SCHOOLS

Alphabetical list of 894 schools.

Bold face type indicates the name of the school, also the post office address, unless the P O address is shown differently.

The high school approval statements indicate the number of grades for which the school was approved for tuition purposes only last year, the year ending June 30, 1943.

Where an arabic number follows the name of a superintendent or teacher it indicates the years employed in that school system previous to this year, but not necessarily in the particular position in which now employed.

Refer to the two preceding pages for the definitions of abbreviations used.

Refer to the back of this directory for an alphabetical list of the 894 superintendents and the 99 county superintendents.
