Under the Constitution of this organization, each county superintendent is made the manager for his county; thus the county superintendent becomes a supervisor of a course of reading for the teachers of his own county. The books are selected by a board of directors chosen from among the county superintendents of the state, acting in conjunction with the superintendent of public instruction, who is chairman *ex-officio* of this board. The plan has met with success in all the states where it has been tried.

The secretary will be glad to receive any suggestions and to render any assistance in promoting the efficiency of the work. For further information concerning the Reading circle work, and for supplies of the official circular, address the secretary.

E. J. HOOK, *Secretary*,  
Decorah, Iowa.

## THE PROVINCE OF THE NORMAL SCHOOL.

The Normal School was founded in 1876, for the special education and training of teachers for the common schools. The Board of Trustees was

organized to employ such administrative officers as might be necessary and such members of the Faculty as the needs of the work done might require. The students are limited to those who have intention of devoting their lives to the profession of teaching and the program of studies is specially planned and managed to that purpose.

#### MANAGEMENT OF THE WORK.

There are four sessions in each school year known as fall term, winter term, spring term and summer term. Classes are admitted at the opening of each session, and are graduated at the close of each session. Graduates are given large assistance in getting remunerative appointments. Undergraduates are also given assistance to appointments. The entire program of studies as printed in the quarterly bulletin is obtainable each term. The standard required is specially strong, definite and complete as the students are to be teachers. Large attention given to the fundamental English branches.

#### SPECIAL LINES OFFERED BY THE SCHOOL.

In addition to the common courses uniformly given in English, Latin, science, history, civics and mathematics, there are courses in music, art, manual training, domestic science, physical training, German, Greek and kindergartning, so that opportunity is given for specialization in modern types of education such as the public schools must have if they are to adapt themselves to the needs of modern civilization. These special and modern types are given so much time and attention that the best preparation is assured.

#### BUILDINGS AND EQUIPMENTS.

The following buildings are now provided and are fully equipped for the purpose planned: (1) North Building, (2) South Building, (3) Administration Building, (4) Auditorium Building, (5) Steam Plant, (6) Power Plant, (7) Gymnasium, (8) Superintendent's home, (9) President's cottage. The equipment in every case is that of the most modern and the most effective kind, specially suited for the work required. The shops, laboratories, library and art rooms are of the latest and best kind, while the gymnasium in apparatus, bathing privileges and provisions for health is one of the first in character in service in the United States.

## BOARD OF CONTROL OF STATE INSTITUTIONS.

---

HON. G. S. ROBINSON, *Chairman*, Sioux City.

HON. JOHN COWNIE, South Amana.

HON. L. G. KINNE, Des Moines.

F. S. TREAT, *Secretary*, Des Moines.

## STATE INDUSTRIAL SCHOOLS.

---

FOR BOYS, ELDORA.

*Superintendent*—Lyman D. Drake.

FOR GIRLS, MITCHELLVILLE.

*Superintendent*—F. P. Fitzgerald.

Under management of the board of control of state institutions.

The object of these institutions is the reformation of juvenile delinquents. It is not a prison. It is a compulsory educational institution. It is a school where wayward and criminal boys and girls are brought under the influence of Christian instructors and taught by example, as well as precept, the better ways of life. It is a training school where the moral, intellectual and industrial education of the child is carried on at one and the same time.

Any boy or girl over 7 and under 16 years of age, who has become criminal, vagrant or incorrigible, may be committed to these schools by any court of record. Any boy or girl may be discharged or paroled from these schools at any time after one year's training, upon satisfactory evidence of reformation.

---

## SOLDIERS' ORPHANS' HOME, DAVENPORT.

---

*Superintendent*—F. J. Sessions.

Under management of the board of control of state institutions.

There is in connection with this institution a school building, pleasant, commodious and well lighted, and it is the policy of the board to have the course of instruction of the highest standard. A kindergarten is operated in connection for the very young pupils.

The average number in the home is about 480, and the age ten and one-half years. The limit beyond which children are not kept in the home is sixteen years of age.

It is the aim to provide the children with plenty of good, comfortable clothing, and to have them taught to take good care of the same. Their clothing is all manufactured at the home, the large girls assisting in its manufacture. The table is supplied with a good variety of plain, wholesome food, and a reasonable amount of luxuries.

A library of well selected juvenile literature is a source of pleasure and profitable entertainment to the children. As from necessity the pastimes and pleasures of the children are otherwise somewhat circumscribed, they are well supplied with books and reading matter of suitable character for their improvement and enjoyment. The new chapel erected recently, is a handsome and much needed addition to the home.

---

### INSTITUTE FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

---

*Superintendent*--George Mogridge, M. D.

Under management of the board of control of state institutions.

The purposes or objects of the institution are to provide special methods of training for that class of children deficient in mind or marked with such peculiarities as to deprive them of the benefits and privileges provided for children with normal faculties. The object is to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements and actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly on others to supply their wants. The age of admission is between 5 and 21 years, and feeble-minded women may be sent there until 45 years of age.

---

### SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

---

*Superintendent*--Henry W. Rothert.

Under the management of the board of control of state institutions.

This institution is free to all who are too deaf to be educated in the common schools. They must be sound in mind and free from immoral habits and contagious diseases. No charge is made for board and tuition.

The school opens on the first day of October each year and continues until the last day of June. Pupils should be on hand promptly at the opening of the school and remain until the end of the season.

## COLLEGE FOR THE BLIND, VINTON.

*Principal.*—Thos. F. McCune, Vinton, Iowa.

Under management of the board of control of state institutions.

The school term begins on the first day of September, and ends about the 30th day of June. It is desirable that the students enter at the first and remain until the close. They may, however, be admitted at any time, and they are at liberty to go home whenever their parents send for them.

The department of music is supplied with twenty-three pianos, one pipe organ, several cabinet organs and a sufficient number of violins, guitars, bass viols and brass instruments. Every student capable of receiving it is given a complete course in this branch.

In the industrial department, the girls are required to learn knitting, crocheting, fancy work, hand and machine sewing; the boys, netting, mattress making and cane seating. Those of either sex, who so desire, may learn carpet weaving.

These advantages are free to every person, either blind or of defective vision, and of suitable school age and capacity, in the state. All that the friends are expected to do is to pay the traveling expenses and furnish clothing. If they are unable to clothe the pupils, the necessary clothing will be furnished here and the bill sent to the county from which the pupil comes.
