## INTRODUCTORY STATEMENT

The **Iowa Educational Directory** has been compiled from information submitted by Iowa school administrators. Reprints from the 1966-67 directory were mailed to superintendents of local, county, and area schools. They updated the information and returned it to the Department of Public Instruction, where it was prepared for printing by data processing machines.

Among the items of information included in this year's directory are street addresses, zip code numbers, and telephone numbers for all buildings in a school system; Department of Public Instruction identifying code numbers for each district and each individual school; and enrollment by grades for each high school district.

One limitation in preparing copy by data processing is the number of characters that can be printed on one line. The most obvious result of this limitation is the fact that second names of many teachers cannot be printed in full. We appreciate the fact that readers of the directory have accepted this situation with understanding and good will.

Please note the list of abbreviations on pages vii and viii. Using this list as a reference will give meaning to the pages of the directory that follow.

PAUL F. JOHNSTON  
State Superintendent of Public Instruction

The **Iowa Educational Directory** is distributed as provided in Sections 17.23 and 17.27, Code of Iowa. Each Iowa superintendent is entitled to a copy of the directory without charge. Other persons may secure copies by paying the cost of publication, which is \$1.50 per copy.

## Administrators and Board Members

# AREA VOCATIONAL SCHOOLS AND AREA COMMUNITY COLLEGES

● Dots mark the names of area schools. In some cases the roman numeral indicating the merged area number is a part of the official name. If a special name has been adopted, the roman numeral, followed by a dash, precedes that name for identification purposes.

\*\*\*\*\* Asterisks mark the names of schools within the merged areas.

The code number assigned each area school or community college appears opposite the area district name. The first two digits of the number indicate the county in which the administrative office is located. This number corresponds to the auto license prefix number for the county. The four digits following the dash identify the area district. Three additional digits are added to this six-digit code number to identify types of schools operating as component units of the area district.

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

## BOUNDARIES OF AREA VOCATIONAL SCHOOLS AND AREA COMMUNITY COLLEGES

# Administrative and Professional Personnel

## COUNTY SCHOOL SYSTEMS

### 1967-68 School Year

● Dots mark the names of county school systems.

\*\*\*\*\*Asterisks mark the names of schools under county system jurisdiction.

The county code number assigned by the Department of Public Instruction appears on the same line as the county name. It corresponds to the auto license prefix number for the county.

The number at the extreme right, following the name of each employee, indicates the total years of previous service in the county school system—not necessarily in the position presently held. Hence, the absence of a number indicates the first year of employment in the system.

Special education teachers are listed under the county office if the classes are sponsored by the county and not physically located in a local attendance center. If classes are supervised by a local district and sponsored by the county, they will appear with the local district's personnel.

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

## SCHOOL DISTRICTS

### Maintaining Four Year High Schools in Iowa

● Dots mark the names of school districts.

\*\*\*\*\* Asterisks mark the names of schools within the districts.

The code number assigned each school by the Data Processing Division of the Department of Public Instruction appears on the same line as the district name. The first two digits of this code number represent the county and correspond to auto license prefix numbers. The four digits following the dash identify the school district. Three additional digits are added to this six-digit code number to identify a school within the district. If the last three digits are 000, they identify the administrative office of the district.

The number at the extreme right, following the name of each employee, indicates the total years of previous service in the school system—not necessarily in the position presently held. Hence, the absence of a number indicates the first year of employment in the system.

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

## FORMER HIGH SCHOOL DISTRICTS WITH NAMES CHANGED BY REORGANIZATION

The following list includes the names of all closed or reorganized high school districts in Iowa. The names in parentheses represent the current district name, which may be referred to in the alphabetical listing of high school districts for details. Districts which operate elementary schools only are so designated.

|                                 |                                |                                   |                                     |
|---------------------------------|--------------------------------|-----------------------------------|-------------------------------------|
| Afton (East Union)              | Castana (Elementary only)      | Duncombe (Webster City)           | Grimes (Dallas Community)           |
| Agency (Cardinal)               | Chapin (Sheffield-Chapin)      | Dundee (W. Delaware Co.)          | Gruver (Lincoln Central)            |

\*\*School Service Personnel: Supervisors, principals, superintendents, school psychologists, and guidance workers requiring preparation in approved programs leading to master's degree or, for school superintendents, one year of graduate study beyond.

\*\*\*School service personnel except school psychologists.

Key: B—Bachelor's Degree. M—Master's Degree. Ed.S.—Specialist in Education. D—Doctor's Degree.

- 1 Clarke College is tentatively approved to offer programs of preparation through the master's degree for elementary-school principals, elementary-school supervisors, and elementary-school teachers.
- 2 Loras College is tentatively approved to offer programs of preparation through the master's degree for secondary-school principals, secondary-school teachers, school guidance counselors, elementary-school principals, and elementary-school supervisors.

### TEACHER CERTIFICATION AND APPROVAL

Every administrator, supervisor, or teacher employed in a public school is required to hold a certificate valid for the type of position in which he works. Furthermore, each teacher of pupils of compulsory school age who works in a private school is required to hold a certificate valid for elementary-school teaching.

Each teacher employed in an approved high school district, in addition to holding an appropriate type of

certificate, must be assigned to teach subjects and give services in accordance with the approval standards of the Department of Public Instruction.

For information concerning certificates and approval statements, address the Division of Professional Education and Certification, Department of Public Instruction, State Office Building, Des Moines, Iowa 50319.
