AREA EDUCATION AGENCIES

Iowa has 9 area education agencies (AEAs). The AEAs function as intermediate service units and assist the Department of Education in providing services and support to school districts and to schools. The code numbers assigned by the Department of Education appear opposite the agency name and address. The first two digits of the code indicates the county where the AEA's administrative office is located. The next four digits identify the AEA. The number at the extreme right opposite the name of each administrator indicates the total years the administrator has held the position.

PUBLIC SCHOOL DISTRICTS

(in alphabetical order by district name)
Iowa has 351 school districts)

The code number assigned by the Department of Education appears opposite the district name and address. The first two digits of the code indicate the county where the district's administrative office is located; the next four digits identify the school district; and the last four digits identify the building. If the last four digits read 0000, this indicates the administrative office of the district. The enrollment (BEDS) is a student count taken October 2010 and represents only those public school students served in an educational program provided by the school district. In whole grade sharing situations, students attending in another school district are counted by the receiving district and not by the sending district.

A historical record of reorganized district name changes may be found on page 148.

CHARTER SCHOOLS

Charter schools are public schools of choice. In Iowa, schools obtain charters only with the approval and oversight of their local school district. In addition to schools directly operated by a school district, charter schools are another way that communities can create new public education options and partnerships for their children.

The code number assigned by the Department of Education appears opposite the charter school name and address. The first two digits of the code indicate the county where the district's administrative office is located; the next four digits identify the school district; and the last four digits identify the building.

NONPUBLIC SCHOOLS

Iowa has 181 accredited nonpublic schools. The code number assigned by the Department of Education appears opposite the school name and address. The first two digits of the code indicate the county in which the school is located. The next four digits identify the public school district within which boundaries the nonpublic school is located. The last four digits identify the building. The enrollment is a student count taken October 2010 and represents only those students served in an educational program provided by the nonpublic school.

NONPUBLIC SCHOOL SYSTEMS

A nonpublic school system is more than one nonpublic school governed by one school board with shared board policies, much like a public school system. Each attendance center employs an administrator. All teachers are licensed. The code number assigned by the Department of Education appears opposite the school name and address. The first two digits of the code indicate the county in which the school is located. The next four digits identify the public school district within which boundaries the nonpublic school is located. The last four digits identify the building.

DISTRICT NAME CHANGES

Iowa has 351 public school districts. At the turn of the century, there were 4,873 local districts. It was the intent of the Consolidated School Law of 1906 that a statewide pattern of consolidation be realized, but the movement was very slow in developing. By 1910, only 10 consolidated districts had been created. In 1922 there were 4,839 legally organized districts, and in 1953, 4,558 were still in existence. In that year legislation specified that it be "the policy of the state to encourage the reorganization of school districts into such units as are necessary, economical and efficient and which will insure an equal educational opportunity to all children in the state." The final phase of the community school movement came in 1965, when the 61st General Assembly passed legislation requiring all areas of the state to become part of a legally constituted school district maintaining a high school by July 1, 1966.

Following are the names of closed or reorganized Iowa districts. The name in parentheses indicates the name of the reorganized district. This is a historical file. Many districts have reorganized more than once. Each of those reorganizations are recorded in this list. It may be necessary to follow the district through all reorganizations in this list before the present district name is found.
