

Iowa Community Empowerment/Early Childhood Iowa Funding

EARLY CHILDHOOD GRANTS

The Iowa State Legislature appropriates state General Funds (prior to FY2014 these were federal Child Care Development Block Grant funds) for community grants to enhance the quality and capacity of child care through:

- Regular child care and provider recruitment,
 - Child care for mildly ill children,
 - 2nd and 3rd shift child care,
 - Provider training, and
 - Support for registration and licensure.
- ✓ Early Childhood Grants are awarded to all Early Childhood Iowa Areas via a formula that is based on the number of Family Investment Plan (FIP) cases per county
 - ✓ Early Childhood Iowa Area administrative expenditures are limited to 5% of the Early Childhood Grant award
 - ✓ Beginning in FY2014, the Iowa Legislature changed the source of the Early Childhood funds from federal Child Care Development Block Grant funds to state general funds. This change reduced the fiscal requirements that are associated with federal funds and local area boards felt were burdensome.
