The board shall ascertain the certified expenses incurred and directly chargeable by the consumer advocate division of the department of justice in the performance of its duties. The board and the consumer advocate separately may decide not to charge expenses to persons who, without expanding the scope of the proceeding or matter, intervene in good faith in a board proceeding initiated by a person subject to the board's jurisdiction, the consumer advocate, or the board on its own motion. For assessments in any proceedings or matters before the board, the board and the consumer advocate separately may consider the financial resources of the person, the impact of assessment on participation by intervenors, the nature of the proceeding or matter, and the contribution of a person's participation to the public interest. The board may present a bill for expenses under this subsection to the person, either at the conclusion of a proceeding or matter, or from time to time during its progress. Presentation of a bill for expenses under this subsection constitutes notice of direct assessment and request for payment in accordance with this section.

b. The board shall ascertain the total of the ~~division's~~ board's expenses incurred during each fiscal year in the performance of its duties under law. The board shall deduct all amounts charged directly to any person from the total expenses of the board and the consumer advocate. The board may assess the

amount remaining after the deduction to all persons providing service over which the board has jurisdiction in proportion to the respective gross operating revenues of such persons from intrastate operations during the last calendar year over which the board has jurisdiction. For purposes of determining gross operating revenues under this section, the board shall not include gross receipts received by a cooperative corporation or association for wholesale transactions with members of the cooperative corporation or association, provided that the members are subject to assessment by the board based upon the members' gross operating revenues, or provided that such a member is an association whose members are subject to assessment by the board based upon the members' gross operating revenues. If any portion of the remainder can be identified with a specific type of utility service, the board shall assess those expenses only to the entities providing that type of service over which the board has jurisdiction. The board may make the remainder assessments under this paragraph to some or all persons providing service over which the board has jurisdiction, based upon estimates of the expenditures for the fiscal year for the utilities ~~division board~~ and the consumer advocate. Not more than ninety days following the close of the fiscal year, the utilities ~~division board~~ shall conform the amount of the prior fiscal year's assessments to the requirements of this paragraph. For gas and electric public utilities exempted from rate regulation pursuant to this chapter, and for providers of telecommunications service required to register with the board pursuant to section 476.95A that are exempted from rate regulation pursuant to this chapter, the remainder assessments under this paragraph shall be computed at one-half the rate used in computing the assessment for other persons.

2. a. A person subject to a charge or assessment shall pay the ~~division board~~ the amount charged or assessed against the person within thirty days from the time the ~~division board~~ provides notice to the person of the amount due, unless the person files an objection in writing with the board setting out the grounds upon which the person claims that such charge or assessment is excessive, unreasonable, erroneous, unlawful, or invalid. Upon receipt of an objection, the board shall set the matter for hearing and issue its order in accordance with its findings in the proceeding.

Before approval is given, the director of the department of management shall determine that the expenses exceed the funds budgeted by the general assembly to the board for rate regulation and that the board does not have other funds from which the expenses can be paid. Upon approval of the director of the department of management the board may expend and encumber funds for the excess expenses, and increase quarterly

assessments to raise the additional funds. The board and the office of consumer advocate may add additional personnel or contract for additional assistance to review and evaluate energy efficiency plans and the implementation of energy efficiency programs including, but not limited to, professionally trained engineers, accountants, attorneys, skilled examiners and inspectors, and secretaries and clerks. The board and the office of consumer advocate may also contract for additional assistance in the evaluation and implementation of issues relating to telecommunication competition. However, the authority to add additional personnel or contract for additional assistance must first be approved by the department of management. The additional sums for energy efficiency shall be provided to the board and the office of the consumer advocate by the utilities subject to the energy efficiency requirements in this chapter. Telephone companies shall pay any additional sums needed for assistance with telecommunication competition issues. The assessments shall be in addition to and separate from the quarterly assessment.

w. "*Rule*" means a regulation promulgated by an entity that has the force of law.

x. "*Scope of practice*" means the procedures, actions, and processes a dentist or dental hygienist licensed in a state is permitted to undertake in that state and the circumstances under which the licensee is permitted to undertake those procedures, actions, and processes. Such procedures, actions, and processes and the circumstances under which they may be established through means, including but not limited to statutes, regulations, case law, and other processes available to the state licensing authority or other government agency.

y. "*Significant investigative information*" means information, records, and documents received or generated by a state licensing authority pursuant to an investigation for which a determination has been made that there is probable cause to believe that the licensee has violated a statute or regulation that is considered more than a minor infraction for which the state licensing authority could pursue an adverse action against the licensee.

z. "*State*" means a state, commonwealth, district, or territory of the United States that regulates the practices of dentistry and dental hygiene.

aa. "*State licensing authority*" means an agency or other entity of a state that is responsible for the licensing and regulation of dentists or dental hygienists.

3. *State participation in the compact.*

a. In order to join the compact and thereafter continue as a participating state, a state must do all of the following:

(1) Enact a compact that is not materially different from the model compact, as determined in accordance with commission rules.

(2) Participate fully in the commission's data system.

(3) Have a mechanism in place for receiving and investigating complaints about its licensees and license applicants.

(4) Notify the commission, in compliance with the terms of the compact and commission rules, of any adverse action or the availability of significant investigative information regarding a licensee or license applicant.

(5) Fully implement a criminal background check requirement, within a time frame established by commission rule, by receiving the results of a qualifying criminal background check.

(6) Comply with commission rules applicable to a participating state.

(7) Accept the national board examinations of the joint commission on national dental examinations or another examination accepted by commission rule as a licensure examination.

(8) Accept for licensure that applicants for a dentist license graduate from a predoctoral dental education program accredited by the commission on dental accreditation or another accrediting agency recognized by the United States department of education for the accreditation of dentistry and dental hygiene education programs, leading to the doctor of dental surgery or doctor of dental medicine degree.

(9) Accept for licensure that applicants for a dental hygienist license graduate from a dental hygiene program accredited by the commission on dental accreditation or another accrediting agency recognized by the United States department of education for the accreditation of dentistry and dental hygiene education programs.

(10) Require for licensure that applicants successfully complete a clinical assessment.

(11) Have continuing professional development requirements as a condition for license renewal.

(12) Pay a participation fee to the commission as established by commission rule.

b. Providing alternative pathways for an individual to obtain an unrestricted license does not disqualify a state from participating in the compact.

c. When conducting a criminal background check the state licensing authority shall do all of the following:

(1) Consider that information in making a licensure decision.

(2) Maintain documentation of the criminal background check and background check information to the extent allowed by state and federal law.

(3) Report to the commission whether a state has completed the criminal background check and whether the individual was granted or denied a license.

d. A licensee of a participating state who has a qualifying license in that state and does not hold an encumbered license in any other participating state shall be issued a compact privilege in a remote state in accordance with the terms of the compact and commission rules. If a remote state has a jurisprudence requirement, a compact privilege will not be issued to the licensee unless the licensee has satisfied the jurisprudence requirement.

4. *Compact privilege.*

a. To obtain and exercise the compact privilege under the terms and provisions of the compact, a licensee shall do all of the following:

(1) Have a qualifying license as a dentist or dental hygienist in a participating state.

(2) Be eligible for a compact privilege in any remote state in accordance with paragraphs "d", "g", and "h".

(3) Submit to an application process whenever the licensee is seeking a compact privilege.

(4) Pay any applicable commission and remote state fees for a compact privilege in the remote state.

(5) Meet any jurisprudence requirement established by a remote state in which the licensee is seeking a compact privilege.

(6) Have passed a national board examination of the joint commission on national dental examinations or another examination accepted by commission rule.

(7) For a dentist, have graduated from a predoctoral dental education program accredited by the commission on dental accreditation, or another accrediting agency recognized by the United States department of education for the accreditation of dentistry and dental hygiene education programs, leading to the doctor of dental surgery or doctor of dental medicine degree.

(8) For a dental hygienist, have graduated from a dental hygiene education program accredited by the commission on dental accreditation or another accrediting agency

recognized by the United States department of education for the accreditation of dentistry and dental hygiene education programs.

(9) Have successfully completed a clinical assessment for licensure.

(10) Report to the commission any adverse action taken by any nonparticipating state when applying for a compact privilege and otherwise within thirty days from the date the adverse action is taken.

(11) Report to the commission when applying for a compact privilege the address of the licensee's primary residence and thereafter immediately report to the commission any change in the address of the licensee's primary residence.

(12) Consent to accept service of process by mail at the licensee's primary residence on record with the commission with respect to any action brought against the licensee by the commission or a participating state, and consent to accept service of a subpoena by mail at the licensee's primary residence on record with the commission with respect to any action brought or investigation conducted by the commission or a participating state.

b. The licensee must comply with the requirements in paragraph "a" to maintain the compact privilege in the remote state. If those requirements are met, the compact privilege will continue as long as the licensee maintains a qualifying license in the state through which the licensee applied for the compact privilege and pays any applicable compact privilege renewal fees.

c. A licensee providing dentistry or dental hygiene in a remote state under the compact privilege shall function within the scope of practice authorized by the remote state for a dentist or dental hygienist licensed in that state.

d. A licensee providing dentistry or dental hygiene pursuant to a compact privilege in a remote state is subject to that state's regulatory authority. A remote state may, in accordance with due process and that state's laws, by adverse action revoke or remove a licensee's compact privilege in the remote state for a specific period of time, impose fines, or take any other necessary actions to protect the health and safety of its citizens. If a remote state imposes an adverse action against a compact privilege that limits the compact privilege, that adverse action applies to all compact privileges in all remote states. A licensee whose compact privilege in a remote state is removed for a specified period of time is not eligible for a compact privilege in any other remote state until the specific time for removal of the compact privilege has passed and all encumbrance requirements are satisfied.

e. If a license in a participating state is an encumbered license, the licensee shall lose the compact privilege in a remote state and shall not be eligible for a compact privilege in any remote state until the license is no longer encumbered.

f. Once an encumbered license in a participating state is restored to good standing, the licensee must meet the requirements of paragraph "a" to obtain a compact privilege in a remote state.

g. If a licensee's compact privilege in a remote state is removed by the remote state, the individual shall lose or be ineligible for the compact privilege in any remote state until both of the following occur:

(1) The specified period of time for which the compact privilege was removed has ended.

(2) All conditions for removal of the compact privilege have been satisfied.

h. Once the requirements of paragraph "g" have been met, the licensee must meet the requirements of paragraph "a" to obtain a compact privilege in a remote state.

5. *Active military member or spouses.* An active military member and the spouse of an active military member shall not be required to pay to the commission for a compact privilege the fee otherwise charged by the commission. If a remote state chooses to charge a fee for a compact privilege, it may choose to charge a reduced fee or no fee to an active military member and the spouse of an active military member for a compact privilege.

6. *Adverse actions.*

a. A participating state in which a licensee is licensed shall have exclusive authority to impose adverse action against the qualifying license issued by that participating state.

b. A participating state may take adverse action based on significant investigative information of a remote state, so long as the participating state follows its own procedures for imposing adverse action.

c. Nothing in this compact shall override a participating state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the participating state's laws. Participating states must require licensees who enter any alternative program in lieu of discipline to agree not to practice pursuant to a compact privilege in any other participating state during the term of the alternative program without prior authorization from such other participating state.

d. Any participating state in which a licensee is applying to practice or is practicing pursuant to a compact privilege may investigate actual or alleged violations of the statutes and regulations authorizing the practice of dentistry or dental hygiene in any other participating state in which the dentist or dental hygienist holds a license or compact privilege.

e. A remote state shall have the authority to do all of the following:

(1) Take adverse actions as set forth in subsection 4, paragraph "d", against a licensee's compact privilege in the state.

(2) In furtherance of its rights and responsibilities under the compact and commission's rules, issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses and the production of evidence. Subpoenas issued by a state licensing authority in a participating state for the attendance and testimony of witnesses, or the production of evidence from another participating state, shall be enforced in the latter state by any court of competent jurisdiction according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence are located.

(3) If otherwise permitted by state law, recover from the licensee the costs of investigation and disposition of cases resulting from any adverse action taken against that licensee.

f. *Joint investigations.*

(1) In addition to the authority granted to a participating state by its dentist or dental hygienist licensure act or other applicable state law, a participating state may jointly investigate licensees with other participating states.

(2) Participating states shall share any significant investigative information, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

g. *Authority to continue investigation.*

(1) After a licensee's compact privilege in a remote state is terminated, the remote state may continue an investigation of the licensee that began when the licensee had a compact privilege in that remote state.

(2) If the investigation yields what would be significant investigative information had the licensee continued to have a compact privilege in that remote state, the remote state shall report the presence of such information to the data system as required by subsection 8, paragraph "b", subparagraph (6), as if it was significant investigative information.

7. *Establishment and operation of the commission.*

a. The compact participating states hereby create and establish a joint government agency whose membership consists of all participating states that have enacted the compact. The commission is an instrumentality of the participating states acting jointly and not an instrumentality of any one state. The commission shall come into existence on or after the effective date of the compact as set forth in subsection 11, paragraph "a".

b. *Participation, voting, and meetings.*

(1) Each participating state shall have and be limited to one commissioner selected by the participating state's state licensing authority or, if the state has more than one state licensing authority, selected collectively by the state licensing authorities.

(2) The commissioner shall be a member or designee of such authority or authorities.

(3) The commission may by rule or bylaw establish a term of office for commissioners and may by rule or bylaw establish term limits.

(4) The commission may recommend to a state licensing authority or authorities, as applicable, removal or suspension of an individual as the state's commissioner.

(5) A participating state's state licensing authority or authorities, as applicable, shall fill any vacancy of its commissioner on the commission within sixty days of the vacancy.

(6) Each commissioner shall be entitled to one vote on all matters that are voted upon by the commission.

(7) The commission shall meet at least once during each calendar year. Additional meetings may be held as set forth in the bylaws. The commission may meet by telecommunication, video conference, or other similar electronic means.

c. The commission shall have the following powers:

(1) Establish the fiscal year of the commission.

(2) Establish a code of conduct and conflict of interest policies.

(3) Adopt rules and bylaws.

(4) Maintain its financial records in accordance with the bylaws.

(5) Meet and take such actions as are consistent with the provisions of this compact, the commission's rules, and the bylaws.

(6) Initiate and conclude legal proceedings or actions in the name of the commission, provided that the standing of a state licensing authority to sue or be sued under applicable law shall not be affected.

(7) Maintain and certify records and information provided to a participating state as the authenticated business records of the commission, and designate a person to do so on the commission's behalf.

(8) Purchase and maintain insurance and bonds.

(9) Borrow, accept, or contract for services of personnel, including but not limited to employees of a participating state.

(10) Conduct an annual financial review.

(11) Hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of the compact, and establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters.

(12) As set forth in the commission rules, charge a fee to a licensee for the grant of a compact privilege in a remote state and thereafter, as may be established by commission rule, charge the licensee a compact privilege renewal fee for each renewal period in which that licensee exercises or intends to exercise the compact privilege in that remote state. Nothing herein shall be construed to prevent a remote state from charging a licensee a fee for a compact privilege or renewals of a compact privilege, or a fee for the jurisprudence requirement if the remote state imposes such a requirement for the grant of a compact privilege.

(13) Accept any and all appropriate gifts, donations, grants of money, other sources of revenue, equipment, supplies, materials, and services, and receive, utilize, and dispose of the same, provided that at all times the commission shall avoid any appearance of impropriety or conflict of interest.

(14) Lease, purchase, retain, own, hold, improve, or use any property, real, personal, or mixed, or any undivided interest therein.

(15) Sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed.

(16) Establish a budget or make expenditures.

(17) Borrow money.

(18) Appoint committees, including standing committees, which may be composed of members, state regulators, state legislators or their representatives, and consumer representatives, and such other interested persons as may be designated in this compact and the bylaws.

(19) Provide and receive information from, and cooperate with, law enforcement agencies.

(20) Elect a chair, vice chair, secretary, and treasurer, and such other officers of the commission as provided in the commission's bylaws.

(21) Establish and elect an executive board.

(22) Adopt and provide to the participating states an annual report.

(23) Determine whether a state's enacted compact is materially different from the model compact language such that the state would not qualify for participation in the compact.

(24) Perform such other functions as may be necessary or appropriate to achieve the purposes of this compact.

d. Meetings of the commission.

(1) All meetings of the commission that are not closed pursuant to this paragraph shall be open to the public. Notice of public meetings shall be posted on the commission's internet site at least thirty days prior to the public meeting.

(2) Notwithstanding subparagraph (1), the commission may convene an emergency public meeting by providing at least twenty-four hours prior notice on the commission's internet site, and any other means as provided in the commission's rules, for any of the reasons it may dispense with notice of proposed rulemaking under subsection 9, paragraph "l". The commission's legal counsel shall certify that one of the reasons justifying an emergency public meeting has been met.

(3) Notice of all commission meetings shall provide the time, date, and location of the meeting, and if the meeting is to be held or accessible via telecommunication, video conference, or other electronic means, the notice shall include the mechanism for access to the meeting through such means.

(4) The commission may convene in a closed, nonpublic meeting for the commission to receive legal advice or to discuss any of the following:

(a) Noncompliance of a participating state with its obligations under the compact.

(b) The employment, compensation, discipline, or other matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures.

(c) Current or threatened discipline of a licensee or compact privilege holder by the commission or by a participating state's licensing authority.

(d) Current, threatened, or reasonably anticipated litigation.

(e) Negotiation of contracts for the purchase, lease, or sale of goods, services, or real estate.

(f) Accusing any person of a crime or formally censuring any person.

(g) Trade secrets or commercial or financial information that is privileged or confidential.

(h) Information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy.

(i) Investigative records compiled for law enforcement purposes.

(j) Information related to any investigative reports prepared by or on behalf of or for use of the commission or other committee charged with responsibility of investigation or determination of compliance issues pursuant to the compact.

(k) Legal advice.

(l) Matters specifically exempted from disclosure to the public by federal or participating state law.

(m) Other matters as promulgated by the commission by rule.

(5) If a meeting, or portion of a meeting, is closed, the presiding officer shall state that the meeting will be closed and reference each relevant exempting provision, and such reference shall be recorded in the minutes.

(6) The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release only by a majority vote of the commission or order of a court of competent jurisdiction.

e. Financing of the commission.

(1) The commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The commission may accept any and all appropriate sources of revenue, donations, and grants of money, equipment, supplies, materials, and services.

(3) The commission may levy on and collect an annual assessment from each participating state and impose fees on licensees of participating states when a compact privilege is granted to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each fiscal year for which sufficient revenue is not provided by other sources. The aggregate annual assessment amount for participating states shall be allocated based upon a formula that the commission shall promulgate by rule.

(4) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same, nor shall the commission pledge the credit of any participating state, except by and with the authority of the participating state.

(5) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the financial review and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be subject to an annual financial review by a certified or licensed public accountant, and the report of the financial review shall be included in and become part of the annual report of the commission.

f. The executive board.

(1) The executive board shall have the power to act on behalf of the commission according to the terms of this compact. The powers, duties, and responsibilities of the executive board shall include all of the following:

(a) Overseeing the day-to-day activities of the administration of the compact including compliance with the provisions of the compact, the commission's rules, and bylaws.

(b) Recommending to the commission changes to the rules or bylaws, changes to this compact legislation, fees charged to the compact participating states, fees charged to licensees, and other fees.

(c) Ensuring compact administration services are appropriately provided, including by contract.

(d) Preparing and recommending the budget.

(e) Maintaining financial records on behalf of the commission.

(f) Monitoring compact compliance of participating states and providing compliance reports to the commission.

(g) Establishing additional committees as necessary.

(h) Exercising the powers and duties of the commission during the interim between commission meetings, except for adopting or amending rules, adopting or amending bylaws, and exercising any other powers and duties expressly reserved to the commission by rule or bylaw.

(i) Other duties as provided in the rules or bylaws of the commission.

(2) The executive board shall be composed of up to seven members:

(a) The chair, vice chair, secretary, and treasurer of the commission, and any other members of the commission who serve on the executive board shall be voting members of the executive board.

(b) Other than the chair, vice chair, secretary, and treasurer of the commission, the commission may elect up to three voting members from the current membership of the commission.

(3) The commission may remove any member of the executive board as provided in the commission's bylaws.

(4) The executive board shall meet at least annually.

(a) An executive board meeting at which it takes or intends to take formal action on a matter shall be open to the public, except that the executive board may meet in a closed, nonpublic session of a public meeting when dealing with any of the matters covered under paragraph "d", subparagraph (4).

(b) The executive board shall give five business days' notice of its public meetings, posted on its internet site and as it may otherwise determine to provide notice to persons with an interest in the public matters the executive board intends to address at those meetings.

(5) The executive board may hold an emergency meeting when acting for the commission to do any of the following:

(a) Meet an imminent threat to public health, safety, or welfare.

(b) Prevent a loss of commission or participating state funds.

(c) Protect public health and safety.

g. Qualified immunity, defense, and indemnification.

(1) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, both personally and in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred,

or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person. The procurement of insurance of any type by the commission shall not in any way compromise or limit the immunity granted hereunder.

(2) The commission shall defend any member, officer, executive director, employee, and representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or as determined by the commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph shall be construed to prohibit that person from retaining counsel at that person's own expense; and provided further that the actual or alleged act, error, or omission did not result from that person's intentional, willful, or wanton misconduct.

(3) Notwithstanding subparagraph (1), should any member, officer, executive director, employee, or representative of the commission be held liable for the amount of any settlement or judgment arising out of any actual or alleged act, error, or omission that occurred within the scope of that individual's employment, duties, or responsibilities for the commission, or that the person to whom the individual is liable had a reasonable basis for believing occurred within the scope of the individual's employment, duties, or responsibilities for the commission, the commission shall indemnify and hold harmless such individual, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of the individual.

(4) Nothing in this compact shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

(5) Nothing in this compact shall be interpreted to waive or otherwise abrogate a participating state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other state or federal antitrust or anticompetitive law or regulation.

(6) Nothing in this compact shall be construed to be a waiver of sovereign immunity by the participating states or by the commission.

8. *Data system.*

a. The commission shall provide for the development, maintenance, operation, and utilization of a coordinated database and reporting system containing licensure, adverse action, and the presence of significant investigative information on all licensees and applicants for a license in participating states.

b. Notwithstanding any other provision of state law to the contrary, a participating state shall submit a uniform data set to the data system on all individuals to whom this compact is applicable as required by the rules of the commission, including all of the following:

- (1) Identifying information.
- (2) Licensure data.
- (3) Adverse actions against a licensee, license applicant, or compact privilege, and information related thereto.

(4) Nonconfidential information related to alternative program participation, the beginning and ending dates of such participation, and other information related to such participation.

(5) Any denial of an application for licensure and the reason for such denial, excluding the reporting of any criminal history record information where prohibited by law.

(6) The presence of significant investigative information.

(7) Other information that may facilitate the administration of this compact or the protection of the public, as determined by the rules of the commission.

c. The records and information provided to a participating state pursuant to this compact or through the data system, when certified by the commission or an agent thereof, shall constitute the authenticated business records of the commission, and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial, or administrative proceedings in a participating state.

d. Significant investigative information pertaining to a licensee in any participating state will only be available to other participating states.

e. It is the responsibility of the participating states to monitor the database to determine whether adverse action has been taken against a licensee or license applicant. Adverse action information pertaining to a licensee or license applicant in any participating state will be available to any other participating state.

f. Participating states contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing state.

g. Any information submitted to the data system that is subsequently expunged pursuant to federal law or the laws of the participating state contributing the information shall be removed from the data system.

9. *Rulemaking.*

a. The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A commission rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact or the powers granted hereunder, or based upon another applicable standard of review.

b. The rules of the commission shall have the force of law in each participating state, provided however that where the rules of the commission conflict with the laws of the participating state that establish the participating state's scope of practice as held by a court of competent jurisdiction, the rules of the commission shall be ineffective in that state to the extent of the conflict.

c. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules shall become binding as of the date specified by the commission for each rule.

d. If a majority of the legislatures of the participating states rejects a commission rule or portion of a commission rule, by enactment of a statute or resolution in the same manner used to adopt the compact, within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any participating state or to any state applying to participate in the compact.

e. Rules shall be adopted at a regular or special meeting of the commission.

f. Prior to adoption of a proposed rule, the commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

g. Prior to adoption of a proposed rule by the commission, and at least thirty days in advance of the meeting at which the commission will hold a public hearing on the proposed rule, the commission shall provide a notice of proposed rulemaking as follows:

(1) On the internet site of the commission or other publicly accessible platform.

(2) To persons who have requested notice of the commission's notices of proposed rulemaking.

(3) In such other ways as the commission may by rule specify.

h. The notice of proposed rulemaking shall include all of the following:

(1) The time, date, and location of the public hearing at which the commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the commission will consider and vote on the proposed rule.

(2) If the hearing is held via telecommunication, video conference, or other electronic means, the commission shall include the mechanism for access to the hearing in the notice of proposed rulemaking.

(3) The text of the proposed rule and the reason for the proposed rule.

(4) A request for comments on the proposed rule from any interested person.

(5) The manner in which interested persons may submit written comments.

i. All hearings will be recorded. A copy of the recording and all written comments and documents received by the commission in response to the proposed rule shall be available to the public.

j. Nothing in this subsection shall be construed as requiring a separate hearing on each commission rule. Rules may be grouped for convenience of the commission at hearings required by this section.

k. The commission shall, by a majority vote of all commissioners, take final action on the proposed rule based on the rulemaking record.

(1) The commission may adopt changes to the proposed rule provided the changes do not enlarge the original purposes of the proposed rule.

(2) The commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(3) The commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in paragraph "l", the effective date of the rule shall be no sooner than thirty days after the commission issuing the notice that it adopted or amended the rule.

l. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with twenty-four hours' notice, with opportunity to comment, and provided that the usual rulemaking procedures provided in the compact and in this subsection shall be retroactively applied to the rule as soon as reasonably possible, but in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or participating state funds.

(3) Meet a deadline for the promulgation of a rule that is established by federal law or rule.

(4) Protect public health and safety.

m. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

n. No participating state's rulemaking requirements shall apply under this compact.

10. *Oversight, dispute resolution, and enforcement.*

a. *Oversight.*

(1) The executive and judicial branches of state government in each participating state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(2) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(3) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact or commission rule and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. *Default, technical assistance, and termination.*

(1) If the commission determines that a participating state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the commission may take, and shall offer training and specific technical assistance regarding the default.

(2) The commission shall provide a copy of the notice of default to the other participating states.

c. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

d. Termination of participation in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's state licensing authority or authorities, as applicable, and each of the participating states' state licensing authority or authorities, as applicable.

e. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

f. If physical custody of the newborn infant is not relinquished directly to an individual on duty at the institutional health facility or to an adoption service provider, the parent may take other

actions to be reasonably sure that an individual on duty or the adoption service provider is aware that the newborn infant has been left at the institutional health facility or the location of the adoption service provider. Any dwelling or a part of a multidwelling or multipurpose building which is exempt from taxation, except for an exemption under section 425.1A, does not qualify as a homestead under this subchapter. "*Property taxes due*" shall be computed with no deduction for any credit under this subchapter or for any homestead credit allowed under ~~section 425.1~~ subchapter I. Each claim shall be based upon the taxes due during the fiscal year next following the base year. If a homestead is owned by two or more persons as joint tenants or tenants in common, and one or more persons are not members of claimant's household, "*property taxes due*" is that part of property taxes due on the homestead which equals the ownership percentage of the claimant and the claimant's household. The county treasurer shall include with the tax receipt a statement that if the owner of the property is eighteen years of age or over, the person may be eligible for the credit allowed under this subchapter. If a homestead is an integral part of a farm, the claimant may use the total property taxes due for the larger unit. 2. A money transmission licensee shall at all times meet the requirements of sections 533C.801, 533C.802, and 533C.803.

Sec. 17. Section 533C.401, Code 2023, is amended by striking the section and inserting in lieu thereof the following:

533C.401 Acquisition of control.

1. Any person, or group of persons acting in concert, seeking to acquire control of a licensee shall obtain the written approval of the superintendent prior to acquiring control. An individual is not deemed to acquire control of a licensee and is not subject to acquisition of control provisions when that individual becomes a key individual in the ordinary course of business.

2. A person is presumed to exercise a controlling influence when the person holds the power to vote, directly or indirectly, at least ten percent of the outstanding voting shares or voting interests of a licensee or person in control of a licensee. A person presumed to exercise a controlling influence can rebut the presumption of control if the person is a passive investor.

3. For purposes of determining the percentage of a person controlled by any other person, the person's interest shall be aggregated with the interest of any other immediate family member, including the person's spouse, parents, children, siblings, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, sister-in-law, and any other person who shares such person's home.

4. A person, or group of persons acting in concert, seeking to acquire control of a licensee shall, in cooperation with the licensee, submit an application in a form and in a medium prescribed by the superintendent and a nonrefundable fee of one thousand dollars with the request for approval.

5. Upon request, the superintendent may permit a licensee or the person, or group of persons acting in concert, to submit some or all information required by the superintendent pursuant to subsection 4 without using NMLS.

6. The application required by subsection 4 shall include information required by section 533C.304 for a licensee, including for any new key individuals that have not previously completed the requirements.

7. When an application for acquisition of control under this section appears to include all the items and address all of the matters that are required, the application shall be considered complete and the superintendent shall promptly notify the applicant in a record of the date on which the application was determined to be complete. The application is approved and the person, or group of persons acting in concert, are permitted to acquire control sixty-one days after application completion, unless denied or approved earlier by the superintendent. The superintendent may for good cause extend the application period.

8. A determination by the superintendent that an application is complete and is accepted for processing means only that the application, on its face, appears to include all of the items and address all of the matters that are required, and is not an assessment of the substance of the application or of the sufficiency of the information provided.

9. When an application is filed and considered complete under subsection 7, the superintendent shall investigate the financial condition and responsibility, financial and business experience, character, and general fitness of the person, or group of persons acting in concert, seeking to acquire control. The superintendent shall approve an acquisition of control pursuant to this section if the superintendent finds that all of the following conditions have been fulfilled:

a. The requirements of subsections 4 and 6 have been met, as applicable.

b. The financial condition and responsibility, financial and business experience, competence, character, and general fitness of the person, or group of persons acting in

concert, seeking to acquire control, and of the key individuals and persons that would be in control of the licensee indicate that it is in the interest of the public to permit the applicant to control the licensee.

10. If an applicant avails itself or is otherwise subject to a multistate licensing process, the superintendent is authorized and encouraged to accept the investigation results of a lead investigative state for the purpose of subsection 9 if the lead investigative state has sufficient staffing, expertise, and minimum standards. If this state is a lead investigative state, the superintendent is authorized and encouraged to investigate the applicant pursuant to subsection 9 and the time frames established by agreement through the multistate licensing process.

11. The superintendent shall issue a formal written notice of the denial of an application to acquire control within thirty days of the decision to deny the application. The superintendent shall set forth in the notice of denial the specific reasons for the denial of the application. An applicant whose application is denied by the superintendent under this section may appeal within thirty days after receipt of the written notice of the denial.

12. The requirements of subsections 1 and 4 shall not apply to any of the following:

a. A person that acts as a proxy for the sole purpose of voting at a designated meeting of the shareholders or holders of voting shares or voting interests of a licensee or a person in control of a licensee.

b. A person that acquires control of a licensee by devise or descent.

c. A person that acquires control of a licensee as a personal representative, custodian, guardian, conservator, or trustee, or as an officer appointed by a court of competent jurisdiction or by operation of law.

d. A person that is exempt under section 533C.103, subsection 4.

e. A person that the superintendent determines is not subject to subsection 1 based on the public interest.

f. A public offering of securities of a licensee or a person in control of a licensee.

g. An internal reorganization of a person in control of the licensee where the ultimate person in control of the licensee remains the same.

13. Persons specified in subsection 12, paragraphs "b", "c", "d", "f", and "g", in cooperation with the licensee, shall notify the superintendent within fifteen days after the acquisition of control.

14. The requirements of subsections 1 and 4 shall not apply to a person that has complied with and received approval to engage in money transmission under this chapter or was identified as a person in control in a prior application filed with and approved by the superintendent or by an MSB accredited state pursuant to a multistate licensing process, provided all of the following apply:

a. The person has not had a license revoked or suspended.

b. The person has not controlled a licensee that has had a license revoked or suspended while the person was in control of the licensee in the previous five years.

c. If the person is a licensee, the person is well-managed and has received at least a satisfactory rating for compliance at its most recent examination by an MSB-accredited state if such rating was given.

d. The licensee to be acquired is projected to meet the requirements of sections 533C.801, 533C.802, and 533C.803 after the acquisition of control is completed.

e. If the person acquiring control is a licensee, that licensee is projected to meet the requirements of sections 533C.801, 533C.802, and 533C.803 after the acquisition of control is completed.

f. The licensee to be acquired will not implement any material changes to its business plan as a result of the acquisition of control.

g. If the person acquiring control is a licensee, that licensee will not implement any material changes to its business plan as a result of the acquisition of control.

h. The person provides notice of the acquisition in cooperation with the licensee and attests to the provisions in this subsection in a form and in a medium prescribed by the superintendent. If the notice is not disapproved within thirty days after the date on which the notice was determined to be complete, the notice is deemed approved.

15. Before filing an application for approval to acquire control of a licensee, a person may request in writing a determination from the superintendent as to whether the person would be considered a person in control of a licensee upon consummation of a proposed transaction. If the superintendent determines that the person would not be a person in control of a licensee, the proposed person and transaction are not subject to the requirements of subsections 1 and 4.

16. If a multistate licensing process includes a determination pursuant to subsection 15 and an applicant avails itself or is otherwise subject to the multistate licensing process, the superintendent is authorized and encouraged to accept the control determination of a lead investigative state with sufficient staffing, expertise, and minimum standards for the purpose of subsection 15. If this state is a lead investigative state, the superintendent is authorized and encouraged to investigate the applicant pursuant to subsection 15 and the time frames established by agreement through the multistate licensing process.

2. A key individual is considered approved ninety-one days after notice is provided pursuant to this section, unless denied or approved earlier by the superintendent. The superintendent may issue a notice of disapproval of a key individual if the competence, experience, character, or integrity of the individual would not be in the best interests of the public or the customers of the licensee to permit the individual to be a key individual of such licensee. A notice of disapproval shall contain a statement of the basis for disapproval and shall be sent to the licensee and the disapproved individual. A licensee may appeal a notice of disapproval within thirty days after receipt of the written notice of such disapproval.

3. If a multistate licensing process includes a key individual notice review and disapproval process pursuant to this section and the licensee avails itself or is otherwise subject to the multistate licensing process, the superintendent is authorized and encouraged to accept the determination of another state if the investigating state has sufficient staffing, expertise, and minimum standards for the purpose of this section.
