SCHOOLS

The school directory is made up in two parts this year. Part I includes an alphabetical list of the 788 districts with approved high schools. Part II includes an alphabetical list of the schools operating under the county superintendents of schools employing 12 or more teachers for the 1956-1957 school year.

PART I

Alphabetical List of 788 Districts Maintaining Approved High Schools

Bold face type indicates the name of the school, also the post office address, unless the PO address is shown differently.

The high school approval statements indicate the number of grades for which the school was approved for tuition purposes only for the year ending June 30, 1956. All schools approved for tuition for four years unless otherwise specified.

Where an arabic number follows the name of superintendent or teacher, it indicates the years employed in that school system previous to this year, but not necessarily in the particular position in which now employed.

Refer to the preceding page for the definitions of abbreviations used.—Note that subjects are listed by fields.

Refer to the back of this directory for an alphabetical list of the superintendents, and the 99 county superintendents.

The county superintendents in the alphabetical order of their counties are listed in the front of the directory.
