# INTRODUCTORY STATEMENT

The *Iowa Educational Directory* has again been compiled from information submitted by school superintendents to the Department of Public Instruction.

The *Directory* includes street addresses, zip code numbers, and telephone numbers for all buildings in each public and nonpublic (private) school district; identifying code numbers for each district and each individual school; total estimated enrollment; and supervisory and administrative personnel. Academic degrees are not shown for staff members of the Department of Public Instruction or of school systems.

Special, more detailed, directories and listings of teachers and schools are available to public and private school administrators at actual cost, from the Management Information Division of the DPI.

It is hoped users will find the new *Iowa Educational Directory* a useful guide to Iowa schools. Your comments and suggestions regarding the *Directory* and other DPI publications will be welcome at all times. Direct your inquiries to: Publications Editor, c/o Information and Publication Services, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.

ROBERT D. BENTON  
State Superintendent of Public Instruction

The *Iowa Educational Directory* is distributed as provided in Sections 17.23 and 17.27, *Code of Iowa*. Each Iowa school administrator is entitled to a single copy of the *Directory* without charge. Other persons may secure copies by paying the cost of publication and postage. Sales tax must also be charged any individual or business. Orders submitted on school district stationery or accompanied by an official school purchase order are not required to pay sales tax.

Orders should be addressed to Publications Editor, Information and Publication Services, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.

# AREA VOCATIONAL SCHOOLS AND AREA COMMUNITY COLLEGES

● Dots mark the names of area schools. The Roman numeral preceding the name indicates the merged area number. There are 15 merged areas numbered from I to XVI; however, there is no merged area VIII. The area reserved for this number was never organized into a merged area school and these counties were subsequently included in adjacent merged areas.

\*\*\*\*\*Asterisks mark the names of schools, major campuses, or attendance centers within the merged areas.

The telephone number and the code number assigned by the Department of Public Instruction to each area school or community college appear opposite the area school name and address. The first two digits of the code number indicate the county in which the administrative office is located. This number corresponds to the auto license prefix number for the county. The next four digits of the code number, following the first dash, identify the area school. The last three digits identify an attendance center operating as a component unit of the area school. If the last three digits are 000, they identify the administrative office of the area school.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the area school system.

## IOWA'S REGIONAL EDUCATIONAL MEDIA CENTERS

# COUNTY AND JOINT COUNTY SCHOOL SYSTEMS

● Dots mark the names of county school systems.

\*\*\*\*\*Asterisks mark the names of schools under county system jurisdiction.

The telephone number and the county code number assigned by the Department of Public Instruction appear opposite the county name and address.

Administrative or attendance center components of the county school systems are indicated by an additional seven digits following the county code number. The last three digits indicate either a special education school operated by the county office or an administrative service center provided by the county in a location other than the county office.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the county school system.

# Community, Consolidated, and Independent SCHOOL DISTRICTS Maintaining Four-year High Schools in Iowa

● Dots mark the names of school districts.

\*\*\*\*\*Asterisks mark the names of schools within the districts.

The telephone number and the code number assigned by the Department of Public Instruction to each school appear opposite the district name and address. The first two digits of the code number indicate the county in which the administrative office is located. This number corresponds to the auto license prefix number for the county. The next four digits of the code number, following the first dash, identify the school district. The last three digits are used to identify a school within the district. If the last three digits are 000, they identify the administrative office of the district.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the school system.

# PRIVATE SCHOOLS AND ADMINISTRATORS

- Dots mark the names of private schools.

Following a listing of administrative offices, private schools are listed by counties and by sponsors.

The telephone number and the code number assigned by the Department of Public Instruction to each private school appear opposite the school name and address. The first two digits of the code number represent the county and correspond to auto license prefix numbers. The next four digits of the code number, following the first dash, identify the public school district in which the private school is located. The last four digits identify the private school.

The number at the extreme right opposite the name of each administrator indicates the total years of previous experience in the school system.

● Dots mark the names of the counties.

The code number shown opposite the public school district represents the county and the school district. In the case of non-public (private) schools, the code number represents the county, the public school district in which the private school is located, and the identifying number of the private school. All schools were approved or exempted for the 1972-73 school year except those designated by a symbol.

There are now a total of 450 public high school districts in Iowa. At the turn of the century, there were 4,873 local districts. It was the intention of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created.

In 1922 there were 4,839 legally organized districts, and, in 1953, 4,558 were still in existence. In that year legislation specified that it be "the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state."

The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

## TEACHER CERTIFICATION AND APPROVAL

Every administrator, supervisor, or teacher employed in a public school is required to hold a certificate valid for the type of position in which he works. Each teacher of pupils of compulsory school age who works in a private school is required to hold a certificate.

Each teacher employed in an approved high school district, in addition to holding an appropriate type of certificate, must be assigned to teach subjects and give services in accordance with the approval standards of the Department of Public Instruction.

For information concerning certificates and approval statements, address the Division of Teacher Education and Certification, Department of Public Instruction, Grimes State Office Building, Des Moines, Iowa 50319.

# ADDITIONAL NONPUBLIC (PRIVATE) SCHOOLS

Information from the following additional non-approved and exempt nonpublic or private schools was received too late for inclusion in the Directory under the sections Private Schools By Counties, Private Schools By Sponsors, and Public and Nonpublic (Private) Schools By Counties.
