FOR RELEASE

March 8, 2024

Auditor of State Rob Sand today released an Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters on Iowa State University of Science and Technology, Ames, Iowa for the year ended June 30, 2023.

AUDIT FINDINGS:

Sand reported one finding related to financial reporting. It is found on page 4 of this report. The finding addressed financial reporting over bond segments.

A copy of the report is available for review on the Auditor of State's website at [Audit Reports – Auditor of State](#).

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENTAL AUDITING STANDARDS**

Independent Auditor's Report on Internal Control
over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

To the Members of the Board of Regents, State of Iowa:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the business type activities and the fiduciary activities of Iowa State University of Science and Technology (University) and its discretely presented component unit as of and for the year ended June 30, 2023, and the related Notes to Financial Statements, which collectively comprise the University's basic financial statements, and have issued our report thereon dated December 22, 2023. Our report includes a reference to other auditors who audited the financial statements of the Iowa State University Foundation, the Iowa State University Achievement Fund and the Original University Foundation (the "Foundation"), the Iowa State University Research Foundation, Incorporated and the Iowa State University Veterinary Services Corporation as described in our report on the University's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters which are reported on separately by those auditors. The financial statements of the Foundation and the Iowa State University Research Foundation, Incorporated were not audited in accordance with Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the University's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We consider the deficiency described in the accompanying Schedule of Findings as item (A) to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

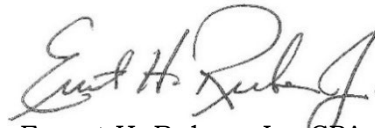

Iowa State University of Science and Technology’s Response to the Finding

Government Auditing Standards requires the auditor to perform limited procedures on the University’s responses to the findings identified in our audit and described in the accompanying Schedule of Findings. The University’s responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the University’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the University’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Iowa State University of Science and Technology during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

Ernest H. Ruben, Jr., CPA
Deputy Auditor of State

December 22, 2023

Iowa State University
Schedule of Findings
Year ended June 30, 2023

Finding Related to the Financial Statements:

INTERNAL CONTROL DEFICIENCIES:

(A) Financial Reporting

Criteria – A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatement of the financial statements on a timely basis. Properly designed policies and procedures and implementation of the policies and procedures are an integral part of ensuring the reliability and accuracy of the University’s financial statements.

Iowa State University’s financial statements are prepared in accordance with General Accepted Accounting Principles (GAAP) and are due to the State of Iowa by October 1 of each year. Because Iowa State University is operated by the State of Iowa and is not legally separate, the University’s financial information is included in the State of Iowa’s Annual Comprehensive Financial Report (ACFR). The Iowa Department of Administrative Services and the Iowa Department of Management are responsible for the issuance of the ACFR. The DAS-SAE GAAP Team compiles activity reported in each Department’s and University’s GAAP package in preparation of the State of Iowa’s financial statements.

Condition – Material amounts of certain bond segment financial statement information were not properly reflected in the University’s financial statements. Adjustments were subsequently made by the University to properly report these amounts in the University’s audited financial statements and GAAP reporting package.

Cause – Policies have not been established and procedures have not been implemented to require a detailed independent review of the bond segment financial statements to ensure the University’s financial statements and GAAP reporting package to the GAAP Team are accurate and reliable.

Effect – A lack of policies and procedures and detailed independent reviews resulted in the University employees not detecting errors in the normal course of performing their assigned functions.

Recommendation – Procedures should be implemented to ensure the University is able to prepare accurate financial statements and GAAP package information. The University should establish policies and procedures to ensure all bond segment financial statements are properly reported in the University financial statements.

Response – Management acknowledges the deficiencies in processes and lack of appropriate procedures for certain financial statement segments. 2023 was unique in having a condensed time frame for completion of the financial statements, contributing to the situation. A comprehensive review of the bond segment process is currently underway and will be the basis for future statement preparation and disclosures. This will be in place for the 2024 financial statements. Also, with additional training for financial accounting and reporting managers, a review process will be implemented for the bond segments in fiscal year 2024.

Conclusion – Response accepted.
