Approved May 10, 2002, with exceptions noted

THOMAS J. VILSACK, Governor

Dear Secretary Culver:

I hereby transmit Senate File 2317, an Act relating to the tobacco master settlement agreement, including tobacco product manufacturer compliance, making an appropriation, and providing penalties. This legislation provides additional remedies to aid in the enforcement of the Model Statute, Code chapter 453C which was required to be approved and enforced by the State in the Master Settlement Agreement with the Tobacco manufacturers.

Sections 1 – 8 of this bill would require compliance with chapter 453C before a distributor could affix stamps to the product. Additionally, a registered agent would be required for service of process of those out of state manufacturers selling in this state. Iowa is required to “diligently enforce” chapter 453C and penalties for failure to are monetary and substantial. The

* Item veto; see message at end of the Act

possibility exists that the entire amount owed to Iowa for any particular year could be eliminated if the statute is not diligently enforced.

Section 9 is the balance owed the private counsel retained to represent Iowa in its litigation against the Tobacco manufacturers. The original appropriation contained in House File 755, section 25, of last year's appropriation was \$944, 877.60 short of the obligation owed to the attorneys by contract. The shortage was created when estimates paid by Tobacco manufacturers over the last three years did not meet actual obligation. When the contractual obligation to the attorneys is concluded, the balance of the payments will be assigned to the State.

In its present form there is some question as to whether Sections 1 – 8 would jeopardize Iowa having a qualified model statute within the meaning of the Master Settlement Agreement. That in itself would result in substantial monetary penalties for the State.

Senate File 2317 is, therefore, signed on this date with the following exceptions, which I hereby disapprove.

I am unable to approve Sections 1 – 8 given the potential to put Iowa in non-compliance with the Master Settlement Agreement. I look forward to working with lawmakers to approve legislation that would ensure compliance with the Master Settlement Agreement and not jeopardize these funds.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 2317 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, Governor

Sec. 11. EFFECTIVE DATE. This Act, being deemed of immediate importance, takes effect upon enactment.

Approved February 8, 2002, with exceptions noted.

THOMAS J. VILSACK, Governor

Dear Speaker Siegrist:

I hereby transmit House File 2245, an Act relating to the medical assistance program, making appropriations and transfers of funds, and providing an effective date.

The medical assistance supplemental bill is vitally important for hundreds of thousands of Iowans. This bill makes significant strides toward addressing the increased demand for medical services by families in need.

* Item veto; see message at end of the Act

However, the bill has several provisions which I cannot support. I oppose attempts to raise prescription costs on Iowans in need and add an unnecessary, burdensome layer of bureaucracy and cost to the delivery of medical assistance. In addition, the anticipated cost savings for some provisions are overstated. The burdens created for some families and health care providers are also unacceptable.

House File 2245 is, therefore, signed on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the item designated as Section 4, subsection 2 in its entirety. This language directs any remaining funds in the Hospital Trust Fund after the first \$7 million is appropriated to replace the \$2.5 million in the Tobacco Endowment. By vetoing this provision, any funds remaining in the Hospital Trust Fund would be transferred to the Senior Living Trust in accordance with Section 4, subsection 3 of the bill. This veto will improve the balance between resources used by the Senior Living Trust and Tobacco Settlement Endowment. It will also preserve the priority of long-term care transitions over the endowment.

I am unable to approve the item designated as Section 5, subsection 2 in its entirety. This language directs that if certain federal funds are not received during the present fiscal year, the Department of Human Services appropriations will be reduced by up to \$7 million — funds used to protect children and provide health care coverage for uninsured Iowans. The provision punishes children and Iowans in need because of action on the part of the federal government.

I am unable to approve the item designated as Section 7, subsection 1 in its entirety. The Legislature's bill would require additional bureaucracy and associated costs by calling for monthly reporting requirements for those who experience a change in income, mailing address, household composition, or health insurance. In doing so, the Legislature would be creating an additional layer of bureaucracy, and an additional layer of cost to process the monthly reports. This new bureaucratic requirement is particularly unnecessary, considering the Department of Human Services already requires Iowans in need who receive medical assistance to report changes in such factors. This is an example of an area where the projected savings are overstated.

While I am not recommending a veto of the section relating to restrictions on dental services that would be available to medical assistance recipients, as now passed, most of the projected savings have been eliminated. Savings under this proposal are much less than the amount indicated by the Legislature of \$1.6 million for four months.

I am unable to approve the item designated as Section 7, subsection 3 in its entirety. The provision would increase the cost of prescription drugs for Iowans most in need. This, in effect, is a tax on a group — aged, blind, disabled, children, caretakers with very little or no income. Additionally, if the individuals do not have the funds, the pharmacist is required to dispense the drug anyway. This requires pharmacists to subsidize the costs and creates an additional reluctance on the part of pharmacists to handle Medicaid patients.

I am unable to approve the item designated as Section 9 in its entirety. The provision would require nursing facilities to be certified for Medicaid and Medicare — even if the nursing facility does not take Medicare patients. Therefore I have directed the Department of Human Services to immediately prepare administrative rules to address dual certification for all applicable nursing facilities, thus requiring certification of a nursing facility for both Medicare and Medicaid when they are, in fact, providing services for clients of each program. The directive avoids unnecessary additional administrative cost for dual certification that would be borne by the state, over 62 nursing facilities (which do not need the dual certification, nor will they in the future serve Medicare clients), and Iowans who receive nursing home services.

For the above reasons, I respectfully disapprove these items in accordance with Amendment

IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 2245 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, Governor

THOMAS J. VILSACK, Governor

Dear Secretary Culver:

I hereby transmit Senate File 2326, an Act making, reducing, and transferring appropriations, and providing for other properly related matters and including effective dates.

Since the Legislature approved this bill, there has been a dramatic change in the State's revenue projections. Most states and the federal government experienced a large reduction in final pay income tax returns and a correspondingly large increase in taxpayers due refunds. Because of this change in circumstance, I asked the State's Revenue Estimating Conference (REC) to meet to review their official revenue estimate for both fiscal years 2002 and 2003.

On May 7th, the REC met and decreased general fund resources available to the State by \$205.5 million in fiscal year 2002 and \$220.1 million in fiscal year 2003. By law, both the governor and the legislature must rely on the REC estimate in preparing and approving the state budget.

While I am concerned about many details within this bill, there is a larger, more fundamental concern that prevents me from approving the majority of this bill. Due to recent action by the REC in lowering revenue projections, signing this bill would enact a general fund budget for fiscal year 2003 that results in a general fund deficit of more than \$200 million and would be an irresponsible action. I cannot and will not do so.

At the same time, we cannot go back on our commitment to our children and families. Education at all levels is the number one priority in Iowa. To build on progress in student achievement, reduced class sizes, and job and wealth creation, we must have an educated workforce, and we must use our colleges and universities as an engine for economic growth. Even as we work to cut budgets, we must do all we can to preserve our commitment to education and maintain the educational opportunities for our children.

To help ensure this educational commitment, I am approving Division IV, Sections 76 through 86, the education portion of Senate File 2326 with the noted exceptions. While it falls short of my original goals for funding, given our current fiscal realities, it is likely the best investment we can make at this time. We will continue to work for additional resources in education through achieving savings and efficiencies in government. In the end, however, we must look to our educated workforce and our colleges and universities to be a catalyst for economic growth in our state. In the long run, education is the key to Iowa's economic prosperity.

In order for our children to have the best opportunities available to them, they must also have adequate access to health care. Iowa has the distinction of being the top performing state in the nation according to The Social Health of the States, conducted by the Fordham Institute for Innovation in Social Policy. In an effort to continue the progress we have made in ensuring every child receives the medical attention they need I am approving Section 106, which provides funding for the Healthy and Well Kids in Iowa (HAWK-I) program. In a nation as wealthy as ours, no child should be left out.

Senate File 2326 is, therefore, signed on this date with the following exceptions, which I hereby disapprove.

I am unable to approve Division I, Sections 1 through 33; Division II, Sections 34 through 45; Division III, Sections 46 through 75; Division V, Sections 87 through 98; Division VI, Sections 99 through 105 and Sections 107 through 140; Division VII, Sections 141 through 162; Division VIII, Sections 163 through 167. This action is necessary as a result of the REC's lowering the revenue estimates. I intend to work with lawmakers in a special session this month to take responsible action to reduce spending, reallocate existing resources, and balance this budget.

I am unable to approve Section 79, subsection 15, paragraph 2. This paragraph states that it is the intent of the general assembly to cease providing assistance for the Jobs for America's Graduates (JAG) program on June 30, 2003. This is a valuable program that provides direct services to the most at-risk juniors and seniors in local school districts through direct intervention. These students are worked with intensively to ensure that they graduate and are successful in obtaining a job or enrolling in postsecondary training. It is our duty to provide the tools to enable all students to succeed.

I am unable to approve Section 79, subsection 16, paragraph 2. This paragraph states that it is the intent of the general assembly to cease providing assistance for the Americorps After-School Initiative on June 30, 2003. Americorps is an after-school program aimed at middle school students located in schools with high rates of juvenile crime, violence and drug abuse. This is an important tool in linking people across Iowa willing to volunteer to improve a child's life.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in Senate File 2326 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, Governor

3. Notwithstanding any contrary provisions of sections 225C.7, 331.438, subsection 2, 331.439, subsection 3, and 426B.5, the moneys allocated for distribution in subsection 1, paragraph "b", and in any other Act of the Eightieth General Assembly, 2003 Session, for distribution to counties in the fiscal year beginning July 1, 2003, for purposes of the mental health and developmental disabilities (MH/DD) community services fund under section 225C.7, and for the allowed growth factor adjustment for services paid under a county's section 331.424A mental health, mental retardation, and developmental disabilities services fund and as calculated under subsection 2 to produce preliminary distribution amounts for counties shall be subject to withholding as provided in this section.

4. After applying the applicable statutory distribution formulas to the amounts indicated in subsection 2 for purposes to produce preliminary distribution totals, the department of human services shall apply a withholding factor to adjust an eligible individual county's preliminary distribution total. An ending balance percentage for each county shall be determined by expressing the county's ending balance on a modified accrual basis under generally accepted accounting principles for the fiscal year beginning July 1, 2002, in the county's mental health, mental retardation, and developmental disabilities services fund created under section 331.424A, as a percentage of the county's gross expenditures from that fund for that fiscal year. The withholding factor for a county shall be the following applicable percent:

⁵⁹ Chapter 1171 herein

- a. For an ending balance percentage of less than 10 percent, a withholding factor of 0 percent.
- b. For an ending balance percentage of 10 through 24 percent, a withholding factor of 25 percent.
- c. For an ending balance percentage of 25 through 34 percent, a withholding factor of 60 percent.
- d. For an ending balance percentage of 35 through 44 percent, a withholding factor of 85 percent.
- e. For an ending balance percentage of 45 percent or more, a withholding factor of 100 percent.

5. The total withholding amounts applied pursuant to subsection 4 shall be equal to a withholding target amount of \$7,419,074 and the appropriation enacted by the Eightieth General Assembly, 2003 Session, for the MH/DD community services fund shall be reduced by the amount necessary to attain the withholding target amount. If the department of human services determines that the amount to be withheld in accordance with subsection 4 is not equal to the target withholding amount, the department shall adjust the withholding factors listed in subsection 4 as necessary to achieve the withholding target amount. However, in making such adjustments to the withholding factors, the department shall strive to minimize changes to the withholding factors for those ending balance percentage ranges that are lower than others and shall not adjust the zero withholding factor specified in subsection 4, paragraph "a".

6. A county must comply with both the requirements listed in this subsection to be eligible to receive a funding distribution under this section. The amount that would otherwise be available for distribution to a county that fails to so comply shall be proportionately distributed among the eligible counties. Both of the following requirements are applicable:

- a. A county must comply with the December 1, 2003, filing deadline for the county annual financial report in accordance with section 331.403.
- b. A county must levy the⁶⁰ not less than 70 percent of the maximum amount allowed for the county's mental health, mental retardation, and developmental disabilities services fund under section 331.424A for taxes due and payable in the fiscal year beginning July 1, 2003.

7. The department of human services shall authorize the issuance of warrants payable to the county treasurer for the distribution amounts due the counties eligible under this section and notwithstanding prior practice for the MH/DD community services fund, the warrants shall be issued in January 2004.

THOMAS J. VILSACK, *Governor*

Dear Secretary Culver:

I hereby transmit House File 2623, an Act relating to public funding provisions involving the compensation and benefits for public officials and employees, county mental health allowed growth, regulatory and other properly related matters of the state, making and reducing appropriations, and providing effective dates.

This Administration has made clear from day one that our top priority for Iowa is education. Over the past four years, our investment in education has paid tremendous dividends in more quality teachers, smaller classes, and better results. We have seen record interest in higher education, record enrollment in our colleges, and record employment in our workforce. House File 2623 makes an important investment in Iowa's K - 12 schools by funding the student achievement and teacher quality program. This is a vital investment not only in our young people, but also in the future of our state.

House File 2623 is, therefore, signed on this date with the following exceptions, which I hereby disapprove.

I am unable to approve Section 17. This section would eliminate the requirement that innovation projects produce savings and eliminates the standing appropriation to repay the Innovations Fund for savings that do not accrue directly to a department. This would reduce the flexibility of the program.

I am unable to approve Sections 18, 19, 20, 21, 33, 34 and 35. This administration has continually supported improvement of customer service to Iowa citizens through the use of information technology and advanced telecommunications services. The use of credit card transactions as a way to pay for certain government services is one example of this commitment to improved customer service. We will continue to support efforts to improve customer service, however, the above referenced sections of this bill relating to the use of credit card transactions, while well intended, would adversely impact these efforts as well as the citizens of Iowa. There is no funding provided to departments to make system changes required to allow the intake of credit card payments. In addition, the language does not allow for the capture of transaction fees associated with credit card processing. A credit card payment system without the proper technology and funding to support it will result in poor system performance and customer dissatisfaction.

I am unable to approve Section 42, which amends section 556.12, subsection 1, relating to notice and publication requirements of unclaimed property, commonly referred to as The

Great Iowa Treasure Hunt. This language is contrary to Section Nine of the Uniform Unclaimed Property Act of 1995, which section 556.12, subsection 1 is based on; and the proposed language would unduly restrict the flexibility of the State Treasurer in scheduling the workload of personnel available to return property to Iowans.

I am unable to approve Section 49. This section requires the departments of personnel, information technology and general services to identify duplicative job responsibilities throughout state government and report these positions to the Oversight Committee by Sept. 1, 2002. These determinations on an enterprise-wide basis are already being done.

I am unable to approve Section 52. This section requires the departments of agriculture and natural resources to file a written report on a quarterly basis with the appropriations subcommittee regarding all expenditures of moneys during the quarter and the number of FTEs allocated during the quarter. This information is obtainable by the Legislative Fiscal Bureau from the state's accounting and personnel systems, and no mandate is needed to enable legislators to access it.

I am unable to approve Sections 57 and 59. These sections would eliminate the Scope of Practice Review Committee (SPRC) related to the Department of Public Health. This is the only science-based forum available to work out scope of practice issues between health care professions. Most health care organizations do not support eliminating the SPRC: three-fourths of the Iowa health care providers in a recent survey favored keeping the SPRC process as it is or keeping it with some modifications.

I am unable to approve Section 58. This section would make the appropriation to the division on the Status of African-Americans contingent on the appointment of all nine members to the Commission on the Status of African-Americans. This language raises the prospect that the entire budget for the division would be in jeopardy anytime there is a vacancy on the commission. It is not appropriate to unfairly single out one commission for a different standard, and this is not a precedent we want to set for any commission.

I am unable to approve Section 65. This section limits the costs for riverboat enforcement that can be billed to riverboats, which is an amount less than 100% of costs for riverboat enforcement in fiscal year 2003. If retained, this would act as a cap in future years, which would generate a lower percentage of actual costs in each future fiscal year. The limitation on track gaming creates a situation where there are not sufficient expenditures in track gaming and pari-mutuel to even approach an additional \$420,000. This provision would lead to a reduction in revenue that is not reflected in the Legislature's budget assumptions.

I am unable to approve Sections 66 and 67. Section 66 amends the 2002 Iowa Acts, Senate File 2326, section 175, subsection 14 pertaining to Public Transit Assistance, by striking the subsection. I have approved the funding of Public Transit Assistance as provided in Senate File 2326, section 175, subsection 14. Section 67 proposes to reduce the amount appropriated from the General Fund of the state to the Department of Transportation for Public Transit Assistance for fiscal year 2002, by \$1,107,938. These dollars have already been allocated and likely spent by local public transit systems. To seek their repayment would have serious impacts on public transit services.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 2623 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

For purposes of this section, "new investment directly related to new jobs created by the location or expansion of an eligible business under the program" means the cost of machinery and equipment, as defined in section 427A.1, subsection 1, paragraphs "e" and "j", purchased for use in the operation of the eligible business, the purchase price of which has been depreciated in accordance with generally accepted accounting principles, and the cost of improvements made to real property which is used in the operation of the eligible business.

2. An eligible business whose project primarily involves the production of value-added agricultural products, that elects to receive a refund of all or a portion of an unused tax credit, shall apply to the department of economic development for tax credit certificates. An eligible business whose project primarily involves the production of value-added agricultural products shall not claim a tax credit under this section unless a tax credit certificate issued by the department of economic development is attached to the taxpayer's tax return for the tax year for which the tax credit is claimed. For purposes of this section, an eligible business includes a cooperative described in section 521 of the Internal Revenue Code which is not required to file an Iowa corporate income tax return, and whose project primarily involves the production of ethanol. For purposes of this section, an eligible business also includes a cooperative described in section 521 of the Internal Revenue Code which is required to file an Iowa corporate income tax return and whose project primarily involves the production of ethanol. Such cooperative may elect to transfer all or a portion of its tax credit to its members. The amount of tax credit transferred and claimed by a member shall be based upon the pro rata share of the member's earnings of the cooperative.

PARAGRAPH DIVIDED. A tax credit certificate shall not be valid until the tax year following the date of the project completion. A tax credit certificate shall contain the taxpayer's name, address, tax identification number, the date of project completion, the amount of the tax credit, and other information required by the department of revenue and finance. The department of economic development shall not issue tax credit certificates which total more than four million dollars during a fiscal year. If the department receives applications for tax credit certificates in excess of four million dollars, the applicants shall receive certificates for a prorated amount. The tax credit certificates shall not be transferred except as provided in this subsection for a cooperative described in section 521 of the Internal Revenue Code which is required to file an Iowa corporate income tax return and whose project primarily involves the production of ethanol. For a cooperative described in section 521 of the Internal Revenue Code ~~that is not required to file an Iowa corporate income tax return~~, the department of economic development shall require that the cooperative submit a list of its members and the share of each member's interest in the cooperative. The department shall issue a tax credit certificate to each member contained on the submitted list.

Sec. 48. Section 15E.193C, subsection 7, paragraph a, Code Supplement 2001, is amended to read as follows:

a. An eligible development business may claim a tax credit up to a maximum of ten percent of the new investment that is directly related to the construction, expansion, or rehabilitation of building space to be used for manufacturing, processing, cold storage, distribution, or office facilities. For purposes of this section, "new investment" includes the purchase price of land and the cost of improvements made to real property. The tax credit may be claimed by an eligible development business for the tax year in which the construction, expansion, or reha-

bilitation is completed. The tax credit may be used to reduce the tax liability imposed under chapter 422, division II, III, or V, or chapter 432. Any credit in excess of the tax liability for the tax year may be credited to the tax liability for the following seven years or until depleted, whichever occurs earlier. If the business is a partnership, S corporation, limited liability company, cooperative organized under chapter 501 and filing as a partnership for federal tax purposes, or estate or trust electing to have the income taxed directly to the individual, an individual may claim the tax credit allowed. The amount claimed by the individual shall be based upon the pro rata share of the individual's earnings of the partnership, S corporation, limited liability company, cooperative organized under chapter 501 and filing as a partnership for federal tax purposes, or estate or trust.

Sec. 49. APPLICABILITY DATE. This division of this Act applies retroactively to January 1, 2002, for tax years beginning on or after that date.

 - e. Agree to separate from employment with the state by August 15, 2002.

3. Upon acceptance to participate in the program and separation from employment with the state by August 15, 2002, a participant shall receive a sick leave and vacation incentive benefit. The state shall pay to the participant a portion of the sick leave and vacation incentive benefit each fiscal year for a period of five years commencing with the fiscal year ending June 30, 2003.

4. The department of personnel shall administer the program, including the determination of eligibility for participation in the program, and shall adopt administrative rules to administer the program. The department may adopt rules on an emergency basis under section 17A.4, subsection 2, and section 17A.5, subsection 2, paragraph "b", to implement this section and the rules shall be effective immediately upon filing unless a later date is specified in the rules.

5. The legislative council shall provide an incentive program for employees of the legislative branch consistent with the program provided in this section for executive branch employees. The legislative council shall collaborate with the department of personnel to establish the program as required under this subsection. The program provided pursuant to this subsection shall establish the same time guidelines and benefit calculations as provided under the program for executive branch employees.

Sec. 51. EARLY TERMINATION PROGRAMS — MISCELLANEOUS PROVISIONS.

1. DEFINITIONS. For purposes of this section, unless the context otherwise requires:

a. "Early termination participant" means an eligible state employee who participates in an early termination program.

b. "Early termination program" means a sick leave and vacation incentive program as established or required in this Act and the similar early termination program established for state employees as established pursuant to a collective bargaining agreement entered into pursuant to chapter 20.

2. GROUP INSURANCE ELIGIBILITY. An early termination participant shall be eligible to continue participation in the group plan or under the group contract at the early termination participant's own expense in the same manner as a retired employee pursuant to section 509A.13. In addition, an early termination participant shall be deemed an eligible retired state employee for purposes of eligibility for continuation of group insurance covering spouses as provided in section 509A.13A.

3. RELEASE OF RECORDS. Notwithstanding any provision of chapter 22 or section 97B.17 to the contrary, records of the department of personnel maintained for the operation of the Iowa public employees' retirement system may be released to the directors, agents, and employees of the legislative fiscal bureau, the department of revenue and finance, the department of management, and the department of personnel, for the purposes of administering and monitoring an early termination program. A person receiving a record pursuant to this subsection shall maintain the confidentiality of any information otherwise required to be kept confidential and shall be subject to the same penalties as the custodian of the records for the public dissemination of such information. The authority to request a record as provided pursuant to this subsection shall cease June 30, 2003.

4. REPORTING REQUIREMENTS. The department of personnel, in collaboration with the department of management, shall present a report by October 1, 2002, concerning the operation of early termination programs as provided in this Act. The reports shall be submitted in conjunction with the reports required to be submitted by the department of personnel pursuant to 2001 Iowa Acts, Second Extraordinary Session, chapter 5, section 4. The department shall also submit an annual update concerning early termination programs as provided in this Act by October 1 of each year for four years, commencing October 1, 2003. The reports shall include information concerning the number of early termination program participants, the cost of the early termination program including any payments made to participants, the number of state employment positions eliminated pursuant to an early termination program, the number of positions vacated by an early termination program participant that have been re-filled, and the savings to the state based upon the early termination program.

5. SAVINGS. a. For an executive branch position vacated by an early termination participant pursuant to an early termination program, the savings from that termination, as deter-

mined by the department of management, shall offset amounts that would otherwise be reduced from the appropriation to the executive branch department or establishment that employed the participant due to the implementation of a furlough program. The moneys saved by the department or establishment due to the termination would then be used by the department or establishment to reduce or end the furlough program as it would otherwise apply to the employees of that department or establishment, to the extent of the savings. If savings in excess of the amounts reduced by the department of management for the applicable executive branch department or establishment are received, and the furlough program for that department or establishment ceases, those moneys shall not revert to the general fund but shall be transferred to the applicable executive branch department or establishment for personnel costs which shall not be expended for personnel costs without prior approval of the department of management.

b. For a judicial or legislative branch position vacated by an early termination participant pursuant to an early termination program, the savings from that termination, as determined by the judicial or legislative branch as applicable, shall offset amounts that would otherwise be reduced from the appropriation to the legislative or judicial branch that employed the participant due to the implementation of a furlough program. The moneys saved by the legislative or judicial branch due to the termination would then be used by the branch to reduce or end the furlough program as it would otherwise apply to the employees of that branch, to the extent of the savings.

6. ACROSS-THE-BOARD WAGE INCREASE DELAY. If an employee organization representing state employees agrees to an across-the-board wage increase delay as provided in this subsection and to participate in an early termination program as provided in this Act, then any across-the-board wage increases for employees of the same state employer, who are not covered by a collective bargaining agreement, which would otherwise take effect at the beginning of the pay period in which July 1, 2002, falls, shall be delayed until the pay period in which November 1, 2002, falls.

DIVISION IX
EFFECTIVE DATE

Sec. 52. EFFECTIVE DATE. Unless otherwise provided, this Act, being deemed of immediate importance, takes effect upon enactment.

Approved June 4, 2002, with exceptions noted.

THOMAS J. VILSACK, *Governor*

Dear Secretary Culver:

I hereby transmit House File 2625, an Act addressing public funding provisions and properly related matters by making, reducing, and transferring appropriations, adjusting other expenditures for the fiscal year beginning July 1, 2001, and including other appropriations, cooperative tax credits, and effective and retroactive applicability date provisions.

With the Revenue Estimating Conference's recent action to decrease general fund resources available to the State by \$205.5 million in fiscal year 2002, I took responsible action in calling a special session to take the necessary steps to balance the budget. House File 2625 is the result of a plan that I worked with legislators in developing to solve the budget shortfall for the current year. The plan included a series of funding transfers that allow us to continue to provide the priority services of Iowans.

However, the bill has several provisions which I cannot support. I oppose the Republicans' continuous assault on our senior citizens by attempting to raise prescription drug costs on Iowans in need. I have vetoed their attempt to double the copayments on prescription drugs

in the past, and I will do so again. I also cannot support the Republicans' plan to add an unnecessary, burdensome layer of bureaucracy and cost to the delivery of medical assistance. The burdens created for some Iowa families and seniors are simply unacceptable.

House File 2625 is, therefore, signed on this date with the following exceptions, which I hereby disapprove.

I am unable to approve Division V, Section 34 in its entirety. This provision would increase the cost of prescription drugs for Iowans most in need. This, in effect, is a tax on a group — aged, blind, disabled, children, caretakers with very little or no income. Additionally, if the individuals do not have the funds, the pharmacist is required to dispense the drug anyway. This requires pharmacists to subsidize the costs and creates an additional reluctance on the part of pharmacists to handle Medicaid patients.

Section 34 would also require additional bureaucracy and associated costs by calling for monthly reporting requirements for those who experience a change in income, mailing address, household composition, or health insurance. In doing so, the Legislature would be creating an additional layer of bureaucracy, and an additional layer of cost to process the monthly reports. This new bureaucratic requirement is particularly unnecessary, considering the Department of Human Services already requires Iowans in need who receive medical assistance to report changes in such factors.

I am unable to approve Section 37. This section removes the requirement that the Legislature establish the state percent of allowable growth in funding for our local school districts within the first 30 days of a legislative session. This provision was developed to ensure the State's commitment to education was made up front and did not get bogged down in last minute budget negotiations and to provide adequate planning time for school districts. Now, more than ever, when education is our state's top priority, we must maintain that commitment to our local schools.

I am unable to approve Section 40, subsection 1. This section requires the departments of personnel to identify duplicative job responsibilities throughout state government and report these positions to the Oversight Committee. These determinations on an enterprise-wide basis are already being done.

I am unable to approve Section 40, subsection 3. This Administration has made every attempt to provide quality educational opportunities for all Iowans. This section denies the opportunity for state workers to access educational assistance. With a shrinking state workforce, it is more important than ever to make sure the remaining professionals have the training and education they need to effectively serve Iowans. I believe this option should be maintained.

I am unable to approve Section 42. This section eliminates state funding to the State Medical Library. The Legislature had intended to shift this funding from the Medical Library to the Department of Cultural Affairs for cultural grants, but the bill failed to complete the transfer. While the Republican Legislature eliminates the Medical Library funding, they also establish a task force charged with determining whether to continue the State Medical Library; and if so, where it should be located. The Medical Library provides essential educational materials and diagnostic and research searches for health professionals and students. Closing this valuable resource for many Iowans is shortsighted and unnecessary.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 2625 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*

e. Unless a county has paid or is paying for the nonfederal share of the cost of a person's home and community-based waiver services or ICFMR placement under the county's mental health, mental retardation, and developmental disabilities services fund, or unless a county of legal settlement would become liable for the costs of services at the ICFMR level of care for a person due to the person reaching the age of majority, the state shall pay the nonfederal share of the costs of an eligible person's services under the home and community-based waiver for persons with brain injury.

Sec. 263. NEW SECTION. 249A.32 IOWA MEDICAL ASSISTANCE DRUG UTILIZATION REVIEW COMMISSION — CREATED.

2. Following approval of any recommendation by the council on human services, the department shall include the approved recommendation in a notice of intended action under chapter 17A and shall comply with chapter 17A in adopting any rules to implement the recommendation. The department shall seek any federal waiver necessary to implement any approved recommendation. The strategies to be considered for recommendation by the commission shall include at a minimum all of the following:

- a. Development of a preferred drug formulary pursuant to 42 U.S.C. § 1396r-8.
- b. Negotiation of supplemental rebates from manufacturers that are in addition to those required by Title XIX of the federal Social Security Act. For the purposes of this paragraph, "supplemental rebates" may include, at the department's discretion, cash rebates and other program benefits that offset a medical assistance expenditure. Pharmaceutical manufacturers agreeing to provide a supplemental rebate as provided in this paragraph shall have an opportunity to present evidence supporting inclusion of a product on any preferred drug formulary developed.
- c. Disease management programs.
- d. Drug product donation programs.
- e. Drug utilization control programs.
- f. Prescriber and beneficiary counseling and education.
- g. Fraud and abuse initiatives.
- h. Pharmaceutical case management.
- i. Services or administrative investments with guaranteed savings to the medical assistance program.
- j. Expansion of prior authorization for prescription drugs and pharmaceutical case management under the medical assistance program.
- k. Any other strategy that has been approved by the United States department of health and human services regarding prescription drugs under the medical assistance program.

Sec. 264. EMERGENCY RULES. The department of human services may adopt administrative rules under section 17A.4, subsection 2, and section 17A.5, subsection 2, paragraph "b", to implement section 249A.32 as created in this division of this Act, and the rules shall become effective immediately upon filing or on a later effective date specified in the rules, unless the effective date is delayed by the administrative rules review committee. Any rules adopted in accordance with this section shall not take effect before the rules are reviewed by the administrative rules review committee. The delay authority provided to the administrative rules review committee under section 17A.4, subsection 5, and section 17A.8, subsection 9, shall be applicable to a delay imposed under this section, notwithstanding a provision in those sections making them inapplicable to section 17A.5, subsection 2, paragraph "b". Any rules adopted in accordance with this section shall also be published as notice of intended action as provided in section 17A.4.

Sec. 265. TRANSITION PROVISIONS. The department of human services shall continue to contract with the peer review organization, with which the department held a contract to carry out the duties of the Iowa Medicaid drug utilization review commission prior to the effective date of this division of this Act in order to carry out the duties of the commission after that date.

The Iowa Medicaid drug utilization review commission existing on the effective date of this division of this Act shall act as the Iowa medical assistance drug utilization review commission as created in this division of this Act.

Sec. 266. EFFECTIVE DATE. This division of this Act, being deemed of immediate importance, takes effect upon enactment.

Approved June 12, 2002, with exceptions noted.

THOMAS J. VILSACK, Governor

Dear Secretary Culver:

I hereby transmit House File 2627, an Act addressing public funding provisions and properly related matters by making, reducing, and transferring appropriations, adjusting other expenditures for the fiscal year beginning July 1, 2002, and including other appropriations, cooperative tax credits, and effective and retroactive applicability date provisions.

With the Revenue Estimating Conference's recent action to decrease general fund resources available to the State by \$212.5 million in fiscal year 2003, I took responsible action in calling a special session to take the necessary steps to balance the budget. I had offered a reasonable alternative plan that would have protected more of the services provided to Iowans. However, the legislative leaders in the majority party rejected my plan. This left me with two options — sign the bill as passed by the Legislature or have no budget in place for the new fiscal year that starts in just a few weeks. Clearly, it would be irresponsible to shut down state government. Therefore, I have no alternative but to sign this legislation.

Despite the extraordinary challenge of a national recession, I am pleased that we were successful in our administration's fight to preserve some key priorities of Iowa families, including improving learning by reducing class sizes and increasing teacher quality, and preserving access to health care for our children and senior citizens. I am also pleased to restore \$600,000 to the Enrich Iowa Libraries program. A reduction in funding to this important initiative would stifle the progress this administration has made in improving educational opportunities for Iowa's children.

However, this bill has several provisions which I cannot support. I oppose the Republicans' continuous assault on our senior citizens by attempting to raise prescription drug costs on Iowans in need. I have vetoed their attempt to double the copayments on prescription drugs in the past, and I will do so again. The burdens created for some Iowa families and seniors are simply unacceptable.

House File 2627 is, therefore, signed on this date with the following exceptions, which I hereby disapprove.

I am unable to approve the items designated as Section 3, subsection 7 in its entirety, Section 9, subsection 3 in its entirety, and Section 21, subsection 2 in its entirety. These sections require Commerce, Racing and Gaming and the Lottery to report Accountable Government Act activities by January 13, 2003. With the reduction of State employees, this would create an unnecessary requirement. Such reports should be completed per the implementation procedures as set forth in Iowa Code chapter 8E.

I am unable to approve the items designated as Section 5, subsection 5 in its entirety, Section 13, subsection 2 in its entirety, Section 26, subsection 2 in its entirety, and Section 28 in its entirety. These sections require the Departments of General Services, Personnel and Information Technology to identify duplicative situations within State Government and report by September 1, 2002. Such activities should be conducted on an enterprise wide basis as set forth in Section 11, subsection 3 of the bill.

I am unable to approve the item designated as Section 26, subsection 1 in its entirety. This item requires the Information Technology Department to notify the Department of Management prior to any fee increases. The Department of Management is then to notify the Legislative Fiscal Bureau. The two departments will work cooperatively to examine such fee or rate increases, without the necessity of this legislative mandate.

I am unable to approve the item designated as a portion of Section 30. This would increase the maximum possible award to an employee for a cost saving idea from \$2,500 to \$25,000. While employee suggestions are encouraged and indeed welcomed, the State's current financial situation precludes such an increase.

I am unable to approve the item designated as Section 49, subsection 3. Last year the Legislature approved and I signed into law the Accountable Government Act. This legislation established a comprehensive, enterprise-wide process for setting program goals and establishing results measurements. This Section would create redundancies in goals and results measurements for the Department of Economic Development.

I am unable to approve the items designated as Section 59, subsection 2, paragraph b, Section 60, subsection 2, paragraph b and Section 61, subsection 2, paragraph b. These sections would require any business or individual receiving benefits from specified Regent programs to have a commercially viable service or product. Many of the proposals and ideas brought to these programs have not been developed to a stage of commercialization. To apply this criteria at such an early stage of development would be contradictory to the very services these programs are designed to provide.

I am unable to approve the item designated as Section 64, subsection 3. The Department of Workforce Development has identified federal funds that can be used to collect labor market information. Monies from the penalty and interest account can and have been used to support services in the workers' compensation and labor divisions of the Department. The budget cuts sustained by these divisions could have an adverse impact to the safety of Iowa's citizens and its workforce. The director of the Department of Workforce Development currently has the authority to reassign unused penalty and interest funds. We must maintain that flexibility to reallocate dollars when needed to ensure the safety of Iowans.

I am unable to approve the item designated as Section 72. Expenditure information for the executive branch agencies of state government is currently available to the economic development appropriation subcommittee and the Legislative Fiscal Bureau on a daily basis through the Iowa Financial and Accounting System. The Legislative Fiscal Bureau also has the authority to request expenditure information from Regent universities. The reporting requirement in this section would duplicate existing data and place an unneeded requirement on limited staff resources.

I am unable to approve the item designated as Section 73. The Department of Workforce Development has begun a multi-phased project to upgrade the electronic unemployment insurance processing system. This upgrade will address the reporting and transmitting problems identified in this section of the bill. I concur that this problem must be addressed; however, the complexity and magnitude of the needed upgrade cannot be accomplished and implemented by July 1, 2002.

I am unable to approve the item designated as a portion of Section 102, subsection 2, paragraph d. This language requires new reporting every other month to legislators on net budgeting. This section would require additional staff resources at a time when funding for staff has been severely reduced.

I am unable to approve the item designated as Section 106 in its entirety. Last year the Legislature approved and I signed into law the Accountable Government Act. This legislation established a comprehensive, enterprise-wide process for setting program goals and establishing results measurements. This Section would create redundancies in goals and results measurements for these departments.

I am unable to approve the item designated as Section 108 in its entirety. This section would repeal the enabling language for the Community Grant Fund and end the program. Although no money is appropriated for the Community Grant Fund in the coming fiscal year, we should maintain the possibility of funding for this program when more resources are available.

I am unable to approve the item designated as a portion of Section 111, subsection 6. This language requires the Department of Human Services to consult with the Welfare Reform Council and legislative members prior to implementing rules related to the Family Investment Program as required by the federal government. This mandated consultation process may unduly delay the rules where federally required.

I am unable to approve the item designated as Section 115, subsection 8 in its entirety. This language continues language from prior years related to the number of beds allowed in a community setting for persons with mental retardation. With the implementation of home and community based waivers, this language is no longer needed.

I am unable to approve the item designated as Section 117, subsection 1 in its entirety. This subsection would require the Department of Human Services to seek input and recommendations from legislative members prior to entering into or extending a managed care contract for mental health and substance abuse services. The process for securing contracts provides that vendors will be evaluated on a specific set of criteria to assure fairness and eliminate potential conflicts of interest. This process includes a period of securing comments without giving the appearance of conflict of interest. Therefore, this section is not necessary.

I am unable to approve the item designated as Section 119, subsection 5 in its entirety. This language requires additional notice to legislators if additional federal child care funds are received. This section would require additional staff resources when funding for staff has been severely reduced.

I am unable to approve the item designated as Section 120, subsection 1, unnumbered paragraph 2. This item requires the Department of Human Services to submit a plan for relocating males currently at the Toledo juvenile home, a female-only institution. This language has been included in the appropriation bill for the past three years; however, the Legislature has failed to fund the proposal. My recommendation in a previous year had included funding for this change, however the Legislature chose to use that funding instead for other programs.

I am unable to approve the item designated as Section 121, subsection 9 in its entirety. This language requires the Department of Human Services and juvenile court officers to develop criteria for intensive tracking and supervision of delinquent youth. These criteria were developed two years ago in response to this language; thus, this language is no longer needed.

I am unable to approve the item designated as Section 121, subsection 18. This directs the Department of Human Services to privatize the administration of foster care and adoption programs. Given the fact that no additional funds were provided for this purpose and staffing has been severely reduced, implementation of this section is not feasible.

I am unable to approve the item designated as a portion of Section 132, subsection 2. This item requires the Department of Human Services to submit proposed legislation to correct Code references related to service areas. This appears to be the realm of the Legislative Fiscal Bureau or Code Editor rather than the Department of Human Services, especially at a time when the Department's resources have been severely reduced.

I am unable to approve the items designated as Section 135, subsections 2 and 3 in their entirety. This language provides legislative intent for items already in progress or that appear to infringe on executive branch management duties. It is preferable that the Department of Human Services be allowed to have flexibility in this area.

I am unable to approve the item designated as Section 137, subsection 1, paragraph b, subparagraph (3) in its entirety. The provision would increase the cost of prescription drugs for Iowans most in need. This is an additional financial burden on a group with very little or no income. Additionally, if the individuals do not have the funds, the pharmacist is required to dispense the drug anyway. This could create an additional reluctance on the part of pharmacists to handle Medicaid patients.

I am unable to approve the items designated as Section 138 in their entirety. This section would exempt a currently closed nursing facility in Dows from the Certificate of Need approval process and from meeting current life safety code and physical plant requirements, if the facility reopens by July 1, 2004. Allowing this section would put the state at risk for liability in the

event of any physical plant or clinical operation problems. Excluding a facility from these requirements could place vulnerable residents at health and safety risks and would set a dangerous precedent.

I am unable to approve the items designated as Section 141 and Section 151, subsection 2, paragraph c in their entirety. This language directs the department to reduce administrative requirements for the targeted case management waiver. These requirements are needed to obtain federal approval and support documentation for claims for federal funds under the waiver.

I am unable to approve the items designated as Section 142 and Section 151, subsection 2, paragraph f in their entirety. This provision would require nursing facilities to be certified for Medicaid and Medicare — even if the facility does not take Medicare patients. I have previously directed the Department of Human Services to prepare administrative rules to address dual certification for all applicable nursing facilities, thus requiring certification of a nursing facility for both Medicare and Medicaid when they are, in fact, providing services for clients of each program. This directive avoids unnecessary additional administrative cost for dual certification that would be borne by the state, over 62 nursing facilities, and Iowans who receive nursing home services.

I am unable to approve the language in Section 165, subsection 2, unnumbered paragraph 2. This section would limit the amount of reimbursement in relation to State costs from riverboat and racetrack enforcement costs. Sections 167, 168, and 169 clearly change the reimbursement rate from riverboats and racetracks enforcement costs to 100% of the related expenses.

I am unable to approve Section 199, paragraph a. This section would de-appropriate \$600,000 from the FY 2003 Rebuild Iowa Infrastructure fund appropriation for the Enrich Iowa Libraries program. Quality libraries are a key component of the educational infrastructure for Iowa's children. A reduction in funding would stifle the progress this administration has made in improving educational opportunities for Iowa's children.

I am unable to approve Section 215. The Administration has made every attempt to provide quality educational opportunities for all Iowans. This section denies state employees the opportunity to access educational assistance. I believe this option should be maintained to further enhance the knowledge and skills of our workforce.

I am unable to approve the designated portion of Section 216. While I understand the need to reduce paper within state government, I feel that there are times when making state information available to the public in paper format is appropriate. An example would be making Iowa tourism brochures available at welcome centers, tourism booths, and other appropriate venues.

I am unable to approve Section 230. This section would increase the available yearly allocation of tax credits for the Accelerated Career Education program (ACE). I recognize that ACE programs allow education and business entities to provide students with valuable educational curriculum designed to meet the needs of specific industry sectors. I support the expansion of these programs; however, it should not be accomplished through the elimination of other vital economic development tools. I look forward to working with the Legislature to identify opportunities to increase funding for ACE programs in the next legislative session.

I am unable to approve Sections 231 and 232. These sections are designed to eliminate the New Jobs Tax Credit for businesses to raise the cap for tax credits for the Accelerated Career Education programs at Community Colleges. Sections 231 and 232 would eliminate a valuable tool used by communities and developers to encourage business growth and expansion. The elimination of the New Jobs Tax Credit would adversely affect the economic development packages of many communities.

For the above reasons, I respectfully disapprove these items in accordance with Amendment IV of the Amendments of 1968 to the Constitution of the State of Iowa. All other items in House File 2627 are hereby approved as of this date.

Sincerely,
THOMAS J. VILSACK, *Governor*
