UNFURLING OF SERVICE FLAG AT LOYALTY CONVOCATION, FEBRUARY 7, 1918

Iowa
940.373
109

Foreword

"Had I a dozen sons, each in my love alike, I had rather eleven die nobly for their country than one voluptuously surfeit out of action."

The highest honor which can be reflected upon their Alma Mater by her sons and daughters is that which comes not from their success in material things, gratifying as that may be, but from that loftiness of spirit which leads them ever to welcome the opportunity to serve their country and their fellowmen.

The value of the service rendered by an institution of learning must be measured not alone by the knowledge it imparts, but rather by the ideals it implants—by the inspiration it gives to those who would fit themselves to live worthily, and if need be, to die willingly in a just cause. For the training of the head and hand to the neglect of the soul and spirit only better fits the beneficiary to prey upon his fellows who have lacked equal opportunity.

Measured by this exacting standard, its builders may well find satisfaction in contemplating the stature attained by the Iowa State College of Agriculture and the Mechanic Arts. For well nigh half a century her ruling spirit—that invisible, intangible, but all-pervasive, all-powerful spirit which is the very life of the institution and which will continue to live as the real institution, tho all the buildings and equipment be destroyed—has been the spirit of service. And this spirit has been nourished and strengthened year after year by the hopes and ambitions and aspirations of those fine, clean young lives which come to it in steadily increasing numbers.

Small wonder then that the spirit of Ames flamed forth with a holy fire when the foundations of civilization were being undermined. Small wonder that when at last the way was opened the sons—aye, and the daughters—of Ames eagerly embraced the opportunity for service in the cause of humanity.

They sought the enemy on land, on sea and in the air. Their names will be found enrolled in every arm of the service. Undergraduates, alumni and faculty, young and old, fought side by side, animated by a single purpose. They fought well. Their training fitted them for leadership, and they were given great responsibilities. Their achievements won for them distinguished recognition by their own and other countries. They wrote a glorious chapter in the history of Ames. Their deeds, woven into and forming an inseparable part of its life, will ever stimulate and inspire those who come after them.

And as with full eyes we look upon those stars of gold which glorify our service flag, may we ever remember that

"In such an enterprise, to die is rather the dawn of an eternal day, than death."

How Ames Responded

If there had ever been any doubt as to the advisability of the creation of the Land Grant Institutions, that doubt was destroyed for all time during the World War.

The declaration of war found them with military departments already established and military tactics as part of the regular curriculum. It also revealed the fact that their courses of study had been formulated along the very line necessary for the successful prosecution of the war. It only needed the dropping of a few non-essentials and the intensifying of its major lines of work.

This Ames started at once to do and the efficient results obtained by the different divisions, thru their faculties and extension staffs won the commendation of prominent men who were active in the prosecution of the war program. When the history of Iowa State College is written, the part she played in the World War will constitute the concluding chapter of a remarkable period of service.

The response which Ames made to the Country's call should be a source of pride and satisfaction to every graduate and friend of the institution.

Approximately 6,000 names appear on Iowa States' service roll. There were 2,000 trained in the Mechanical Training Detachments sent to Ames. The S. A. T. C. enrolled approximately 1,700, while nearly 2,300 alumni, students and faculty, entered the service. Of these about 760 were students, 1,495 alumni and 45 faculty.

The following classification is only approximate yet it reveals some interesting facts, relative to the branches of service which attracted Ames men. The large number in Artillery and Coast Artillery Corps is especially significant. The fine record made by Ames men in these two branches of the service added much to the prestige of Iowa State.

Infantry—411.	Medical Corps—92
Engineers—293.	Chemical Warfare—21.
Artillery—314.	Machine Gun Battalion—44.
Ordnance—53.	Ambulance Corps—38.
Quartermaster Corps—37.	Signal Corps and Radio—63.
Tank Corps—14.	Ammunition Train—21.
Navy—181.	Motor Transport—7.
Coast Artillery Corps—101.	Cavalry—9.
Marines—20.	Y. M. & Y. W. C. A.—19.
Veterinary Corps—89.	Special—247.
Aviation—(Army—190, Naval—26.	

The Home Economics Service Flag contains 29 stars, including a gold one. Of these 29 women who went into the service, 10 are listed as dietitians, and 11 as nurses. Of the others, one was a yeoman and two were laboratory technicians.

Iowa State also did her part in upholding the reputation of the college in furnishing commissioned men. When the final records are in, there is every reason to believe that they will show that one-half of the Ames men who entered the service were commissioned.

So far the records show that Iowa State had the honor of furnishing 2 Brigadier Generals, 3 Colonels, 14 Lieutenant Colonels, 33 Majors, 117 Captains, 224 First Lieutenants, 430 Second Lieutenants, and 55 Ensigns. There were also three alumni members of the General Staff and one alumnus who was head of the Judge Advocate's department in France.

There are 103 Gold Star men on the Service Roll. Of these 25 were from the Student's Army Training Corps, 26 from the Mechanical Training Detachments, and the balance, students and alumni who went directly into service. Of the latter group, 19 were killed in action or died of wounds; 9 died of disease in France or enroute; while 30 died in the U. S., one was killed and one drowned.

The final returns will also show that Ames men were the recipients of many honors for conspicuous bravery and distinguished services rendered. The records already show well over one hundred of these. Among these recognitions of meritorious service rendered are French War Crosses, Italian War Crosses, Distinguished Service Medals, Legion of Honor, Order of Leopold and scores of citations.

While Ames men and women were doing their duty in the field, their alma mater was on the firing line at home, doing her part in speeding up the war program as shown by the condensed statements of the accomplishments of the different divisions.

AGRICULTURAL DIVISION

Between fifty and sixty men from the agricultural faculty and agricultural experiment station staff enlisted for military duty during the recent World War.

In addition to the service rendered by the men who enlisted, many of our staff did special work in connection with the Liberty Loan and Red Cross campaigns, and served on special committees and made lecture tours to aid in the war program of increased crop production and conservation. Such work covered the following lines: Securing and distributing adequate stocks of seed to Iowa farmers; aiding in procuring butter for the United States Navy, and interesting creameries in keeping up the creamery manufacture of butter and other dairy products in the state; promoting sorghum syrup production to relieve the sugar situation; increasing the number of home gardens and home canning and drying; increasing production of market poultry and eggs; doing general publicity work in connection with food conservation and increased production; studying the cost of producing milk; giving instruction in the use of agricultural machinery to aid in relieving the labor shortage. Everything possible was done to increase the amount of wheat and other grains, cattle, hogs, fruit, vegetables, and dairy products, and to help the farmers in the proper methods of handling soils, using fertilizers, growing crops, feeding livestock and controlling insect pests and plant diseases, thus bringing production up to the highest point.

ENGINEERING DIVISION.

During the war period the work of every department in the engineering division was reorganized on the basis of rendering the maximum of service to the nation with the men and facilities at hand. The work everywhere was speeded up with the one idea of winning the war. Courses not contributing directly to this end were dropped. New courses in radio communication, signal corps practice, telegraph and buzzer signaling, military reconnaissance and mapping, construction of military structures, gas engines, automobile operation and machine shop practice were added. Short courses of instruction in radio and buzzer communication were offered at different points throughout the state.

The work of some departments was such that practically their entire staffs were in government service, either military or civil. One department head was in the service of the Fuel Administration and handled the fuel conservation campaign in Iowa. The college furnished seven engineers for this work which is now recognized as the most efficient campaign carried out in the United States. Two staff members were working out methods of making 9.2 inch semi-steel shells at the time the armistice was signed. Another was studying methods of recovering sulphur and sulphuric acid for munitions from Iowa coals. The largest single activity of the division was the handling of the training detachments of enlisted men who were sent to the college for intensive training in auto mechanics, blacksmithing and machine shop practice. When the armistice was signed the fourth unit had just gotten under way, making a total of 100 machinists, 200 blacksmiths and 1,700 auto mechanics trained. These men were in no way connected with the S. A. T. C.

HOME ECONOMICS DIVISION.

The plan of organization for Home Economics War Emergency work, including state wide and collegiate, can be summarized as follows:

State and local

(1) Three to five-day short courses; (2) Personal visits of home demonstration agents in ninety-nine counties; (3) Conservation lectures and demonstrations; (4) Publication and distribution of conservation literature; (5) Assistance in organization of projects; and (6) Wheat saving campaign.

Collegiate

The Household Art Department adjusted the work of the sewing classes to include (1) the making of hospital garments, (2) the renovation and dyeing of used materials, and (3) additional problems in made-over garments.

The Household Science Department placed their emphasis on (1) food conservation, (2) additional instruction in food preservation, and (3) experimental work on war emergency food problems.

The Physical Culture Department substituted Red Cross work in the place of the regular physical culture courses as follows: (1) First Aid, (2) Elementary hygiene and home care of the sick.

The Dean of the Home Economics Division was also Home Economics Director for the State of Iowa under the United

States Food Administration; a member of State Council of National Defense—Women's Division, and in these capacities assisted in organizing both state and national work in food and clothing conservation.

The Head of the Physical Culture Department served one year abroad as recreation director under the supervision of the Young Women's Christian Association.

INDUSTRIAL SCIENCE DIVISION.

Over seventy-five members of the faculty of this division were employed directly or indirectly in war work. Every department was represented. The individual activities were many. Three fields were entered in the main, the educational, the military and the research. In the military field men were in the infantry and the field artillery, the remount, aviation and chemical warfare services, the sanitary and medical corps and as civilians in the ordnance department.

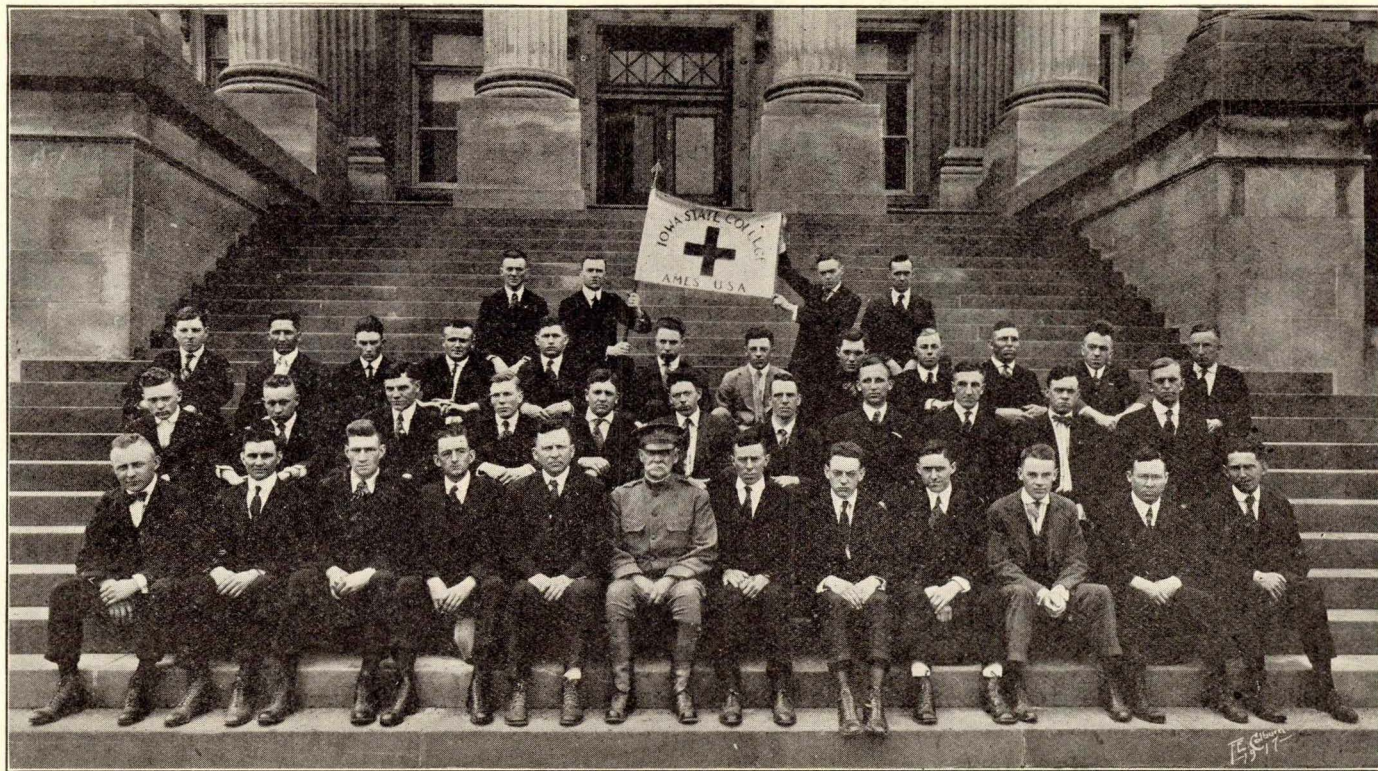

Special educational work was given by a number of departments in the preparation of young men and women for war service. The War Issues course required by the government was of a general nature. All other such courses were quite specific in character.

A number of important researches were undertaken at the request of the National Research Council or other governmental agencies. The department of Bacteriology studied the causes of spoilage in canned fruits and vegetables and the growth and cultivation of the organism causing meningitis. The department of Botany was engaged in making cereal rust surveys, in helping to formulate and carry out plans for the eradication of the barberry and in conducting researches having to do with increased food production. The department of Zoology conducted researches on methods for combating noxious insects in the interests of food production and on the making of cootie-proof clothing. The department of Chemistry prepared war gases and developed methods for their detection, conducted digestion experiments on wheat flour substitutes and conservation work on fat and sugar substitutes.

VETERINARY DIVISION.

Upon the declaration of war the Veterinary Division responded to the call quickly and definitely. The first call estimated an ultimate need for two thousand veterinary officers which constituted a large percentage of the total number of veterinarians in the United States. The division took up the problem of helping to supply this number in three ways.

First, by conducting examinations of graduates for entrance into the Veterinary Corps, second, by hastening the graduation of students then in college and third, by allowing members of its faculty to enter the service. By May, 1917, one hundred and fifty veterinarians had been examined and the majority recommended to the Surgeon General for appointment. The senior class was continued through the summer vacation and graduated the following Christmas thus adding to the number of available officers, six months in advance of the usual time. Five members of the faculty went into the service and their college work was carried by those remaining, only one new member being added.

AMES AMBULANCE UNIT, TAKEN AFTER PRESENTATION OF FLAG, MAY 31, 1917

Including faculty, alumni, and students, the college has record of 102 who entered the service, exclusive of the S. A. T. C.

Of these, 92 were officers who held final rank as follows: Lieutenant Colonel, 2; Major, 6; Captain, 14; 1st Lieutenant, 30; 2d Lieutenant, 40.

THE AMES AMBULANCE UNIT.

H. L. STAVES

The Ames Ambulance Unit, or Section 545, as it was officially termed, was the only group of students that was organized and sent out from Iowa State in a body to take part in the recent war. The unit was originally formed of thirty-six students of all classes and was enlisted in the regular army June 4, 1917. It was sent to Camp Crane at Allentown, Pa., for training and stayed at that place almost a year before being sent overseas.

The section was placed in the first contingent of American troops to be sent to Italy, arriving at the port of Genoa June 12, 1918, and was sent to the front almost immediately, being the first organization of United States troops to reach the Italian-Austrian front.

Section 545 worked directly under Italian command and was attached to the 17th Sezione, 9th Corps, 4th Armata and established at its base at Bassano, Italy. The 4th army was the famous "Army of the Grappa," which saved Italy and probably the world from disaster by refusing to retreat in the big Austrian drive of October, 1917, and which held the Austrian armies north of the Piave river until the routed Italian troops could reorganize. As a reward for this service, the 4th Armata was given the Grappa sector to permanently defend, while other armies were thrown into the line, withdrawn, and then put in at another place. This resulted in continuous duty for Section 545 from the time of their arrival at the front, till after the armistice was signed. The line, from the Austrian advance until a few days before the Austrian breakdown, remained practically the same.

Section 545 established posts all along the line held by the 4th army. This sector, which received its name from Mount Grappa, one of the highest and most inaccessible mountains of the Italian Alps, was almost in the center of the Italian-Austrian front and extended from the Montello woods on the east, to the Asiago plateau on the west.

The section was in one major engagement, that of Vittorio Veneto, October 21 to November 4, 1918, receiving for their work in this battle an army corps citation, and were awarded the Italian Cross of War.

When the Italian-Austrian armistice was signed, November 5, 1918, the section had advanced to a considerable distance into the Trentino, the former Austrian province that was awarded to Italy, by the peace conference, where it remained two months. The section was then placed in the Italian army of occupation, and moved to Mortegliano, in the Trieste district, where it worked until it was removed from the Italian command. The ambulance contingent was then remobilized at Genoa, in preparation to returning to the States.

Section 545 was discharged at Camp Dodge, May 9, 1919, after 23 months active service, of which 11 were spent in foreign duty.

Ames Gold Star Heroes

(1) John Hufford ('17 A. H.) enlisted Aug. 2, 1918, Syracuse, N. Y. Assigned Q. M. C., Pvt., 1st Cl. Transferred Camp McClellan Ala., Nov. 1. Died Mar. 7, 1919.

(2) Joe A. Hora (Ex. '20 E. E.) enlisted with Co. "F", 350th Inf., Camp Dodge, Iowa. Died of wounds in France, October 10, 1918.

(3) H. R. Gray (Ex. '20 Agr.) enlisted Aug. 14, 1918 at Elkader, Iowa. A member of the 3d Military Transport School at Ames. Promoted to Sgt. Died Oct. 14, 1918 at Ames.

(4) Volney L. Evans ('17 A. H.) enlisted Aug. 19, 1918, Glenwood, Iowa. Assigned to Central Officers Training Camp, Camp Pike, Ark. Died Nov. 27, 1918.

(5) Emeric Peterson (Ex. '18 Arch Eng.) enlisted May 15, 1917, Ft. Snelling, Minn. Received commission 2d Lt. Assigned Co. F., 164th Reg. Sailed for France Aug. 26, 1917. Thirteen months instructor in Second Corps School. Died Oct. 27, 1918, at Chatillon-Sur-Seine.

(6) Harold G. McGee ('16 T. Y. A.) enlisted April 4, 1917, Council Bluffs, Iowa. Assigned Co. "L", 168 Inf. Saw foreign service from Aug. 1917 to date of death, Oct. 21, 1918, at Cate-Chatillon. Killed by shell exploding in dugout. Engagements at Champaign, Chateau Thierry, St. Mihiel and Argonne Forest.

(7) E. E. Hites ('15 Vet.) enlisted June 12, 1917, as 2d Lt. Assigned 6th Field Art., Douglas, Ariz., July 18, 1917. Sailed for France July 31. Last engagement the St. Mihiel Drive. Died Sept. 28, 1918. Company fired first American shot into German lines.

(8) Leo P. LeBron (Ex '95 Eng.) enlisted Aug., 1917, at Ft. Smith, Ark., as Capt., in Engrs. Corps. Sailed for overseas with the 211 Pioneer Corps. Drowned when Tuscania was torpedoed Feb. 5, 1918.

(9) John D. Swiney ('16 Agron.) called into service with Bat. "D", Iowa Nat. Guards, Camp Cody, N. Mex. Transferred to 2d O. R. T. C. at Ft. Snelling, Minn. Commissioned Capt. F. A. Stationed at Camp Dodge, Iowa previous to going overseas. Died in France, October 8, 1918.

(10) Fred D. Turner ('20 Vet.) enlisted in Nat. Guard June 5, 1917. Left New York with the 168th Inf. Arrived in Toul Sector December 12. Killed while delivering message to his officer Mar. 9, 1918.

(11) Floyd Wambeam ('15 Sc.) enlisted at Camp Funston, Kan., Oct. 6, 1917. Assigned Amb. Co. 356, 314 Sanitary Train, 89th Div. Sailed June 4, 1918. Volunteered first aid man Co. M. 353 Inf. 3d Bn. operating in Romagne Woods, Oct. 23. Received shell wound Oct. 27, causing his death.

(12) Henry H. Russell (Ex. '19 Chem. E.) enlisted at Des Moines, Iowa, June 3, 1917. Assigned 7th Reg. Engrs., Ft. Logan, Colo. Arrived in France Mar. 18, 1918. Commissioned 2d Lt., Sept. 25. Killed in action Oct. 14, 1918.

(13) Earle Edwards ('15 A. H.) enlisted March, 1918, at St. Louis, Mo. Assigned to ground school in aviation at Austin, Tex. Transferred to Dallas, Tex., to flying school. Died Oct. 22, 1918.

(14) Wm. Brand ('14 A. H.) enlisted May 27, 1918. Assigned Co. D. 352 Inf. 88 Div. Transferred to O. T. S., June 10. Co. 46, 163 Draft Brig., Sept. 10. Promoted Platoon Sgt. Sept. 20. Died December 11, 1918, Camp Dodge, Iowa.

(15) Mathew D. Eckerman (Ex. '18 M. E.) enlisted O. T. S., Ft. Snelling, Minn. Commissioned 2d Lt. Assigned 88th Div., Camp Dodge. Sailed for France Aug., 1918. Intelligence Dept. 2d B'n 351 Inf. Killed Nov. 1, while doing scouting work in Alsace.

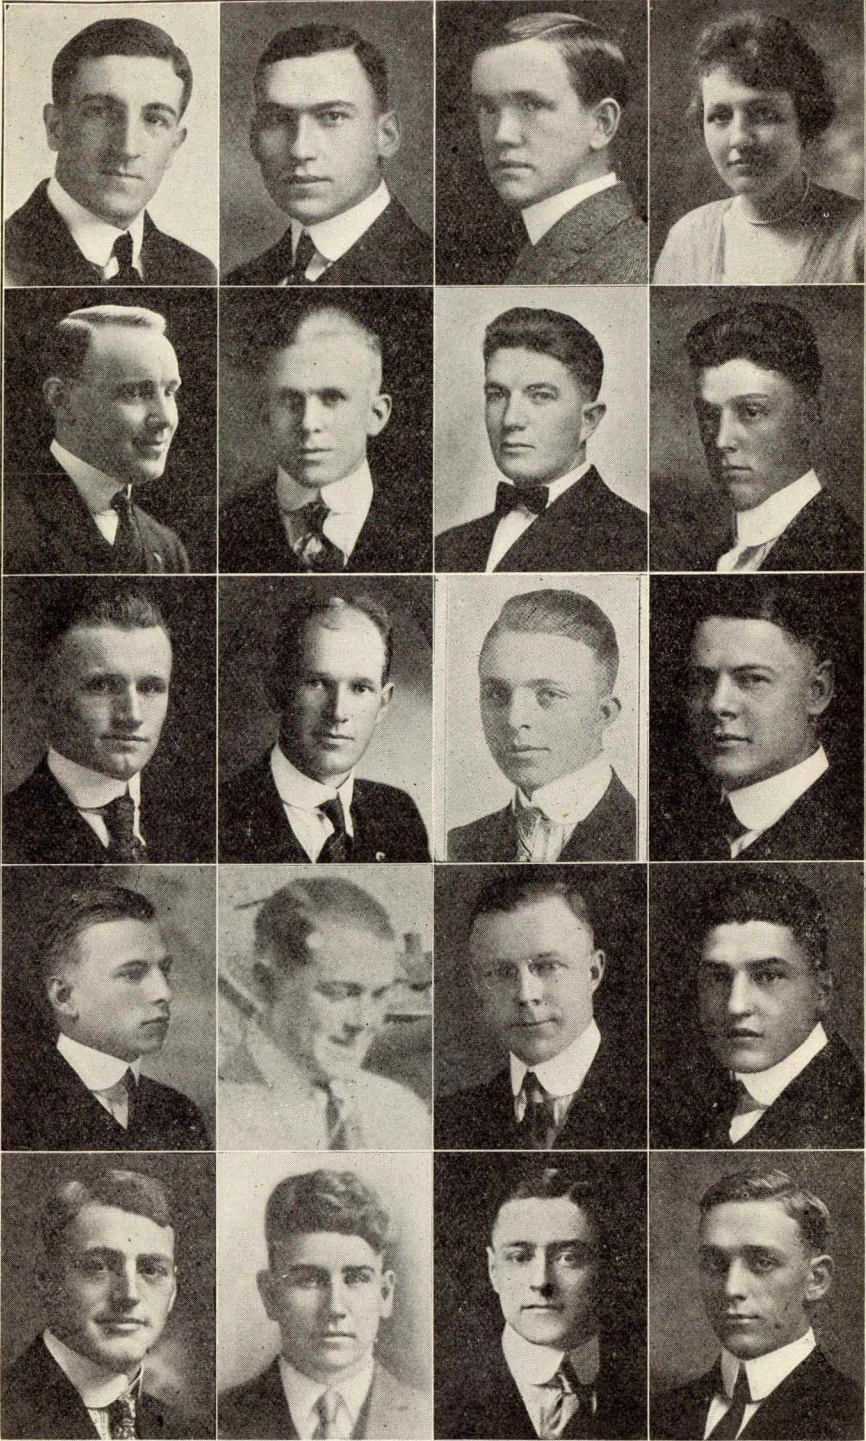

(16) Joe M. Eldridge ('16 Dy.) enlisted at Brookings, S. D., July 12, 1918. Assigned Co. 45, Depot Brig., 12 B'n. Transferred to Madison, Wis., for Chemical Warfare service training. Died December 4, 1918.

(17) Edwin F. Barnum ('15 Chem. E.) enlisted Nov. 6, 1917, Washington, D. C., with 30th Engrs. (Gas & Flame). Transferred to Chemical Warfare Service at American University. Sailed for France Mar. 16, 1918, as member of unit to establish American laboratory at Pateau (near Paris). Advanced to Sgt. Recommended for D. S. medal for brilliant work. Sailed from Brest Jan. 10, 1919. Died at Base Hospital, Camp Merritt, Feb. 12, 1919.

(18) Dexter E. Bailey ('17 M. S.) Commissioned 1st Lt. Sanitary Corps, March 1, 1918. Assigned to Food Division. Died Dec. 2, 1918 at Camp Bowie, Texas.

(19) O. D. Davidson ('15 M. E. & A. E.) enlisted at Omaha, Nebr., Dec. 28, 1917. Assigned to Gas Engine Division (Aviation). Commissioned 2d Lt. Mar. 26, 1918. Killed in airplane accident Mar. 16, 1919, Richmond, Tex.

(20) Mark Middlekauff ('17 M. S.) enlisted first O. R. T. C. at Ft. Snelling, Minn., May, 1917. Chose aviation. Trained at Columbus, O., Canada and Egypt. Commissioned 1st Lt. Sent to Italian front for service. Killed in France October 1, 1918.

They Made the Supreme Sacrifice

(1) Clyde E. Beer ('19 E. E.) enlisted at Des Moines, Iowa, June 5, 1917, as a member of Ames Ambulance Unit. After reaching Allentown, Pa., transferred to a New York Company which was going overseas. Assigned to French army. Killed in action September 19, 1918. Saw 13 month's service in France. Rank of Corp. Croix De Guerre.

(2) Andrew J. Brown ('16 A. H.) enlisted June 26, 1918, at Red Oak, Iowa. Assigned to Company H. 349 Inf., Camp Dodge, Iowa. Transferred to O. T. S., Camp Taylor, Ky., October 27, 1918. Died December 27, 1918, at Camp Taylor.

(3) Neal D. Campbell ('15 A. H.) enlisted July 20, 1918, as apprentice seaman in U. S. N. R. F. Assigned to Co. L, 4th Regt., Camp Perry, Great Lakes, Ill. Died September 22, 1918, at Great Lakes.

(4) Hortense Wind ('15 Hec.) entered service Feb., 1918. Chief Dietitian Naval Hospital, Norfolk, Va. Died December 10, 1918, Norfolk, Va. Burial with full officer's services at Council Bluffs, December 17, 1918.

(5) Frank L. Glick (Ex. '15 Ind. Chem.) enlisted at Chicago, Ill., May 20, 1917. Assigned to 6th Marines, 80th Co. Transferred to Paris Island, S. C., and Quantico, Va. Then overseas. Killed in action June 3, 1918, at Chateau Thierry. Papers approved for a commission at time of death.

(6) Glenn R. Kennedy (Ex. '20 A. H.) enlisted Apr. 29, 1918, Newton, Iowa. Assigned Co. "A", 358 Inf., 90th Div., Camp Dodge, Iowa. Sailed for England June 20, 1918. After six weeks training in France, went to front. Made corporal. Wounded Nov. 10. Died Nov. 11, 1918.

(7) Fred Lieberknecht ('14 T. Y. A.) enlisted at Wapello, Iowa. Assigned Co. A, 30 Mch. G. B'n. Died October 9, 1918, at Base Hospital, Fort Riley, Kan.

(8) Geo. A. Baker ('17 A. E.) enlisted September 16, 1918. Assigned Co., D, 1st Repl. Engrs. Died at Washington, D. C., Oct. 12, 1918.

(9) Wm. G. McMaster (Ex. '21 Agr.) enlisted June 1, 1918, Twin Falls, Idaho. Assigned Co. C, 157 Inf. Transferred 305 Inf., September 20, 1918, in France. Foreign service dated from September 3. Killed in action September 27, in the Argonne Forest.

(10) Lloyd O'Dell (Ex. '19 T. Y. A.) Died of wounds received in action in France.

(11) Fred A. Sell (Ex. '18 C. E.) enlisted April 10, 1917, Ames, Iowa. Assigned Co. "F", 2d Reg. Engrs. Transfers, Ft. Logan, Colo., El Paso, Tex. Corporal. Landed in England October 2, 1917. Killed in action June 12, 1918, at Belleau Woods.

(12) Jay R. Melick ('17 T. Y. A.) enlisted at Great Lakes, Ill., December 14, 1917. Assigned Co. C, Reg. 1, U. S. Navy, Camp Dewey. Landsman for Electrician. Died February 21, 1918, at Great Lakes.

(13) Ralph Richardson (Ex. '17 Agr.) enlisted Aug. 6, 1918, Jefferson Barracks, Mo. Died on board of transport, October 3, 1918, on way to England.

(14) Joe H. White ('19 A. H.) enlisted at Camp Pike, Ark., July 26. Assigned to Casual Co. No. 91. Transferred to Co. D, 4th Training Reg., rank of Corporal. Selected for O. T. S. Died October 4, 1918, at Camp Pike, Ark.

(15) Marshall P. Miller ('16 Agron.) enlisted at Camp Dodge, Iowa, Feb., 1918. Transferred to Camp Logan. Overseas with 31 Inf., 33 Div. in June. Went over top first time Aug. 9. Killed in action Nov. 10, 1918.

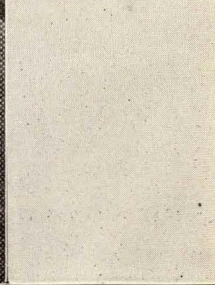

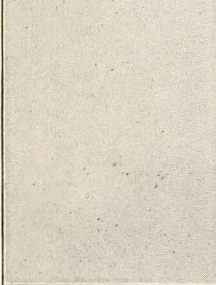

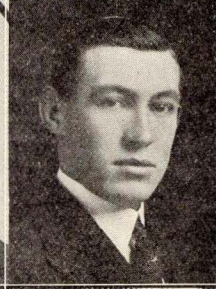

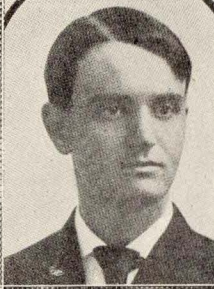

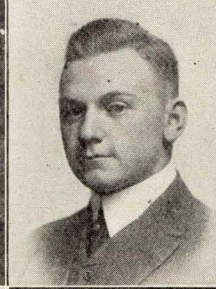

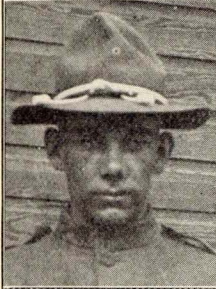

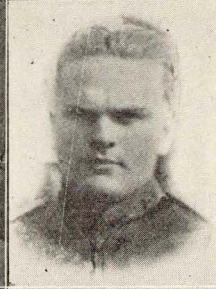

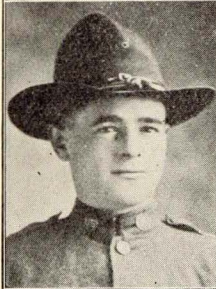

(16) Marshall L. Ruchte (Ex. '17 E. E.) enlisted June, 1918, U. S. Engrs. Inspector Emergency Fleet Corporation. Died at Pittsburgh, Pa., Jan. 29, 1919. Served throughout the Mexican Border trouble with Co. A, Iowa Engineers.

(17) Robert S. Johnson ('14 C. E.) enlisted April, 1917, with the Civil Engineers Corps of the Navy, Rank of 2d Lt. Loaned Canadian Government to build hydroplane bases on eastern coast. Died at Ottawa, Canada, Oct. 13, 1918.

(18) Dale Bradley (Ex. '21 Agr.) enlisted Sept. 6, 1918 at Bedford, Iowa. Assigned 41st Company, 163d Depot Brigade. Died Oct. 15, 1918, at Camp Dodge, Iowa.

(19) Jay W. Clayton ('16 A. H.) enlisted May 28, 1918, Neillsville, Wis. Assigned 161 Depot Brig., Co. 23, Camp Grant, Ill. Corporal Aug. 1. Died at Camp Grant, Oct. 6, 1918.

(20) Earl Bisbee ('13 Dy.) enlisted July, 1917, Seattle, Wash. Assigned Marines 109th Co., 8th Reg. Spent a year in cruising trips and at different U. S. stations. Sailed for France Aug. 12, 1918. Promoted Sergt. Aug. 21. Went into action with 76th Co., 6th Marines. Killed in action Sept. 15, 1918, at Thiaccourt.

These Gave All

(1) Wm. G. Langwill ('08 Dy.) enlisted in the regular service as 2d Lt., Inf., Oct. 3, 1908, at Ft. Sheridan, Ill. Entrance into World War dated from June 8, 1917, when he was transferred to 41st Inf., Ft. Snelling, Minn.; Oct. 9, 1917. Flat River, Mo., mine guarding duty; Jan. 2, 1918, 7th Inf., Camp Greene, N. C. Sailed for France, April 6, 1918. Transferred to 30th Inf., Aug. 8, 1918. Was in following engagements: Belleau Woods (Chateau-Thierry sector); Champagne — Marne Defensive; Aisne-Marne Offensive (Vesle River); St. Mihiel Offensive; Meuse-Argonne Offensive. Killed by German Machine Gun fire, Oct. 10, 1918, near Cunel, France.

(2) Russell Rippey (Ex. '18 T. Y. A.) enlisted April 16, 1917. Was assigned to Co., D, 23 Inf. Landed in France Sept., 1917. Died Oct. 10, 1918 from wounds received Oct. 7.

(3) Cheney A. Byam (Ex. '11 C. E.) enlisted Aug. 22, 1918, Madison, Wis. 10th Observation Bat., F. A. O. T. S., Camp Taylor, Ky. Died Oct. 10, 1918, at Camp Taylor.

(4) Clyde I. Griffith ('14 A. E.) enlisted in Aviation, Madison, Wis., Aug., 1917. Ground School at Champaign, Ill. Flying at Garden City, L. I., San Antonio, Dallas and Houston, Texas. Commissioned 2d Lt. Mar. 1, 1918. Retained as instructor. Died Jan. 18, 1919 at Ames, Iowa, while on furlough.

(5) Harry Moran ('19 A. H.) enlisted at Camp Dodge, Iowa, Dec., 1917. Constructing Quartermaster, as Government Timekeeper. Taken sick while awaiting transportation to F. A. O. T. S., Camp Taylor, Ky. Died at Camp Dodge, Oct. 17, 1918.

(6) Romeo W. Cox ('18 M. S.) enlisted at Camp Dodge, Iowa, Apr. 29, 1918. Transferred to Camp Travis, Tex. Sailed for France July 18, with Co. H, 358 Inf., 90 Div. Killed Sept. 12, on the St. Mihiel salient by machine gun fire.

(7) Santus J. Gjellefald (Ex. '16 C. E.) enlisted in aviation Dec. 2, 1917, at Kelly Field, Texas. Transferred to E. O. T. S., Camp Lee, Va., April, 1918. Commissioned 2d Lt. July 3d assigned to 79 Engrs., Camp Leach, Wash., D. C. Died Dec. 3, 1918.
