SCHOOLS

Alphabetical list of 928 schools

Bold face type indicates the name of the school, also the post office address, unless the P O address is shown differently.

The high school approval statements indicate the number of grades of high school for which the school was approved for tuition purposes last year, the year ending June 30, 1936.

Where an arabic number follows the name of a superintendent or teacher it indicates the years employed in that school system previous to this year, but not necessarily in the particular position in which now employed.

Refer to the two preceding pages for the definition of abbreviations used.

Refer to the back of this directory for an alphabetical list of the superintendents and the 99 county superintendents.

- Elementary classroom teachers, kindergarten to eighth grade inclusive

Classroom teachers of special subjects

In the following tables the data given for each population group include the number of individuals occupying each type of position, the median salary in each position, also the first quartile and third quartile for the distribution of salaries for that position.

In some population groups a few superintendents, principals, and teachers reported that they received house rent or room rent in addition to the actual salaries received. In these tabulations salaries of those receiving house rent in addition were increased by \$200, and those receiving room rent in addition were increased by \$50.

Interpretation of Terms Used

1. Median—if all the salaries for a position were ranked from lowest to highest, the middle figure would be the median. One-half of the salaries are above the median and one-half are below.
2. First quartile—one-fourth of those occupying the position receive a salary below this figure.

3. Third quartile—one-fourth of those occupying the position receive a salary above this figure.
4. It will be readily seen that one-half of those occupying the position receive a salary between the first and third quartiles.
5. Wherever an asterisk (*) appears, it indicates that the median and quartiles for this position were not computed.

Other Positions

Teachers in schools not listed in this directory are included in Table XVI. Junior college salaries are reported in Table XVII, followed by a summary of salaries of county superintendents.
