SCHOOLS

Alphabetical List of 854 Schools

Bold face type indicates the name of the school, also the post office address, unless the P O address is shown differently.

The high school approval statements indicate the number of grades for which the school was approved for tuition purposes only for the year ending June 30, 1946.

Where an arabic number follows the name of a superintendent or teacher it indicates the years employed in that school system previous to this year, but not necessarily in the particular position in which now employed.

Refer to the two preceding pages for the definitions of abbreviations used.

Refer to the back of this directory for an alphabetical list of the superintendents and the 99 county superintendents.

1946-47 SALARY STUDY

The school districts of Iowa are grouped for salary tabulation according to type of district organization and population. The teaching staff within each group is classified with reference to the major position occupied.

EXPLANATION OF TABLES

In these tables an asterisk (*) indicates that because of the small number recorded, no computation has been made.

The median—the middle point, the first quartile—marking a point in rank with one quarter below it, and the third quartile—with one quarter above it, have been determined. One-half of the numbers ranked is between the first quartile and the third quartile.
