FOREWORD

●

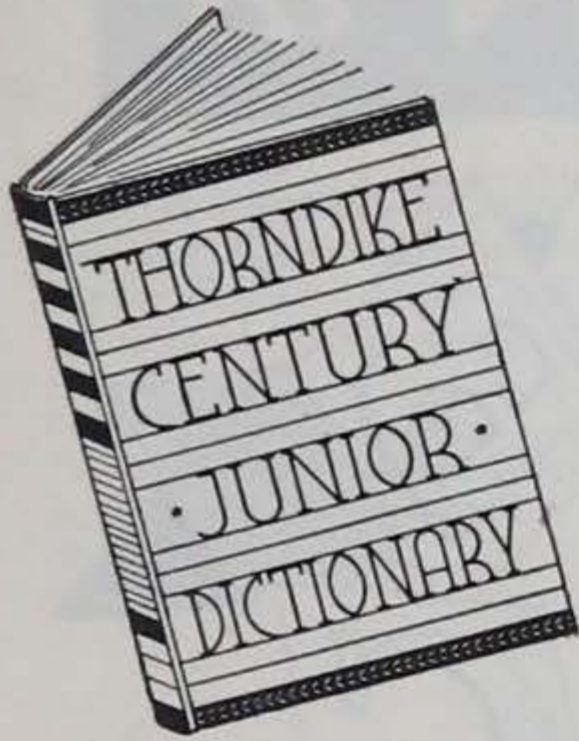

THE third annual edition of the "Iowa Teachers and Administrators Directory" has been published because of the continued belief of the advertisers of the value of this publication as an advertising medium that produces results. Their financial cooperation makes possible this publication.

The Advertisers whose names appear in this directory and who are listed in the index on the succeeding page are entitled to every courtesy from the school people of the state. They are reliable firms who will serve you conscientiously, to the very best of their ability. We trust that they continue to be materially benefited by the Directory.

We hope also, that this volume will be of value to the school people as well. Salaries have been published because it was felt by a large majority of the school people, that it was time that a true picture of the situation became available for study and comparison. It is a tragedy that any state should present to the general public a salary situation as terribly low as the average for this state. It is tragic that our best educated class, whom we depend on for the training and development of the highest type of citizenship of our youth, should be compelled to live on a scale that permits only of existence, and that satisfies merely the bare wants, and hardly these. A salary scale that practically forces upon this already self-sacrificing group, debt and hardship.

With increasing cost of living it seems high time that salaries should once again be comparable to needs at least. The present Iowa minimum wage law is indecent. It provides less than half of the actual necessary expense of living for a twelve-month period. We hope that the necessary initiative may be developed to correct the salary situation so that we may "point with pride" rather than with shame.

As PLAIN as

There is no mystery why hundreds of desirable Iowa school properties are insured in the Mill Owners Mutual.

A Your property is insured along with other high grade properties ONLY. Poor risks are not accepted as they would produce high losses and a resulting high insurance cost for you.

B Losses are reduced, further, by the work of the company's fire prevention engineers who help you and other policyholders eliminate all preventable fire hazards.

C Stable, conservative management furthers and protects your interests as a policyholder through economical operation of the company, a careful investment program and ample reserves.

This plan of operation has provided Mill Owners Mutual policy holders with perfect safety, at a saving of 20% or more of their premiums, each year for 59 years. Minimum expenses and minimum losses produce maximum savings; present rate of dividends, 25%.

Fire, Windstorm, Rent, Explosion, Automobile and other allied lines are written.

MILL OWNERS MUTUAL FIRE INSURANCE COMPANY OF IOWA

J. T. SHARP, *President* DES MOINES, IOWA

Our local agent in your community is well qualified to serve you. Let him explain the Mill Owners plan completely to you.

The Iowa Code under Section 8907 reads as follows: "Any public or private corporation, board or association in this State, or elsewhere, may make applications, enter into agreements for and hold policies in any such mutual insurance company. Any officer, stockholder, trustee, or local representative of any such corporation, board, association, or estate may be recognized as acting for, or on its behalf for the purpose of such membership, but shall not be personally liable upon such contract of insurance by reason of acting in such representative capacity."
