## INTRODUCTION

In 2023, a total of \$4.3 billion in Iowa individual income tax liability was reported on 1.6 million returns for tax year 2022. The reported tax was based on \$181.3 billion in Iowa net income and \$130.7 billion in net taxable income. This report provides a summary of data obtained from 2022 IA 1040 Individual Income Tax returns and a review of the relevant features of Iowa tax law.

This report is organized into two major sections:

- An overview and analysis of information reported on 2022 Iowa individual income tax returns.
- Statistical appendices A through D. Appendices A and B provide data aggregated by return, such that information for married taxpayers filing on one return is treated on a combined basis. This convention is employed throughout the narrative portion of this report including charts and tables. Appendices C and D provide data aggregated by taxpayer, with married taxpayers filing separately on one tax return treated as two individual taxpayers for purposes of analysis.
  - *Appendix A – All Returns* provides data for all returns.
  - *Appendix B – Iowa-Resident Returns* provides data for returns filed by Iowa-resident taxpayers only.
  - *Appendix C – All Taxpayers* counts married taxpayers filing separately on one return as separate taxpayers and concerns all Iowa taxpayers.
  - *Appendix D – Iowa-Resident Taxpayers* counts married taxpayers filing separately on one return as separate taxpayers and concerns Iowa-resident taxpayers only.

## OVERVIEW OF RELEVANT FEATURES OF TAX LAW – TAX YEAR 2022

The key features of the 2022 Iowa individual income tax are similar to those in the federal income tax and in other states with progressive tax rates. This section of the report highlights individual income tax law changes for 2022, fundamental features of the Iowa tax structure, and related items such as additional taxes, credits, and check-off programs. Table 2 provides information on these additional items, including descriptions and impacts.

### Tax Year 2022 Law Changes

Comparisons between the statistical data contained in this report and data contained in reports from prior years should be made with due consideration of the effects of tax law changes. Year to year increases or decreases in a given measure

may arise from changes in law as well as demographic or economic trends. Important Iowa tax law changes applicable to tax year 2022 include the following:

- The income tax brackets in the rate schedule and standard deductions were indexed upward by 4.0 percent. The indexation is made each year to prevent taxpayers from incurring increased tax liabilities due to inflation.
- The standard deduction for single filers and married individuals filing separately was \$2,210; up from \$2,130 in tax year 2021. For all other filing statuses, the standard deduction was \$5,450; up from \$5,240 the prior year.
- For tax years beginning on or after January 1, 2020, Iowa has adopted rolling conformity, meaning the state will automatically conform with any changes made to the Internal Revenue Code (IRC), except as specified by Iowa law.
- In 2021, the federal Child Tax Credit was refundable for federal income tax purposes. Taxpayers who received a refund in 2022 from their 2021 federal income tax return are not required to add back any of the portion of the federal refund attributable to the refundable portion of the Child Tax Credit.
- In 2021, the federal Child and Dependent Care Credit was partially refundable for federal income tax purposes. Taxpayers who received a refund in 2022 from their 2021 federal income tax return are not required to add back any of the portion of the federal refund attributable to the refundable portion of the federal Child and Dependent Care Credit.
- The qualified business income deduction has increased from 50% to 75% of the federal deduction.
- The Domestic Production Activities Deduction (DPAD) 199A(g) deduction has increased from 50% to 75% of the federal deduction.
- Taxpayers who itemize their deductions are allowed a charitable mileage rate of 50 cents per mile beginning July 1, 2022, which is an increase from 39 cents per mile.
- Taxpayers who wish to claim the Farm to Food Donation Tax Credit are no longer required to submit their authorized food donation receipts to the Department of Revenue by January 15 and receive a tax credit certificate prior to claiming the tax credit. Instead, taxpayers may make tax credit claims directly on their Iowa tax return by using their authorized food donation receipts to complete the IA 178 Farm to Food Donation Tax Credit Form and including that IA 178 form with their Iowa tax return.
- Taxpayers claiming any Iowa Composite Credits reported on IA Schedule CC should report this amount on line 62 of IA Form 1040, and include IA Schedule CC (41-178) with the return.

### Filing Requirements

For 2022, single taxpayers who were Iowa residents, under age 65, and had Iowa net income of \$9,000 or more were required to file an Iowa tax return. Iowa residents other than single filers who were under age 65 and had household Iowa net income of \$13,500 or more were required to file an Iowa return. Single taxpayers with Iowa net income of \$5,000 or more who were claimed as a dependent on another person's return were required to file a return. Single taxpayers age 65 or over with Iowa net income of \$24,000 or more and married taxpayers with at least one spouse age 65 or over with Iowa net income of \$32,000 or more were required to file an Iowa return. Nonresidents with \$1,000 or more in household net income from Iowa sources, taxpayers who were subject to the Iowa lump sum tax or the Iowa alternative minimum tax, and military personnel who claimed Iowa as their legal residence were also required to file an Iowa return.

### Filing Status

Filing status pertains to a taxpayer's marital status and family situation as of December 31 of the tax year. Iowa allows six filing statuses, as follows:

- Single – For taxpayers who are unmarried, divorced, or legally separated.
- Married Filing Joint Return – For married couples who want to report income, deductions, and credits together in one column and calculate tax on a joint basis.
- Married Filing Separately on Combined Return – For married couples who want to report income, deductions, and credits separately in two columns (one column for each spouse) allowing each to separately calculate tax, avoiding marriage penalties or bonuses. Taxpayers using this filing status must prorate certain items between spouses, such as federal refunds or itemized deductions.
- Married Filing Separate Returns – For married couples who wish to file on separate returns.
- Head of Household – For taxpayers filing as head of household for federal income tax purposes.
- Qualifying Widow(er) with Dependent Child – For taxpayers meeting the federal filing requirements for qualifying widow(er).

For purposes of the statistical appendices to this report, tables under the heading “Single” include information for taxpayers filing as single, head of household, or qualifying widow(er). The “Married Separate” tables include information for married taxpayers filing separately, whether on a combined return or on separate returns. The “Married Joint” tables concern taxpayers using the married joint filing status.

## Gross Income

Gross income is all income from all sources reported on the Iowa income tax return. Iowa taxpayers must report all income for the entire year unless it is specifically excluded by law, as is, for example, US Treasury interest. Although Iowa taxpayers were required to report Social Security benefits subject to federal taxation based on pre-1993 tax law, this amount is not included in gross income because Social Security benefits are not subject to Iowa income tax. Nonresidents and part-year residents must report non-Iowa-source income but are entitled to a credit for the amount of tax based on income earned outside of Iowa.

## Net Income

Iowa net income is also referred to as adjusted gross income, or AGI, in this report. For tax years beginning on or after January 1, 2020, Iowa has adopted rolling conformity, meaning the state will automatically conform with any changes made to the Internal Revenue Code (IRC), except as specified by Iowa law. For the most part, the calculation of Iowa net income is still the same as the calculation for federal adjusted gross income (AGI). However, the calculation of Iowa net income will be different from the federal AGI calculation when it comes to certain items, such as depreciation for certain assets placed in service before tax year 2021, section 179 special election deductions, and the business interest expense limitation. Other exclusions and deductions applicable to tax year 2022 are noted below.

## Net Taxable Income

To determine net taxable income, the following deductions from net income were allowed for 2022:

1. Federal income taxes paid during the year less federal income tax refunds received during the year. Federal income taxes, excluding any payroll taxes and any repayment of health care premium tax credits. Federal income tax refunds, excluding any refunds resulting from the federal Earned Income Tax Credit, Additional Child Tax Credit, First-time and Existing Homebuyer Credits, and refundable education and adoption credits.
2. The larger of the following amounts:
  - a. A standard deduction of \$2,210 for single filers and for each married individual filing separately; a standard deduction of \$5,450 for taxpayers who filed married using a joint return, head of household, or qualifying widow(er) with a dependent child.

- b. Itemized deductions as allowed by Iowa Code Sections 422.9 and 422.7. Updated guidance for deductions, exclusions, and tax credits available in 2022 includes:<sup>1</sup>
    - i. The qualified business income deduction has increased from 50% to 75% of the federal deduction.
    - ii. The Domestic Production Activities Deduction (DPAD) has increased from 50% to 75% of the federal deduction.
    - iii. Eligible educators can deduct out-of-pocket educator expenses of up to \$200 (down from \$250 for tax year 2021) in excess of the federal deduction limitation, not to exceed a total of \$500 per eligible educator.
3. New adjustments to income, up to \$1,000 include:
- a. Premium pay received by a certified peace officer who was designated by the governor of the State of Iowa as an eligible worker.
  - b. Premium pay received by a correctional officer or medical staff member at a correctional facility who was designated by the governor of the State of Iowa as an eligible worker.
  - c. Premium pay received by a teacher employed by an independently accredited school or a teacher employed by the State of Iowa who was designated by the governor as an eligible worker.
  - d. Teacher retention payment received by a teacher that was funded from moneys received by the State of Iowa from the elementary and secondary school emergency relief fund pursuant to the federal Coronavirus Response and Relief Appropriations Act or the American Rescue Plan Act of 2021.
  - e. Teacher retention payment received by a teacher employed by a private school or specially accredited school, that was funded from the private sector worker premium pay program administered by the department of education that was funded from the State of Iowa moneys.
  - f. Recruitment and retention bonus received by a child care worker through the recruitment and retention bonus program administered by the department of human services.

---

<sup>1</sup> For tax years beginning on January 1, 2020, Iowa has adopted rolling conformity, meaning the state will automatically conform with any changes made to the Internal Revenue Code (IRC), except as specified by Iowa law. See IA 1040 Expanded Instructions. (<https://tax.iowa.gov/expanded-instructions>)

Net taxable income reported on 2022 Iowa returns was subject to the following rates and tax brackets (see Table 1):

**Table 1. Iowa 2022 Tax Rate Schedule**

Rate	Taxable Income			
0.33%	over	\$0	but not over	\$1,743
0.67%	over	\$1,743	but not over	\$3,486
2.25%	over	\$3,486	but not over	\$6,972
4.14%	over	\$6,972	but not over	\$15,687
5.63%	over	\$15,687	but not over	\$26,145
5.96%	over	\$26,145	but not over	\$34,860
6.25%	over	\$34,860	but not over	\$52,290
7.44%	over	\$52,290	but not over	\$78,435
8.53%	over	\$78,435	but not over	--

Note to Table 1: Taxpayers other than single filers have the option of subtracting \$13,500 (\$32,000 if age 65 or over) from their household Iowa net income (plus any pension exclusion and reported Social Security benefits) and multiplying the difference by a flat rate of 8.53 percent to compute their alternate tax. Taxpayers may use this alternate tax calculation if it results in a lower tax liability than applying the progressive tax rates to net taxable income.

Figure 1 shows the percentage of total 2022 taxable income of Iowa residents within each bracket and its associated statutory tax rate. For example, the first \$1,743 of taxable income comprises 2.9 percent of total taxable income reported on returns filed by Iowa-resident taxpayers; this amount was taxed at 0.33 percent in 2022. The State's highest marginal tax rate, 8.53 percent, was applicable to 29.5 percent of total taxable income of Iowa residents; in other words, 70.5 percent of Iowa residents' taxable income was subject to a marginal rate of 7.44 percent or lower.

**Figure 1. Tax Year 2022 Aggregate Taxable Income of Iowa Residents by Tax Rate and Tax Bracket**

### Personal and Dependent Credits

The following nonrefundable personal and dependent exemption credits were allowed for 2022:

1. A \$40 tax credit was allowed for each individual filing a return. In addition, taxpayers who filed as a head of household were allowed an additional credit of \$40. Finally, an additional \$20 tax credit was allowed for individuals who at the end of the tax year were 65 years of age or over or blind.
2. A \$40 tax credit was allowed for each dependent claimed.

### Nonresident/Part-Year Resident Credit

Individuals with Iowa-source income who were not full-year residents of Iowa were required to report their income, adjustments, and deductions from all sources. After computing tax on net taxable income from all sources, nonresidents and part-year residents were allowed a credit against that computed tax that reflects the ratio of non-Iowa-source income to total income. The nonrefundable tax credit was computed using the Schedule IA 126. In 2022, the nonresident/part-year resident credit was claimed on 170,453 returns and totaled \$3.69 billion.

### Out-of-State Tax Credit

Iowa residents and part-year residents received a tax credit for income subject to tax in Iowa as well as another state or foreign country. The credit equaled the Iowa tax owed on this income, but could not exceed the tax that was imposed by the other state or country. The nonrefundable credit is computed using the Schedule IA 130; separate schedules were required for each state or country that imposed tax. In 2022, out-of-state credit claims totaled \$159.0 million on 82,088 returns.

### Other Features of the Iowa Individual Income Tax (Additional Taxes, Tax Credits, and Check-offs)

Other features of the Iowa individual income tax include additional taxes imposed on lump sum pension distributions and tax preference items. In addition, subject to local voter approval, surtaxes may be imposed by school districts and counties to provide additional funding for schools or to support emergency medical services. Iowa law provides for a number of refundable and nonrefundable tax credits. Iowa also permits taxpayers to make contributions to certain programs through check-offs.

More information on these additional taxes, tax credits, and check-off programs may be found in Table 2.

## REVIEW OF 2022 TAX YEAR

### Filing Status

The Iowa income tax allows for six filing status options. The share of returns by filing status (Figure 2A) and the share of tax liability by filing status (Figure 2B) are presented below. Note that composite filers, who are nonresident taxpayers on whose behalf an S corporation or limited liability company files a joint return to report the pass-through income of those members when that income is the taxpayers' only Iowa-source income, are not considered in this report.

**Figure 2A. Percentage of Returns by Filing Status**

**Figure 2B. Percentage of Tax Liability by Filing Status**

---

**Standard/Itemized Deductions** Taxpayers whose deductions were not more than the Iowa standard deduction accounted for 58.2 percent of returns; the remaining 41.8 percent of returns were filed by taxpayers who itemized deductions and whose deductions exceeded the standard deduction amount.

Federal Tax Deduction	For the 2022 tax year, a total of \$37.8 billion in net federal taxes was deducted from net income, compared to \$31.2 billion in tax year 2021. This is an increase of 21.0 percent.
Additional Taxes	<p>The special tax on lump sum distributions of pensions was reported on 83 returns, totaling \$16,497.</p> <p>The Iowa alternative minimum tax was imposed, for the most part, on the same tax preference items and adjustments on which the federal Alternative Minimum Tax was imposed, and equaled the excess of the alternative minimum tax calculation over the amount owed under the progressive rates or the alternate tax. The Iowa alternative minimum tax was reported on 34,369 returns and totaled \$10.1 million.</p> <p>School District Surtax collections decreased by 3 percent from the prior year. Of Iowa's 327 school districts in 2022, 287 imposed the surtax, receiving \$117.3 million in revenue from this State-collected source of revenue. In 2021, 285 districts imposed the surtax and received \$121.2 million. One county, Appanoose, imposed a local surtax to fund emergency medical services; it received \$100,000 from this surtax in 2022.</p>
Tax Credits	Excluding the exemption credits, the nonresident/part-year resident credits, and the out-of-state tax credit, \$306.1 million in tax credits were claimed on 2022 returns, compared with \$284.4 million in 2021. This is an increase of 7.6 percent from the prior year, compared to an 18 percent increase in credits claimed from 2020 to 2021. Table 2 documents the utilization of those tax credits claimed directly on the 2022 IA 1040 return; other tax credits claimed on the IA 148 Tax Credits Schedule are discussed briefly in Note to Table 2.
Check-offs	The tax form allows taxpayers to make charitable contributions using four checkoffs; donations to these checkoffs increase taxpayers' liability. In 2022, there were 16,372 contributions to these checkoff programs for a total of \$339,231. In 2021, there were 17,958 contributions to these checkoff programs for a total of \$373,358 (see Table 2).

**Table 2. Additional Taxes, Credits, and Check-Off Programs for 2022**

<b>Tax Item</b>	<b>Effective Year</b>	<b>Characteristics</b>	<b>Impact In 2022</b>
<b>Additional Taxes</b>			
Lump Sum Distribution Tax	1982	25% of federal tax on lump sum distributions of pensions.	83 Returns \$16,497
Iowa Alternative Minimum Tax	1982	6.7% of Iowa alternative taxable income to the extent that the alternative minimum tax exceeds regular tax.	34,369 Returns \$10.07 Million
School District Surtax	1976	Up to 20% of State income tax in authorizing districts.	747,469 Returns in 287 School Districts \$117.30 Million
Emergency Medical Services Surtax	1992	Up to 1% of State income tax in authorizing counties.	5,229 Returns in 1 County (Appanoose) \$100,142
<b>Nonrefundable Tax Credits*</b>			
Tuition and Textbook Tax Credit	1987	25% of the first \$2,000 of qualifying expenses per dependent. Maximum tax credit of \$500 for each dependent. (Expense limit was raised from \$1,000 to \$2,000 effective tax year 2021.)	113,947 Returns \$25.30 Million
Volunteer Firefighter/EMS Personnel/Reserve Peace Officer Tax Credit	2013	A tax credit of up to \$100 for volunteer firefighters, volunteer emergency medical services (EMS) personnel, and reserve peace officers. The tax credit is prorated to the number of months of service in the year.	12,963 Returns \$3.25 Million

**Table 2, continued**

<b>Tax Item</b>	<b>Effective Year</b>	<b>Characteristics</b>	<b>Impact In 2022</b>
<b>Refundable Tax Credits*</b>			
Fuel Tax Credit	1975	Credit for motor vehicle fuel tax paid on fuel used for exempt purposes.	13,300 Returns \$2.43 Million
Child and Dependent Care Tax Credit	1977	Sliding scale from 30% to 75% of federal Child and Dependent Care Tax Credit for households with income less than \$90,000. The credit may not be taken if the Early Childhood Development Tax Credit is claimed.	36,635 Returns \$7.09 Million
Earned Income Tax Credit (EITC)	1990	15% of federal Earned Income Tax Credit in 2020, with eligibility based on income, marital status, and number of dependents.	174,618 Returns \$59.86 Million
Early Childhood Development Tax Credit	2006	25% of qualified early childhood development expenses for dependents age three to five for households with income less than \$90,000. The credit may not be taken if the Child and Dependent Care Tax Credit is claimed.	4,315 Returns \$0.81 Million
<b>Check-Offs</b>			
Fish and Wildlife Check-off	1982	Taxpayers may contribute \$1 or more of their own money to the Fish/Wildlife Protection Fund	5,818 Returns \$145,411
State Fair Check-off	1993	Taxpayers may contribute \$1 or more of their own money to the State Fairgrounds Renovation Fund.	3,233 Returns \$59,108
Combined Iowa Volunteer Firefighters and Veterans Trust Contribution Check-offs	2004 and 2006	Taxpayers may contribute \$1 or more of their own money to be divided evenly between the Iowa Volunteer Firefighters Fund and the Veterans Trust Fund.	3,482 Returns \$65,338
Child Abuse Prevention Check-off	2008	Taxpayers may contribute \$1 or more of their own money to the Child Abuse Prevention Fund.	3,839 Returns \$69,374

**\*NOTE TO TABLE 2:**

The table does not separately list individual credits that are reported in aggregate on either line 52 (“Other nonrefundable Iowa credits”) or line 62 (“Other refundable credits”) of the 2022 Iowa 1040 tax form. For 2022, total other nonrefundable credits of \$104.7 million were claimed on 19,608 returns; other refundable credits were claimed on 6,889 returns and totaled \$102.6 million. Additional information on 2022 tax credit claims will be published in the Annual Tax Credits Claims Report, based on analysis of the IA 148 Tax Credits Schedule. Other refundable credits and other nonrefundable credits are listed in the statistical appendix of this report. More information about all tax credits can be found in the Iowa Department of Revenue [Tax Credits Users’ Manual](#).

**TAX LIABILITY BY ADJUSTED GROSS INCOME**

One measure of a state's income tax structure is the level of burden it imposes on taxpayers, or the share of income represented by tax liability. Because of Iowa’s progressive rate structure, the standard deduction and personal exemptions, and refundable credits for lower-income households, the tax burden varies across income groups.

Table 3 presents tax liability by adjusted gross income both for all taxpayers and for Iowa-resident taxpayers only. Note that, for both groups, adjusted gross income represents income from all sources, whether within Iowa or outside of the state, after adjustments. Meanwhile, tax liability represents the tax on Iowa-source income only because the nonresident/part-year resident credit eliminates tax liability attributable to non-Iowa-source income. For this reason, measures of tax burden are lower for nonresident and part-year resident taxpayers with the most significant differences at the middle- and upper-income levels. Calculations for Iowa-resident taxpayers more accurately depict the burden of the Iowa individual income tax.

**Table 3. Tax Burden by Adjusted Gross Income, All Taxpayers and Iowa Resident Taxpayers**

Adjusted Gross Income Class	All Taxpayers			Iowa Resident Taxpayers Only		
	AGI (\$ millions)	Tax Liability (\$ millions)	Incidence	AGI (\$ millions)	Tax Liability (\$ millions)	Incidence
\$0 or Less	-\$3,416	-\$9	N/A	-\$2,653	-\$7	N/A
\$1 - \$19,999	\$3,515	\$2	0.0%	\$3,213	\$1	0.0%
\$20,000 - \$49,999	\$15,837	\$394	2.5%	\$14,477	\$377	2.6%
\$50,000 - \$74,999	\$15,174	\$504	3.3%	\$13,652	\$482	3.5%
\$75,000 - \$99,999	\$13,368	\$465	3.5%	\$11,778	\$444	3.8%
\$100,000 - \$249,999	\$43,373	\$1,621	3.7%	\$36,923	\$1,553	4.2%
\$250,000 - \$499,999	\$16,460	\$579	3.5%	\$11,561	\$543	4.7%
\$500,000 - \$999,999	\$11,315	\$301	2.7%	\$6,000	\$272	4.5%
\$1,000,000 - And Over	\$65,653	\$451	0.7%	\$9,779	\$332	3.4%
Total	\$181,278	\$4,309	2.4%	\$104,731	\$3,998	3.8%

Figure 3 provides additional data regarding the progressivity of the Iowa income tax, showing the distribution of income alongside the distribution of tax liability. The figure concerns only Iowa residents with positive AGI. Broadly speaking it reflects the structure of the Iowa income tax such that, owing to higher statutory marginal tax rates for higher taxable incomes, the standard deduction, personal exemptions, and refundable credits for lower-income households, the aggregate share of tax liability borne by taxpayers with lower incomes is less than their share of AGI. As the figure indicates, this is true of taxpayers with incomes below \$50,000. For taxpayers in other income groups the situation is reversed, although for taxpayers with AGI of \$50,000 to under \$100,000, the respective percentages are nearly equal. The share of tax liability and the share of AGI are most disproportionate for those taxpayers with income of at least \$100,000 but less than \$250,000; this group's share of tax liability exceeds its share of AGI by nearly 4.5 percentage points. This group also accounts for both the largest share of AGI and the largest share of tax liability.

**Figure 3. Share of AGI and Tax Liability by Income Group for Resident Taxpayers**

Note: The figure does not include taxes paid or income for returns with AGI of less than \$1.

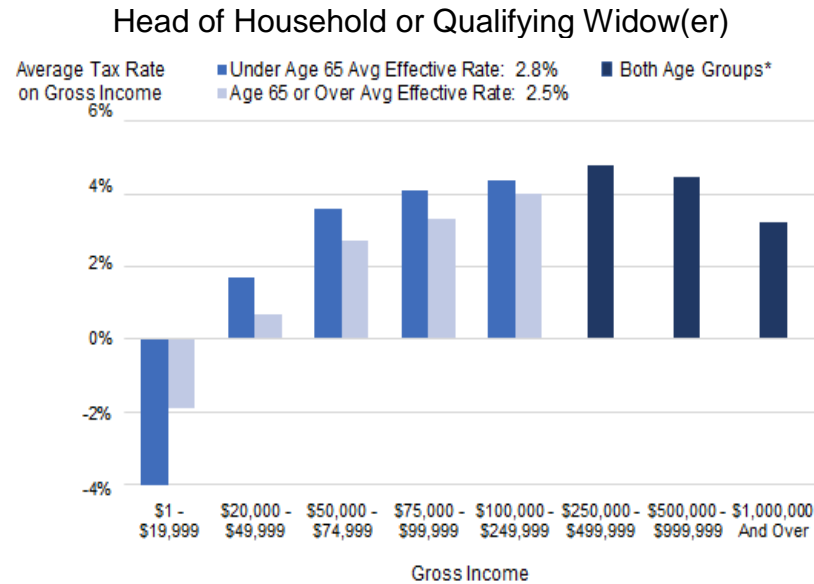

## EFFECTIVE TAX RATES

In addition to tax burden based on AGI, an average effective tax rate can be calculated with tax liability expressed as a percentage of gross income. Although gross income is perhaps the best measure available from the tax return of ability to pay, certain provisions lead to different average effective tax rates for different groups of taxpayers. Among such provisions are Iowa's statutory marginal tax rates, which are higher for taxpayers with greater taxable incomes and thus, in general, lead to higher average effective tax rates for taxpayers with greater levels of gross income. Federal deductibility reduces the effective tax rate for nearly all taxpayers, but has a larger impact on Iowa taxpayers who face relatively higher federal tax liability such as single, elderly, and high-income taxpayers. Provisions such as the Earned Income Tax Credit (EITC), a refundable tax credit for low-income earners, generate further differences in average effective tax rates at different levels of gross income. In addition, average effective tax rates vary across filing statuses, owing to differences in standard deductions by filing status and to the option of separate filing by married couples. Lastly, because Iowa excludes all Social Security income and certain other pension income from gross income, average effective tax rates are lower for taxpayers aged 65 or over across all filing statuses.

To account for these important differences, Figure 4 presents average effective tax rates by gross income level and age group for the various filing statuses which may be used by Iowa taxpayers. The figure excludes taxpayers with negative gross income. Across all income groups, filing statuses, and income levels, the average effective tax rate in 2022 was 3.5 percent. For the reasons broadly outlined above, average effective tax rates vary considerably across income groups within each age category and filing status. The average effective tax rate is, in fact, negative for the lowest-income groups among married taxpayers filing jointly and taxpayers filing as a head of household or qualifying widow(er). This is primarily an effect of the EITC, which particularly targets low-income earners with dependent children.

Although average effective tax rates partly reflect graduated rates and other progressive elements of the Iowa individual income tax, taxpayers with the highest levels of gross income in 2022 did not experience the highest average effective rates. Figure 4 shows that the distribution of average effective rates by gross income is somewhat bell-shaped across all filing statuses, with lower rates at the lower and highest income ranges, and the highest average effective tax rates generally being paid by taxpayers with income between \$100,000 and \$999,999. Among taxpayers below age 65 and in all filing statuses (except for those married filing separately), those with gross income greater than \$1 million, on average, experienced effective rates that were lower than that of taxpayers in any other income category above \$50,000 in their respective filing status category. For married taxpayers filing separately, however, those with gross income greater than \$1 million had an average effective tax rate that was more in line with the income levels of \$75,000 to \$99,999, and did not fall below the rates for the lower income levels.

**Figure 4. Tax Year 2022 Iowa Individual Income Tax Average Effective Rates by Filing Status for Resident Filers**

\*Both age groups are shown together in higher income ranges due to the lower number of taxpayers.

## **LOW-INCOME TAXPAYERS AND THE IOWA INDIVIDUAL INCOME TAX**

More information concerning the impact of the Iowa individual income tax on low-income taxpayers is provided in Figures 5 and 6. The income levels in Figure 5 represent the threshold at which a household with two children, headed by a married couple filing jointly or a single head of household, incurred its first dollar of Iowa income tax liability in each tax year between 2010 and 2022. Threshold calculations for each tax year incorporate Iowa individual income tax rates and brackets, standard deduction amounts, personal and dependent exemption credits, and the Iowa Earned Income Tax Credit. Households with income at the threshold are estimated to face no federal tax liability and any federal EITC refunds are exempt from inclusion as taxable federal refunds. Because tax rates and exemption credit amounts do not typically change from year to year, the threshold usually increases only as a result of annual indexation of brackets and standard deductions, with the Iowa EITC calculated as a percentage of the federal EITC. Between tax years 2012 and 2013, however, the Iowa EITC percentage increased from seven to 14 percent of the federal EITC. This increase accounts for the marked rise in the threshold levels in 2013. In tax year 2014, the EITC percentage increased again, by one percentage point to 15 percent.

In tax years 2010 through 2012, the net income level below which a household with two children owed no Iowa income tax was between \$18,500 and \$19,100 for single taxpayers filing as head of household, and between \$19,500 and \$20,100 for married taxpayers. In 2013, the thresholds increased to \$23,319 and \$25,055 respectively, representing an increase of 22 percent and 24.5 percent over the previous year. From then on, the increases have been less dramatic, settling at a five-year average increase of about 1.9 percent in each five-year period from tax years 2015 through 2021, increasing, however, to 2.4 percent in the latest period from 2018 through 2022.

**Figure 5. Net Income at which First Dollar of Iowa Individual Income Tax is Collected, Tax Years 2010 through 2022**

Note: Figure reflects assumptions specified for taxpayers filing married jointly or head of household with two children.

Figure 6 also presents data for tax years 2010 through 2022. The figure shows estimated Iowa individual income tax liability for households whose net income was equivalent to the poverty threshold under guidelines computed by the U.S. Department of Health and Human Services (HHS). These thresholds are adjusted annually and vary by family size. Figure 6 provides tax liability estimates for both a household of three, headed by a single parent filing as a head of household, and a household of four, headed by a married couple filing jointly. These estimates are based on Iowa individual income tax rates and brackets, standard deduction amounts, personal and dependent exemption credits, and the Iowa Earned Income Tax Credit.

For the thirteen years shown in the figure, Iowa income tax liability for a household of three whose net income was at the poverty threshold was negative. Beginning with tax year 2013, Iowa income tax liability for a household of four was likewise negative. Given the assumptions underlying these estimates, the downturn in tax liability beginning in 2013 is a result of the EITC, which is refundable. The marked decrease in Iowa income tax liability for both types of households in tax year 2013 and the large but much less dramatic decrease in 2014 reflect the changes in the Iowa EITC described above. In 2022, the poverty threshold for a household of three was \$23,030; given the assumptions used for this analysis, such a household had an Iowa income tax liability of -\$536. A household of four with net income at the poverty threshold in 2022 of \$27,750, would have Iowa income tax liability of -\$209.

**Figure 6. Estimated Iowa Income Tax Liability at Poverty Threshold, Tax Years 2010 through 2022**

Note: Figure reflects assumptions specified for taxpayers filing married jointly or head of household with two children.

## HISTORICAL TRENDS IN FILINGS, INCOME, AND TAX LIABILITY

Table 4 provides the number of tax returns filed, adjusted gross income (AGI), net taxable income, and tax liability since tax year 2015. It provides separate panels for all taxpayers and for Iowa-resident taxpayers only. As seen in the table, annual changes in the number of taxpayers have been modest from 2016 to 2018 after several previous years of increases of one percent or more. In 2019, however, there was an increase of nearly 2 percent over 2018 in the total number of returns, and an increase of 1.7 percent among Iowa-resident taxpayers. After moderating to an increase of just over 1 percent from 2019 to 2020, the rate of change in total returns from 2020 to 2021 reversed to a 0.9 percent decrease for all taxpayers, and a 1.3 percent decrease among Iowa-resident taxpayers. This may be due to changes in federal tax law that expanded some tax credits in tax year 2020 due to COVID, which might have caused some taxpayers to file returns for that year but not for 2021. The decrease in the number of returns deepened in tax year 2022 over 2021 to a 1.3 percent decrease among all taxpayers and -1.4 percent among resident taxpayers. Unlike 2021, however, when AGI, taxable income and tax liability all showed an *increase* over 2020 (35 percent, 33 percent, and 13 percent respectively), 2022 saw a marked *decrease* among all taxpayers in the three measures of -23.5 percent, -26.7, and -2.4 percent, respectively, when compared to tax year 2021. (The change from 2020 to 2021 is discussed in more detail below.) The sharp decrease in 2022 may reflect a return to more normal taxable income conditions than those experienced under COVID. When compared to 2020 (on an unadjusted basis), 2022 showed growth among all taxpayers in AGI of 3 percent and tax liability of 10 percent, while net taxable income experienced a modest 3 percent decrease. Among resident taxpayers, the increase in AGI was 12 percent, with net taxable income showing growth of 9 percent, and tax liability of 10 percent when compared on an unadjusted basis to tax year 2020.

In general, increases or decreases in income have led to similar changes in net taxable income and tax liability. Modifications to Iowa tax law can also affect growth in income and in tax liability over time. Federal tax law, too, has an effect on State tax liability because taxpayers are allowed to deduct their net federal income tax payments from Iowa taxable income on their Iowa returns. This is especially true for tax year 2018 when changes to federal income tax law led to an aggregate net decrease in federal tax liability for resident Iowa taxpayers and, in turn, an increase in state tax liability. Tax year 2019 saw that reversed with a net decrease in state tax liability of -6 percent over the prior year. That decline in tax liability was again reversed in 2020 when tax liability increased over 7 percent from 2019, and became nearly equal to the 2018 levels. The temporary decline in 2019 can be attributed to the changes to Iowa Code through Senate File 2417, which reduced Iowa individual income tax rates from the prior year and generally conformed Iowa's individual income tax laws to the federal tax code (the Tax Cuts and Jobs Act of 2017), which also reduced tax rates. Net taxable income among all taxpayers saw a large increase in 2021 of 32.9 percent over the prior year. This may be due to several factors, including a rebound in the economy over 2020, higher capital gains, higher schedule E income, and higher interest income. Wage income also jumped, and farm income increased from previous years. The increase in tax liability in 2021 at 12.9 percent among all taxpayers was more moderate than the increase in income. Iowa-resident taxpayers also saw an increase in net taxable income of 9.1 percent, which was notably not as large as among all taxpayers. The increase in tax liability in 2021 over

2020 was 2.1 percentage points higher than the increase in taxable income, at 11.2 percent compared to 9.1 percent. This is slightly lower than the increase in 2020 over 2019, at 2.5 basis points. Tax year 2022, however, saw a reversal in the percentage change in tax liability when compared to 2021, when the annual tax liability fell by 2.4 percent among all taxpayers, and by 1.5 percent among resident taxpayers. Notably, the percentage decreases in AGI and taxable income were greater than the decrease in tax liability among all taxpayers, indicating a higher effective tax rate in 2022 compared to 2021. For resident taxpayers, however, the rate was nearly steady at 4.9 percent compared to the previous year.

**Table 4. Historical Iowa Individual Income Tax Statistics – Returns, Income, Tax Liability, and Effective Tax Rates**

Figure 7 provides historical data concerning the share of tax returns filed as paper or electronic returns. The figure concerns both resident and nonresident filers. Since 2004, the percentage of returns filed on paper has decreased from 38 percent to just 4.6 percent. Based on a recent analysis by the Iowa Department of Revenue, the average cost of processing each paper return was ten times greater than the cost of processing each electronic return.

**Figure 7. Percentage of Tax Returns by Form of Return, by Tax Year**

Note: Taxpayers filing married separate on a combined return are counted as two individual taxpayers.

## EXPLANATION OF TERMS

### Filing Status

A category used to determine the taxpayer's filing requirements, standard deduction amount, eligibility for certain credits and deductions, and tax liability. Iowa allows taxpayers to file as single or married using one of the following statuses:

#### Single

- Single
- Head of household
- Qualifying widow(er)

#### Married

- Married, filing jointly
- Married, filing separately on a single return
- Married, filing separately on separate returns

Personal Credits	From Step 3 on IA 1040
Dependent Credits	From Step 3 on IA 1040
Adjusted Gross Income (AGI)	From line 26 IA 1040
Federal Tax Deduction	The difference between line 34 IA 1040 and line 29 IA 1040
Itemized or Standard Deduction	From line 37 IA 1040
Net Taxable Income	From line 38 IA 1040
Tuition and Textbook Tax Credit	From line 44 IA 1040
Volunteer Firefighter/EMS Personnel/Reserve Peace Officer Tax Credit	From line 45 IA 1040
Out-of-State Tax Credit	From line 50 IA 1040

Other Nonrefundable Tax Credits	From line 52 IA 1040. Includes: Beginning Farmer Tax Credit Program, Charitable Conservation Contribution Tax Credit, Custom Farming Contract Tax Credit (carryforward amounts only), Endow Iowa Tax Credit, Farm to Food Donation Tax Credit, Franchise Tax Credit, Geothermal Heat Pump Tax Credit, Geothermal Tax Credit (carryforward amounts only), Historic Preservation Tax Credit - Nonrefundable by Request, Hoover Presidential Library Tax Credit, Housing Investment Tax Credit (carryforward amounts only), Innovation Fund Tax Credit, Investment Tax Credit, Iowa Alternative Minimum Tax Credit, Iowa New Jobs Income Tax Credit, Redevelopment Tax Credit, Renewable Energy Tax Credit, S Corporation Apportionment Tax Credit, School Tuition Organization Tax Credit, Solar Energy System Tax Credit (available on installations before January 1, 2022), Third Party Developer Tax Credit, Third Party Developer Tax Credit for racks, shelving, and conveyor equipment, Wind Energy Production Tax Credit, and Workforce Housing Investment Tax Credit.
Tax Liability	From line 53 IA 1040, less any refundable credits other than withholdings or estimate payments
Fuel Tax Credit	From line 59 IA 1040
Child and Dependent Care Tax Credit	From line 60 IA 1040
Early Childhood Development Tax Credit	From line 60 IA 1040
Earned Income Tax Credit	From line 61 IA 1040
Other Refundable Tax Credits	From line 62 IA 1040. These credits include: Adoption Tax Credit, Angel Investor Tax Credit (formerly known as Venture Capital - Qualifying Business), Assistive Device, Biodiesel Blended Fuel Tax Credit, Claim of Right Tax Credit, E15 Plus Gasoline Promotion Tax Credit, E85 Gasoline Promotion Tax Credit, Historic Preservation Tax Credit, Redevelopment Tax Credit – Refundable for Non-Profits, Renewable Chemical Production Tax Credit, Research Activities Credit, Third Party Developer Tax Credit, and Third Party Developer Tax Credit for racks, shelving, and conveyor equipment.
Pay Returns	Returns with tax liability greater than zero
No-Pay Returns	Returns with tax liability less than or equal to zero

Refundable Tax Credit

A refundable tax credit provides a net payment, or refund, to the taxpayer in the event the tax credit amount exceeds tax liability.

Nonrefundable Tax Credit

A nonrefundable tax credit offsets tax liability; however, any credit amount greater than tax liability is not paid to the claimant and remains unused. For many nonrefundable tax credits, the unused tax credit amount may be carried forward to subsequent tax years.

Note: It is possible for a taxpayer to report negative adjusted gross income or zero taxable income yet incur tax liability. This can occur when a taxpayer reports large federal refunds or faces lump sum or Iowa alternative minimum tax liabilities. Conversely, a taxpayer may report high income yet owe no tax. This can happen when a taxpayer reports large federal tax deductions, itemized deductions, or tax credits. Among nonresidents who report high adjusted gross incomes, but little Iowa-source income, it is common for nonresident credits to largely offset or eliminate Iowa tax liability.

## INDIVIDUAL INCOME TAX ABATEMENT

The Director of the Department of Revenue is provided the statutory authority to “abate any unpaid portion of assessed tax, interest or penalties which the Director determines is erroneous, illegal or excessive” (Section 421.60 (2) (i) Code of Iowa, 2023). Abatements apply to those cases in which the initial protest occurs after the 60 day appeal period has expired and in which the taxpayer produced records substantiating the taxpayer's claim to reduced tax liability. The following table summarizes the individual income tax abatements allowed in calendar year 2023.

### INDIVIDUAL INCOME TAX ABATEMENTS JANUARY 1, 2023 THROUGH DECEMBER 31, 2023

Number of Returns	Tax	Penalty (Includes Fees)	Interest	Total Amount
3,532	\$13,847,008.70	\$1,051,648.33	\$2,496,816.20	\$17,395,473.23
