WM. M. BALEY Assistant Superintendent - Area Schools

Administrative Services Branch
Richard N. Smith, Associate Superintendent

Division of Administration and Finance
Paul J. Skarda, Director

EXPLANATION OF DATA

The following is an explanation of the heading for each column:

- Column 1. State Share: The percent of net reimbursable expenditures is computed to be paid from State Equalization Aid appropriations before any pro-rate must be made of State Equalization Aid payments. Net reimbursable expenditures are reimbursable expenditures less the funds a district will receive from the Basic School Tax Equalization Fund.
- Column 2. Actual ADM 1967-68: The actual average daily membership reported by the school district for the 1967-68 school year.
- Column 3. State Aid Per Pupil Paid 1967-68: The total amount of state funds distributed by the Department of Public Instruction for reimbursement on 1967-68 operating expenditures divided by the ADM for 1967-68.
- Column 4. Fall Enrollment, September, 1968: The enrollment as of September 14, 1968 as taken by each high school district.
- Column 5. State Aid Per Pupil Paid 1968-69: The total amount of state funds distributed by the Department of Public Instruction plus the district's share of the state income tax collected divided by the fall enrollment (Column 4).
- Column 6. Ag. Paid Per Pupil: The agriculture land tax payment to the school district divided by the fall enrollment (Column 4).
- Column 7. Proposed Per Pupil Reimbursement: The district average proposed reimbursable expenditure per pupil in projected average daily membership for 1967-68.
- Column 8. Allowable Reimbursement Per Pupil: The district proposed reimbursable expenditure per pupil for 1967-68 (Column 7) increased by the state allowable growth factor of 10.6693 percent represents the allowable reimbursable per pupil for 1968-69. This figure is before any corrections or adjustments made by the School Budget Review Committee.
- Column 9. Proposed Reimbursement Per Pupil: The proposed reimbursable expenditure for the district for the 1968-69 school year divided by the fall enrollment (Column 4).
- Column 10. Dollar Amount Per Pupil (Plus or Minus): Computed by subtracting Column 8 from Column 9. The result represents the dollar relationship per pupil plus or minus of each district's proposed reimbursable expenditures for 1968-69 to the allowable (Column 8).

* * * * *

I M P O R T A N T

The data contained herein is an analysis of one method to determine allowable reimbursable expenditures for 1968-69. This was computed by using the fall enrollment (September 14, 1968) and the projected reimbursable expenditures from the 1968-69 adopted budgets. The per pupil reimbursable dollar amount (Column 8) should not be used in any way by school districts for determining a budget for 1969-70 or for a comparison to allowable reimbursable figure furnished previously by the School Budget Review Committee.
