INTRODUCTORY STATEMENT

The *Iowa Educational Directory* has been compiled from information submitted by schools to the Department of Public Instruction. School administrators have thus had an important part in preparing and verifying the data.

This year's *Directory* includes street addresses, zip code numbers, and telephone numbers for all buildings in each public and nonpublic (private) school system; identifying code numbers for each district and each individual school; total estimated enrollment; and supervisory and administrative staff for each school system. Academic degrees are not shown for staff members of the Department of Public Instruction or of school systems.

Due to budgetary limitations, the number of copies of the *Directory* printed this year has been greatly reduced, and its distribution restricted. Special directories and listings are available to public and private school administrators at actual cost from the Management and Information Division, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.

Your comments and suggestions regarding the *Iowa Educational Directory* and other DPI publications will be welcome at all times.

PAUL F. JOHNSTON
State Superintendent of Public Instruction

The *Iowa Educational Directory* is distributed as provided in Sections 17.23 and 17.27, *Code of Iowa*. Each Iowa superintendent is entitled to a copy of the *Directory* without charge. Other persons may secure copies by paying the cost of publication, which is \$1.00. Orders should be addressed to Information and Publications Services, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.

CONTENTS

Introductory Statement	ii
State Board of Public Instruction	iv

AREA VOCATIONAL SCHOOLS AND AREA COMMUNITY COLLEGES

● Dots mark the names of area schools. In some cases the Roman numeral indicating the merged area number is a part of the official name. If a special name has been adopted, the Roman numeral, followed by a dash, precedes the name for identification purposes.

*****Asterisks mark the names of schools or major campuses within the merged areas.

The telephone number and the code number assigned by the Department of Public Instruction to each area school or community college appear opposite the area school name and address. The first two digits of the code number indicate the county in which the administrative office is located. This number corresponds to the auto license prefix number for the county. The next four digits of the code number, following the first dash, identify the area school. The last three digits identify an attendance center or division operating as a component unit of the area school. If the last three digits are 000, they identify the administrative office of the area school.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the area school system.

AREA VOCATIONAL SCHOOLS AND AREA COMMUNITY COLLEGES

MERGED AREA SCHOOLS AND ADMINISTRATIVE CENTERS
FOR
AREA COMMUNITY COLLEGES AND AREA VOCATIONAL SCHOOLS

COUNTY AND JOINT COUNTY SCHOOL SYSTEMS

● Dots mark the names of county school systems.

*****Asterisks mark the names of schools under county system jurisdiction.

The telephone number and the county code number assigned by the Department of Public Instruction appear opposite the county name and address.

Administrative or attendance center components of the county school systems are indicated by an additional seven digits following the county code number. The last three digits indicate either a special education school operated by the county office or an administrative service center provided by the county in a location other than the county office.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the county school system.

Community, Consolidated, and Independent SCHOOL DISTRICTS Maintaining Four-year High Schools in Iowa

● Dots mark the names of school districts.

***** Asterisks mark the names of schools within the districts.

The telephone number and the code number assigned by the Department of Public Instruction to each school appear opposite the district name and address. The first two digits of the code number indicate the county in which the administrative office is located. This number corresponds to the auto license prefix number for the county. The next four digits of the code number, following the first dash, identify the school district. The last three digits are used to identify a school within the district. If the last three digits are 000, they identify the administrative office of the district.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the school system.

PRIVATE SCHOOLS AND ADMINISTRATORS

Dots mark the names of private schools.

Following a listing of administrative offices, private schools are listed by counties (pages 78-88) and by sponsors (pages 89-90).

The telephone number and the code number assigned by the Department of Public Instruction to each private school appear opposite the school name and address. The first two digits of the code number represent the county and correspond to auto license prefix numbers. The next four digits of the code number, following the first dash, identify the public school district in which the private school is located. The last four digits identify the private school.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the school system.

PUBLIC AND NONPUBLIC (PRIVATE) SCHOOLS BY COUNTIES

● Dots mark the names of the counties.

The code number shown opposite the public school district represents the county and the school district. In the case of non-public (private) schools, the code number represents the county, the public school district in which the private school is located, and the identifying number of the private school.

TEACHER CERTIFICATION AND APPROVAL

Every administrator, supervisor, or teacher employed in a public school is required to hold a certificate valid for the type of position in which he works. Each teacher of pupils of compulsory school age who works in a private school is required to hold a certificate.

Each teacher employed in an approved high school district, in addition to holding an appropriate type of certificate, must be assigned to teach subjects and give services in accordance with the approval standards of the Department of Public Instruction.

For information concerning certificates and approval statements, address the Division of Teacher Education and Certification, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.
