Introduction

CICS was formed under Iowa Code Chapter 28E to create a Mental Health and Disability Service (MHDS) Region in compliance with Iowa Code 331.390. The Annual Service and Budget Plan is a component of the Management Plan, which includes three parts: Annual Service and Budget Plan, Annual Report, and Policies and Procedures Manual in compliance with Iowa Administrative Code 441.25.

The FY2023 Annual Service and Budget Plan covers the period of July 1, 2022 to June 30, 2023. The Annual Service and Budget Plan includes local access points, targeted case management and service coordination providers, crisis services, intensive mental health services, a description of the scope of services to be provided including core services, budget and financial provisions, and provider reimbursement provisions.

As of 7/1/22 CICS will no longer receive funding from county property tax dollars, all funding will be provided through the general fund of the state of Iowa. While CICS has implemented efforts to reduce the regional ending fund balance, it is anticipated CICS will not be below the legislated 40% ending fund balance requirement at the end of FY22.

Effective 7/1/22 Franklin County will be the employer of record for CICS staff. This will move staff from being employed by multiple member counties to one single employer of record, work is underway to prepare for this transition.

CICS has entered into a Memorandum of Understanding (MOU) with the following regions to acknowledge agreement to follow the host region contract with the crisis service provider who is located outside of the CICS region that has agreed to serve CICS residents: County Rural Office of Social Services, County Social Services, Heart of Iowa Community Services, and MHDS of East Central. In the event a MOU is not in place, CICS will follow the host region contract for crisis services.

CICS also has MOUs with Care Connections of Northern Iowa and County Social Services for access to crisis services located within CICS.

CICS has contracted with 43 North Iowa, Inc. for crisis stabilization residential services, these services are anticipated to become available in FY23.

CICS is partnering with YSS, Inc. for development of a Youth Recovery Campus in Story County where crisis stabilization residential services will be available as well as other services including, but not limited to, emergency shelter, treatment of substance use disorders, residential housing, wellness and recreational facilities, nature trails and more. CICS entered into a multi-year contract with YSS and intends to encumber funds in FY22 for FY23 for this extensive project.

CICS will continue to expand the provider network to serve children with a serious emotional disturbance (SED) diagnosis with outpatient therapy services and assessment, evaluation, and early identification services. Additional areas of focus for expansion include prevention and education services and behavioral health intervention services (BHIS).

D. Intensive Mental Health Services

CICS has entered into MOUs with County Rural Office of Social Services, County Social Services, Heart of Iowa Community Services, and MHDS of East Central for access center services located outside of the CICS region.

ACT services are currently available in Boone and Story Counties through Eyerly Ball Community Mental Health Services, Hamilton and Webster Counties through UnityPoint – Health Berryhill Center, and Cerro Gordo, Hancock, and Franklin Counties through Prairie Ridge Integrated Behavioral Healthcare. CICS is pursuing possibilities for expansion of ACT services into other counties.

CICS is working with two provider agencies on the development of intensive residential services (IRS), intent is to have this service available in FY23.

The region has designated the following provider(s) as an **Access Center** that meet the requirements according to IAC 441—25.6(1) in a coordinated manner in one or more locations:

Provider	Location	Contact Information
Infinity Health	219 W Washington St., Osceola, IA 50213	641-342-1742

E. Scope of Services & Budget and Financing Provisions

The FY23 budget was developed by the finance team based on utilization for the current year and service development and expansion plans. The budget was reviewed and approved by the CICS Administrative Team and the CICS Finance Committee made up of appointed auditors and treasurers. The final step of the budget process is approval by the CICS Governing Board.

As stated in Iowa Code 331.397 (2): *Within funds available the region shall pay for such services for eligible persons when payment through the medical assistance program or another third party payment is not available unless the person is on a waiting list for such payment, or it has been determined that the person does not meet the eligibility criteria for any such service.* As the funder of non-Medicaid services, CICS is filling the gap for funding for services and support for individuals who are ineligible for Medicaid, prior to eligibility determination for Medicaid, and for services not covered by Medicaid. CICS assists individuals in applying for all funding available to them and will collaborate on individualized planning for services and supports, incorporating all funding streams available through regional Service Coordinators.

The table below identifies the scope of services offered by CICS. All core services are available, with the exception of intensive residential services. If there is not funding identified in a core service column, it is because it has not been needed historically. If an individual needs funding for a core service and meets eligibility requirements found in the Eligibility section of the CICS Mental Health and Disability Services Management Plan Policies and Procedures manual,

funding will be made available. Core services for children’s behavioral health are identified by (**) after the service name. Eligibility guidelines for children’s behavioral health services are located in the Eligibility section of the CICS Mental Health and Disability Services Management Plan Policies and Procedures. The current Policies and Procedures can be found at: www.cicsmhds.org.

The region will utilize braided funding that includes regional, state, and other funding sources as necessary and available to meet the service needs within the region. Federal funding, third-party payors, and other nongovernmental funding is to be used prior to expending state regional service payment dollars.

Table A. Expenditures is amended for COA 42305 adding \$480,000.00 to this line item. CICS is working with Center Associates to remodel their facility to add space for urgent care mental health services. COA 44313 is amended to add a total of \$5,033,000.00 to this line item for additional funding of \$5,000,000.00 to YSS for the Ember Youth Recovery Campus project where crisis stabilization residential services will be available in addition to other services and funding of \$33,000.00 for 43 North Iowa for crisis stabilization residential services remodel costs to be incurred in FY2023.

F. Financial Forecasting Measures

The following is a description of the financial forecasting measures used by CICS in the identification of service needs and funding necessary for services.

Historical service utilization is the starting point for all financial projections and costs of additional services added throughout the year are analyzed prior to budgeting. The FY23 budget was developed to continue current funding for core services for adults, expand funding for core children’s behavioral health services, development, and expansion of core services for children and adults, and continued funding of additional core and non-core services as possible.

As noted previously CICS intends to encumber funds in FY22 for an extensive project with YSS, Inc. that is anticipated to be completed in FY23. With current financial projections, CICS does not expect to meet the 40% ending fund balance requirement for FY22, it may take two years to meet the ending fund balance requirements. CICS anticipates a reduction in state regional service payments for FY23.

The chart below identifies and defines specific services and projects funds needed, based on current utilization and available services. Additional funds are budgeted to improve service access and the development of additional services, including outpatient therapy, assessment, evaluation & early identification, 23 hour crisis observation and holding, and public education, and prevention and education.

CICS is partnering with other MHDS regions to offer crisis intervention training with law enforcement throughout the state of Iowa and as a part of the training curriculum at the Iowa Law Enforcement Academy.

Development & Expansion funding is amended for mental health outpatient therapy to reflect funding for Center Associates urgent care mental health services and crisis stabilization residential services is amended to reflect additional funding for YSS Ember Youth Recovery Campus and 43 North Iowa remodel project.

G. Provider Reimbursement Provisions

CICS will contract with MHDS providers and non-traditional providers who meet contracting eligibility requirements and whose base of operation is in the region or is a provider who is not contracted with their host region and is providing services funded by CICS. The Region retains the right to select service providers to be a part of the CICS provider network. Providers must be approved CICS MHDS network providers in order to be eligible for regional funding. New providers may be added to the provider network if it is determined that either a particular individual will benefit from the service (as determined by the individual's inter-disciplinary team) or that the provider shall provide service(s) that will enhance the service system. CICS will also honor contracts that other regions have negotiated with their local providers. A contract may not be required with providers that provide one-time or as needed services.

In order to support service expansion efforts, CICS may offer requests for proposals (RFPs) in combination with other strategies. The following is a description of the types of funding used by CICS:

- **Fee-for-service:**
A fee-for-service approach will be utilized in most provider contracts, outlining the services to be provided and the rate of reimbursement. Services provided under a fee-for-service model are reimbursed based on a service funding request and prior authorization process, with the exception of civil commitment-related expenses and crisis services.
- **Block grant payments:**
CICS may utilize block grant payments when a service does not fit the traditional fee-for-service method of payment and may be considered to cover costs of new services until a fee-for-service rate can be established. Other uses may be to provide access to crisis services and assertive community treatment services.
- **Incorporation of all funding sources for individuals including Medicaid:**
The region is responsible for ensuring that MHDS services are available to all residents of the region regardless of funding source. CICS will ensure that individuals apply for all funding sources prior to accessing regional funding, including private insurance, Medicaid, Medicare, and other funding mechanisms, which ensure that individuals and their families are able to optimally live, work, and recreate in integrated communities of their choice.

In addition to resource guidelines of Iowa Code 331.395, CICS will exempt one vehicle per adult household member.

CICS requires providers to meet all applicable licensure, accreditation, and certification standards. CICS has contracted with the providers identified below. Additional providers, including non-traditional providers, may be added throughout the year as services are developed to meet the service needs of individuals.
