SCHOOLS

Alphabetical List of 510 Districts Maintaining Approved Public Four Year High Schools

Bold face type indicates the name of the school district, also the post office address, unless the post office (PO) address is shown differently.

When an Arabic number follows the name of a superintendent or teacher, it indicates the years employed in that school system previous to this year, but not necessarily in the particular position in which now employed.

Refer to the preceding page for the definitions of abbreviations used. Note that subjects are listed by fields.

The names of the county superintendents are listed in the front of this directory in the alphabetical order of their counties.

Former high school districts which have become a part of a reorganized school district are listed in alphabetical order in the back of the directory.

TEACHERS' CERTIFICATES AND APPROVAL STATEMENTS

Every administrator, supervisor, or teacher employed in a public school is required to hold a certificate valid for the type of position in which he works. Furthermore, each teacher of pupils of compulsory school age who works in a private school is required to hold a certificate valid for elementary-school teaching.

Each teacher employed in a public school district maintaining an approved four-year high school, in addition to holding an appropriate type of certificate, must be assigned to teach subjects and give services in accordance with the approval standards of the Department of Public Instruction.

For information concerning certificates and approval statements, address the Division of Advanced Education and Instructional Services, Section of Teacher Education and Certification, Department of Public Instruction, State Office Building, Des Moines 19, Iowa.
