

Directory of
**Wood-Using
Industries
of Iowa**

Cooperative Extension Service

Iowa State University

Ames, Iowa 50011

Pm-631 | Revised | January 1983

A total of 224 wood-using industries located in 71 Iowa counties are listed in this directory. Included are: 83 manufacturers of cabinets, millwork or furniture; 31 manufacturers of pallets; 27 manufacturers of house components or prefabricated homes; 8 manufacturers of cooperage or containers; 10 manufacturers of cut stock, dimension or pattern stock; 18 manufacturers of agricultural structures; and numerous manufacturers of specialty or other products.

The major source of information for revising this directory was the field staff of the Center for Industrial Research and Service, Iowa State University. This directory does not claim to include all wood-using industries in Iowa, and any deletions are unintentional.

This directory may be considered a companion publication to F-301 (Rev.), "A Directory of Sawmills, Veneer Mills and Pulp Mills in Iowa," which covers primary wood processing firms in the state. Primary emphasis in this "Directory of Wood-Using Industries of Iowa" is placed on the secondary processing of wood.
