotline, or contacting facility staff. Family and friends also have access to these methods of reporting. All interviewed residents confirmed awareness of the multiple methods of reporting sexual abuse/assault allegations. Interviews with staff and residents, observation of posters addressing reporting methods and an examination of policies and documentation confirm that RCF is in compliance with this standard.

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.252 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No

115.252 (b)

- Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

(Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time (the maximum allowable extension of time to respond is 70 days per 115.252(d)(3)) , does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension,

may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.252 (e)

- Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.)
 Yes No NA
- Are those third parties also permitted to file such requests on behalf of residents? (If a third-party files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.)
 Yes No NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA

 - b. Residents

Residents may file a grievance; however, all allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred to the DM. Residents are not required to use an informal grievance process and procedures also allow a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Additionally, policy prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse or sexual harassment.

Allegations of physical abuse by staff shall be referred to management, in accordance with procedures established for such referrals. Policy addresses the filing of emergency administrative remedy requests. If a resident files an emergency grievance with the facility and believes he/she is under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. There is no prohibition that limits third parties, including fellow residents, staff members, family members, attorneys and outside victim advocates in assisting residents in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of residents. There were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by residents in which the resident declined third-party assistance. Residents are held accountable for manipulative behavior and false allegations. Generally, disciplinary action would be taken if a grievance was filed in bad faith.

Policy addresses the components of this standard. All investigations are conducted by trained investigators of the 4th District. If the investigation results in the possibility of criminal intent, it is referred to the CBPD to determine if prosecution will be pursued. According to the DM, the facility fully cooperates with any outside agency that initiates an investigation. The DM serves as the facility liaison and provides requested information to outside investigative agencies, as well as access to the resident. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the individual's status as resident or staff. The agency does not require a resident who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. There were two PREA sexual abuse/sexual harassment allegations investigated at RCF during the auditing period. One case was unfounded and one case was unsubstantiated. Residents are notified of the outcome of an investigation. Compliance with this standard was determined by a review of policy/documentation and the investigative files, as well as staff interviews.

 - a. Staff (Specialized/Random)

Policy addresses the requirements of this standard. The policy defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The policy identifies residents engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Non-consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between residents does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the resident's disciplinary history and the sanctions imposed for comparable offenses by other residents with similar histories. Residents are subject to disciplinary sanctions pursuant to the formal disciplinary process defined by policy. The facility does not discipline residents who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. The disciplinary process considers whether a resident's mental disabilities or mental illness contributed to the resident's behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, the facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. Compliance with this standard was determined by a review of policy/documentation, an examination of the resident discipline process and staff interviews.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. Evidence Reviewed (on-site visit, documentation, staff and resident interviews):

The Residential Correctional Facility has fully implemented all policies, practices and procedures outlined in the PREA standards. The Auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff and residents and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. Facility policies are directly tied to the PREA standards and staff expectations. The facility's leadership is fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and staff's on-going efforts to ensure all policies, procedures and practices comply with the Prison Rape Elimination Act. PREA training for staff and residents is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the residents are established in the community. The public has access to reporting mechanisms and the agency PREA trends data via the agency website. The Residential Correctional Facility currently complies with all applicable PREA standards and no corrective actions are required.
