INTRODUCTORY STATEMENT

The Iowa Educational Directory has again been compiled from information submitted on the Iowa Professional School Employees Data Sheet (IPSEDS) reports. Every teacher and administrator has thus had a part in the preparation of the 1966-67 Directory. The teachers themselves filled out the reports in the fall of 1966. The directory information was obtained from these reports and printed in its present form by data processing machines.

Among the items of information included are street addresses, zipcode numbers, and telephone numbers for all buildings in a school system; Department of Public Instruction identifying code numbers for each district and each individual school; names and addresses of school board members and officers; and enrollment by grades for each high school building. Information on the new area vocational schools and area community colleges is included for the first time.

One disadvantage in preparing copy by data processing is the limitation on the number of characters that can be printed on one line. The most obvious result of this limitation is the fact that second names of many teachers cannot be printed in full. Those who missed the explanation of this fact on the IPSEDS instruction sheets will find some interesting abbreviations of their second names, for the printing machine had to stop when the character limit for directory copy was reached.

Please note the list of abbreviations on pages vi and vii. Using this list as a reference will give meaning to the pages of the directory that follow.

IOWA DEPARTMENT OF PUBLIC INSTRUCTION

Data Processing Division

and

Publications Section

The Iowa Educational Directory is distributed as provided in Section 17.23, Code of Iowa. Each superintendent, county superintendent, and school board secretary is entitled to a copy of the directory without charge. Other persons may secure copies by paying the cost of printing, which is \$1.50 per copy.

Administrators and Board Members

AREA VOCATIONAL SCHOOLS AND AREA COMMUNITY COLLEGES

1966-67 School Year

The code number assigned each area school or community college appears opposite the area district name. The first two digits of the number indicate the county in which the administrative office is located. This number corresponds to the auto license prefix number for the county. The four digits following the dash identify the area district. Three additional digits are added to this six-digit code number to identify types of schools operating as component units of the area district.

Administrative and Professional Personnel

COUNTY SCHOOL SYSTEMS

1966-67 School Year

The county code number assigned by the Department of Public Instruction appears on the same line as the county name. It corresponds to the auto license prefix number for the county.

The number at the extreme right, following the name of each employee, indicates the total years of previous service in the county school system—not necessarily in the position presently held. Hence, the absence of a number indicates the first year of employment in the system.

Special education teachers are listed under the county office if the classes are sponsored by the county and not physically located in a local attendance center. If classes are supervised by a local district and sponsored by the county, they will appear with the local district's personnel and will be marked by an asterisk (*).

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

SCHOOL DISTRICTS

Maintaining Four Year High Schools in Iowa

1966-67 School Year

● Dots mark the names of school districts.

***Asterisks mark the names of schools within the districts.

The code number assigned each school by the Department of Public Instruction appears on the same line as the district name. The first two digits of this code number represent the county and correspond to auto license prefix numbers. The four digits following the dash identify the school district. Three additional digits are added to this six-digit code number to identify a school within the district. If the last three digits are 000, they identify the administrative office of the district.

The number at the extreme right, following the name of each employee, indicates the total years of previous service in the school system—not necessarily in the position presently held. Hence, the absence of a number indicates the first year of employment in the system.

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

**School Service Personnel: Supervisors, principals, superintendents, school psychologists, and guidance workers requiring preparation in approved programs leading to master's degree or, for school superintendents, one year of graduate study beyond.

***School service personnel except school psychologists.

Key: B—Bachelor's Degree. M—Master's Degree. Ed.S.—Specialist in Education. D—Doctor's Degree.

¹ Clarke College is tentatively approved to offer programs of preparation through the master's degree for elementary-school principals, elementary-school supervisors, and elementary-school teachers.

² Loras College is tentatively approved to offer programs of preparation through the master's degree for secondary-school principals, secondary-school teachers, school guidance counselors, elementary-school principals, and elementary-school supervisors.

TEACHER CERTIFICATION AND APPROVAL

Every administrator, supervisor, or teacher employed in a public school is required to hold a certificate valid for the type of position in which he works. Furthermore, each teacher of pupils of compulsory school age who works in a private school is required to hold a certificate valid for elementary-school teaching.

Each teacher employed in an approved high school district, in addition to holding an appropriate type of

certificate, must be assigned to teach subjects and give services in accordance with the approval standards of the Department of Public Instruction.

For information concerning certificates and approval statements, address the Division of Teacher Education and Certification, Department of Public Instruction, State Office Building, Des Moines, Iowa 50319.
