INTRODUCTION

2001

The *Iowa Educational Directory*, a guide to Iowa's schools, is compiled from information submitted to the Department of Education by school administrators. Information for the 2001-2002 edition was verified in August 2001.

The *Directory* includes names, street addresses, zip codes, and telephone numbers of each school; code numbers for each district and individual school; enrollment for each district and grade-span for each school; web and e-mail addresses (where available); and names of chief administrators. District population figures are taken from the 2000 census and district enrollments refer to the prior school year. The *Directory* can be found on the web at: <http://www.state.ia.us/educate/directory>

IOWA'S AREA EDUCATION AGENCIES

AREA EDUCATION AGENCIES

Iowa has 15 area education agencies (AEAs). The AEAs function as an intermediate service unit and assist the Department of Education in providing services and support to school districts and to schools. The code numbers assigned to each AEA by the Department of Education appear opposite the agency name and address. The first two digits are the county number; they indicate where the administrative office is located. The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position.

PUBLIC SCHOOL DISTRICTS

(in alphabetical order by district name)
Iowa has 371 school districts)

The code number assigned by the Department of Education to each district and school appears opposite the name and address. The first two digits are the county number, and indicate where the administrative office is located. The next four digits identify the school district. The last four digits identify the building. If the last four digits read 0000, this indicates the administrative office of the district. The enrollment is a student count taken on the third Friday in September of each year and represents only those students served in an educational program provided by the school district. In whole grade sharing situations, students attending high school in another school district are counted by the receiving district and not by the sending district.

A historical record of reorganized district name changes may be found on page 133.

NONPUBLIC SCHOOLS

Iowa has 210 accredited nonpublic schools. The code number assigned to each nonpublic school appears opposite the school name and address. The first two digits are the county code, followed by district and school codes. The enrollment is a student count taken on the third Friday in September of each year and represents only those students served in an educational program provided by the nonpublic school.

DISTRICT NAME CHANGES

Iowa has 371 public school districts. At the turn of the century, there were 4,873 local districts. It was the intention of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created.

In 1922 there were 4,839 legally organized districts, and in 1953, 4,558 were still in existence. In that year legislation specified that it be "the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state."

The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

Following are the names of closed or reorganized Iowa districts. The name in parentheses indicates the name of the reorganized district. This is a historical file. Many districts have reorganized more than once. Each of those reorganizations are recorded in this list. It may be necessary to follow the district through all reorganizations in this list before the present district name is found.

AEA CHAIRPERSON/DE LIAISON AND MEETING DATES

Each of the 15 area education agencies (AEAs) facilitates monthly meetings for all superintendents of the public school districts served by an individual AEA. A representative from each of these 15 superintendents' groups serves on the Superintendents' Advisory Council.

The monthly meetings provide opportunities for the superintendents to discuss common issues, to share ideas and solutions, to provide guidance and advice to the AEA administrator regarding needed services and to hear and discuss presentations on various educational matters. A Department of Education liaison is present at each superintendents' meeting to share communications from the Department.

SUPERINTENDENTS' ADVISORY COUNCIL

The Superintendents' Advisory Council was formed several years ago for the purpose of providing a direct communication link between district superintendents and the Director of the Department of Education. The Council advises the Director on potential policy and planning issues and also provides feedback to the Director on the impact or potential impact of actions of the Department of Education, the State Board of Education, and others.

The Council is composed of one superintendent from each area superintendents' group (15), one AEA administrator from the state, and a superintendent representing the Urban Network (the largest eight school districts in the state). The Council meets four to six times per year.
