NORMAL TRAINING HIGH SCHOOLS IN IOWA.

The following schools have been designated by the Superintendent of Public Instruction as Normal Training Schools. They offer special courses to those who are training for rural school teaching. According to Chapter 242, Acts of the Thirty-fifth G. A., each school is to receive state aid to the amount of \$750.00 except private and denominational schools.

MEMBERS OF THE READING CIRCLE BOARD FOR THE YEAR 1916-1917.

NAME.	ADDRESS	TERM EXPIRES
Albert M. Deyoe.....	Des Moines	<i>ex officio</i>
John R. Slacks.....	Sac City	1917
M. L. Howell.....	Clarion	1917
Rose M. Parker.....	Harlan	1918
Kate Maurice.....	Anamosa	1918
C. W. Bond.....	Osage	1919
Myrtle A. Dungan.....	Chariton	1919

OFFICERS OF THE BOARD.

ALBERT M. DEYOE, *Ex officio*, President, Des Moines.
M. L. HOWELL, *Secretary*, Clarion.
MINNIE R. CONNERS, *Treasurer*, Washington.

REGULAR MEETING.

The regular meeting of the Reading Circle Board occurs on the first Tuesday in February of each year, at which time books are adopted for the ensuing school year.

COUNTY MANAGER.

Each county superintendent is superintendent of the Reading Circle work of the county. When a teacher has pursued the prescribed work for the year, the county superintendent will issue him a certificate for the ensuing school year.

GRADUATION.

When any member presents certificates covering four consecutive years' work a diploma will be awarded to such member.

BOOKS ADOPTED FOR THE LAST FIVE YEARS. 1915-16.

King—Education for Social Efficiency, D. Appleton & Co., Chicago, Ill.
Hollister—Administration of Education in a Democracy, Charles Scribners' Sons, Chicago, Ill.
Bagley—School Discipline, The Macmillan Co., Chicago.

READING 1914-1915.

Gilbert—What Children Study and Why, Silver, Burdett Company, Chicago, Ill.

McMurray—How to Study, Houghton, Mifflin Company, Chicago, Ill.
Betts-Hall—Better Rural Schools, The Bobbs Merrill Company, Indianapolis, Ind.

1913-1914.

Laing—Reading, A Manual for Teaching, D. C. Heath & Company, Chicago.

Carney—Country Life and the Country School, Row, Peterson Company, Chicago.

Hoyt—Studies in the History of Modern Education, Silver, Burdett & Company, Chicago.

1912-1913.

Price, \$1.00 Each, to Teachers.

Hamilton's—The Recitation, J. B. Lippincott Co., Philadelphia.

Coulter—Paterson's Practical Nature Study, D. Appleton Co., Chicago.

Strayer's—A Brief Course in the Teaching Process, The Macmillan Co., Chicago.

1911-1912.

Price, \$1.00 Each, to Teachers.

Colgrove's—The Teacher and The School, Chas. Scribner's Sons, Chicago, Ill.

Wilkinson's—Practical Agriculture, American Book Company, Chicago, Ill.

STANDARDS FOR ACCREDITING COLLEGES FOR TEACHERS' CERTIFICATES IN ACCORDANCE WITH SECTIONS 2634-F, 2634-F1 AND 2634-G, SUPPLEMENT TO THE CODE OF 1913.

1. The number of class hours for the heads of departments and students shall not exceed twenty a week.

2. A faculty properly qualified shall consist of persons who have taken a Master's degree in course in a recognized graduate school or have pursued graduate work in residence at least two years.

3. The library shall consist of at least seventy-five hundred volumes, selected with reference to college subjects, and exclusive of public documents.

4. The laboratory equipment shall be adequate for doing work in a scientific way in the courses announced in the catalog in botany, zoology, chemistry, physics, home economics and agriculture.

5. The means of support is defined as requiring a permanent endowment of not less than \$200,000 or a fixed assured income, or its equivalent, exclusive of tuition, of at least \$10,000.

6. The college must maintain at least seven separate departments or chairs, and in case the pedagogical work of the institution is to be accepted without examination the college must maintain at least eight chairs, one of which shall be devoted exclusively to education or at most to philosophy, including psychology and education. The heads of at least five of these departments shall, in no case, devote less than three-fourths of their class hours to college work.

7. The graduates must in addition to the four-year college course show the completion of a four-year secondary course according to the standards established by the State Board of Education as entrance requirements to the collegiate courses of the institutions under the control of said Board and the standing and character of the institution and the nature of its equipment and work must be such as to entitle its graduates to admission to the graduate college of the State University of Iowa.

STATE UNIVERSITY OF IOWA, IOWA CITY.

President—THOMAS HUSTON MACBRIDE, Ph. D., LL. D.

Secretary—WILLIAM HERBERT BATES.

Financial Agent—WILLIAM JUDD McCHESNEY.

Registrar and Examiner—HERBERT CLIFFORD DORCAS, M. A.

Superintendent of Grounds and Buildings—JOHN MEEKER FISK, B. S. in E. E.

The State University of Iowa was established by the First General Assembly on February 25, 1847, in pursuance of a provision of the Consti-

tution of 1846. The institution was not actually opened until March, 1855. By the Constitution of 1857 the University was permanently established at Iowa City, "without branch at any other place." The organization of the various colleges has proceeded from 1855 until the present time.

The University is an integral part of the public school system of the state. The work of the University is based upon the preparation afforded by the duly accredited high schools of the state whose students are admitted to the undergraduate and professional colleges upon presentation of the proper certificate, except in the colleges of medicine and law, which require two years of college work in preparation.

The State through the University undertakes to furnish instruction in the various branches requisite for an education in liberal arts, law, medicine, dentistry, pharmacy, engineering, and various other branches. It also aims to encourage research work in all departments.

The University is organized and administered through the following colleges and schools: the Graduate College; the College of Liberal Arts; the College of Law; the College of Medicine; the College of Homeopathic Medicine; the College of Dentistry; the College of Applied Science; the College of Education; the School of Commerce; two Schools for Nurses; the School of Music; the Summer Session including the Iowa Lakeside Laboratory at Lake Okoboji; the School for Library Training; and the Summer Camp for Girls at Lake Okoboji; the Extension Division, including the several subordinate bureaus. A brief statement of the work of some of these follows:

The Graduate College, established in 1900, unites the facilities of all the other colleges of the University for advanced study and research. Graduate courses are offered in about thirty branches of study. A large equipment is provided for research. The courses lead to the degrees of M. A., M. S., and Ph. D.

The College of Liberal Arts, the oldest of the colleges, is the center around which the University has grown. It offers at present more than 300 courses in the arts and sciences. Nearly all of its courses are elective under certain regulations. Combined courses in connection with the Colleges of Medicine, Law, Dentistry, and Applied Science, permit the completion of liberal and professional degrees, with a saving of time. The regular four-years course of the College leads to the degree of B. A.; B. S. is conferred in connection with professional degrees. The College also includes the School of Commerce, established by the State Board of Education on September 15, 1914.

The College of Law, established in 1868, offers a course of three years leading to the degree of LL. B. The combined course of Liberal Arts and Law leads to the degrees of B. S. and LL. B.

The College of Medicine, established in 1870, offers a course of four years leading to the degree of M. D. The combined course of Liberal Arts and Medicine leads to the degree of B. S. and M. D.

The School for Nurses offers a three years course leading to the certificate of Graduate Nurse. m

The College of Homeopathic Medicine, established in 1876, offers a course of four years leading to the degree of M. D. The combined course of Liberal Arts and Medicine leads to the degree of B. S. and M. D.

The School for Nurses offers a three years course leading to the certificate of Graduate Nurse.

The College of Dentistry, established in 1882, offers a course of three years leading to the degree of D. D. S. The combined course of Liberal Arts and Dentistry leads to the degrees of B. A. and D. D. S.

The College of Pharmacy, established in 1885, embraces a course of two years leading to the degree of Ph. G. and a course of three years leading to the degree of Ph. C.

The College of Education, established in 1913, combines the various faculties of the University for training teachers with special reference to administrative positions, and leads to the Certificate in Education.

The Summer Session is ten weeks in length comprising two periods, one of six weeks and the other of four weeks. It is a session of the Graduate College and the Colleges of Liberal Arts, Education, and Applied Science. Courses are offered in about thirty departments.

The Iowa Lakeside Laboratory at Lake Okoboji is intimately connected with the Summer Session.

The Summer School for Library Training is maintained during the Summer Session by the University aided by the Iowa State Library Commission.

The Summer Camp for Young Women and Girls at Lakeside Laboratory follows the first session of the Lakeside Laboratory.

The Extension Division has as its function the bearing of the University's facilities to the people of the State. Its activities are mainly exercised along the following lines: Public administration; municipal information; social welfare; business administration; accounting, debating and public speaking; clinical psychology; educational service; child welfare; lectures, and package library service.

The University occupies a campus of upwards of fifty acres and between thirty or forty modern buildings, a considerable number of which are new and of Bedford stone. Old Capitol, the first state house of Iowa, is the University's administration building. The entire physical plant is estimated as being worth upwards of \$3,500,000.

The total number of officers of instruction and administration in Octo-

ber, 1915, was 275; the total number of students for 1914-15: Men, 1,935; women, 1,661; total, 2,996.

Semesters open September 20, 1915, and February 7, 1916. New students may enter at the opening of either semester.

For catalogue and information letters should be addressed to The Registrar, Iowa City, Iowa.

IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS, AMES.

Under control of the State Board of Education.

OFFICERS OF THE COLLEGE.

President—RAYMOND A. PEARSON.

Vice-President and Secretary—EDGAR W. STANTON.

Treasurer—HERMAN KNAPP.

This institution was established by the Iowa legislature in 1858, and endowed by the National Land Grant Act of Congress in 1862. In accepting the grant of the National Government the Iowa General Assembly defined the object of the college as follows: "There shall be adopted and taught in the State Agricultural College, a broad, liberal and practical course of study, in which the leading branches of learning shall relate to agriculture and the mechanic arts, and which shall also embrace such other branches of learning as will most practically and liberally educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics."

SCOPE.

I. GRADUATE COURSES.

Graduate Courses in Agriculture:

Graduate work in Agricultural Education, Agricultural Engineering, Animal Husbandry, Dairying, Farm Crops, Forestry, Horticulture, Poultry Husbandry, and Soils, based upon a Baccalaureate degree in Agriculture, and leading to the degree of M. S. A.

Graduate Courses in Engineering:

Graduate work in Agricultural Engineering, Ceramics, Civil Engineering, Electrical Engineering, Mechanical Engineering, and Mining Engineering, based upon a Baccalaureate degree of Engineering, and leading to the degree of A. E., C. E., E. E., M. E., or E. M.

Graduate Course in Home Economics:

Graduate work in Home Economics, based upon a Baccalaureate degree in Home Economics, and leading to the degree, M. S.

Graduate Course in Industrial Science:

Work based upon a Baccalaureate degree and leading to the degree of M. S.

Graduate Course in Veterinary Medicine:

Graduate work in Veterinary Medicine, based upon a Baccalaureate degree in Veterinary Medicine and leading to the degree, M. S.

Professional Work in Engineering:

Work in Engineering, based upon a Baccalaureate degree in Engineering, five years of successful professional work, with a thesis, and leading to the degree of A. E., C. E., E. E., M. E., or E. M.

II. UNDERGRADUATE COURSES.

(Based on fifteen units from an accredited High School.)

Division of Agriculture:

Agricultural Education—a four-year course leading to the degree of B. S. (Ag. Ed.)

Agricultural Engineering—(See joint courses.)

Agriculture—A two-year course, on the completion of which the student is granted a certificate.

Agronomy—A four-year course leading to the degree of B. S. (Agn.)

Animal Husbandry—A four-year course leading to the degree of B. S. (A. H.)

Dairying—A four-year course leading to the degree of B. S. (Dairying.)

Forestry—A four-year and five-year course leading to the degree of B. S. (Forestry.)

Horticulture—A four-year course leading to the degree of B. S. (Hort.)

Division of Engineering:

Agricultural Engineering—(See joint courses.)

Ceramics—A four-year course leading to the degree of B. S. (Cer.)

Chemical Engineering—A four-year course leading to the degree of B. S. (Chem. Eng.)

Civil Engineering—A four and five-year course leading to the degree of B. S. (C. E.)

Electrical Engineering—A four and five-year course leading to the degree of B. S. (E. E.)

Mechanical Engineering—A four and five-year course leading to the degree of B. S. (M. E.)

Mining Engineering—A four and five-year course leading to the degree of B. S. (E. M.)

Structure Design—A four-year course leading to the degree of B. S. (Str. Design.)

Division of Home Economics:

Home Economics—A four-year course leading to the degree of B. S. (H. Econ.)

Division of Industrial Science:

Industrial Science—A four-year course leading to the degree of B. S.

Division of Veterinary Medicine:

Veterinary Medicine—A four-year course leading to the degree of D. V. M.

Joint Courses:

Agricultural Engineering—A four-year course and a five-year course leading to the degree of B. S. in Agricultural Engineering (administered jointly by the Dean of Agriculture and the Dean of Engineering).

Science and Agriculture:

A five-year course leading to the degree of B. S. and to the degree of B. S. in Agri. (administered jointly by the Dean of Science and the Dean of Agriculture).

Science and Engineering:

A five-year course leading to the degree of B. S. and to the degree of B. S. in Engineering (administered jointly by the Dean of Science and the Dean of Engineering).

Science and Home Economics:

A five-year course leading to the degree of B. S. and to the degree of B. S. in Home Economics (administered jointly by the Dean of Science and the Dean of Home Economics).

Science and Veterinary Medicine:

A six-year course leading to the degree of B. S. and the degree of D. V. M. (administered jointly by the Dean of Science and the Dean of Veterinary Medicine).

III. RESIDENT SHORT COURSES.

Agriculture:

Two-year course in Agriculture.

One-year course in Dairying.

(Two practical courses, requiring attendance during the full college year of thirty-six weeks.)

Engineering:

- Two-year course for Electrical Workers and Stationary Engineers.
- Two-year course for Mechanical Draftsmen and Mechanics.
- Two-year course for Structural Draftsmen and Building Superintendents.
- Two-year course for Surveyors and Road Makers.
- (Four practical courses, requiring attendance during the full college year of thirty-six weeks.)

Home Economics:

- Two-year course in Home Economics.
- (A practical course, requiring attendance during the full college year of thirty-six weeks.)

IV. WINTER SHORT COURSES.

(January 31st to February 5th.)

Agriculture:

- Agronomy.
- Animal Husbandry.
- Horticulture (with lectures on soils).
- Veterinary Medicine.
- Botany.
- Agricultural Engineering.
- Poultry Husbandry.
- Dairying.
- Buttermaking.
- Farm Dairying.

Engineering:

- Vocational Work.
- Clay Working.
- Uses of Cement.
- Road Making.
- Drainage.
- Power Plants.
- Steam and Gas Tractors.
- Applications of Electricity.

Home Economics:

- Practical lessons in household problems.

Veterinary Medicine:

- Course for practitioners.

V. SUMMER SCHOOL.

A six weeks' Summer Session, offering courses in Agricultural Education, Agricultural Engineering, Animal Husbandry, Dairying, Farm Crops, Home Economics, Horticulture, Mechanical Engineering, Poultry, and Soils and subjects related thereto, such as Bacteriology, Botany, Chemistry, Applied Economics and Social Science, English, History, Literature, Mathematics, Physics, Psychology, etc.

VI. EXTENSION DEPARTMENTS.

Agricultural Extension Department:

Through the farmers' institute work, short courses, county fair work and other activities, this department reaches the farmers in every county of the State. It takes the results of the experiment station investigations to the people. Through its many avenues of work, it annually reaches several hundred thousand people. The members of the instructional staff are people with excellent training and a wide range of experience in their work. Some of the activities of the department are: Farmers' institutes; short courses; horse, colt, corn, small grain, domestic science, domestic art, poultry, fruit, vegetable, dairy and truck gardening shows; county fair work; picnics and farmers' meetings; agricultural and home making clubs; boys' and girls' club work; county station work; cow test associations; county organization for agricultural advisers; hog cholera work; aid to public and high school teachers in agriculture and home economics; and sub-collegiate correspondence courses in agriculture, home economics, and manual training.

Engineering Extension Department:

As a department of the general extension work, engineering extension is coördinate with agricultural extension and bears the same relation to the Division of Engineering that agricultural extension does to the Division of Agriculture. The field of work covered by the department includes two-year vocational courses at Ames, correspondence study courses, extension classes in industrial centers, technical lectures, courses for night schools and industrial schools, manual training for rural teachers, technical institutes, trade courses, bureau of engineering service, and publishing bulletins.

VII. AGRICULTURAL EXPERIMENT STATION.

Investigation carried on under the Hatch and Adams acts, also under the Laws of Iowa.

VIII. ENGINEERING EXPERIMENT STATION.

Investigations in Engineering carried on under the State law by a trained force of engineers. Problems in road making receive special attention.

IX. VETERINARY RESEARCH.

Investigations in diseases of animals supported by special appropriation made by the legislature.

Tuition is free to students of Iowa. For additional information address,

RAYMOND A. PEARSON,

President.

Ames.

IOWA STATE TEACHERS' COLLEGE—CEDAR FALLS.

Controlled by the State Board of Education.

ADMINISTRATIVE OFFICERS.

Postoffice Address—Cedar Falls.

HOMER H. SEERLEY, *President.*

HAZEL E. BROWN, *Secretary.*

HOMER N. SILLIMAN, *Treasurer.*

JAMES E. ROBINSON, *Superintendent of Buildings and Grounds.*

CHAUNCEY P. COLEGROVE, *Director of Extension Service.*

CHARLES S. CORY, *Registrar and Examiner.*

MRS. MARION M. WALKER, *Dean of Women.*

ANNE STUART DUNCAN, *Librarian.*

MRS. ANNIE M. POTTER, *Hospital Matron.*

HELEN BROEKSMIT, *Superintendent of Dormitory.*

Correspondence intended for Heads of Departments should be so addressed and sent in care of the Iowa State Teachers' College.

THE COLLEGE YEAR.

Four terms of twelve weeks, each beginning as follows:

Fall Term, September 15, 1915.

Winter Term, December 8, 1915.

Spring Term, March 15, 1916.

Summer Term, June 7, 1916.

Complete information, such as catalog, program and other printed matter, obtained by sending to the President.

IOWA COLLEGE FOR THE BLIND—VINTON.

Under the Control of the State Board of Education.

Superintendent—GEO. D. EATON.

Physician—J. E. LUCKEY, M. D.

Visiting Ophthalmic Surgeon—LEE WALLACE DEAN, M. D.

Steward—CLARENCE P. MOON.

The aim and purpose of this institution is purely educational. The literary work covers a period of thirteen years and is outlined similar to the work done in the public school, having a fully accredited high school. The department of music is supplied with a number of pianos, one pipe organ, and a number of stringed instruments. All students who have any talent in music are given a thorough course in this department. All students are required to do work in the industrial department. The girls are taught knitting, crocheting, fancy-work, hand and machine sewing, and domestic science. The boys are taught netting, weaving, broom-making, cane seating, manual training and piano tuning. These advantages are free to all blind children of school age and those who have vision so defective as to prevent them from attending the public schools, providing they are mentally normal. The school year begins the first Wednesday in September and closes the last week in May. For further information address the Superintendent.

ACCREDITED SCHOOLS IN IOWA.

The following schools have been accredited under authority of the State Board of Education. It is recommended that graduates of these schools be received in higher institutions of learning without examination, so far as credits duly certified meet the entrance requirements of courses to which admission is sought.

P. E. McCLENAHAN,

Inspector of Secondary Schools.

IOWA INDUSTRIAL SCHOOL FOR GIRLS.

The Iowa Industrial School for Girls is situated at Mitchellville, Iowa, one-half mile from the village of Mitchellville and eighteen miles southeast of Des Moines, connected with the latter city by interurban train.

Girls ranging in ages from eight to eighteen, are committed by the court to remain until twenty-one years of age under the control of the State unless discharged for good conduct. A girl upon entering is placed in the hospital for fourteen days; she is then assigned to some one of the five cottages.

In each cottage there are three ladies, that is, a cottage manager, or mother; a kitchen manager; and a teacher whose duties are to carefully look after, guide and guard each girl. There is a kitchen and dining room in each cottage and the ladies and girls of that cottage constitute a family. The meals are prepared and served and the sewing and mending are done in each family. The girls are all taught house-keeping and homemaking.

There is a domestic science department where a young lady, a college graduate, teaches the science of cooking and sewing to a class of twenty-four girls; twelve in the morning and twelve in the afternoon class.

There is a sewing department where girls are taught to make their own underwear, house and afternoon dresses. Also the suits, jackets and skirts, for girls who are ready to leave the school on parole.

There is a laundry school where girls under a competent teacher are taught laundering.

There is a graded school where girls attend school one-half day each. All grades are taught as far as the high school. There is also a chapel where services are conducted each Sunday; also entertainments held during the week.

An orchestra, composed of eighteen girls instructed by a competent lady orchestra leader, furnishes music for Sunday services and entertainments for the school.

Vocal music and Folk-lore games and dances are also taught under the supervision of a graduate teacher of Folk-lore. All girls are instructed in fancy work; embroidering, crocheting, tatting, etc.

The girls do all the gardening, transplanting plants, weeding and harvesting the garden products and small fruits. They also care for and raise chickens and ducks. The lawns and flower beds are the work of the girls. Each girl has a flower bed of her own and a prize is given in the month of September for the one having the best kept lawn and flower beds.

Everything is done from the day a girl enters the school until she leaves to fit her for a housekeeper and homemaker. When a girl is ready to be paroled, she is turned over to the care of the State Agent, a lady of most excellent judgment, who finds homes and investigates the same, previous to placing a girl. After having placed her in a home, she visits her and has regular reports from the girl and employer.

By good conduct a girl may earn her way out of the school and likewise when out on parole. Good conduct brings a reward by an honorable discharge. Six months good time counts three months off for her.

At present there are one hundred and fifty girls in the school, and seventy-five girls in outside homes.

Respectfully,

LUCY M. SICKELS, Supt.

SOLDIERS' ORPHANS' HOME, DAVENPORT.

Superintendent—F. J. SESSIONS.

Principal of Schools—L. W. PIKE.

SPECIAL TEACHERS.

MRS. IDA R. CULBERTSON, *Teacher of Vocal Music*.

MRS. MARY D. RUNKLE, *Teacher of Sewing*.

MR. L. W. PIKE, *Teacher of Band*.

The institution is under the management of the Board of Control of State Institutions. There has been recently completed a new primary school which takes the pupils from kindergarten through the first grade. The grade school provides for the other eight grades and the first year in high school. In all, there are sixteen teachers employed. The institutional population numbers nearly six hundred; most of the children are of school age. The course of instruction is of high standard.

All things needed for the comfort and health of the children are provided by the institution. Children are given thorough training in habits of industry, in doing the necessary work of manufacturing clothing and caring for the different interests of the institution.

There is an excellent library of juvenile literature which is used freely and to great advantage.

INSTITUTION FOR FEEBLE-MINDED CHILDREN, GLENWOOD.

Superintendent, GEO. MOGRIDGE, M. D.

Under management of the Board of Control of State Institutions.

The purpose of the institution is to provide special methods of training for that class of children deficient in mind, or marked with such peculiarities as to deprive them of the school benefits and privileges provided for children with normal faculties. Such methods of discipline and training are adopted as will tend to make each child as nearly self-supporting as practicable, and to approach as near as possible the movements or actions of normal people. It further aims to provide a home for those who are not susceptible of mental culture, relying wholly upon others to supply their wants. Although children of this department are classified as non-improvables—possessing only a low degree

of mentality—facilities are provided for such training as may tend to correct their habits and develop an interest in their own welfare.

In the School Department lessons are imparted in the elements of instruction taught in common schools as well as industries suited to their capacities. Girls learn plain and fancy sewing and household work, while the boys are detailed to work on the farm, in the garden, in the shoe-shop, carpenter shop, and to assist in the various departments of the institution.

The law provides for admission between the ages of five and forty-six years. Applicants may be admitted at any time during the year. By request a blank Application for Admission will be mailed to any address, which may be filled out by the parents, guardians, county board of supervisors or county attorney, and returned to the Superintendent, who, by the direction of the Board, passes upon the eligibility of the applicant, and notifies the correspondent accordingly.

SCHOOL FOR THE DEAF, COUNCIL BLUFFS.

Superintendent—HENRY W. ROTHERT.

Under management of the Board of Control of State Institutions.

This institution is not a hospital, an asylum, or place of refuge, but a school, a part of the public school system of the state. Admissions are free at any time to all Iowa deaf children of suitable age and capacity as well as to such who are too deaf to secure an education elsewhere. There is no charge for board, tuition or books; parents only provide for transportation and furnish the necessary clothing and in cases where parents are unable to meet these expenditures the Superintendent is authorized by law to provide same and charge to the county from whence the pupil hails.

The school opens the first Wednesday after the second Monday in September and continues uninterruptedly for nine months.

Correspondence is solicited by the Superintendent.

GENERAL STATISTICS.

A Territory, July 4, 1838, population.....	22,357
A State, December 28, 1846, population.....	95,558
Population 1910, Federal Census	2,224,771
Population of the United States, 1910.....	91,792,260
School age, five to twenty-one, enumeration 1915.....	678,192
Total enrollment, 1915	522,423
Total average attendance, 1915.....	391,132
