## SCHOOLS

Alphabetical list of 922 schools

**Bold face** type indicates the name of the school, also the post office address, unless the P O address is shown differently.

The high school approval statements indicate the number of grades of high school for which the school was approved for tuition purposes last year, the year ending June 30, 1940.

Where an arabic number follows the name of a superintendent or teacher it indicates the years employed in that school system previous to this year, but not necessarily in the particular position in which now employed.

Refer to the two preceding pages for the definitions of abbreviations used.

Refer to the back of this directory for an alphabetical list of the 922 superintendents and the 99 county superintendents.

## 1940-41 SALARY STUDY

The school districts of Iowa are herein classified for salary tabulation in groups according to population or type of district organization

The teaching staff within each group is classified in each table with reference to the major position occupied

Where living quarters are reported as provided in addition to cash salary the entry for salary has been increased by the cash value of such quarters.

### Explanation of Tables

1. Where an asterisk (\*) is found it denotes that, because of the small number recorded, a computation has not been made.
2. Median—the middle point. All salaries being ranked, one-half are above and one-half below the median figure.
3. First Quartile—being ranked, one-fourth are below this figure.
4. Third quartile—being ranked, one-fourth are above this figure.
5. One-half of the number ranked is between the first quartile and the third quartile.
