Area Education Agencies

Area Education Agencies

Iowa has 15 Area Education Agencies (AEAs). The AEAs function as the intermediate units between the Department of Education, school districts, and local schools.

The code number assigned to each AEA by the Department of Education appears opposite the agency name and address. The first two digits are the county number; they indicate where the administrative office is located.

The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position.

Merged Area Schools

(Public Community Colleges and Vocational-Technical Schools)

There are 15 merged areas numbered from I through XVI; however, there is no merged area VIII, which was never organized. These counties are included in adjacent merged areas.

The code number assigned by the Department of Education appears opposite the area school and address. The first two digits of the code indicate the county in which the school's administrative office is located. The next four digits identify the area school.

The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position.

Public School Districts

(In Alphabetical Order by District Name)

Iowa has 433 public school districts.

The code number assigned by the Department of Education to each district and school appears opposite the name and address. The first two digits are the county number; they indicate where the administrative office is located. The next four digits identify the school district. The last three digits identify the building. If the last three digits read 000, they identify the administrative office of the district.

The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position.

District Name Changes

Iowa has 433 public school districts. At the turn of the century, there were 4,873 local districts. It was the intention of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created.

In 1922 there were 4,839 legally organized districts, and in 1953, 4,558 were still in existence. In that year legislation specified that it be "the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state."

The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

Following are the names of closed or reorganized Iowa districts. The name in parentheses is the current district name, which may be found in the alphabetical listing of public districts.
