Nonapproved Schools

Private elementary and secondary schools which have failed to offer a program of instruction in compliance with Iowa education standards or which have chosen not to seek approval by the Department of Education are designated as nonapproved schools.

The code number assigned by the Department of Education appears opposite the school name and address. The first two digits are the county number, the next four identify the school district, and the last four identify the building.

District Name Changes

Iowa has 431 public school districts. At the turn of the century, there were 4,873 local districts. It was the intention of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created.

In 1922 there were 4,839 legally organized districts, and in 1953, 4,558 were still in existence. In that year legislation specified that it be "the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state."

The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

Following are the names of closed or reorganized Iowa districts. The name in parentheses is the current district name, which may be found in the alphabetical listing of public districts.
