JOINT RESOLUTIONS

PASSED BY THE NINETEENTH GENERAL ASSEMBLY.

NUMBER 1.

IN MEMORY OF PRESIDENT GARFIELD.

A JOINT RESOLUTION Relating to the Death of President James A. Garfield.

WHEREAS, Since the last session of the general assembly of the state of Iowa, a great bereavement has befallen the nation in the death of our beloved president, by the hand of an assassin; therefore,

Resolved by the General Assembly of the State of Iowa, That in the murder of James A. Garfield the nation has lost a ruler loved for the purity of his life and for his great public services rendered as a soldier and statesman, and whose brief rule was hailed by all parties as giving promise of a wise and prosperous administration; and,

Resolved, further, That the people of the state of Iowa, by their senators and representatives assembled, do hereby record this formal expression of sorrow for this great national calamity, and of heartfelt sympathy with the family of the great man cut off in the midst of his years; and,

Resolved, further, That these resolutions be entered upon the records of the senate and house, and that a copy duly authenticated by our presiding officers, and by the governor of the state, be forwarded to Mrs. Lucretia Garfield, by the secretary of state.

Approved, February 7, 1882.

NUMBER 2.

IN RELATION TO THE HENNEPIN CANAL.

WHEREAS, The agricultural, manufacturing, and commercial interests of the northwest, and no less so those of the entire country, are largely dependent for their development upon a full enjoyment of facilities for the transportation of products and commodities; and,

WHEREAS, The two great interior water-routes of transportation in the United States are those of the Mississippi River from north to south and of the lakes with the Erie Canal and the Hudson from west to east; and,

WHEREAS, A direct all-water connection between these two great routes is indispensable to a complete service to the interests which so imperatively demand improved and cheaper routes of transportation, since without such a connection there can be no real use by the northwest of a water-route to the east nor by the east to the northwest; and,

WHEREAS, The general assembly of Iowa did, in 1864, again in 1870, and still again in 1874, memorialize congress for the construction of a canal to connect the Mississippi with the Illinois on a line running eastward from or near Rock Island, while Governors Merrill, Carpenter, and Gear have also in official communications urged that congress should undertake that greatly needed work of improvement; therefore,

Resolved, That this House, the Senate concurring, respectfully memorialize the Congress of the United States, To authorize, provide for, and direct, at its present session, an early construction of a canal for commercial purposes from Hennepin, on the Illinois River, to or near Rock Island, on the Mississippi River.

Resolved, That our senators in congress be instructed, and our representatives be requested, to use all possible and proper exertions to secure, from the body in which they respectively serve, the passage of a bill at the present session ordering the immediate beginning of the work of constructing the canal herein mentioned, and to vote liberal appropriations therefor, to the end that the said canal may be completed and opened to the commerce of the country at the earliest possible date.

Resolved, That a copy of these resolutions, duly signed by the speaker and attested by the clerk of this body, be forwarded to each of the Iowa senators and representatives in congress in order that the same may be duly presented to the respective bodies in which they serve.

Approved, February 21, 1882.

NUMBER 3.

CONCERNING PATENT-RIGHT EXTORTIONS.

Be it resolved by the General Assembly of the State of Iowa:

I. That in view of the vexations, litigation, and extortions forced upon the people of this state by barb-wire, drive-well, and other patent-right monopolies, we do hereby earnestly request our senators and representatives in congress to use their influence to have the patent laws of the United States so amended that while they will secure due and ample reward to the inventive genius of our country they will also protect the people from the recurrence of such unjust exactions.

II. Resolved that the secretary of state be and he is hereby instructed to transmit a copy of the foregoing resolution to each of our senators and representatives in congress.

Approved, February 23, 1882.

NUMBER 4.

MEMORIAL—IMPROVEMENT OF THE MISSOURI RIVER.

To our Senators and Representatives in Congress:

We, the members of the nineteenth general assembly of the State of Iowa, and now assembled at Des Moines in a legislative capacity, speaking for and representing the wish and imperative demand of the whole population of the state, would most respectfully represent:

That there is no question in which all our people have so great and vital an interest as that of cheaper transportation for their products to the markets of the world. That Iowa is, and must ever remain, an agricultural state. That success in agricultural pursuits depends not only on the amount produced, but also largely on the price realized by the producer, and this is governed mainly by his means of transportation. That our products have so far outgrown our means of transportation that fully one-half of the price of all we produce is consumed in the form of freights, as fixed and regulated by corporations who have full control of our present means of transportation. That the Missouri River, if properly improved from Sioux City, in the state of Iowa, to its confluence with the Mississippi, in the state of Missouri, would afford a cheap, safe, and speedy means of transportation for the four great grain-producing states; viz., Iowa, Missouri, Kansas, and Nebraska. These states had, as shown by the latest official report, an aggregate population of 5,198,103 inhabitants, and produced in the year 1880 five hundred and eighty-six million bushels of corn, or more than one-third of that of the whole United States. Of this, Iowa alone produced 276,000,000 bushels. In the year last named, these four states produced of cereals the fabulous quantity of 780,000,000 bushels, or more than double that of the sixteen Atlantic states. An increase in the price of these vast products of ten cents on the bushel, for a single year, would raise a sum ten times greater than necessary (if properly expended) to secure a uniform channel depth of twelve feet, at low water, from Sioux City, in Iowa, to St. Charles, in Missouri, and thereby lessen the cost of transportation at least fifty per cent, and save to the producers of these four great states fully \$100,000,000 per annum, and to the farmers of Iowa not less than \$30,000,000 each year. That Major C. R. Suter, an able and efficient civil engineer, was duly commissioned by the government to survey and report upon the practicability of so improving the Missouri River as to make its navigation safe and at all times reliable, and has within the two years last past completed said survey, and reported to Congress last winter that the Missouri can be so improved as to secure a uniform depth of twelve feet, at low water, from its mouth to Sioux City, in Iowa, and at a cost not exceeding \$10,000 per mile, and in the aggregate not exceeding \$7,820,000. See Senate Document[s], forty-sixth congress, third session. Your memorialists are aware that large sums of money have from time to time, and at almost every session of congress, been appropriated for the improvement of rivers and harbors in the eastern and older states, ever since the formation of our government, whereas the middle and more western states have received but little or no encouragement by way of appropriations for a similar purpose, notwithstanding they have constantly been heavily taxed, and have responded cheerfully and liberally

to every demand made by the general government. They have now grown weary and restive under and by reason of this unequal and unjust disbursement of the public funds, and therefore properly and earnestly DEMAND such an appropriation for the improvement of their large rivers as may be necessary to secure to them a cheaper and more reliable means of transporting their vast and yearly increasing products to the marts of the world, and thereby secure to them a just reward for their industry and enterprise: therefore,

Be it resolved by the General Assembly of the State of Iowa, the Senate concurring:

That our senators and representatives in congress be requested and INSTRUCTED to take early, earnest, and persistent action by way of securing an appropriation of not less than seven million dollars for the improvement of the Missouri River between Sioux City, in the state of Iowa, and St. Charles, in the state of Missouri, and that they secure such other national legislation as may be necessary to insure the faithful and honest application and disbursement of the money so appropriated, to the end that the work may be commenced as early as possible and completed without unnecessary delay.

Second. That the memorial be printed, properly authenticated, and a copy sent by the secretary of state to each of our senators and representatives in congress; also, one to each senator and representative now in congress from the states of Missouri, Kansas, and Nebraska.

Approved, February 25, 1882.

NUMBER 5.

DES MOINES RIVER LANDS.

JOINT RESOLUTION AND MEMORIAL of the General Assembly of the State of Iowa, Relating to the Des Moines River Lands.

WHEREAS, The settlers upon what is known as the lands granted to the Des Moines Navigation and Railroad Company believe that no action has ever been taken relating to these lands in which the United States and the interest of the United States have been fairly, properly, and adequately represented in court; and,

WHEREAS, The said settlers desire that the United States may be fairly and fully represented in the court; therefore,

Be it resolved by the House of Representatives of the State of Iowa, the Senate concurring, That our senators and representatives in congress be earnestly requested to exert themselves to secure the prompt passage of a bill which shall in some way provide that the attorney-general of the United States shall immediately institute proceedings, or cause such proceedings to be commenced at once, by action either in equity or at law, as

may be deemed best, and appear in the name of the United States so as to remove all claims from the title of said lands, and that in such action or actions to be instituted, as aforesaid, any person or persons in the possession of or claiming title to any land or lands under the United States involved in such action or actions may, at his or her expense, unite with the United States in the prosecution of said action or actions for the purpose of forever settling the title or titles of the person or persons claiming said lands.

WHEREAS, The agricultural, manufacturing, and commercial interests of the northwest, and no less so those of the entire country, are largely dependent for their development upon a full enjoyment of facilities for the transportation of products and commodities; and,

WHEREAS, The two great interior water-routes of transportation in the United States are those of the Mississippi River from north to south, and of the lakes, with the Erie Canal and the Hudson River, from west to east; and,

WHEREAS, A direct all-water connection between those two great routes is indispensable to a complete service to the interests which so imperatively demand improved and cheaper routes of transportation, since without such a connection there can be no real use by the northwest of a water-route to the east, nor by the east to the northwest; and,

Resolved, That our senators and representatives in congress be requested to use all possible and proper exertion to secure from the body in which they respectively serve the passage of a bill, at the present session, ordering the immediate beginning of the work of constructing the canal herein mentioned, and to vote liberal appropriation therefor, to the end that the said canal may be completed and opened to the commerce of the country at the earliest possible date.

Resolved, That a copy of these resolutions, duly signed by the president of the senate, and attested by the secretary, be forwarded to each of our senators and representatives in congress, in order that the same may be duly presented to the respective bodies in which they serve.

WHEREAS, The fund arising from the sale of the land granted the state of Iowa by the said act can be safely and more profitably invested in approved real estate securities;

Be it resolved by the General Assembly of the State of Iowa:

SECTION 1. NUMBER 9.

IN REFERENCE TO BARBED WIRE PATENTS.

WHEREAS, Washburn, Moen & Company and others have bought up a number of patents, which patents were not for novel inventions, and which patents relating to barbed wire they do not now use, but have procured reissues of the same covering more than the original patents; and,

WHEREAS, Large quantities of barbed wire are in use by the farmers of Iowa, which it is claimed by said patentees is covered by said patents and reissues; and,

WHEREAS, The said Washburn, Moen & Co. have obtained judgments in some cases where, in actions brought by them, they procured a settlement with the parties; and,

WHEREAS, They commenced suits against farmers using the same, to recover royalty thereon, and also commenced an action in the federal courts to enjoin the manufacture and sale of barbed wire by parties other than themselves, and while said actions were pending the said Washburn, Moen & Co. procured settlements with the parties against whom suits were pending when the same were about to be tried, and have thus prevented the farmers of Iowa from testing the validity of said patents and reissues; and,

WHEREAS, While the said monopolists have power to select the parties defendant and make settlements with them, either by obtaining consent decrees or by default, the farmers of Iowa are and will continue to be powerless to test the validity of such patents or reissues, and will be continually harrassed with litigation, and owing to the uncertainty will be compelled to pay much more for said barbed wire than it would be sold for on the markets but for such uncertainty; and,

WHEREAS, It seems advisable if it can be done to have the whole question settled in one proceeding, it is deemed advisable to have a proceeding commenced by the attorney-general of the United States, in the name of and on behalf of the United States, for the purpose of determining the validity of such patents and reissues;

Be it enacted by the General Assembly of the State of Iowa:

That the president of the United States be and is hereby respectfully requested to instruct the attorney-general of the United States to bring an action in equity in the United States courts, on behalf of the United States, to set aside patents and reissues thereof now claimed to be owned by Washburn, Moen & Co. and others, relating to barbed wire, so far as the original patents, or reissues, or any part thereof, may be found to be fraudulent, and to restrain such persons from commencing or prosecuting actions under or by virtue of any patent or reissue thereof found to be fraudulent, and to take all such steps and proceedings as shall be just and equitable in relation thereto.
