ACCREDITED COLLEGES

Standards for Accrediting Colleges for Teachers' Certificates in Accordance with Sections 2634-f, 2634-fl, and 2634-g, Supplement to the Code of 1913.

1. The number of class hours for the heads of departments and students shall not exceed twenty a week.

2. A faculty properly qualified shall consist of persons who have taken a master's degree in course in a recognized graduate school or have pursued graduate work in residence at least two years.

3. The library shall consist of at least seventy-five hundred volumes selected with reference to college subjects and exclusive of public documents.

4. The laboratory equipment shall be adequate for doing work in a scientific way in the courses announced in the catalog in botany, zoology, chemistry, physics, home economics and agriculture.

5. The means of support is defined as requiring a permanent endowment of not less than \$200,000 or a fixed assured income or its equivalent, exclusive of tuition, of at least \$10,000.

6. The college must maintain at least seven separate departments or chairs, and in case the pedagogical work of the institution is to be accepted without examination the college must maintain at least eight chairs, one of which shall be devoted exclusively to education or at most to philosophy, including psychology and education. The heads of at least five of these departments shall in no case devote less than three-fourths of their class hours to college work.

7. The graduates must in addition to the four year college course show the completion of a four year high school course according to the standards adopted by the Department of Public Instruction for an approved high school. The standing and character of the institution and the nature of its equipment and work must be such as to entitle its graduates to admission to the graduate college of the State University of Iowa.

STATE UNIVERSITY OF IOWA

Walter Albert Jessup, Ph.D., LL.D..	President
William Herbert Bates.....	Secretary
Herbert Clifford Dorcas, M. A.....	Registrar

The State University of Iowa was established by the First General Assembly on February 25, 1847, in pursuance of a provision of the Constitution in 1846, but not actually opened until March, 1855. By the Constitution in 1857, the University was permanently established at Iowa City, "without branch at any other place."

The University is organized and administered through the following colleges and schools: The Graduate College, the College of Liberal Arts, the College of Law, the College of Medicine, the College of Dentistry, the College of Pharmacy, the College of Applied Science, the College of Education, the College of Commerce, the School of Public Health Nursing, the School of Music, the Summer Session, the Iowa Child Welfare Research Station, the Extension Division, and the Division of Maternity and Infant Hygiene.

IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS, AMES

Herman Knapp President
Edward M. Effler Secretary and Auditor

This institution was established by the Iowa legislature in 1858, and endowed by the National Land Grant Act of Congress in 1862. In accepting the grant of the national government the Iowa General Assembly defined the object of the College as follows: "There shall be adopted and taught in the State Agricultural College, a broad, liberal and practical course of study, in which the leading branches of learning shall relate to agriculture and the mechanic arts, and which shall also embrace such other branches of learning as will most practically and liberally educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics."

Work is conducted along five major lines, namely: Agriculture, engineering, home economics, industrial science, veterinary medicine.

Graduate work, collegiate work, and investigations are conducted along each of these major lines. Degrees are awarded upon completion of four-year courses, five-year courses, six-year courses, and graduate study.

IOWA STATE TEACHERS COLLEGE, CEDAR FALLS, IOWA

Homer H. Seerley President
Charles S. Cory Registrar and Examiner
Anna R. Wild Executive Secretary

The Iowa State Normal School was established at Cedar Falls in 1876. The 33d General Assembly changed the name to Iowa State Teachers' College. It offers a great variety of courses leading to the degree of Bachelor of Arts in Education, preparing teachers for the widest field of usefulness in the public schools and various diploma courses for specialization in all grades of public school work.

For catalogue and other information address The Registrar, Cedar Falls, Iowa.

IOWA SCHOOL FOR THE DEAF, COUNCIL BLUFFS

Dr. O. L. McIntire.....Superintendent

A free school for Iowa deaf children of suitable age and capacity, as well as those who are too deaf to secure an education elsewhere. There is no charge for board, tuition or books; parents provide for transportation and furnish the necessary clothing, and in cases where they are unable to meet these expenditures the superintendent is authorized by law to provide same and charge to the county from whence the pupil comes.

Correspondence is solicited by the superintendent.—Dr O. L. McIntire.

IOWA COLLEGE FOR THE BLIND, VINTON

Francis Eber Palmer.....Superintendent

J. E. Luckey, M. D.....Physician

Dr. C. S. O'Brien Dean, M. D.....

.....Visiting Ophthalmic Surgeon

The aim and purpose of this institution is purely educational. The literary work covers a period of thirteen years, in outline similar to that of the public school, being a fully accredited high school. The department of music is supplied with a number of pianos, pipe organ and a number of stringed instruments. All students who have any talent in music are given a thorough course of training in this department.

All students are required to do work in the industrial department. The girls are taught knitting, crocheting, fancy-work, hand and machine sewing, plain and art weaving and domestic science. The boys are taught netting, weaving, broom making, basket making, cane seating, manual training, plain and art weaving, and piano tuning. Both are taught typewriting and dictaphone operation.

These advantages are free to all blind children of school age. Those who have vision so defective as to prevent them from attending the public schools are also admitted providing they are mentally normal.

IOWA TRAINING SCHOOL FOR BOYS, ELDORA

O. S. Von Krog.....Superintendent

This school is situated on a farm of eight hundred and seventy acres, within the city limits of Eldora, Hardin county. The training school is one of Iowa's worthy educational institutions. It is a school of learning and discipline where unfortunate and wayward boys are brought under the influence of competent and experienced teachers and instructors, and are taught by example, as well as precept, the better ways of life.

After-care for boys leaving the training school was provided for by the legislature of 1907. The state agents look into the early surroundings of each boy and supply valuable information for their care. When they are graduated they secure suitable employment, usually at the trade for which they were trained in school, arrange for their schooling and in general are friends to them, ready to help them solve their problems and adjust their difficulties.

By actual count, 80 per cent of the boys conduct themselves satisfactorily after leaving the school.

IOWA TRAINING SCHOOL FOR GIRLS, MITCHELLVILLE

Ray M. Hanchett.....Superintendent

The Iowa Training School for Girls is located at Mitchellville, eighteen miles north and east of Des Moines.

The institution is on the cottage or family plan. There are six cottages for girls, one cottage for the superintendent, a hospital and industrial building, a chapel and school building, power house, barns, implement house, laundry, etc.

Girls who come here in poor health, anemic and run down, soon build up and take on flesh and become plump and rosy. Much of this is due to the good mineral water which the two deep wells furnish; the pure, fresh

air, the regular habits of sleeping and eating; also to the good milk supplied by the twenty-four Holstein cows, which the girls help to milk, and which we use without stint.

IOWA SOLDIERS ORPHANS' HOME, DAVENPORT

R. E. Zerwekhs.....Superintendent
Ella Wetzel.....Principal of Schools

The institution is under the management of the Board of Control of State Institutions. There were 496 children in the home, (August 1, 1925), 425 of whom were enrolled in the grades. The work offered in the school embraces only the first eight grades, but upon graduation a child enters the Davenport public high schools.

INSTITUTE FOR FEEBLE- MINDED CHILDREN, GLENWOOD

George Mogridge, M. D.....Superintendent

The purpose of the institution is to provide special methods of training for that class of children deficient in mind, or marked with such peculiarities as to deprive them of the school benefits and privileges provided for children with normal faculties.

CONSOLIDATED SCHOOLS RE- PORT FOR SCHOOL YEAR 1925-1926

Number of Consolidated schools in operation 387

Annual state aid.....	349

Number of consolidated schools maintaining normal training high schools.....	24
Number of consolidated schools receiving state aid for normal training high schools	24
Number of consolidated schools maintaining Smith-Hughes Vocational Agriculture	55

STATE TEACHERS PLACEMENT BUREAU

This Bureau was established by the Iowa State Legislature as a department in the office of the State Superintendent of Public Instruction and as a Bureau of free service to teachers and school officers in Iowa.

The growing popularity and usefulness of the Bureau is evident from our voluminous correspondence during the past year.

It is the purpose of the Bureau to collect, arrange, and preserve information about teachers and School Boards in order that it may become more and more, as time goes on, a source of reliable assistance to both teachers and Boards of Education. The field for such service is large and the success of the enterprise will be greatly promoted by hearty cooperation among all who in any way may be interested in the work which the Bureau has undertaken to do.

Application blanks for enrollment in the Bureau will be sent to teachers upon request. Request cards for teachers will be sent to School Boards and school officers on application. Address State Teachers' Placement Bureau, Department of Public Instruction, State House, Des Moines, Iowa.

VOCATIONAL EDUCATION

The work in vocational education includes educational service in the following enterprises:

1. Agriculture.
2. Home Making.
3. Trades and Industries.
4. Rehabilitation.

Following is statement of the work carried on in each the these branches:

AGRICULTURE

Vocational Agriculture offers a program of work and study that is adapted to the needs of rural pupils and one that will fit the curriculum of the average high school. Directed or supervised practice work is required of all the pupils taking the course in Agriculture. Farm Shop (Manual Training) is offered in the ninth grade. Farm Crop and Animal Husbandry are offered to the tenth and eleventh grade pupils, while Farm Engineering and Management may be offered to the twelfth grade pupils if the enrollment is sufficient to provide for a fourth year of vocational work.

To secure the federal aid that is being reimbursed to the district when the above lines of work are taught, the district employs a man trained especially for the teaching of Vocational Agriculture. The amount of reimbursement is one-half of the salary of the instructor for the time spent on the above mentioned subject. The time varies from two to eight periods every day.

HOME MAKING

The federal and State Boards for Vocational Education provide for Home Making work in Day, Part Time, and Evening Schools.

After making a survey of the Day School situation in Iowa, we feel that the ideal course is one in which two years of work is given. The first year is to be made up of home economics and related science, the second year of home economics and related art.

Vocational Home Making work calls for close cooperation between the school and the home, since part of the work is done with the home as a laboratory, under the supervision of the mother. Home work is required, as is also Home Project work. The project work builds upon the information received in class and requires added information which is secured independently by the pupil. This type of work is designed to meet the needs of girls 14 years of age or over.

Part Time School work is carried on during the regular hours of employment. This type

of work is given in short units and is such as to meet the particular needs of the pupil enrolled. New pupils are continually enrolling and others are dropping out as they reach 16 years of age. This makes a continually changing group whose needs must be known and met by the instructor.

Evening Class work is given during the time of leisure of the pupils enrolled. The course of study is adapted to local conditions and the special needs of the class members. The work is given in short units, making it possible for pupils to enter for the unit or units desired.

Girls today must be familiar with the principles governing healthful living as they relate to herself, the family, and her community.

Because this type of work so well meets the needs of the girls, much more work is being done than can possibly be reimbursed.

TRADES AND INDUSTRIES

Day unit trade, part time and evening classes are at work in the state. Day trade classes for auto mechanics, machinists, sheet metal workers, cabinet makers and mill workers, metal pattern makers, printers and draftsmen are being carried on in a number of cities.

PART TIME TRADE EXTENSION CLASSES. Dull season trade extension classes were conducted for men in the painting, paper hanging and decorating trades.

PART TIME TRADE PREPARATORY AND CONTINUATION SCHOOLS. Sixteen cities have part time schools providing eight hours per week for employed minors between the ages of fourteen and sixteen. This work is of a trade preparatory or general continuation nature.

EVENING CLASSES. Evening classes for workmen desiring to improve in their various trades are conducted in a number of cities.

REHABILITATION—

This State has a special service for the benefit of disabled persons. This Service is

known as Industrial rehabilitation and should not be confused with the care given disabled veterans of the late war. It is not a poor fund but is maintained by federal and state funds appropriated by the Industrial Rehabilitation Act of June, 1920, the provisions of which were accepted by the Iowa State Legislature in March 1921.

Any man or woman who is handicapped in earning a living by a physical defect or infirmity is entitled to its advantages. The Service represents an effort on the part of the State to help unfortunate persons to become independent, by preparing them for positions in which they can work to the best advantage. The Service is free.

It is a specialized personal service which may take one of several forms, all leading to the establishment of the individual in a vocation. It may be:

1. Service leading to physical reconstruction.
2. Service leading to supplying artificial appliances.
3. Service assisting the person to suitable employment.
4. Service providing training for a vocation suited to the person's ability.

In special cases an artificial leg or arm can be supplied but only where it can be shown that it is a definite part of the rehabilitation program. The appliance must be an essential part of the person's equipment in the performance of his work.

Training can be provided either in school or by personal instruction. No general education is offered except which will help the afflicted person to definite employment.

The application of this service is unitary in character, each case being considered and treated in a way to meet individual requirements.

The money provided from federal and state funds cannot be used for living expenses even while the person is taking training, but must be devoted to occupational training.
