No

5a(2). Number of beneficiaries renewed using a pre-populated renewal form

7942

Unable to report

No

Metric 5a Notes

Metric 5a1 is not an accurate depiction of our ex parte renewals. Because of our individual vs HH level ex parte fix that was put into place effective for December 2023 renewals, the timing of the notice of an ex parte approval has changed and now falls directly after the due date of this report. Therefore, Iowa's ex parte count will not be accurate until the pending renewals report is submitted for the months of December 2023 through March 2024.

5b. Of the beneficiaries included in Metric 5, the number determined ineligible for Medicaid or CHIP (and transferred to Marketplace)

2106

Unable to report

No

Metric 5b Notes

{Empty}

5c. Of the beneficiaries included in Metric 5, the number terminated for procedural reasons (i.e. failure to respond) **521**

Unable to report **No**

Metric 5c Notes

Metric 5c is not an accurate depiction of our procedural terminations. Because of mitigation strategies that were put into place for the unwinding, the timing of the majority of our procedural terminations falls directly after the due date of this report. Therefore, Iowa's procedural termination count will not be accurate until the pending renewals report is submitted for the months all months of the unwinding.

5d. Of the beneficiaries included in Metric 5, the number whose renewal was not completed **52441**

Unable to report **No**

Metric 5d Notes

This number is not an accurate depiction of our pending renewals for this reporting month. See notes for Metric 5a1 and 5c. Due to those two issues, an accurate count of our pending renewals will not be available until the pending renewal report is submitted.

6. Month in which renewals due in the reporting month were initiated **2023-11**

MEDICAID FAIR HEARINGS

8. Total number of Medicaid fair hearings pending more than 90 days at the end of the reporting period

Metric 8 Notes

These appeals are currently active. Once the appeal process is complete, the appeal may no longer exceed the 90 day timeframe because 42 CFR 431.244(f)(4) allows appellant delays to be subtracted from the total count of days. This calculation is done when the appeal closes.
