

Suggested Vegetable Varieties for 1975

Green Ice lettuce has good texture and flavor and is resistant to heat. Can be used over a longer period than most leaf lettuce varieties.

Green Arrow pea is a good yielder of tasty, sweet peas. Some pods yield as many as 13 "seeds" per pod. Green Arrow has resistance to downy mildew and fusarium wilt.

Prepared by Iowa State University extension horticulturists.

Superior is a medium early white potato of good quality. Superior has resistance to potato scab.

Baby Head is a small midseason variety that has resistance to cracking. When the outer leaves were removed from this head, it weighed exactly 1 pound and was the size of a softball. It may weigh as much as 2½ pounds. Seed can be planted 12 inches apart.

Broccoli Premium Crop is a 1975 All-America selection. This variety produces large heads with tighter, more compact bud clusters. Ready to harvest about 58 days from transplanting.
