

## TEN RULES OF SHOOTING SAFETY

1. Treat every gun with the respect due a loaded gun.
2. Watch that muzzle! Carry your gun safely; keep the safety on until you are ready to shoot.
3. Unload guns when they are not in use. Take the gun down or have its action open. Guns should be carried in a case to the shooting area.
4. Be sure that the barrel is clear of obstructions, and that you have ammunition only of the proper size for the gun you carry.
5. Be sure of your target before you pull the trigger; know the identifying features of the game you hunt.
6. Never point a gun at anything you do not want to shoot; avoid all horseplay.
7. Never climb a tree or fence or jump a ditch with a loaded gun; never pull a gun toward you by the muzzle.
8. Never shoot a bullet at a flat, hard surface or water; at target practice, be sure your backstop is adequate.
9. Store guns and ammunition separately, beyond reach of children.
10. Avoid alcoholic beverages before or during shooting.

Wildlife's friend . . . the Farmer, ask before you enter and respect his property. Good farmer-sportsman relations pave the way for future hunting trips.

Keep shooting a safe sport . . . the life you save may be your own!
