Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Pre-Audit Preparation

Prior to the on-site visit, the PREA Coordinator provided all policies and supportive documents to the auditor for review. This auditor discussed information contained in the Pre-Audit Questionnaire with the PREA Audit Coordinator prior to the on-site visit.

Entrance Briefing and Tour (On-Site Audit) - First Day

The on-site Prison Rape Elimination Act (PREA) compliance audit of the Waterloo Residential Correctional Facility located in Waterloo, lowa, was conducted June 5-6, 2018 by The Nakamoto Group, Inc. certified PREA auditor James L. Roland Jr. Upon arrival at the facility, an in-briefing meeting was held with the Executive Officer/PREA Coordinator. The audit process was discussed during the briefing. The standards used for this audit became effective August 20, 2012. As part of the audit, a review of local facility policies and a tour of the facility were completed. During the on-site tour, the auditor observed PREA related documentation and materials located on bulletin boards and reviewed entries made in the electronic logs. The auditor tested telephones and other electronic media which provide offender access to outside independent advocacy reporting capabilities. Additionally, the auditor assessed camera surveillance, physical supervision and electronic monitoring capabilities. Other areas of focus, during the facility tour, included, but were not limited to, levels of staff supervision, video monitoring and limits to cross-gender viewing. All signs and postings were in both English and Spanish. Residents are able to shower, dress and use the toilet facilities without exposing themselves to employees of the opposite gender. Informal and formal conversations with employees and residents regarding the PREA standards were conducted. Postings regarding PREA violation reporting and the agency's zero-tolerance policy for sexual abuse and sexual harassment were prominently displayed in all housing units, meeting areas and throughout the facility. Audit notice postings with the PREA auditor's contact information were posted in the same areas. The auditor notice postings were posted in May 2018. The auditor did not receive any resident correspondence prior to the on-site visit.

Staff-Resident Interviews - Second Day

A total of 20 male residents were interviewed. There were no Limited English proficient (LEP) or disabled residents housed at the facility at the time of the audit. There were also no residents who self-identified as being transgender, intersex, gay, lesbian or bisexual housed at the facility. No residents had reported sexual victimization during risk screening and no residents refused to be interviewed.

A total of 16 staff members were interviewed, to include eight residential specialists (from all three shifts), 11 administrative/specialized staff and the Human Resource Manager (HRM). The administrative staff included the District Director, Assistant District Director, PREA Coordinator, Investigator and Residential Manager/PREA Compliance Manager. All staff members have been trained to act as first responders when a PREA related incident occurs.

Investigations

During the current auditing period, there was one reported allegation of sexual abuse/sexual harassment. The case involved resident-on-staff allegations and was determined to be unfounded. The investigative file was reviewed by the auditor for compliance purposes.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

In 1985, the Waterloo Residential Correctional Facility moved from the condemned Ellis Hotel to a newly constructed 56 bed facility at 310 East 6th Street. In March of 1991, an addition was completed to the Waterloo Residential Correctional Facility to house the Work Release Center and DCS Administrative Offices. During this transition, the Work Release Center expanded from a 20-bed facility to a 64-bed multi-program facility.

Today the Waterloo Residential Correctional Facility operates as one facility with 150 beds. This facility is for male offenders only. The facility population includes offenders who are placed at the facility as a condition of probation, on state work release or as an alternative jail sentence. Federal residents are housed at the facility through a contract with the U.S. Bureau of Prisons. Specialized programming is available for Sex Offenders, Domestic Violence Offenders and Habitual Operating While Intoxicated (321) Program Offenders.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

Upon completion of the on-site audit, an exit briefing was held to discuss the audit findings. This briefing was held with the District Director, Assistant District Director, PREA Coordinator, Residential Manager/PREA Compliance Manager and Residential Supervisor. The auditor's pre-audit and on-site audit activities support a conclusion that the facility is in compliance with the PREA standards. Employees at the facility were found to be extremely courteous, cooperative and professional. All areas of the facility were found to be clean and well maintained. There are adequate limits to cross-gender viewing and searches. The facility has adaptive measures in place to ensure disabled and LEP residents can participate in and benefit from all aspects of the PREA process.

Hiring and promotion practices are consistent with sexual abuse safety measures. The facility has appropriate medical and victim advocacy networks in place and available, as needed. Staff and resident PREA education and training are documented. Residents acknowledged the admissions screening process included questions regarding any history of sexual abuse or victimization and whether they would like to identify a sexual preference. Intake and classification assessments are efficient and seamless in addressing referrals based on victimization or abusiveness screening data. Related documentation is organized and stored in information systems available on a need-to-know basis. Reporting mechanisms are displayed in a conspicuous manner and residents and employees are aware of all reporting methods available to them. Systems are in place for coordinated responses to incidents of sexual abuse, as needed.

The facility also has sufficiently trained personnel who conduct administrative investigations. There are 13 trained investigators who conduct administrative investigations. The Waterloo Police Department (WPD) conducts criminal investigations. Staff indicated adequate training in all aspects of the PREA, particularly First Responder duties or actions to be taken in the event of a reported sexual abuse related incident. At the conclusion of the audit, the auditor thanked the District Director and the Waterloo staff for their hard work and dedication to the PREA process.

Summary of Corrective Action (if any)

<u>Concern #1-</u>At the conclusion of the PREA related investigation; the resident was not notified of the official findings in writing (only verbally).

<u>Corrective Action:</u> A written resident notification instrument was designed, reviewed by this auditor and implemented. This notification instrument includes a resident and staff signature

line. Going forward, this documentation will be completed, signed and included in all investigation packets.

<u>Concern #2-</u> Blind spots were discovered in four laundry areas. Corrective Action: Four convex mirrors were installed, eliminating the blind spots.

All areas of concern were corrected and inspected prior to the close -out meeting.

Auditor Overall Compliance Determination

- Exceeds Standard (Substantially exceeds requirement of standards)
- Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
- □ Does Not Meet Standard (Requires Corrective Action)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies PER 27 and PER 31 address this standard. The agency's zero-tolerance toward sexual abuse is clearly established and the policy also outlines the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment allegations. The Executive Officer serves as the Agency PREA Coordinator (APC), the Residential Manager service as the PREA Compliance Manager (PCM) for the facility. The APC reports to the District Director. Zero-tolerance posters are displayed throughout every area of the facility. The facility's policies outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Residents are informed orally about the zero-tolerance policy and the PREA program during in-processing and are required to view a video during admission and orientation presentations. Additional program information is contained in the Resident Handbook and is also posted throughout the facility as observed, during the tour. All PREA information, to include both written materials and videos, are available in English and Spanish. Additional interpretive services are available for residents who do not speak or read English or Spanish. Both institution staff and residents are provided with a wealth of opportunities to become informed of PREA policies and procedures. All employees receive initial training and annual training, as well as updates throughout the year.

	Exceeds Standard (Substantially exceeds requirement of standards)
\boxtimes	Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
	Does Not Meet Standard (Requires Corrective Action)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies CM 40 and DRS 46 address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff interviews revealed receipt of cross-gender pat search training during initial and annual training. The auditor observed that each unit is equipped with individual shower stalls for privacy while showering. The facility has implemented a policy that all staff working the unit will announce themselves prior to walking the wing; thereby allowing the residents adequate opportunity to prepare from a privacy perspective. The residents interviewed acknowledged they are allowed to shower, dress and use the toilet privately, without being viewed by staff of the opposite gender. Staff and residents indicated that employees of the opposite gender announce their presence before entering a housing unit. Staff members were aware of the policy prohibiting the search of a transgender or intersex resident for the sole purpose of determining the resident's genital status. During the past 12 months, there were no exigent circumstances that required crossgender viewing of a resident by a staff member at the facility.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies CM 22 and CM 23 and the Resident Handbook address this standard. The Waterloo Residential Correctional Facility takes appropriate steps to ensure residents with disabilities and residents with Limited English Proficiency (LEP) have an opportunity to participate in and benefit from the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment. PREA handouts, bulletin board postings and Resident Handbooks are in both English and Spanish. The above-mentioned documents were reviewed by the auditor. Staff members were aware of the policy that under no circumstances are resident interpreters or assistants to be used when dealing with PREA issues. The facility has a blanket purchase agreement for on-demand over-the-phone interpreter services. The translation service is provided for residents who don't have a basic command of the English language. There were no LEP residents at the facility at the time of this audit. The review of documentation, in

addition to staff and resident interviews, support a finding that the facility is in compliance with this standard.

Policy PER 35 addresses this standard. Three employee files were reviewed and found to be in compliance with the standard. The HRM was interviewed and stated that all components of this standard have been met. Background checks have been completed on all employees, contractors and volunteers. The facility office personnel also conduct background checks before approving staff promotions. A tracking system is in place to ensure that updated background checks are conducted every five years. All background checks are completed by the National Crime Investigation Center (NCIC). Policy clearly states the submission of false information by any applicant is grounds for termination. The agency makes its best efforts to contact all prior institution employers for information on substantiated allegations of sexual abuse. The agency also provides information on substantiated allegations of sexual abuse/sexual harassment involving former employees, when requested by a potential institutional employer, unless prohibited by law. Appropriate licensing and certifying agencies are notified when professional employees are terminated for substantiated allegations of sexual abuse/sexual harassment. Documentation on file supports a finding that the facility is in compliance with this standard.

PREA Audit Report

Policy DRS 46 addresses this standard. Facility personnel were interviewed concerning this standard and all were knowledgeable of the procedures required to secure and obtain usable physical evidence, when sexual abuse is alleged. Staff members were also aware that there were 13 trained facility investigators and their identities. All forensic medical examinations are conducted by a Sexual Abuse Nurse Examiner (SANE) at Allen or Covenant Hospitals, both located in Waterloo, Iowa. The facility has a Memorandum of Understanding (MOU) with Riverview Center, a local victim advocacy group. The facility has two trained advocacy staff members. There was one sexual abuse/sexual harassment allegation, during the past twelve months, and a SAFE/SANE forensic exam was not required.

Policies PER 27 and PER 52 address this standard. Administrative and criminal investigations are completed on all allegations of sexual abuse/sexual harassment. Various administrative staff members who conduct administrative investigations were interviewed and found to be very knowledgeable concerning their responsibilities. There are 13 facility trained investigators who have received training through the Moss Group Training Program. The Waterloo Police Department conducts the criminal investigations for the facility. There was one reported allegation, during the auditing period. This case involved resident-on-staff allegations and was determined to be unfounded.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies CM 22, CM23, DRS 23, and PER 27 address this standard. Residents receive information during the intake process that includes a PREA video; PREA information packet, to include Prevention of Sexual Misconduct- an Overview for Offenders material, and a Resident Handbook, printed in English and Spanish. Facility staff members meet periodically with residents regarding the PREA standards, giving the residents an opportunity to ask questions and present any concerns. There are zero tolerance posters throughout the facility and in each housing unit, along with a hotline telephone number to call the Sexual Abuse Assault or Council on Sexual Assault and Domestic Violence to report sexual abuse or sexual harassment. Additionally, the address for the lowa Ombudsman Office is also posted. Two staff members have also been trained to provide advocacy services. The telephone number for the local victim advocacy center, Riverview Center, is posted next to resident telephones. Interviews with staff and residents, as well as the review of documentation, support a finding of compliance with the standard.

Policy DRS 45 and the State of Iowa Sexual Violence Propensity (SVP) Intake Screening Instrument address this standard. Policy requires the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments. All residents are assessed at intake, immediately upon arrival at the facility, for their risk of being sexually abused or sexually harassed by other residents or being sexually abusive towards other residents. An intake staff member screens all new arrivals within their first 72 hours at the facility. They are almost always seen the first day of intake. The staff members review all relevant information from other facilities and continue to reassess, when additional information is received within 30 days of the resident's arrival. Residents identified as being at a high risk for sexual victimization or at a risk of sexually abusing other residents are referred to the hospital medical and mental health staff for additional assessment. Agency

policy prohibits residents from being disciplined for refusing to answer, or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of vulnerability, during the screening process. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. Interviews with risk management staff and a random review of risk screening assessments support the finding that the facility is in compliance with this standard.

deterr assigr haras: Housi contin PREA identif audit, own v Addition	Policy DRS 45 addresses this standard. Policy requires the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments with the goal of keeping residents at a high risk of being sexually abused/sexually harassed separate from those residents who are at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis for all residents with continued follow-up and monitoring, when needed. There are weekly staff meetings addressing PREA concerns and issues. From the information provided by the facility, there were no self-dentified transgender, intersex, gay or bisexual residents housed at the facility. During the audit, staff indicated transgender and intersex inmates are reassessed biannually and their own views with respect to his/her own safety would be given serious consideration. Additionally, residents are given the opportunity to shower separately from other residents. Interviews, the review of documentation and auditor observations support the finding that the facility is in compliance with the standard.

These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies CM 32 and PER 27, the Grievance Policy and Resident Handbook, in English and Spanish, address this standard. A review of documentation and staff/resident interviews confirmed there are multiple ways (including verbally, in writing, anonymously, privately, hotline telephone calls, and from a third party) for residents to report sexual abuse/sexual harassment. Staff members document all allegations. There are posters and other documents on display throughout the facility, which explain the various reporting methods. The facility does have a MOU with the local advocacy center, Riverview Center, to provide all services relevant to this standard. The facility has two trained staff advocates to address resident concerns.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies CM 32, DRS 46, PER 27 and PER 52 and the Grievance Policy address this standard. Residents may file a grievance, however, all allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Residents are not required to use an informal grievance process and procedures also allow a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Additionally, policy also prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision.

Policy states that there is no time frame for filing a grievance relating to sexual abuse or sexual harassment. Allegations of physical abuse by staff shall be referred to the First Judicial District, Department of Correctional Services, in accordance with procedures established for such referrals. The policy addresses the filing of emergency grievance requests. If a resident files the emergency grievance with the facility and believes he is under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. Best efforts are made to provide the First Judicial District, Department of Correctional Services, expedited appeal responses within five calendar days.

If a resident reasonably believes the issue is sensitive and the resident's safety or well-being would be placed in danger, if the remedy became known at the facility, the resident may submit the remedy directly to the First Judicial District, Department of Correctional Services. There is no prohibition that limits third parties, including fellow residents, staff members, family members, attorneys and outside victim advocates in assisting residents in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of residents. There were no grievances filed involving PREA related issues, during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by residents in which the resident declined third-party assistance. Residents are held accountable for manipulative behavior and false allegations. Disciplinary action would generally be taken if a grievance was filed in bad faith.

Instructions for Overall Compliance Determination Narrative				

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy PER 27 addresses this standard. According to policy, staff, contractors and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. There are currently no contractors or volunteers utilized at the facility; however, staff members interviewed were aware of their duty to immediately report all allegations of sexual abuse, sexual harassment and retaliation relevant to PREA standards. The reporting is ordinarily made to the PREA Coordinator, but could be made privately or to a third party. Policy requires the information concerning the identity of the alleged resident victim and the specific facts of the case to be shared with staff on a need-to-know basis, because of their involvement with the victim's welfare and/or the investigation of the incident. A review of established policy and staff interviews support the finding that the facility is in compliance with this standard. The Waterloo Residential Correctional Facility does not house residents under the age of 18.

Policies CM 32 and DRS 46 address this standard. Staff members interviewed were aware of their duties and responsibilities, when having knowledge of a resident being sexually abused or sexually harassed. All staff indicated they would act immediately to protect the resident, including separating the victim/predator, securing the scene to protect possible evidence,

preventing the destruction of potential evidence and contacting the Operations Supervisor. In the past 12 months, there were no instances in which the facility staff determined that a resident was subject to a substantial risk of imminent sexual abuse.

Policies DRS 46 and PER 27 address this standard. Policy requires the reporting of any PREA related allegation by a resident that occurred at another facility. There were no allegations received during the auditing period that sexual abuse had occurred at another facility. Policy requires the District Director where the resident is currently being housed to notify the District Director where the resident was previously housed within 72 hours after receiving an allegation. The policy requires an investigation to be immediately initiated. Compliance with this standard was verified by reviewing policy and interviewing the District Director, PREA Coordinator and Residential Manager/PREA Compliance Manager.

Policy PER 27 addresses this standard. The policy prohibits any type of retaliation against any staff person or resident who reports sexual abuse or sexual harassment or cooperates in related investigations. The Residential Manager is charged with monitoring retaliation. During the interview, he indicated that he follows up on all 30, 60 and 90-day reviews to ensure policy is being enforced and conducts periodic status checks on the frequency of incident reports, housing reassignments and negative performance reviews/staff job reassignments in accordance with all steps required in 115.67c. In the event of possible retaliation, the Residential Manager indicated he would monitor the situation indefinitely. There have been no incidents of retaliation in the past 12 months. Compliance with this standard was determined by a review of policy/documentation and staff interviews.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policies PER 15 and PER 27 address this standard. Employees are subject to disciplinary sanctions for violating agency sexual abuse or sexual harassment policies. There have been no reported cases of staff engaging in sexual activity with residents, in the past 12 months, and no staff members were disciplined or terminated for violation of agency policy. The Collective Bargaining Agreement between the State of Iowa and American Federation of State, County, and Municipal Employees, Council 61 AFL-CIO, allows for disciplinary sanctions against staff,

including termination, for the sexual abuse or sexual harassment of a resident. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff that would have been terminated if not for their resignation, may be reported to criminal investigators. Compliance with this standard was determined by a review of policy/documentation and staff interviews.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy PER 27 addresses this standard. Any contractor or volunteer who engages in sexual abuse/sexual harassment would be prohibited from contact with residents and would be reported to the appropriate investigator and law enforcement or relevant professional/licensing/certifying bodies, unless the activity was clearly not criminal in nature. In cases that were not criminal in nature, the facility would take appropriate remedial measures and consider whether to prohibit further contact with residents. There are currently no contractors or volunteers utilized and, during the last 12 months, there were no incidents where a contractor or volunteer was accused or found guilty of sexual abuse or sexual harassment. Compliance with this standard was determined by a review of policy and staff

nterviews.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. DRS-2F, Resident Rules, addresses this standard. Policy defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The policy identifies residents engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between residents does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the resident's disciplinary history and the sanctions imposed for comparable offenses by other residents with similar histories. Residents are subject to disciplinary sanctions pursuant to the formal disciplinary process defined in the policy. The facility does not discipline residents who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. Interviews with the investigator support compliance with this standard. The disciplinary process considers whether a resident's mental disabilities or mental illness contributed to the behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, the facility considers the offer of therapy,

115.278 (f)

counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. Compliance with this standard was determined by a review of policy/documentation, a review of the resident discipline process and staff interviews.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy PER 52 addresses this standard. The facility shall conduct a sexual violence incident review at the conclusion of every sexual violence investigation that results in a substantiated or unsubstantiated finding. The review will ordinarily occur within 30 days of the conclusion of the investigation. During the past 12 months, there was one inmate-on-staff allegation of sexual abuse/sexual harassment that was determined to be unfounded. The allegation was determined to be unfounded; however, an incident review was conducted to ensure established policy is being practiced in every PREA related incident. All investigations are completed within 30 days. The incident review team consists of the Assistant Director, PREA Coordinator and other administrative staff who were very knowledgeable concerning their duties for investigating and reviewing incidents. The team determines if the allegation or investigation indicates a need to change policy or practice to better prevent, detect or respond to sexual abuse. They consider whether the incident or allegation was motivated by race. ethnicity and gender identity (whether is offender is gay, lesbian, bisexual, transgender or intersex) or other status. They also consider if gang membership was involved or the incident was otherwise caused by other group dynamics. The team examines the area where the incident occurred to assess whether physical barriers may enable abuse, to assess the adequacy of staffing levels and whether monitoring technology should be deployed or augmented to supplement supervision by staff. A review of the policy, the sexual abuse incident form and sexual abuse incident review report, as well as interviews with members of the incident review team, support the finding that the facility is in compliance with this standard.

The Waterloo Correctional Facility has fully implemented all policies, practices, and procedures outlined in the PREA standards. The auditor reviewed applicable standards and, through the review of support documentation, interviews with staff and residents and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. Facility policies are directly tied to the PREA standards and staff expectations. The facility's leadership is fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and the recommendations for enhanced supervision techniques. PREA training for staff and residents is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the residents are established in the community. The public has access to reporting mechanisms and facility PREA trends data via their website. The facility currently meets all applicable PREA standards and no corrective actions are required.
