INTRODUCTORY STATEMENT

The **Iowa Educational Directory** has been compiled from information submitted on the Iowa Professional School Employees Data Sheet (IPSEDS) reports. Every teacher and administrator has thus had a part in the preparation.

Among the items of information included in this year's directory are street addresses, zip code numbers, and telephone numbers for all buildings in a school system; identifying code numbers for each district and each individual school; and enrollment by grades as well as total enrollment for each high school district.

One limitation in preparing copy by data processing is the number of characters that can be printed on one line. The most obvious result of this limitation is the fact that second names of many teachers cannot be printed in full. We appreciate the fact that readers of the directory have accepted this situation with understanding and good will.

Please note the list of abbreviations on pages vii and viii. Using this list as a reference will give meaning to the pages of this directory that follow.

PAUL F. JOHNSTON

State Superintendent of Public Instruction

The **Iowa Educational Directory** is distributed as provided in Sections 17.23 and 17.27, Code of Iowa. Each Iowa superintendent is entitled to a copy of the directory without charge. Other persons may secure copies by paying the cost of publication, which is \$1.50 per copy.

NOTICE

Some readers of the *Iowa Educational Directory* like to know how long a teacher or administrator has served in his present position. Others like to know the total number of years he has been a member of the profession.

This year the directory is taking a "bi-partisan" position on this matter. Names of administrators are followed by numbers indicating the years previously served in the school system. Names of teachers and other staff members are followed by numbers indicating the total years of previous professional or vocational experience.

Future policy on this directory feature will be determined by reader response.

Administrative and Professional Personnel

AREA VOCATIONAL SCHOOLS AND AREA COMMUNITY COLLEGES

● Dots mark the names of area schools. In some cases the Roman numeral indicating the merged area number is a part of the official name. If a special name has been adopted, the Roman numeral, followed by a dash, precedes that name for identification purposes. ***** Asterisks mark the names of schools within the merged areas.

The code number assigned by the Department of Public Instruction to each area school or community college appears opposite the area school name. The first two digits of the number indicate the county in which the administrative office is located. This number corresponds to the auto license prefix number for the county. The four digits following the dash identify the area school. Three additional digits are used with this six-digit code number to identify attendance centers or divisions operating as component units of the area schools. If the last three digits are 000, they identify the administrative office of the area school.

The number at the extreme right following the name of each administrator indicates the total years of previous experience in the area school system. Numbers following the names of other employees indicate total previous years of professional education experience or vocational experience.

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

Administrative Center

Administrative and Professional Personnel

COUNTY AND JOINT COUNTY SCHOOL SYSTEMS

● Dots mark the names of county school systems.

***** Asterisks mark the names of schools under county system jurisdiction.

The county code number used by the Department of Public Instruction appears on the same line as the county name. It corresponds to the auto license prefix number for the county.

The number at the extreme right following the name of each administrator indicates the total years of previous experience in the county school system. Numbers following the names of other employees indicate total previous years of professional education experience.

Administrative or attendance center components of the county school systems are indicated by an additional seven digits. The last three indicate either a special education school operated by the county office or an administrative service center provided by the county in a location other than the county office.

Special education teachers are listed under the county office if the classes are sponsored by the county and not physically located in a local attendance center. If classes are supervised by a local district and sponsored by the county, they will appear with the local district's personnel.

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

Community, Consolidated, and Independent SCHOOL DISTRICTS Maintaining Four-year High Schools in Iowa

● Dots mark the names of school districts.

***** Asterisks mark the names of schools within the districts.

The code number assigned each school by the Department of Public Instruction appears on the same line as the district name. The first two digits of this code number represent the county and correspond to auto license prefix numbers. The four digits following the dash identify the school district. Three additional digits are used with the six-digit code number to identify a school within the district. If the last three digits are 000, they identify the administrative office of the district.

The number at the extreme right following the name of each administrator indicates the total years of previous experience in the school system. Numbers following the names of other employees indicate total previous years of professional education experience.

The table of contents on page iii and the list of abbreviations on pages vii and viii will afford the reader further help in using the directory.

School Service Personnel: Supervisors, principals, superintendents, school psychologists, and guidance workers requiring preparation in approved programs leading to master's degree or, for school superintendents, one year of graduate study beyond.

School service personnel except school psychologists.

Key: B—Bachelor's Degree. M—Master's Degree. Ed.S.—Specialist in Education. D—Doctor's Degree.

Clarke College is tentatively approved to offer programs of preparation through the master's degree for elementary-school principals, elementary-school supervisors, and elementary-school teachers.

Loras College is temporarily approved to offer programs of preparation through the master's degree for secondary-school principals, secondary-school teachers, school guidance counselors, elementary-school principals, and elementary-school supervisors.

Graduates' records accepted initially for the issuance of temporary certificates with the provision that they shall be converted to regular certificates after completing six semester hours of validating graduate credit in an accredited institution acceptable to the Board of Public Instruction.

Upper Iowa College is tentatively approved to offer a master of arts in teaching degree for elementary and secondary teachers.

Morningside College is tentatively approved to offer a master's degree for elementary teachers and secondary teachers of history, English, and mathematics.

TEACHER CERTIFICATION AND APPROVAL

Every administrator, supervisor, or teacher employed in a public school is required to hold a certificate valid for the type of position in which he works. Each teacher of pupils of compulsory school age who works in a private school is required to hold a certificate.

Each teacher employed in an approved high school district, in addition to holding an appropriate type of certificate, must be assigned to teach subjects and give services in accordance with the approval standards of the Department of Public Instruction.

For information concerning certificates and approval statements, address the Division of Teacher Certification and Approval, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.
