FEDERAL GRANT-IN-AID PROGRAMS

FOR THE STATE OF IOWA

## INTRODUCTION

This report concerns itself with state programs financed in part or wholly with Federal funds. Primarily those funds reflected in the state Budget Document are dealt with. It should be noted that almost 20 million dollars was received from the Federal Department of Health, Education and Welfare for regents institutions. Additional sums are provided for the various mental health institutions under the Board of Control.

It is hoped that this report will furnish a quick and concise reference to the programs being used in Iowa. It will serve as a background in making future decisions regarding Iowa's participation in new programs. It may answer some questions and will surely give rise to others.

Within the confines of this report, we have not included complete information on any one program. Such information has been gathered and is on hand, but would make the report so bulky as to be unwieldy. This publication is also not a manual for accountants. Federal accounting and reporting procedures differ from those of the state. Inconsistencies between federal figures, departmental figures or figures of the State Comptroller are not errors but variations in technique and procedures. In this publication we have used the figures most nearly representative from all three sources.

Federal grants-in-aid fall into the following types:

a. Matching Funds. In this type of program the federal government will grant the state money at a prescribed ratio for a defined purpose. The maximum amount to be spent by the federal government is usually established but the states, in effect, determine the exact grant by the amount they are willing to invest in the program from state dollars. Often the exact ratio will depend on a rather complex set of conditions.

This form of grant is today the most common. These grants occasionally go one step further, requiring the financial resources of both state and local government. The poverty programs are a good example of this.

b. Flat Grants. This type of aid provides the states with a net total dollar grant determined on a formula taking into account any number of conditions. No state money is required for obtaining the grant and all states tend to share the benefits.

31723021175369

c. Service Grants. The federal government provides many services which may be of benefit to the state of a technical services nature. These grants are largely impossible to measure in terms of dollars spent.

d. Block Grants. This form of federal assistance represents the latest attempt to maximize the administrative rationality of grants in aid. The best example is the current move toward granting health funds to the state for such purposes as the state may provide for in our own long range plans. These block grants hold a great deal of promise in easing the problem of program proliferation.

Further information on Federal funds may be obtained directly from the Federal or State department involved, or the State Comptroller's office.

## INDEX OF PROGRAMS

<p>EDUCATION OF CHILDREN FROM LOW INCOME FAMILIES</p> <p><u>Federal Legislation</u> <u>ESEA-I</u> <u>20 USC 241, 237</u></p>	<p>Offices of Education, U.S. Dept. of Health, Education and Welfare, Wash., D.C. 20202</p>	<p>Meeting the educational needs of educationally deprived children in public and non-public schools. Assistance is available to districts with a high concentration of disadvantaged children.</p>	<p>100-0</p>	1965				<p>This relatively new program is providing a large source of new funds for local districts. The program is administered by the State Dept. of Public Instruction. Recent amendments provide projects for migrant workers and state schools for neglected or delinquent children. Funds are also provided for state administrative costs. During fiscal year 1966, Iowa was allocated \$14,655,633 for Title I projects. This money was allocated to the state on the basis of the number of children</p>
				1966	14,655,633			
				1967	15,500,000*			
				1968	16,000,000			
				1969	16,000,000			
				<p>*Basis of computation changed.</p> <p style="text-align: center;">Basis of Distribution</p> <p>Funds are apportioned to the states using a formula based on the number of students from families with an annual income of less than \$2,000 and a per pupil expenditure figure. Funds are distributed to the local school district on the basis of <u>total students</u> and percentage of students from families with an income of \$2,000 or less per year.</p>				
<p>age five to seventeen, inclusive, of families with incomes of less than \$2,000 as reported in the 1960 census and the number of children of such ages of families with incomes of more than \$2,000 who were receiving payments under the program of Aid to Families with Dependent Children in 1962. Additional funds were also made available to provide assistance to state agency schools for handicapped children. The total allocation was then sub-allocated among the local educational agencies in the state. The method for providing for this sub-allocation was the same as the method for determining the allocation to the states.</p>

				Year	Federal	State	Local	
FEDERAL LOAN SUBSIDY  Federal Legisla- tion 20 USC 1071-1085  State Legislation By Executive Order of the Governor	Office of Education, Dept. of Health, Education and Welfare	To pay part of the interest cost on direct state loans to qualified borrow- ers. This program is for both low and moderate income students. The subsidy covers all of the interest (6%) while the student is in college and 3% of the interest thereafter.	100-0 (Subsidy only)	1965				This program is adminis- tered on a statewide basis by the Higher Ed- ucation Facilities Commission using the facilities of the United Student Aid Foundation, Inc. The money loaned must be guaranteed by state funds - the federal paying only the interest. In order to initiate the program federal loan funds were available for fiscal '66 and '67, but none are anticipated for fiscal '68 and '69. The Commission is current- ly requesting an appro- priation to be used as loan funds. The vast majority of such funds would not be true expenditures since a major portion would be repaid by future student payments.
				1966	107,227			
				1967	139,084			
				1968				
				1969				
				Basis of Distribution				
				The federal grant for payment of interest is open end and funds are made available as needed.				

Higher Education - Higher Education Facilities  
Commission

Title	Federal Department	Purpose of Program	Basis of Matching	Administrative Comments
<p>BUILDING GRANTS FOR HIGHER EDUCATION</p> <p>Federal Legislation</p> <p>Higher Education Facilities Act of 1963</p> <p>Title I and VII 20 USC 701, 711-721</p> <p>State Legislation Code of Iowa 262.2</p>	<p>Office of Education, Division of College Facilities, Dept. of Health, Education and Welfare</p>	<p>To assist public and other non profit institutions of higher education in financing the construction, purchase of structures, rehabilitation, conversion, improvement and acquisition of equipment for needed academic and related facilities in undergraduate and graduate institutions in order to meet the demands of increasing enrollment. Differentiation is made between community colleges and other institutions of higher education as shown on the tables.</p>	<p>33 1/3 66 2/3 40-60</p>	<p>Applications are submitted to the State Commission on Higher Education Facilities and assignments of priority are made for eligible projects. Applications are sent to the federal Office of Education by the state commission in view of the priorities list.</p> <p>Funds once authorized go directly to the institution of higher education.</p> <p>Iowa was a leader in getting an approved state plan. The plan sets objective methods for determining priorities of eligible projects for construction of academic facilities and for determining the federal share of the development cost of such projects.</p> <p>During the first fiscal year, projects were limited to science, mathematics, engineering and foreign language facilities. After Nov. 8, 1965, general classroom units, physical education facilities and other projects also became eligible. This was due to passage of the Higher Education Act of 1965 amending the previous standards.</p> <p>Funds granted through June 30, 1966, for community colleges is shown in Table I and for regular institutions of higher education in Table II.</p>

Cooperative Extension Programs  Federal Legislation Smith-Lever Act 7 USC 341-48, 450 1621-1629	U. S. Department of Agriculture, Federal Extension Service	To conduct education in agricultural affairs at points throughout the state in order to promote the agricultur- al contribution to the economy. Funds from this program are used to support county ex- tension agents and home economists.	50-50	1965	1,981,065	1,850,000	Funds are distributed to the states on the basis of a formula providing 20% on population, 40% on rural population and 40% on farm population. Special projects above the formula grants may be approved. Under this program the information is dispersed throughout the state by county agents under the direction of the program directors whose offices are located at Iowa State University in Ames.

				1967	398,815	1,056,590	
				1968	413,490	1,247,120	
				1969	423,490	1,247,120	
The 61st General Assembly brought all Iowa Civil Defense activities under the administrative direction of the Dept. of Public Defense. These dollars come into Iowa through several programs, principal of which are: <ul style="list-style-type: none"> <li>a. National Guard Program</li> <li>b. Civil Defense Administration</li> <li>c. Radiological Maintenance Program</li> </ul> This summary does not include the federal payments made to individuals or firms in Iowa directly. This figure would approximate 15 million annually.							

Title	Federal Department	Purpose of Program	Basis of Matching	Projected Fiscal Commitments				Administrative Comments
				Year	Federal	State	Local	
CIVIL DEFENSE PLANNING  Federal Legislation 42 USC 1855  State Legislation Code of Iowa 28.10	Executive Office of the President, Office of Emergency Planning	To develop plans for emergency utilization of all resources - manpower, health, food, electric power, etc.	100-0	1965	24,963			The Iowa Development Commission is responsible for emergency and disaster planning in the state. Local agencies desiring to draft area or regional plans may work through the commission.  This program is carried on in cooperation with the Iowa Department of Defense.  This is a limited project with no future funding expected.
				1966	18,933			
				1967				
				1968				
				1969				
				Basis of Distribution  The state submits an estimate of the funds necessary for drawing up adequate plans. The estimate is to be based on population, area, civil defense and staff needs.				

Title	Federal Department	Purpose of Program	Basis of Matching	Projected Fiscal Commitments			Administrative Comments
				Year	Federal	State	
DISASTER RELIEF AND REPAIRS  Federal Legislation 42 USC 1855  State Legislation Code of Iowa 19.7 and 7.9	Executive Office of the President, Office of Emergency Planning	To assist the states in alleviating damage, hardship, and suffering caused by major disasters, including floods and tornadoes.	Variable	1965	2,796,895		
				1966	2,800,000		
				1967	500,000*		
				1968	500,000*		
				1969	500,000*		
				*This fund fluctuates dependent on conditions making accurate projections impossible.			The nature of the state administration depends on the nature of the disaster. The Governor designates the coordinating state agency in each case. When an individual disaster occurs, the Governor may request the declaration of a major disaster. The request must be documented to show the severity of the problem, state and local action to handle it, and the nature of federal assistance needed. Once the disaster has been declared by the President, the Office of Emergency Planning can call on the resources of all federal agencies for assistance to the area. Once the disaster is approved for assistance checks are sent to the Civil Defense Bureau for deposit in state funds and state checks are then issued to eligible local units of government.
				Basis of Distribution			
				No state by state allotment is made. Funds going to an individual state depend on the needs and conditions.			

Civil Defense and Public Safety - Dept. of Public Safety  
and State Highway Commission

Title	Federal Department	Purpose of Program	Basis of Matching	Administrative Comments
<p>HIGHWAY SAFETY</p> <p>Highway Safety Act of 1966</p>	<p>Dept. of Transportation, Bureau of Public Roads</p>	<p>To reduce traffic accidents resulting in death, injury and property damage.</p>	<p>100-0</p>	<p>This program requires that the state develop an adequate plan for accident elimination.</p> <p>Programs supported for implementation include:</p> <ul style="list-style-type: none"> <li>a. statewide driver education improvement.</li> <li>b. Training of instructors in drivers education.</li> <li>c. Improvement of driver examinations.</li> <li>d. Improvement of accident record systems.</li> <li>e. Improvement of accident investigations.</li> <li>f. Highway design and maintenance technique.</li> <li>g. Traffic control devices.</li> <li>h. Emergency services.</li> </ul> <p>Both the Highway Commission and the Dept. of Public Safety are eligible for programs. If no state plan is established by January 1, 1968, the state will lose 10% of all federal highway funds.</p> <p>The plan for the state must authorize local government units to carry out programs in implementation of the standards. At least 40% of the states formula aid must be allocated to the states subdivisions. Comprehensive drivers training must be a part of the total program.</p> <p>The Governor has appointed a Highway Safety Committee to work out the plan and some of the interdepartmental problems.</p>

## Transportation - State Highway Commission

				Year	Federal	State	Local	
AIRPORT CONSTRUCTION  Federal Legisla- tion 49 USC 1101-1119 50 USC 162200.G  State Legislation Code of Iowa 328.13 and 14	Dept. of Transporta- tion, Bureau of Public Roads	To promote acquisi- tion and development of publicly owned airports in Iowa cities, counties and towns to meet the present and future needs of civil aviation as out- lined in the national airport plan.	50-50	1965	1,133,374	59,659	1,564,418	The State Aeronautics Commission acts on behalf of all local governmental units to obtain and review funds granted by the federal government for airport construction projects. The state commission approves each construction pro- ject.  The state commission is funded entirely from fees and licenses in Iowa and unclaimed motor fuel tax refunds. From these funds they may supplement federal grants. The state grants go primarily to smaller projects where their impact is more meaningful in promot- ing intra-state air travel.
				1966	779,290	125,453	1,033,341	
				1967	1,646,701	198,600	2,016,353	
				1968	1,143,500	150,000	1,043,500	
				1969	1,882,975	150,000	1,782,975	
				Basis of Distribution  75% of the total fund is distrib- uted by a formula based on area and population. The remaining 25% is distributed at the discretion of the federal agency.				

Conservation - State Conservation Commission

Title	Federal Department	Purpose of Program	Basis of Matching	Projected Fiscal Commitments			Administrative Comments	
				Year	Federal	State		Local
<b>WILDLIFE RESTORATION</b>  Federal Legislation (Pittman-Robertson Act of 1937) 16 USCA 669  State Legislation 107.27	Department of the Interior, Bureau of Sport Fishing & Wildlife	Establish wildlife projects, construction necessary to make land or water available for such projects, improvement of existing land or water areas adaptable as feeding, resting or breeding areas for wildlife. May also include wildlife research.	75%  25%	1965	312,599	104,199		
				1966	337,347	123,704		
				1967	447,809	,269		
				1968	337,600	123,704		
				1969	395,000	136,800		
				<u>Basis of Distribution</u> Payments to the states are made on the basis of land area and of the number of hunting licenses in the state.			Funds for this program derived from the Federal sale of special permits and the excise tax on sports commodities.  Funds in Iowa are administered under the State Conservation Commission. The Secretary of the Interior and the commission must agree on projects to be undertaken.	
<b>FISH RESTORATION AND MANAGEMENT</b>  Federal Legislation (Dingell-Johnson Act of 1950) 16 USCA 777  State Legislation 107.28	Department of the Interior, Bureau of Sport Fishing and Wildlife	To conserve wildlife and provide good fishing opportunities by management of the natural habitat of fish, research, distribution and propagation of certain species.	75-25%	Projected Fiscal Commitments Year    Federal    State    Local				
				1965	120,940	40,313		
				1966	120,718	40,239		
				1967	133,589	44,529		
				1968	133,600	44,529		
1969	142,000	46,500						
				<u>Basis of Distribution</u> Funds are allocated on the basis of 40% in proportion to state area and 60% in proportion to the number of persons with fishing licenses. This tends to benefit states with a large land mass but few water areas.			Funds in Iowa are administered by the State Conservation Commission. The Conservation Commission and Secretary of the Interior must agree on the projects to be aided and conformance to federal standards.
