SCHOOLS

Alphabetical List of 694 Districts Maintaining Approved Public Four Year High Schools

Bold face type indicates the name of the school, also the post office address, unless the post office (PO) address is shown differently.

When an Arabic number follows the name of superintendent or teacher, it indicates the years employed in that school system previous to this year, but not necessarily in the particular position in which now employed.

Refer to the preceding page for the definitions of abbreviations used. Note that subjects are listed by fields.

The county superintendents in the alphabetical order of their counties are listed in the front of this directory.
