## SALARY TABULATION

The schools listed in the directory are divided into thirteen groups according to the population or the type of the school organization, as indicated in Table I. Within each group the teaching staff is divided into eleven positions, as follows:

- Superintendents
- High school principals
- Junior high school principals
- Elementary principals
- Supervisors of special subjects
- High school classroom teachers, men
- High school classroom teachers, women
- Junior high school classroom teachers, men
- Junior high school classroom teachers, women
- Elementary classroom teachers, kindergarten to eighth grade inclusive
- Classroom teachers of special subjects

In the following tables, the data given for each population group include the number of individuals occupying each type of position, the median salary in each position, also the first quartile and third quartile for the distribution of salaries for that position.

### Interpretation of Terms Used

1. Median—if all the salaries for a position were ranked from lowest to highest, the middle figure would be the median. One-half of the salaries are above the median and one-half are below.
2. First quartile—one-fourth of those occupying the position receive a salary below this figure.
3. Third quartile—one-fourth of those

occupying the position receive a salary above this figure.

4. It will be readily seen that one-half of those occupying the position receive a salary between the first and third quartiles.
5. Wherever an asterisk (\*) appears, it indicates that the median and quartiles for this position were not computed.

#### Other Positions

Teachers in schools not listed in this directory are included in Table XVI. Junior college salaries are reported in Table XVII, followed by a summary of salaries of county superintendents.

**COUNTY SUPERINTENDENTS**

The median annual salary of the county superintendents is \$1707, 44 receive the minimum salary of \$1600 and the third quartile is \$1840.
