INTRODUCTION

The need for information about employment success after students have completed or left educational programs designed to prepare them for employment has been recognized for some time. Follow-up studies of these former students and their employers provide data that enable the determination of whether or not former students are employed in the occupation for which they were trained as well as salary information and also enable the assessment of the adequacy of job preparation training programs in providing employees to meet employer needs.

The Federal monies for follow-up activities is specified in Section 112 (b)(1)(B) of Public Law 94-482 that calls for an evaluation by using data collected, by statistical valid sampling procedures, of each state program according to the extent to which program completers and leavers find employment in occupations related to their training.

The National Center for Education Statistics has included student follow-up reporting as a component in the annual Vocational Education Data System (VEDS). While responses to follow-up are voluntary, the State is mandated to conduct follow-up activities and submit information to VEDS.

The 1982-83 student follow-up involved a sample of approximately 20% of the local education agencies offering programs to prepare students for employment. The sampling plan was developed according to NCES parameters in a manner to maximize representation in terms of students, variety and number of programs, and geographic location of LEA's over a five year period.

METHOD

Subjects. The subjects of Phase 1, the base data survey, consisted of 20% sample of secondary schools (75) and three merged area school administrators who had students who had completed or left educational programs that prepare students for employment during the 1981-82 school year (see Appendix A). The subjects for Phase 2, the student follow-up, consisted of 6,616 students reported in the base data survey as completing or leaving the educational programs.

Materials. The materials for Phase 1 consisted of a base data collection form for secondary schools (CE-7s) and merged area schools/community colleges (CE-4s), instructions, and cover letters (see Appendix B). Phase 2 materials consisted of cover letters to students and the student follow-up survey instrument (see Appendix C).

Procedure. Phase 1, base data survey, consisted of developing a roster of 1981-82 completers and leavers of educational programs that prepare students for employment, involved orienting the administrator and conducting the base data survey within the designated local education agencies to obtain students' names, addresses, and characteristics (completion status, sex, race/ethnic, handicapped, limited English proficiency, disadvantaged, and CETA) according to program taxonomy number and program title.

During the vocational education reimbursement cycle for FY 82 (between April and October 1982), the base data summary package was mailed to each selected secondary school and merged area school administrator. Each contact person was requested to provide information regarding former students who completed or left educational programs that prepared them for employment. This information was requested by specific taxonomy number, name and mailing address of each former student, program completion status, sex, racial/ethnic characteristics, handicapped, limited English proficiency, disadvantaged, CETA, and type of award (postsecondary only). Responses were received from 62 secondary and three postsecondary schools who had programs operating in FY 82. The forms were screened by the Department of Public Instruction personnel in order to edit the data. By the conclusion of Phase 1, information was obtained from 6,616 former students, of which some were duplicates.

Phase 2 involved surveying the students identified in Phase 1. Phase 2 was conducted between May 16, 1983 and December 4, 1983.

Survey forms from the Department of Public Instruction (DPI) were mailed to the former students identified in Phase 1 with instructions to complete the mailer (survey) and return it to DPI. One initial mailing (May 15, 1983) and one follow-up mailing to nonresponders (June 6, 1983) was made in order to boost the number of responders. No additional mailing or telephone follow-up was made, a departure from previous surveys. Duplicate names were identified by editing the file and the returns, and as a result, the final unduplicated file consisted of 6,240 students.

The employers of the respondents from Phase 2 who indicated they were employed in a field related to their training were selected to participate in Phase 3 (the employer follow-up).

On July 18, 1983 employer survey questionnaires were sent to 687 employers whose names and addresses were provided by the students participating in Phase 2 (see Appendix C). A second mailing to nonresponders was conducted in August 18, 1983.

Phases 2 and 3 were completed by October 15, 1983.

Editing and file clean-up was completed in November 1983. By the completion of the survey, student responses were received from 1,490 of the 6,240 students and 393 of the 687 employers.

RESULTS AND DISCUSSION

STUDENT FOLLOW-UP

A total of 1,490 or 23.8% of the survey questionnaires pertaining to the final 6,240 unduplicated list of 1981-82 student completers and leavers were returned with a response to at least one item on the Student Follow-up Survey form. The first mailing resulted in the 9.7% responses. The second mailing yielded an additional 14.1% response.

Because of the relatively low response rate due to the cut-back in mailing and telephoning, the results statistically are less reliable than in past surveys. Therefore, caution should be exercised in drawing conclusions from these results

The following data summarize the responses and non-responses to the survey according to relevant factors:

Factor	Total		Secondary		Postsecondary	
	No.	Percent	No.	Percent	No.	Percent
Total	6240	100.0	2422	100.0	3818	100.0
Responded to first mailing	607	9.7	184	7.6	423	11.1
Responded to second mailing	883	14.1	334	13.8	549	14.4
Subtotals	1490	23.8	578	21.4	972	25.5
Non-Responders	4750	76.1	1844	76.1	2846	74.5

The data below summarize the status of the 6,240 students who were surveyed in the Student Follow-up. It is quite evident from the table that for program completers 51.5% of the respondents were employed in an occupation related to their training as opposed to 43.6% for program leavers. Completers employed in an occupation unrelated to their training were 16.9% of the respondents compared to 20.7% for leavers. Overall, 68.4% of the completers compared to 64.4% for of the leavers were employed in some occupation. The employment percentage increases to 69.8% for completers and 66.3% for leavers if military employment for 1.4% of respondent completers and 1.9% of respondent leavers is included in overall employment. Continuing education was pursued by 16.5% of the completer respondents and 16.0% of the leaver respondents. There were 13.8% of the completer respondents unemployed with 4.6% seeking employment, while 9.2% were not seeking employment. These percentages compare with 16.8% unemployment for leavers; of which 11.0% were seeking employment and 6.8% were not seeking employment.

Status of Vocational Preparatory Students Surveyed*

Status	Total		Completers		Leavers	
	No.	Percent	No.	Percent	No.	Percent

Unemployed Not Seeking	125	8.3%	94	9.2%	31	6.8%

*Figure 1 shows the employment status of secondary students approximately one year after program termination (page 6).

*Figure 2 shows similar information for postsecondary students (page 7).

Tables 1, 2, and 3 show the employment status and hourly wage information of students who completed or left education designed to prepare them for employment. These tables are labeled part 1 and part 2 to indicate that each table consists of two pages.

Table 1 breaks this information down by the following occupational areas: agriculture, distributive education, health occupations, occupational home economics, office occupations, technical, trade and industrial, and multi-occupational by sex of student.

Table 2 shows the employment and educational data by program title and taxonomy number.

Table 3 breaks this information down for each secondary school district and merged area school summarized by occupational area.

STUDENT PERCEPTIONS

Table 4 shows vocational education perceptions of former students who completed or left vocational instruction during 1981-82. Specific perceptions were requested concerning "quality of instruction" (whether or not it met expectations), "importance of instruction in obtaining first full-time job," "benefit of instruction in preparing to perform first job and current job after leaving school," and "means of obtaining present job."

Approximately 88.2% of the respondents indicated that their vocational instruction met or exceeded their expectations. For program completers, 90.5% felt that the instruction met or exceeded expectations compared to 83.0% for program leavers. Only 11.8% felt that the instruction fell short of expectations with 1.6% indicating it was totally unsatisfactory. For completers, 9.5% indicated instruction was less than what was expected and 0.9% indicated that the instruction was unsatisfactory. For leavers, 17.0% of the respondents indicated that their instruction fell short of expectations, and 3.1% of that group felt that their instruction was unsatisfactory. As would be expected, leavers were less satisfied with their instruction than were completers.

Similarly, the "importance of vocational instruction in obtaining the first full-time employment upon leaving school" was rated of some to major importance by 71.0% of the respondents while only 16.5% felt it was of little to no importance. Completers tended to be more positive than leavers in this area with 76.1% completers reacting favorably compared to only 58.2% of the leavers while 13.0% of completer respondents reacted unfavorably compared to 25.8% of leaver respondents.

"Preparation of vocational instruction for first full-time job" was judged to be reasonably well to very well by 68.8% of the survey respondents. Only 13.8% felt their preparation was not well or of no value. The marked difference in views of completers and leavers was maintained on this item as well.

Responses concerning preparation for current "jobs were very similar to responses concerning preparation for first full-time job," but slightly less favorable with 68.6% of the respondents indicating reasonably well to very well compared to 14.4% indicating not well or of no value. These results are consistent with what one would expect considering the possibility of one's current job, not necessarily highly correlating with one's first job in terms of skills, knowledge, and abilities required.

"Means of obtaining the current job" was responded to by the former students with the most frequent response being direct application (or walk-in) by 40.2% of the respondents, followed by parents and family (13.0%), and teachers/vocational education instructors (12.8%). Completers and leavers varied in their most frequent means of obtaining a job except for the direct application being the most successful category.

EMPLOYER FOLLOW-UP

The following data summarize the responses and nonresponses to the survey according to relevant factors. A total of 397 or 57.3% of the 687 survey questionnaires mailed to 1981-82 vocational program completers and leavers employed in the occupation in which trained or related field were returned at project completion. The first mailing resulted in 39.0% usable returned survey forms. Second mailing yielded an additional 18.3% usable responses.

Factor	Instructional Level					
	Total		Secondary		Postsecondary	
	Number	Percent	Number	Percent	Number	Percent
Total Surveyed	687	100.0	143	100.0	544	100.0
Total Response	383	57.1	64	44.8	329	60.5
First Mailing	268	39.0	41	28.7	227	41.7
Second Mailing	126	18.3	24	16.8	102	18.8
Nonrespondents	294	42.8	79	55.2	215	39.5

Table 5 shows various demographic and descriptive characteristics about the former students and their programs for whom employers returned questionnaires. These same characteristics are summarized for employees prepared at secondary schools and merged area schools (page 87).

The following characteristics of employers were identified by the survey:

- (1) About twenty-five (26.2) percent of the responses from employers pertained to male students compared with 73.5 percent for female students.
- (2) More than three quarters (78.9) of the former students were currently employed. The following data summarize the employment status of this group:

Currently Employed	89.6%
Discharged (Fired)	0.8%
Voluntarily left (Resigned)	6.9%
Not Stated	0.8%

- (3) Slightly less than half (47.8%) of the students found employment with small employers (25 or fewer full-time employees).
- (4) About two out of three students (68.2%) were employed for more than one year by the reporting employer.

Table 2 shows the student program participation by six digit taxonomy number and title. This table indicates how the 393 former students of the completers and learners who responded to the survey are distributed by program taxonomy. The area of nursing had 21.2% of the students concentrated within those categories followed by finance and credit balancing with 9.7% of the employees (page 22).

Figures 3-7 and Table 7, pages 91-95, and 99 shows the percent of the employer responses statewide to questions concerning preparation and current performance of vocationally prepared employees. This information is presented for employees prepared at secondary schools in Table 8, page 100 and those from merged area schools in Table 9, page 101.

In terms of vocational training evaluation, each of three factors was rated in addition to computing an overall rating. For technical knowledge (Figure 3), 84.0% of the responses indicated a very good or good rating, while poor and very poor made up 1.3% of the responses. Responses from 84.7% of the respondent employers categorized work attitudes (Figure 4) as very good or good compared with 3.3% rating work attitudes as poor or very poor. Work quality (Figure 5) was viewed as good to very good according to 85.5% of the responses compared to 2.8% responses indicating poor to very poor. Overall (Figure 6), 83.2% of the responses evaluated training of workers as good compared to 2.0% responses rating overall training as poor to very poor.

In terms of the relative preparation (Figure 7) of vocationally prepared employees with non-vocationally prepared employees in similar positions, 43.3% of the vocationally prepared employees, according to the responses, were considered to be better prepared for similar positions while only 2.3% were considered to be less prepared.

In terms of current performance statewide (Table 7) of vocationally prepared individuals relative to actual job expectations, eleven factors were considered. Vocationally prepared individuals generally were considered to be performing at or above the expected level. The percent of responses indicating the employee performed below expected or satisfactory level ranged from 3.6% for "quality" to 8.9% for "ability to work with minimal supervision."

The results for those employees who were trained in secondary schools are shown in Table 8, page 100, and in Table 9, page 101 for merged area schools. Employees trained in secondary schools and merged schools were rated on preparation for employment including technical knowledge, work attitude, work quality, and overall preparation. Secondary schools were considered favorable ("good" to "very good") in technical knowledge by 85.9% of the ratings. Area schools received 83.6% favorable ratings for this factor. For work attitude, favorable ratings ranged from 90.6% for secondary school trained employees compared to 83.6% for area school trained employees. Work quality rated favorable for 87.5% of secondary school employees with merged area schools receiving 85.1% favorable ratings.

Overall, employees were considered to be prepared from "good" to "very good" by 92.2% of the ratings pertaining to secondary schools and 81.5% of the ratings of merged area schools. In general, both secondary schools and merged area schools received "good" to "very good" ratings on factors contributing to the overall preparation.

For "relative preparation of vocationally trained employees compared to non-vocationally trained employees," ratings concerning employees trained in secondary schools were categorized better prepared by 54.7% of the responses compared to 41.0% for employees trained in area schools. For secondary schools, 3.1% of the former students were considered less prepared than non-vocationally trained employees compared to 2.1% for merged area school former students.

For "current performance of vocationally trained individuals relative to actual job requirements," the range in percent of responses for employees prepared in the secondary schools under the category of less than satisfactory performance was from 1.6% for "cooperation with management and compliance with rules" to 19.4% for "ability to work with minimal supervision." For merged area school trained employees, the range was from 0.6% for "punctuality" to 3.0% for "ability to work with minimal supervision."

Following the tables described above are more detailed presentations. Table 11, page 247 shows the statewide, secondary, and merged area school vocational training evaluation by demographic and program characteristics (C and D items from the questionnaire, see Appendix D).

Table 12 displays the responses to the evaluation items (C and D), by program taxonomy numbers statewide, in secondary schools and merged area schools.

Instructions for completing the CE-48 form
about 1981-82: Postmaster (computer/printer)

name or verify that name, district, school number, and school name
are correct on the form.

For forms without labels attached or additional forms, complete the
taxpayer number of the program that student completed or left during
1981-82. Also provide information concerning instructional level,
type of program, special emphasis, and other and purposes. These
codes should correspond to those used on the CE-48 form for program
approval and reimbursement for FY 1981.

Each time one of these codes changes, use an additional form. If
you need more forms or have any questions, contact the department
of Public Instruction (Steve Goss) - 515-451-4330 or Ed Ramsey
515-451-4330 or FAX from a blank form.

For forms without labels attached or additional forms, enter the
program name in the space provided.

APPENDIX B

Base Data Survey Package

For each student who completed the vocational program listed
that between July 1, 1981 and June 30, 1982 - provide district name,
address (number, street, city, state, and zip code) and telephone number.
Enter code (type of number) in the space as noted in the column.
Indicate whether the student completed 100% of the program or less
than 100% by placing an 'X' in the appropriate box.

Place an 'X' in the appropriate category if applicable to the student:
resident alien, his race and check this box instead.

Place an 'X' in the appropriate category if applicable to the student:
a. Student in CIAA - Comprehensive Instruction and Training Act
b. District - District
c. State - United English Proficiency
d. State - MINTI (Mentally Impaired)

Indicate the type of award of the individual:
a. Degree - (e.g., associate or baccalaureate)
b. Dip or cert. - Diploma or certificate
c. No formal Award - Neither degree or diploma/certificate

Return these forms along with your reimbursement request.

Instructions for Completing the CE-4S Form
About 1981-82 Postsecondary Completers/Leavers

- 1. Enter or verify that county, district, school number, and school name are correct on the form.
- 2. For forms without labels attached or additional forms, complete the taxonomy number of the program that students completed or left during 1981-82. Also provide information concerning instructional level, type of program, special emphasis, and object and purpose. These codes should correspond to those used on the CE-4 form for program approval and reimbursement for FY 1982.

Each time one of these codes changes, use an additional form. If you need more forms or have any questions, contact the Department of Public Instruction (Steve Boal - '515' 281-4730 or Ed Ranney - 281-3893) or zerox from a blank form.

- 3. For forms without labels attached or additional forms, enter the program name in the space provided.
- 4. For each student who completed or left the vocational program identified between July 1, 1981 and June 30, 1982 - provide his/her name, address (number, street, city, state, zip code), and telephone number (area code-telephone number) in the spaces as noted in the column headings. Do not report transfers. See glossary.
- 5. Indicate whether the student completed 100% of the program or less than 100% by placing an 'X' in the appropriate box.
- 6. Place an 'X' in the appropriate box for sex (M-male, F-female) as well as for race/ethnic category. If this individual in a non-resident alien, omit race and check this box instead.
- 7. Place an 'X' in the appropriate categories if applicable to the student:
 - a. 'Hand' - Handicapped
 - b. 'LEP' - Limited English Proficiency
 - c. 'Disadv.' - Disadvantaged
 - d. 'Student in CETA' - Comprehensive Employment and Training Act
- 8. Indicate the type of award of the individual:
 - a. 'Degree' - (e.g., associate or baccalaureate)
 - b. 'Dip or Cert.' - Diploma or certificate
Select either 2 years, 1 to less than 2 years, less than 1 year
 - c. 'No Formal Award' - Neither degree of diploma/certificate
- 9. Return these forms along with your reimbursement request.

Instructions for Completing the CE-7S Form
About 1981-82 Secondary Completers/Leavers

1. Verify that county, district, school number, and school name are correct on the form.
2. Complete the taxonomy number of the program that students completed or left during 1981-82. Also provide information concerning instructional level, type of program, special emphasis, and object and purpose. These codes should correspond to those used on the CE-4 form for program approval and reimbursement for FY 1982.

Each time one of these codes changes, use an additional form. If you need more forms, contact the Department of Public Instruction or zerox from a blank form.

3. Enter the program name in the space provided.
4. Enter the specific taxonomy numbers listed on the CE-7 for program reimbursement. (Reference is made to those taxonomy numbers provided in boxes 30-39 on the CE-7 form.)
5. For each student who completed or left the identified vocational program between July 1, 1981 and June 30, 1982 - provide his/her name, address, (number, street, city, state, zip code) and telephone number (area code - telephone number.) Do not report transfers. See sheet of definitions.
6. Indicate whether the student completed or left 11th or 12th grade on or before June 30, 1982 by placing an 'X' in the appropriate box.
7. Indicate whether the student completed 100% of the program or less than 100% by placing an 'X' in the appropriate box.
8. Place an 'X' in the appropriate box for sex (M-male, F-Female) as well as for race/ethnic category.
9. Place an 'X' in the appropriate categories if applicable to the student (See sheet of definitions):
 - a. 'Hand' - Handicapped
 - b. 'LEP' - Limited English Proficiency
 - c. 'Disadv.' - Disadvantaged
 - d. 'Student in CETA' - Comprehensive Employment and Training Act
10. Return these forms along with your CE-4 reimbursement request.

-324-

DEFINITIONS

Completer

A student who has finished the requirements of a planned sequence of courses, services, or activities designed to meet a vocational objective that teaches entry-level job skills. This person must meet all requirements of the institution for program completion whether or not he or she is graduated from the institution. (100%)

Leaver

A student who was enrolled in and attended a program designed to meet a vocational objective that teaches entry-level job skills and has left the program without finishing the requirements and who is not known to be re-enrolled. (Less than 100%)

Transfer

A student who was enrolled in and attended a program designed to meet a vocational objective that teaches entry-level job skills who is known to have transferred to another institution or who transferred out of the program into an academic or general education program at the same institution. Students who transfer from one vocational program to another within the same school are not considered as transfer students.

Handicapped

Handicapped are those persons that meet the following handicapped categories:

A person who is diagnosed as:

- a. Mentally Retarded
- b. Hard of Hearing
- c. Deaf
- d. Speech Impaired
- e. Visually Handicapped
- f. Emotionally Disturbed
- g. Orthopedically Impaired
- h. Other Health Impaired
- i. Deaf/Blind
- j. Multi-handicapped
- k. Specific Learning Disabilities

All diagnosed handicapped students enrolled in vocational education programs should be reported as handicapped whether or not they are receiving additional special or supportive services to help them succeed.

Disadvantaged

Disadvantaged Persons (other than handicapped) who meet the following:
"Economically disadvantaged" refers to any of the following:

- (1) Family income is at or below national poverty level

Revised Poverty Level Income Levels

<u>Family Size</u>	<u>Income (Non-Farm)</u>	<u>Income (Farm)</u>
1	\$ 3,400	\$ 2,910
2	4,500	3,840
3	5,600	4,770
4	6,700	5,700
5	7,800	6,630
6	8,900	7,560
7	10,000	8,490
8	11,100	9,420
9	12,200	10,350
10	13,300	11,280

- (2) Participant or parent(s) or guardian of the participant is unemployed
- (3) Participant or parent of participant is recipient of public assistance
- (4) Participant is institutionalized or under State guardianship

Operationally, economic disadvantaged can be determined by reporting students who are participating in a free or reduced lunch program, AFDC (Aid to Families of Dependent Children) program or work-study program.

"Academically disadvantaged" refers to persons who:

- (1) Lack reading and writing skills;
- (2) Lack mathematical skills; or
- (3) Perform below grade level.

Operationally, academic disadvantaged can be determined by student enrollment in remedial programs, or student performance at least one grade level on standardized test or student failure of a grade.

Limited English Proficiency

Any member of a national origin minority who does not speak and understand the English language in an instructional setting well enough to benefit from vocational studies to the same extent as a student whose primary language is English. Some examples of national origin minorities are persons of Spanish, Chinese or Italian heritage. The chief administrative official shall determine the method and the staff persons responsible for making the identification.

CETA

DEFINITIONS

Student enrolled in the vocational education program where CETA is reimbursing the educational costs for individual referral students in an ongoing vocational education program.

Family Size	Income (Non-Farm)	Income (Farm)
1	\$ 3,400	\$ 2,910
2	4,500	3,840
3	5,600	4,770
4	6,700	5,700
5	7,800	6,630
6	8,900	7,560
7	10,000	8,490
8	11,100	9,420
9	12,200	10,350
10	13,300	11,280

(1) Participant is institutionalized or under State guardianship.

(2) Participant is economically disadvantaged if the student is a member of a racial or ethnic minority who does not speak and understand the English language as an institutional setting well enough to benefit from vocational studies to the same extent as a student whose primary language is English. Some examples of national origin minorities are sons of Spanish, Chinese or Italian heritage. The chief administrative official shall determine the method and the staff persons responsible for making the identification.

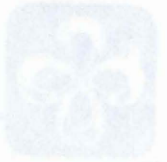

(3) Participant is academically disadvantaged if the student is a member of a racial or ethnic minority who does not speak and understand the English language as an institutional setting well enough to benefit from vocational studies to the same extent as a student whose primary language is English. Some examples of national origin minorities are sons of Spanish, Chinese or Italian heritage. The chief administrative official shall determine the method and the staff persons responsible for making the identification.

- (1) Lack reading and writing skills;
 - (2) Lack mathematical skills; or
 - (3) Perform below grade level.
- Operationally, academic disadvantaged can be determined by student enrollment in remedial programs, or student performance at least one grade level on a standardized test or student failure of a grade.

Operationally, economic disadvantaged can be determined by referring students who are participating in a free or reduced lunch program, WIC, etc.

(4) Participant is institutionalized or under State guardianship.

Dear Former Student

The State of Iowa Department of Public Instruction is conducting a survey of people who were former high school or community college students and received specialized training during the 1981-82 school year. We would like to know your opinions on the quality and usefulness of your training as well as other information which will aid us in assessing the effectiveness of this training. The purpose of this study is to evaluate the strengths and weaknesses of the specialized educational programs offered by Iowa's high schools and community colleges.

We will sincerely appreciate your taking a few minutes to fill out the enclosed questionnaire and return it in the postage-paid envelope.

You may be assured of complete confidentiality. The questionnaire has a gummed label for mailing purposes only. This is so that we can check your name off the mailing list when your questionnaire is returned. Your responses will be combined with those of other former students in summary form only. The reports will never identify individuals.

This study will help to strengthen the educational programs in Iowa, and it has long-term benefits to all Iowans. Your participation is important and will be greatly appreciated.

Thank you in advance for your cooperation.

Sincerely,

Marilyn Engelson

STUDENT FOLLOWUP SURVEY

INSTRUCTIONS: Please read each question carefully. Then respond by checking (✓) one of the answers. In part A, respond only if you are or have been employed, as applicable to each item. If your exact answer is not listed, check the answer that comes closest to it.

All information on this questionnaire will be kept confidential. The gummed label on the middle of the back page contains the name of your program in order to assist you in filling out the questionnaire. The number is for mailing purposes only. We will use it to check your name off the mailing list when your questionnaire is returned.

Please return this questionnaire; a **Business Reply** form is provided and must be visible when refolding the form. Please seal with cellophane tape to prevent opening during transit.

Thank you for your cooperation.

Dear Former Student:

Sometime ago I wrote to you seeking your opinions of the educational training you received during 1981-82. We are asking for your opinions so that we can learn how to improve the quality of training which prepares students for employment.

Since your name was one of a selected sample, to be truly representative, it is important that everyone selected participate in the study. As of today, we have not received your questionnaire. We are enclosing a replacement questionnaire and postage-paid envelope in case the original has been misplaced. We would sincerely appreciate your taking a few minutes to participate in this important study.

David H. Bechtel, M. S., Administrative Assistant

JAMES E. MITCHELL, Ph.D., DEPUTY SUPERINTENDENT

Iowa
a place to grow

Attention: Manager or Personnel Director

Dear Employer:

The Iowa Department of Public Instruction is conducting the attached survey of employers of persons who received specialized training during the 1981-82 school year.

The purpose of the survey is to evaluate the strengths and weaknesses of the specialized educational programs offered by Iowa's high schools and merged area schools (community colleges). It is not an attempt to evaluate individual workers. The data obtained from the survey are essential for reporting the results of vocational training supported in part by federal funds.

The enclosed form(s) should be completed by the person within your organization who has had the best opportunity to observe the employee designated on each form. A postage-paid return envelope is enclosed for your convenience.

Your responses will be combined with those of several thousand other employers in summary reports. The reports will never identify an individual worker or employer. The results will be grouped according to the type of vocational training program and the school providing the training. For this reason, it is important that the returns be as complete as possible.

This survey will help strengthen the educational programs in Iowa, a potential benefit to all employers and to the state's economic health. Your cooperation is important and will be greatly appreciated.

If a student (employee) is unknown, never worked for you, etc., a response to this effect will be very helpful and will spare both yourself and the survey agency the need for a repeat mailing.

Thank you in advance for your help.

Sincerely yours,

Robert D. Benton, Ed.D.
State Superintendent of
Public Instruction
