Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Overview

The on-site Prison Rape Elimination Act (PREA) compliance audit of the Anchor Center for Woman (ACW), located in Cedar Rapids, lowa was conducted May 7-8, 2019 by U.S. Department of Justice (DOJ) certified PREA Auditor, James L. Roland Jr. from The Nakamoto Group, Inc. The standards used for this audit became effective August 20, 2012. The Auditor conducted an opening meeting, toured the entire facility, interviewed a randomized sample of staff and residents and reviewed PREA related staff and inmate documentation. Upon completion of the audit process, a closing meeting was held with the administrative staff to discuss the audit process, preliminary findings and the post-audit process. Employees at the facility were extremely courteous, cooperative and professional. All areas of the facility were found to be clean and well maintained. During the closing meeting, the Auditor thanked the staff for their hard work and dedication to the PREA process.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Pre-Audit Phase

On March 15th, 2019, PREA Audit Notices (in English and Spanish) where sent to the facility to be posted. The Auditor observed these postings during the tour. These notices were posted in the living units, at the main entrance and in the visitation area. These notices were posted for eight weeks pre-audit. The Auditor received no correspondence from residents prior to the on-site visit.

ACW staff members were asked to complete the Pre-Audit Questionnaire (PAQ) also provided to the facility on March 15, 2019. The completed PAQ and supporting documentation was

received by the Auditor on March 29, 2019. All documentation was reviewed by the Auditor, including educational materials, training logs, posters, brochures, agency policies, institution supplements, procedures, forms, organizational charts and other PREA related documentation.

On April 23, 2019, the Auditor requested additional information including, but not limited to, staff rosters, inmate rosters, investigation files for review, residents self-identified as lesbian, gay, bisexual, transgender, or intersex (LGBTI), inmate reports of sexual abuse/sexual harassment, residents who are Limited English Proficient (LEP), and additional examples of the ACW screening instrument. These documents were provided and reviewed at the time of the audit.

On-Site Audit Phase

The Auditor held an opening meeting on the morning of May 7, 2019 at the Anchor Center for Women facility with administrative staff. The audit schedule and process were discussed during the meeting. Including the Auditor, those present at the meeting were:

- Assistant Director
- Probation/Parole Supervisor/District PREA Compliance Coordinator (DPCC)
- Probation/Parole Supervisor
- Residential Supervisor
- Division Manager

The Auditor was provided a private area in which to work and conduct confidential interviews. All requested files and rosters, both staff and residents, were made available to the Auditor for review.

Immediately following the opening meeting, a tour of the facility was completed. The Auditor was escorted by the DPCC and the Residential Supervisor. During the tour, the Auditor reviewed PREA related documentation and materials located on bulletin boards and pertinent entries made in electronic logs. The Auditor assessed camera surveillance, physical supervision and electronic monitoring capabilities. Other areas of focus during the facility tour included, but were not limited to, levels of staff supervision and limits to cross-gender viewing. All signs and postings were in both English and Spanish. Residents can shower, dress, and use the toilet facilities without exposing themselves to employees of the opposite gender. Informal and formal conversations with employees and residents regarding the PREA standards were conducted. Postings regarding PREA violation reporting and the agency's zero-tolerance policy for sexual abuse and sexual harassment were prominently displayed in all living units, meeting areas and throughout the facility. Audit notice postings with the PREA Auditor's contact information were posted in the same areas. The Auditor notice postings were posted 60 days prior to the on-site visit. Unimpeded access to all areas of the facility was provided to the Auditor.

Resident Interviews

At the time of the audit, there were 15 female residents housed at ACW. A total of ten female residents were interviewed, to include one who was Limited English Proficient (LEP), one who was cognitively disabled and two who self-identified as being members of the LGBTI community. The Auditor interviewed no residents who reported sexual abuse and no residents who reported sexual victimization during the risk screening process. No residents refused to be interviewed. Interviews were conducted using the Department of Justice (DOJ) protocols to assess a resident's knowledge of the PREA and the reporting mechanisms available to them.

Staff Interviews

ACW employs a staff of 20 individuals. A total of 26 staff interviews were conducted, as several employees hold dual specializations (which accounts for the more interviews than staff employed). These interviews included 13 random staff (from all three shifts) and 13 administrative/specialized staff. The administrative staff included the District Director, DPCC, Division Manager and Contract Administrator. The specialized staff included a PREA Investigator, Probation/Parole Supervisor, Residential Supervisor and a contract nurse. All staff members have been trained to act as first responders when a PREA related incident occurs.

File Review

Following the interviews, the Auditor reviewed the files requested during the pre-audit phase. The Auditor reviewed personnel files to establish compliance with PREA training mandates and background checks. Additionally, the Auditor reviewed one facility contractor file. Screening and intake procedures were evaluated by reviewing random resident files which included a vulnerability assessment instrument.

<u>Investigations</u>

During the current auditing period, there were zero reported allegations of sexual abuse/sexual harassment. All administrative investigations are handled by the District's six investigators. Criminal investigations are conducted by the Cedar Rapids Police Department (CRPD). The PREA Coordinator is responsible for receiving verbal and telephonic referrals 24 hours a day, seven days a week. Additionally, sexual abuse investigation outcomes and general protective services assessment outcomes are submitted to, reviewed and finalized by the PREA Coordinator. No correspondence was received by the Auditor prior to the visit.

Closeout

A closing meeting was held with the Auditor and the administrative staff on the morning of May 8, 2019. Discussions centered on the audit process, preliminary findings and the post-audit process. The Auditor thanked the staff for their hard work and dedication to the PREA process.

Facility Characteristics

Anchor Center for Women is located in Linn County, Iowa, within the Cedar Rapids city limits. ACW is a one-story brick building with several wings. One wing houses administrative offices and a large classroom for meetings. The entire building is 15,940 square feet, with the residential program area comprising 9,516 square feet of the building. Residents are restricted to the residential area, unless accompanied by a staff member into the administrative area of the building. The residential area consists of individual resident rooms in Sections A, B and C (12 double bedrooms and 2 single bedrooms). The Residential Officer station is located in the center of the residential area for good visibility and access to all the residential areas. Other areas include the laundry areas, dining/multipurpose room, kitchen, group rooms, TV rooms, individual bathroom/showers and staff offices. There is an outside recreation area.

The facility has 26 beds for female offenders who have mental, behavioral and substance abuse issues and need a transitional structure that will help them receive proper treatment and an opportunity to learn life skills.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

The agency's zero-tolerance policy against sexual abuse was clearly established in the above documentation and via interviews. The agency's zero-tolerance toward sexual abuse is clearly established and the policy also outlines the agency's approach to preventing, detecting and responding to sexual abuse and sexual harassment allegations. The Probation/Parole Supervisor serves as the District PREA Compliance Coordinator (DPCC). The DPCC reports to the Director. Zero-tolerance posters are displayed throughout every area of the Center. The agency and facility directives outline a zero-tolerance policy for all forms of sexual abuse and sexual harassment. Residents are informed orally about the zero-tolerance policy and the PREA program during in-processing and are required to view a video during admission and orientation presentations. Additional program information is contained in the Resident Handbook and is posted throughout the facility, as observed by the Auditor during the tour. All PREA information, both video and written, is available in English and Spanish. Interpretive services are available for residents who do not speak or read English or Spanish. Both ACW staff and residents are provided with multiple opportunities to become informed of PREA policies and procedures. All employees receive initial training and Bi-Annual Refresher Training, as well as updates throughout the year.

Agency policy requires the facility to review the staffing plans on an annual basis. Interviews with the Director and DPCC revealed compliance with the PREA and that other safety and security issues are always a primary focus when they consider and review their respective staffing plans. ACW has been provided with all necessary resources to support the programs and procedures to ensure compliance with PREA standards. The audit included an examination of all video monitoring systems, resident access to telephones, resident computer access, staff interviews and rosters. Supervisory/Administrative staff members routinely make unannounced rounds covering all shifts and these rounds are documented. Interviews with staff confirmed unannounced rounds to all areas of the facility are conducted on a weekly basis, with no warning to employees. The ACW contains video cameras. During the tour, camera locations were observed by the Auditor.

Policies and documentation address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff interviewed indicated they received cross-gender pat search training during initial and annual training. The Auditor observed that each unit has individual shower stalls for privacy. The facility has implemented a policy that all staff working the shift will announce themselves prior to walking the wings to allow residents the opportunity to prepare themselves from a privacy perspective. The residents interviewed acknowledged they can shower, dress and use the toilet privately, without being viewed by staff of the opposite gender. Staff, along with a majority of the residents interviewed, indicated that employees of the opposite gender announce their presence before entering a unit. Staff members were aware of the policy prohibiting the search of a transgender or intersex resident for the sole purpose of determining the resident's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of a resident by a staff member at the ACW.

This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Reviewed (on-site visit, documentation, staff and resident interviews):

- 1. ACW Pre-Audit Questionnaire
- 2. PS 2400-17 Sexual Misconduct with Offenders Community Confinement Standards (PREA Prevention Planning)
- 3. Employee PREA Training Curriculum and Sign-in sheets
- 4. Support Services Providers for Offenders with Disabilities (form 2404C-16)
- 5. Interviews with the following:

The ACW takes appropriate steps to ensure inmates with disabilities and inmates with Limited English Proficiency (LEP) have an opportunity to participate in and benefit from the facility's efforts to prevent, detect and respond to sexual abuse and sexual harassment. PREA handouts, bulletin board postings and resident handbooks are in both English and Spanish. The above-mentioned documents were submitted to and reviewed by the Auditor. Interviewed staff members were aware of the policy that, under no circumstances, are resident interpreters or assistants to be used when dealing with PREA issues. The Sixth District Department of Corrections has an agreement for on-demand over-the-phone interpreter services, which are available to ACW. Disability providers are listed and include assistance for the deaf or hard of hearing, LEP, blind and low vision, and intellectual, psychiatric, or speech disabilities. One LEP

ACW staff members were interviewed concerning this standard and all were knowledgeable of the procedures required to secure and obtain usable physical evidence when sexual abuse is alleged. Staff members were also aware of the six certified PREA investigators who conduct administrative investigations relative to sexual abuse allegations. All criminal investigations are conducted by the Cedar Rapids Police Department (CRPD). All forensic medical examinations are conducted by SANE staff at Unity Point Hospital. A telephone interview with the SANE representative at Unity Point Hospital was conducted and the provider was aware of the provisions of the PREA standards. The representative indicated that a SANE is available 24 hours a day, seven days a week. There were no SANE examinations conducted during the past 12 months. The Memorandum of Understanding (MOU) with Riverview Center outlines victim advocacy services for residents. Any follow up treatment will be done by personnel within the community directed by the Riverview Center. The facility also provides a pamphlet containing over one hundred community resources that are available to residents within the community. There have been no allegations or investigations during this auditing period.

Policies and documents address the mandates of this standard. The policy requires that all criminal allegations of sexual abuse and sexual harassment be referred for investigation to the appropriate law enforcement authorities: Cedar Rapids Police Department. Six administrative staff members conduct administrative investigations. An interview was conducted with one of these investigators who was found to be very knowledgeable concerning her responsibilities. These investigators have all received the sexual abuse investigations training through the lowa Department of Corrections (IDOC). The PREA Coordinator assigns the individual who will conduct the internal investigation. Standard compliance was also demonstrated via interviews with the District Director and the PREA Coordinator. The agency reports zero allegations of sexual abuse during the past 12 months.

Auditor Overall Compliance Determination

	Exceeds Standard (Substantially exceeds requirement of standards)
\boxtimes	Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
	Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Reviewed (on-site visit, documentation, staff and resident interviews):

- 1. ACW Pre-Audit Questionnaire
- 2. PS 2400-17 Sexual Misconduct with Offenders Community Confinement Standards (PREA Prevention Planning)
- 3. PS 2402-17 Sexual Misconduct with Offenders Community Confinement Standards (PREA Training and Education)
- 4. Resident PREA Training Curriculum and Sign-in Sheets
- 5. Resident Handbook
- 6. Interviews with the following:
 - a. Staff (Specialized/Random)
 - d. Residents

Policies and documentation address the components of this standard. The facility puts forth its best efforts to educate the residents regarding the PREA. Residents receive information during the intake process including a pamphlet and resident handbook, printed in English and Spanish. A staff member conducts an education program regarding the PREA for all residents within 30 days of their arrival at the facility. Most PREA education is conducted with 24 hours of their arrival to the Center. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies and reporting modalities. Residents also view a comprehensive orientation video that explains the facility's zero-tolerance policy and covers

the resident's right to be free from sexual abuse, sexual harassment and retaliation. There are PREA posters displayed throughout the facility and in each housing unit and a "Hotline" telephone number, which may be called to report sexual abuse or sexual harassment. Since the "Hotline" telephone number is an 800-toll-free number, residents can call from any of the available phones. The mailing address is listed in the Resident Handbook and posted in each housing unit for resident correspondence concerning any sexual abuse or sexual harassment allegation. There is also a translation language line available to LEP residents. The Auditor was provided a random sampling of A&O Checklists/Signature Sheets to verify that inmates, admitted during the auditing period, received the PREA education and relevant written materials. All residents are required to acknowledge, in writing, completion of PREA education. During the interview process, randomly selected residents indicated they received information about the facility's rules against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment, and their right not be punished for reporting sexual abuse/sexual harassment. Residents were aware of available services outside of the facility for dealing with sexual abuse.

Policy addresses the requirements of this standard. Facility policy requires the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at a high risk of being sexually abused/sexually harassed separate from those residents who are at a high risk of being sexually abusive. Facility policy also requires all residents to be screened within 72 hours of arrival; however, they are routinely screened on the day of arrival. Risk management staff review all relevant pre-sentence documentation and information from other confinement facilities and reassess a resident's risk level, as necessary, within 30 days of arrival. Facility policy prohibits residents from being disciplined for refusing to answer, or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history and perception of

vulnerability. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. Interviews with risk management staff and a random review of risk screening assessments support the finding that the facility is in compliance with this standard.

Policies, screening forms and interviews address the requirements of this standard. Facility policy requires the use of a screening instrument to determine proper housing, bed assignment, work assignment, education, and other program assignments, with the goal of keeping residents at a high risk of being sexually abused/sexually harassed separate from those residents who are at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. Based on information provided by the facility, there were two residents who self-identified as being lesbian, no residents who selfidentified as being gay or bisexual, and no residents who self-identified as being transgender or intersex. Additionally, no resident indicated prior sexual victimization or abusiveness during risk screening. All of the interviewed residents mentioned above were in support of this standard. During the audit, risk management staff indicated transgender and intersex residents are reassessed biannually and the residents' own views with respect to their own safety are given serious consideration. Additionally, they are given the opportunity to shower separately from other residents. Staff and resident interviews, the review of supporting documentation and the Auditor's observations support the facility being in compliance with the standard.

Policies, the PREA Notices and Resident Handbook address the requirements of the standard. A review of supporting documentation and staff/resident interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately and from a third party) for residents to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. There are posters and other documents on display throughout the facility which explain reporting methods. Staff members promptly accept and document all verbal, written, anonymous, private and third-party reports of alleged abuse. Residents may report sexual abuse/sexual harassment by using the Sixth District website, phoning the PREA Hotline number, contacting the Iowa Ombudsman Office, Riverview Center, Rape Victim Advocacy Program hotline, or contacting facility staff. Family and friends also have access to these methods of reporting. All interviewed residents confirmed awareness of the multiple methods of reporting sexual abuse/assault allegations. Interviews with staff and residents, observations of posters addressing reporting methods and an examination of policy/documentation confirm the ACW's compliance with this standard

Auditor Overall Compliance Determination

Exceeds Standard (Substantially exceeds requirement of standards)
Meets Standard (Substantial compliance; complies in all material ways with the standard for the relevant review period)
Does Not Meet Standard (Requires Corrective Action)

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Reviewed (on-site visit, documentation, staff and resident interviews):

- 1. ACW Pre-Audit Questionnaire
- 2. PS 2404-17 Sexual Misconduct with Offenders Community Confinement Standards (PREA Reporting)
- 3. Employee PREA training Curriculum and Sign-in sheets
- 4. Resident Handbook
- 5. Interviews with the following:
 - a. Staff (Specialized/Random)
 - b. Residents

Residents may file a grievance; however, all allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred to the District PREA Compliance Coordinator (DPCC). Residents are not required to use an informal grievance process and procedures also allow a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Additionally, policy prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse or sexual harassment. Allegations of physical abuse by staff shall be referred to management, in accordance with procedures established for such referrals. Policy addresses the filing of emergency administrative remedy requests. If a resident files the emergency grievance with the facility and believes she is under a substantial risk of imminent sexual abuse, an expedited response is required to be provided within 48 hours. There is no prohibition that limits third parties, including fellow residents, staff members, family members, attorneys and outside victim advocates in assisting residents in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of residents. There were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by a resident in which the resident declined third-party assistance.

Residents are held accountable for manipulative behavior and false allegations. Generally, disciplinary action would be taken if a grievance was filed in bad faith.

 - a. Staff (Specialized/Random)

Policies and the training curriculum address the requirements of this standard. Staff, contractors and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. Interviewed staff members were aware of their duty to immediately report all allegations of sexual abuse, sexual harassment and retaliation relevant to the PREA standards. The reporting is ordinarily made to the DPCC but could be made privately or to a third party. Policy requires the information concerning the identity of the alleged resident victim and the specific facts of the case to be shared with staff on a need-to-know basis, because of their involvement with the victim's welfare and/or the investigation of the incident. A review of policy and interviews with staff support the finding that the facility is in compliance with this standard. The ACW does not house residents under the age of 18.

Policy addresses the components of this standard. Sixth District investigators are responsible for conducting administrative investigations within the facility and referring criminal investigations to the Cedar Rapids Police Department (CRPD) to determine if prosecution will be pursued. According to the District Director, the facility fully cooperates with any outside agency that initiates an investigation. The District Director serves as the facility liaison and provides requested information to outside investigative agencies, as well as access to the resident. The credibility of an alleged victim, suspect or witness is assessed on an individual basis and is not determined by the individual's status as resident or staff. The agency does not require a resident who alleges sexual abuse to submit to a polygraph examination or other truth assessment device as a condition for proceeding with the investigation of such an allegation. There were no PREA sexual abuse/sexual harassment allegations investigated at ACW during the auditing period. Compliance with this standard was determined by a review of policy/documentation and investigative files, as well as staff interviews.

Policy addresses the requirements of this standard. Employees are subject to disciplinary sanctions for violating facility sexual abuse or sexual harassment policies. There have been no reported cases of residents engaging in sexual activity with staff in the past 12 months and no staff members were disciplined or terminated for violation of facility policy. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff that would have been terminated if not for their resignation, may be reported to criminal investigators and to any law enforcement or relevant professional/certifying/licensing agencies, unless the activity was clearly not criminal. The Collective Bargaining Agreement between the State of Iowa and American Federation of State, County and Municipal Employees, Council 61 AFL-CIO, complies with the standard. Employees are subject to discipline, including removal, if they engage in any sexual abuse/sexual harassment of a resident. Compliance with this standard was determined by a review of policy/documentation and staff interviews.

Policy addresses the requirements of the standard. Any contractor or volunteer who engages in sexual abuse/sexual harassment would be prohibited from contact with residents and would be reported to the appropriate investigator, law enforcement, or relevant professional/licensing/certifying bodies, unless the activity was clearly not criminal in nature. In non-criminal cases, the ACW would take appropriate remedial measures and consider whether to prohibit further contact with residents. During the past 12 months, there were no incidents in which a contractor or volunteer was accused of sexual abuse or sexual harassment. Compliance with this standard was determined by a review of policy and volunteer/contractor training files, as well as volunteer/contractor and staff interviews.

Policy addresses the requirements of this standard. The policy defines sexual assault of any person, involving non-consensual touching by force or threat of force, as the greatest severity level prohibited act. The program identifies residents engaging in sexual acts and making sexual proposals or threats to another as a high severity level prohibited act. Non-consensual sex or sexual harassment of any nature is prohibited and will result in discipline. Consensual sex between residents does not constitute sexual abuse. Sanctions are commensurate with the nature and circumstances of the abuse committed, along with the resident's disciplinary history and the sanctions imposed for comparable offenses by other residents with similar histories. Residents are subject to disciplinary sanctions pursuant to the formal disciplinary process defined by policy. The facility does not discipline residents who make an allegation in good faith, even if an investigation does not establish evidence sufficient to substantiate the allegation. Interviews with the investigator support compliance with this standard. The disciplinary process considers whether a resident's mental disabilities or mental illness contributed to the resident's behavior when determining what type of sanction, if any, should be imposed. If mental disabilities or mental illness is a factor, the facility considers the offer of therapy, counseling, or other interventions designed to address and correct underlying reasons or motivations for the abuse. Compliance with this standard was determined by a review of policy/documentation, an examination of the resident discipline process and staff interviews.

Policy supports this standard. The agency reviews the data collected in order to access and improve the effectiveness of its sexual abuse prevention, detection and response policies, practices and training. Problem areas are identified, and corrective action is taken as needed. The annual report reflects the findings of the facility and compares current year's reports with previous year's reports. The annual report is approved by the agency head. Sensitive information is redacted to protect the residents.

Evidence Reviewed (on-site visit, documentation, staff and resident interviews):

This was the first PREA audit of this facility with female residents. The Auditor was allowed access to all areas of the facility and had access to all required supporting documentation. The Auditor was able to conduct private interviews with both residents and staff. The Auditor was provided supporting documentation before and during the audit. Notifications of the audit posted throughout the ACW allowed residents to send confidential letters to the Auditor prior to the audit. No confidential letters were received by the Auditor as a result of the audit postings.

Evidence Reviewed (on-site visit, documentation, staff and resident interviews):

The ACW has fully implemented all policies, practices and procedures outlined in the PREA standards. The Auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff, residents and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. Facility policies are directly tied to the PREA standards and staff expectations. The facility's leadership is fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and the procedures in place to comply with the mandates of the Prison Rape Elimination Act. PREA training for staff and residents is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting and response to sexual abuse incidents. Sexual abuse and victimization propensity screening is well established and tracked in an organized fashion.

Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the residents are established in the community. The public has access to reporting mechanisms and the agency PREA trends data via the agency website. Anchor Center for Women currently complies with all applicable PREA standards and no corrective actions are required.
