AREA EDUCATION AGENCIES

Area Education Agencies

Iowa has 15 Area Education Agencies (AEAs). The AEAs function as the intermediate units between the Department of Education, school districts, and local schools.

The code numbers assigned to each AEA by the Department of Education appears opposite the agency name and address. The first two digits are the county number; they indicate where the administrative office is located.

The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position.

Public School Districts (in alphabetical order by district name)

Iowa has 397 public school districts.

The code number assigned by the Department of Education to each district and school appears opposite the name and address. The first two digits are the county number, they indicate where the administrative office is located. The next four digits identify the school district. The last three digits identify the building. If the last three digits read 000, they identify the administrative office of the district.

The number directly to the right of the administrator indicates the total years the administrator has held the position.

Non-accredited Schools

Private elementary and secondary schools which have failed to offer a program of instruction in compliance with Iowa education standards or which have chosen not to seek approval by the Department of Education are designated as nonapproved schools.

The code number assigned by the Department of Education appears opposite the school name and address. The first two digits are the county number, the next four identify the school district, and the last four identify the building.

Non-accredited schools in Iowa are:

District Name Changes

Iowa has 397 public school districts. At the turn of the century, there were 4,873 local districts. It was the intention of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created.

In 1922 there were 4,839 legally organized districts, and in 1953, 4,558 were still in existence. In that year legislation specified that it be "the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state."

The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

Following are the names of closed or reorganized Iowa districts. The name in parentheses is the current district name, which may be found in the alphabetical listing of public districts.

Practitioner Licensure

Every practitioner employed in a public school is required to hold a license valid for the type of position in which he/she is employed. Each teacher of pupils of compulsory school age who works in a private school is required to hold a license.

Each teacher employed in a school district, in addition to holding the appropriate type of license, must be assigned to teach subjects and give services in accordance with the standards of the Board of Educational Examiners.

For information concerning licenses and endorsements, address the Bureau of Practitioner Preparation and Licensure, Department of Education, Grimes State Office Building, Des Moines, Iowa 50319
